DEAD LAWYER'S AIDE CHARGES PLOT TO FIND FAKE M'PHERSON KIDNAPERS

BETS APPEAR LIKELY RESULT OF PRIMARIES

Broussard, Smith, Weller, Means in Close Contests for Nomination; Two Unopposed for Seats

Four United States Senators faced defeat or at best victory by narrow margins in the returns from yesterday's primary elections in their respective States. Senator Broussard of Louisiana, just Democrat, had only a slight lead over his dry Democrat Senator Smith of South Carolina, Democrat, likewise in doubt; Senator Weller of Maryland, Republican, by scant votes behind Representative John Philip Hill, wet, while Senator Means of Colorado was trailing his two opponents in a fight in which the Ku Klux Klan was a leading issue.

News of Ships and Sailings at Pacific Ports

SAN FRANCISCO, Sept. 11.—The steam schooner Charles Brown, owned and operated by H. Liebes & Co. of San Francisco, arrived in port yesterday with a cargo of three forty-foot poles, valuable timber, valued in excess of $100,000. Heavy seas packs prevented the ship from proceeding eastward on a whaling expedition to the Herschel Islands, and the boat left San Pedro Harbor during the latter part of August on the homeward journey.

The Arizonian, one of the large steamships of the American-Hawaiian fleet, brought a one-thousand cargo consisting of 1,000 tons, has been berthed at its pier in San Francisco from this port on October 11 for Honolulu ports to care for the increased freight business of the company. The new sailing will increase the company's fleet to a freighter every five days instead of seven days, as in the past.

The installation of vegetable refrigerating machinery on the steamer Lake Francis has been done under contract with the Balfour Guthrie Steamship Company, Inc., according to Robert Miller, local agent for the company. The work of the ship, announced today, is expected to be completed in the next few days. The $13,615 for the work and the completion of the installation is expected in two days.

According to advices received by the Chamber of Commerce, Capt. Courtney, master of the steamer Fir, died suddenly in his cabin while in command of the Pacific fleet on the last voyage to New York, and his body was taken from that port. He was 70 years of age and for many years in command of the O'Brien sailing fleet out of this port.

TACOMA, Sept. 12.—The British steamer Duke of Argyll, which arrived in Tacoma harbor on Saturday to load lumber for the United Kingdom, left this morning via Portland.

The vessel, flying the Union Jack, was the first deep-sea vessel to enter Tacoma harbor in many months. She was also the largest vessel to enter the harbor in many years.

The vessel, which was compiled from telegraphic replies sent by department stores in response to a request for last-minute information which Mr. Tily and Mr Hahn desired

President Given Retail Survey

Dry Goods Association Heads Report to Coolidge That Business Basis Sound

Administration Gets Credit for Putting Confidence Into Nation's Dealings

PAUL SMITH'S (N. Y.) Sept. 14. (AP)—A report of business conditions as observed by leading retail merchants through the country, presented to President Coolidge today, set forth that "the retail trade feels the strongest confidence in the continuance of good business based upon a prosperity which is shared quite generally by all classes of people."

The report was submitted to Mr. Coolidge by Herbert J. Tily of Philadelphia and Lew Hahn of New York City, president and managing director, respectively, of the National Retail Dry Goods Association, who discussed business conditions with the President at the summer executive offices.

FIRM CONFIDENCE

The survey, which was compiled from telegraphic replies sent by department stores in response to a request for last-minute information which Mr. Tily and Mr Hahn desired

ATTACK ON MUSSOLINI REDS' PLOT

Investigators See Hand of Communists Despite Story of Premier's Assailant

ROME, Sept. 14. (AP)—The authorities today were more firmly convinced than ever that Gino Lucetti's attempt on the life of Premier Mussolini last Saturday was the outcome of a wide plot, backed by Communists and Anarchists, both in Italy and abroad.

Relatively few actual arrests have been made, since concrete information is lacking, but about 350 persons in all have been retained for questioning.

Lucetti still denies that there was a conspiracy, asserting that the bombing was prompted by his personal political faith, but the police say his story cannot be believed in view of the many indications that his intentions were known and approved by notorious Reds.

They have reports from France that Lucetti told an Italian self-exile there that he was certain his attempt would succeed, adding, with a thought to his own probable fate, "Mussolini and I are as good as dead now."

GENEVA, Sept. 14. (AP)—French Foreign Minister Briand is of the opinion that outbursts by the Italian press against France because Gino Lucetti, the assailant of Premier Mussolini, had been in France, will soon cease. Speaking to Italian newspaper men, M. Briand said that when the Italian anarchist Caserio assassinated President Carnot of France in Lyons in 1894, the French nation did not blame all Italy for the deed.

"The only thing both our countries must do," he added, "is to redouble the vigilance of our frontier guards."

SPOKESMAN TOSSES HAT FOR McADOO

George F. Milton Says Presidency to be Sought on Ultra Dry Issue

CHICAGO, Sept. 14. (AP)—William Gibbs McAdoo again will be a candidate for the Democratic Presidential nomination in 1928, a candidacy backed by a faction advocating strict enforcement of the Volstead Act and adoption of farm-relief measures, according to George Fort Milton, editor of the News at Chattanooga, Tenn., whose statement was published in the Daily News today.

Milton was vice-chairman of McAdoo's preconvention committee in 1924 and at present is regarded as his spokesman, the News stated.

Abolition of the two-thirds rule in favor of the unit rule in convention procedure will be another platform of the McAdoo group, Mr. Milton said.

'Beauty Lotion' Death Ascribed to Heart Attack

SAN FRANCISCO, Sept. 14. (AP)—The death here on the 9th inst. of Mrs. Louise Wulbers, 52 years of age, of San Jose, while undergoing a beauty treatment being administered by Dr. Zalick Saltzman of Los Angeles, was caused directly by an acute heart attack, a Coroner's jury decided today.

Contributing causes were found to have been "excitement and shock due to anticipation of treatment; application of a carbolic acid face lotion and a weakened physical condition."

The jury recommended legislation curbing the use of caustic agents by beauty specialists. Dr. Saltzman, who denies he is a beauty surgeon, but says he is a plastic specialist, attended the inquest but did not testify.

Mexico Enters Protest on Mob Deaths in Texas

MEXICO CITY, Sept. 14. (AP)—Manuel Tellez, Ambassador to the United States, has been instructed to protest to the United States government against the asserted killing of Tomas Uunes and his two sons in Raymondsville, Tex. It is asserted that a mob broke into the jail and tortured and shot the Mexicans and beheaded the elder Uunes.

TWO DIE IN GUSHER BLAZE

PORT OF SPAIN (Trinidad) Sept. 14. (AP)—Advices from the oil regions where fire broke out while a new gusher was being brought in say that two men, one of them an American named Beery, head driller, died from burns.

AIR VIKINGS AWAIT GUN

Fonck Ready for Paris Flight

Intention to Start Today on Journey Across Atlantic Halted by Weather

Lieut. Curtin Substituted as Pilot Due to Illness of Lieut. Allan Snody

Capt. Rene Fonck, who expects to set up a new milepost in aviation progress with a nonstop flight from New York to Paris in an airplane, will report the progress of his flight from the plane by radio exclusively for the Los Angeles Times and its fellow-members of the North American Newspaper Alliance. At the conclusion of the journey in Paris, Capt. Fonck will dictate the complete and only official account of the flight, which will be published only in The Times and other members of the Alliance.

Capt. Fonck, in addition to being the best qualified, will be the only one aboard the plane during its trip across the ocean who will describe it, and the story will be published in no other paper in Southern California except The Times.

The flight, if completed, will be history-making, and Capt. Fonck's reports will be of absorbing interest. Watch for them in The Times.

NEW YORK, Sept. 14. (Exclusive) After weeks of preparation, Capt. Rene Fonck is ready to start his attempt to blaze a new aviation trail by flying from New York to Paris in a heavier-than-air machine without stopping.

The first sign of favorable weather conditions for the journey will be the signal for the giant Sikorsky three-motored plane to take-off from here and go zooming on its way across the Atlantic. A prize of $25,000 awaits Capt. Fonck if he makes it, in addition to the honor of being the first to fly from continent to continent in an unbroken hop.

Capt. Fonck announced this afternoon that he would take off early tomorrow morning, but later weather reports showing a storm approaching the Grand Banks caused him to postpone the start.

With the French war ace when the journey is undertaken will go Lieut. Lawrence W. Curtin, U. S. N., as pilot; J. Islenoff, mechanic, and Charles Clavier, radio operator.

Lieut. Curtin was substituted today for Lieut. Allan Snody, who is ill of acute bronchitis at a hospital here. Lieut Snody was pilot of one of the planes forced down in the attempted flight from San Francisco to Hawaii last year.

A final test of the plane was made this afternoon at Roosevelt Field. Capt. Fonck supervised adjustments this morning and worked over the plane until late last night, adjusting the extra gas tanks and the auxiliary landing wheels and tuning up the whole machinery generally.

When the biplane finally soars into the air it will weigh fourteen tons, or 8000 pounds more than it has ever weighed on a previous flight. For this reason the flight officials have had a runway 150 feet wide and a mile long laid out. Down this runway the plane will whirr in its effort to shoot skyward.

Typhus Plague in German Flood Region Spreads

BERLIN, Sept. 14. (AP)—The outbreak of typhus in the city of Hanover is getting worse and there are now 1200 cases under treatment. Many families are fleeing from the city.

Thirty cases have been reported in Magdeburg. The disease broke out after the recent floods.

LARGE COLUMN OF WATER

YELLOWSTONE, Sept. 14. (Exclusive)—A column of water four feet in diameter and 250 feet high is thrown into the air when the Giant geyser of Yellowstone Park erupts. Each eruption lasts more than an hour.

TORIES LOSE CANADIAN ELECTION

Meighan Defeated in Swing to MacKenzie King; Liberals Hope for Majority

TORONTO (Ont.) Sept. 15. (Exclusive)—With the Meighen government decisively beaten and six of its ministers, including Meighen himself, personally defeated, in Tuesday's national elections, Canadians are speculating upon the possibility of Mackenzie King obtaining a Liberal majority over all other parties combined in the next House.

If the Liberals can add to the 106 seats they are known to have won the thirteen former Liberal seats as yet unreported, they will be four short of the coveted majority over all. There are nine fusion candidates also yet to hear from and victories for these would place Mackenzie King beyond reach of any combination of parties in the next House. King himself was easily re-elected.

The party standing on returns received up to 1 a.m. was: Liberals, 106; Conservatives, 63; Progressives, 7; Liberal-Progressives, 11; United Farmers of Alberta, 7; Labor, 3; Independents, 2; doubtfuls, 26.

The most striking feature of the returns was the decisive swing to Liberalism in the former Tory stronghold of Ontario, where thirteen Liberal gains were made. The Liberal victory means vindication at the polls of the customs charges leveled at the former government.

The chief factors contributing to the Liberal triumph were the constitutional issue in which the former Premier questioned the right of the Governor-General to refuse his request for dissolution, together with the Robb tax-reducing budget.

Hon. H. H. Stevens, Conservative Minister of Customs and prime mover behind the customs probe, obtained election in Vancouver, despite Liberal expectations that he would be defeated on account of campaign charges that he had used his position as a member of Parliament to promote worthless oil stocks.

ESTATE OF LINCOLN PUT AT MILLION

Property of President's Son Left to Widow and Two Daughters

WASHINGTON, Sept. 14. (AP)—The estate of Robert Todd Lincoln, son of the President, who died at Manchester, Vt., in July, is valued at $1,125,000, it was revealed today in a petition filed here by Mrs. Mary Lincoln, the widow, seeking letters testamentary and the probate of the will.

The heirs-at-law were given by Mrs. Lincoln as herself and two daughters, Mrs. Mary Lincoln Isham, New York, and Mrs. Jessie Lincoln Johnson.

The Lincoln estate, Hildene, near Manchester, is assessed at $125,000, the petition stated, and Mr. Lincoln's personal estate, consisting of stocks, bonds and cash, is valued at $1,000,000.

Woman Escapes Death Trial as Diplomat's Wife

WASHINGTON, Sept. 14. (AP)—The plea of diplomatic immunity, which is becoming more frequently heard in Washington as a result of traffic accidents, served today to save Mme. Margaret Hume Entesam, wife of the third secretary of the Persian Legation, from being presented to a grand jury as the result of the death of Thomas J. Cadel, 77 years of age, killed here Saturday in an automobile collision.

Mme. Entesma, who, before her marriage was a Washington society girl, was held by a Coroner's jury to be responsible for the accident, in which her automobile collided with that of Cadel.

The report of the Coroner's jury was forwarded to the Commissioners of the District of Columbia. In several instances in the past, the Commissioners have turned cases involving diplomats over to the State Department, which in turn communicated its desires to the government of the diplomat involved.

STORY OF ELIZABETH

Physically, she is almost ideal.

She mixed dolls and Shakespeare.

Her mind is healthy, vivacious, girlish.

"Just a normal little girl raised as a PERSON," says her mother.

She enjoys playing games with children of her own age, or discussing literature with her mother's friends.

MARVEL? OR MERELY TOMORROW'S CHILD?

The story of Elizabeth, the most remarkable child in the world; a former student of Sentous Junior High School, Los Angeles; a prodigy but not a freak, is to be told by her equally remarkable mother exclusively in the Los Angeles Times beginning tomorrow

The most thrilling human document of the year.

DO NOT MISS IT!

GIRL SAYS PASTOR HELPED IN HOAX TO LOCATE 'LOST' SHACK

Attorney's Employee Asserts Evangelist Identified as Kidnaper Voice of Man She Never Met and Verified Incident That Never Happened

(Copyright, 1926, by The Los Angeles Times)

Confession was made last night to Dist.-Atty. Keyes of another plot to manufacture evidence in the supposed kidnaping of Aimee Semple McPherson, when Miss Bernice Morris, secretary of R. A. McKinley, blind attorney, told Mr. Keyes that she had been dealing with Mrs. McPherson about carrying on a plan to produce mythical kidnapers and find a desert shack that would fit the requirements of Mrs. McPherson's story of her kidnaping. Miss Morris was familiar with much of the kidnaping story by reason of her association with Mr. McKinley. He publicly declared he had been approached during Mrs. McPherson's disappearance by two men who said they were kidnapers of the evangelist and were holding her for ransom. It was through this phase of the case that the attorney and, later, Miss Morris became acquainted with the Angelus Temple leaders.

The complete admission of her own part in the case was made by Miss Morris at a midnight conference, at which she declared Mrs. McPherson supplied suggestions and assisted her in the plan. Following is Miss Morris's own signed story, a repetition of the principal points of her admission to Mr. Keyes:

BY BERNICE MORRIS

Realizing the great importance of the present investigation to the public I have decided that my duty was to tell all the facts I knew that I might assist the authorities in the Aimee Semple McPherson investigation. On advice of Attorney S. S. Hahn and Los Angeles Times investigators I voluntarily appeared before Dist.-Atty. Keyes and told him the following facts:

Mrs. Aimee Semple McPherson identified the photographs and voice of a man she had never seen before as one of the so-called kidnapers and later verified an incident of her captivity which never happened and was related to her merely for the purpose of testing how sincere she was in her assertions that she was kidnaped and wanted to find the men who kidnaped her.

These facts, and many other details of the transactions between us, I told Dist.-Atty. Keyes tonight following his request that in the interests of justice I relate to him everything that transpired between Mrs. McPherson and Mrs. Minnie Kennedy, her mother, and myself personally.

I know that the man and the voice she identified had nothing to do with her case because he was the man produced by my employer merely for the sake of seeing just what Mrs. McPherson wanted when she began negotiations for the location of the kidnapers.

I went into Mr. Keyes's office and told him I was ready to tell him everything he wanted to know about the McPherson case and that I would answer any questions he wished to propound.

He wanted to know what dealings I had had with Mrs. McPherson and how much money I had received from her, I told him that I had never received any money from Mrs. McPherson but that Mrs. Kennedy had given me money for transportation the first night I had gone to the temple at their request.

Mrs. McPherson told me that she would give anything if these men through me could produce the facts that would prove to the public the truth of her story. She said nothing about prosecuting. She said that Mr. Keyes could not prosecute them without her consent and that she would give them immunity by not signing a complaint. In that way she said the kidnapers would be safe and could through me disclose all they knew for her vindication.

Mrs. McPherson said that if the shack in which she was held the first time was produced I must be sure before it got to the public that it had not been occupied for a long time. That I should not take the word of these men as to the condition of the shack that I, either by myself or in company with Mr. Woolley or with her, should go there and make investigation. That she would hate for them to produce a shack and find out afterwards that a family with ten kids had lived in it during the time that I was gone.

She said the furniture may have been moved but surely that the paper was the same as the paper in the shack where I was.

Mother Kennedy wanted me to bring samples of that paper before anything was made public. Mrs. McPherson said it was the kind of paper you could find anywhere. That it could be bought for about 3 cents a roll, just common paper, kind of smoky like. She said she imagined there would be tin cans around the shack as she had canned food to eat and if Rose said anything to me about boiling any potatoes for her. I told her that I knew nothing about Rose.

The first time I saw Mrs. McPherson was the 26th day of August, 1926, when she came rown to Long Beach to see me. She sent Mr. Woolley's chauffeur up to the office. She asked if I was Bernice Morris and if I would come down and talk to Mrs. McPherson. I told him that I would; then I went downstairs and met Mrs. McPherson at Third and American.

We drove away out on Pacific avenue and stopped the car. Mr. Woolley, Mother Kennedy and Mrs. McPherson and I were in the back seat. Mrs. McPherson said that she knew

DAUGHERTY DEAL HIT

Merton Refund Under Fire

Government Devotes Efforts to Attack on Validity of $7,000,000 Payment

Defense Motion for Dismissal After Rap at Buckner Denied by Court

NEW YORK, Sept. 14. (AP)—The government today temporarily abandoned its attempt to show that Harry M. Daugherty and Thomas W. Miller conspired to defraud the United States and bent its efforts toward proving that the $7,000,000 claim they paid to Richard Merton, German agent of the Societe Suisse, was not valid. Previously, U. S. Atty. Buckner had said he would prove a conspiracy whether the claim was valid or not.

Merton, the government's key witness, was bombarded with questions during the entire day—the fifth he has spent in the witness box—in an attempt by Mr. Buckner to prove that he knew the claims were false. Mr. Buckner also sought to show that Merton was coached by O. R. Williams, first assistant to Miller as Alien Property Custodian, to construct his claims in a manner that would conceal facts that would have prohibited refund of the $7,000,000 of American Metal Company shares seized under the Trading-With-the-Enemy Act.

SPECIFIC CHARGE

The specific charge on which Daugherty and Miller are on trial is "conspiring to defraud the United States of their unbiased, unprejudiced and honest and intelligent services." Testimony was adduced to show that Merton paid the late John T. King, Republican National Committeeman from Connecticut, fees amounting to $441,000 for "rushing" his claim through the Alien Property Custodian's office and having it passed by Daugherty, then Attorney-General.

Mr. Buckner conducted an exhaustive re-direct examination of Merton on technical phases of the financing of the Societe Suisse and the Swiss Bank and their relations to the two German companies, the Metal Bank and the Metallgesellschaft —of which Merton was a director.

All of the testimony Merton gave today is based upon a cross-examination by counsel for Miller, which, in turn, was made upon evidence admitted under objections by counsel for Daugherty and Miller and which will be stricken from the records unless Buckner gives it a connection with the conspiracy charge and makes it binding upon both defendants.

DAUGHERTY UNMOVED

Daugherty, hunched in his chair, apparently took little interest in the proceedings. Even when his counsel, Max D. Steuer, jumped to his feet and moved that the jury be dismissed because he asserted Buckner had acted in a manner prejudicial to a fair trial, the former Attorney-General sat unmoved. Miller, whose wife has sat near him during the trial, followed the proceedings closely.

The motion to dismiss the jury followed the reading, by Buckner, of a letter Merton wrote John Foster Dulles, New York lawyer, in November, 1920. Waving the letter before the jury, Buckner asserted that the idea of showing an oral transfer of the shares of the American Metal Company to the Société Suisse had originated in information Dulles wrote in reply. Prior to that, Buck-

Lieut. C. L. Ashler resigned effective Sept. 15.

Ensign W. E. Brewster to U.S.S. Arizona.

Ensign J. M. Cabeilles to U.S.S. Arizona.

Lieut. H. D. Wallenus to U.S.S. Arizona.

Lieutenant-Commander M. F. Amy to Naval Academy.

Lieut. C. E. Buell to Naval Academy.

Lieutenant-Commander R. S. Crane to San Diego.

Lieutenant-Commander R. S. Crane to Naval Academy.

Lieut. W. S. Sargent to San Diego.

Lieut. J. W. Paige to navy yard, Puget Sound.

Lieut. R. A. Theobald to U.S.S. Pruitt.

Chief Boatswain G. R. Whitney to U.S.S. Pruitt.

Chief Boatswain I. K. Hershey to U.S.S. Bobolink.

Radio Electrician D. L. Nelson to Naval Academy.

Chief Carpenter Harold Miller to home.

TWELVE YEARS OF CANAL OPERATION

The Panama Canal completed twelve years of operation on the 15th inst. of business on August 14, 1914, having been opened to commerce on August 15, 1914. During the twelve years of operation, 23,500 ocean vessels have transited the canal, which tolls aggregating $34,784,58 have been collected. Approximately 70 per cent of the total transits, and 76 per cent of the total tolls collection have occurred during the past six years of operation, since the change.

MEXICAN TROOPS READY TO SUBDUE REBEL YAQUIS

Mass Operations Planned Against Indians as Result of Attack on Gen. Obregon's Train

MEXICO CITY, Sept. 14. (Exclusive)—Military operations on a major scale will be opened by the government against the rebellious Yaquis unless they submit unconditionally to the authorities, it was announced today. The announcement came as a quick aftermath to the attack by the Indians on the train bearing former President Obregon and his party through the State of Sonora. The train was besieged for fifteen hours by the Yaquis but they fled when Federal troops arrived.

Dispatches from various border points, where troops presumably are being massed for the first blow at the Yaquis, indicate that an army of 10,000 men may be used in subduing the warlike and restless Indians. It is felt by government authorities here, however, that the attack on Obregon's train was due to a misunderstanding on the part of the leaders of the Indians.

WARLIKE ATTITUDE

The dispatches from the border add that the Yaquis have been assuming a threatening attitude for some time and that the government has determined to subjugate them completely.

Three military trains have been moved to Vican, in the heart of the Yaqui country, where the attack on the Obregon train occurred, according to the dispatches. It also is reported that Obregon personally has taken over the command of the troops against his former faithful allies, who served as his chief support throughout his revolutionary career.

Telegraph communication throughout the Yaqui country has been disrupted, the Indians cutting the wires. This fact serves to explain the receipt of the news of the attack on Obregon's train twenty-four hours after it occurred. A freight train which left Nogales for the south Sunday also has been derailed by the Yaquis.

In semiofficial circles here it was stated today that agitation against the government has been carried on among the Yaquis for some time by enemies of the present administration operating from the United States.

USED PRETEXT

Charges of mistreatment of the Yaquis, it was stated here, are being used merely as a pretext for a revolutionary conspiracy against President Calles, which has been brewing since Gen. Enrique Estrada failed in his attempt to invade Lower California from the United States because of the prompt and effective work of the American authorities.

Special significance is given the Yaqui revolt in view of the fact that Adolfo De La Huerta, who is known to be plotting the overthrow of the government, always has been friendly with the tribesmen.

The official report of the attack on Obregon's train says that a force of 1000 Indians surrounded the train from 11 a.m. Sunday until 9 p.m. Monday, when Federal troops arrived. Obregon had left Hermosillo Saturday for his headquarters at Cajeme.

According to reports received from Gen. Francisco R. Manzo, military commander of Sonora, and Gov. Alejo Bay of the State, Gen. Obregon left Hermosillo just as Juan Rivera, secretary of the Yaqui chieftain, Luis Matu, arrived to transact business with Gov. Bay. For some reason not explained, Gen. Manzo furnished Gen. Obregon with an escort of 150 men, though he usually travels without an escort. When the train arrived at Vicam, Matu was waiting for the return of Rivera, and learning he was not on board decided some ill had befallen him and that this was the reason for Gen. Obregon's guard. He refused to allow the train to proceed.

AID REQUESTED

Gen. Obregon took personal charge of the situation and by a ruse communicated with Gen. Manzo by telegraph, asking for aid. Meanwhile barricades and fortifications were erected as the Indian cordon drew closer, awaiting word from Matu to attack. It does not appear from the official report there were actual hostilities, though other reports say Gen. Obregon fought a stubborn battle during the night. One troop train sent to his relief, the report says, was derailed and two soldiers were killed.

Chief Matu has from 7000 to 8000 warriors in his command. It was declared at the War Office that orders had been issued for the extermination of this band.

The renewal of Yaqui hostilities, after a year's armistice, is blamed here on Adolfo De La Huerta, who furnished them with money and arms while he was Governor of Sonora, in an effort to conciliate them.

Lately, it was said, some 3000 Yaquis in the Sonora Sierra Madre range have increased their demands, asking 60,000 to 70,000 pesos a month. The government, it was declared, has determined how to employ its entire military strength against the Yaquis, who had "been given their chance to live in peace and tranquility but have optioned otherwise."

SEARCH FOR KIDNAPED AMERICAN UNAVAILING

MEXICO CITY, Sept. 14. (Exclusive)—Jack Rosenthal, wealthy New Yorker who was kidpaned Sunday afternoon from Cuernavaca road, is still a prisoner of bandits somewhere in the mountains between here and Cuernavaca.

Neither official nor private advices received here up to a late hour this afternoon from Cuernavaca or villages along the automobile road report any success in locating either Rosenthal or his kidnapers.

Troops sent out from Cuernavaca spent all day yesterday and today combing the mountains but without success. Secret service men from this city, accompanied by Jack J. Zahler, candy manufacturer of the United States, and Joseph Ruff of New York, Rosenthal's son-in-law, likewise returned to report failure. They had spent the better part of both days searching the mountains and villages.

Virtually every resident of the village of Huitzilac, located in the heart of the bandit country, was arrested by the soldiers and secret service agents during the search after they had found a number of rifles among the villagers corresponding in design and caliber with those used by the bandits. The Mayor of the village and other officials were also subjected to a thorough grilling but they all professed to know nothing of the hold-up and kidnaping.

Ruff returned to the scene of the hold-up late this afternoon accompanied by Jose Mascorro, chief of Mexico's secret service, to continue the search. Both Mexico City authorities and those of the State of Morelos are making every effort to find the kidnaped man and although the bandits' trail through the underbrush to the point along the road where the hold-up and kidnaping took place has been discovered, the bandits themselves apparently have vanished into thin air. The country through which the search is in progress is exceptionally rough and the search therefore is doubly difficult.

AL JOLSON'S SCREEN SUIT TRIAL OPENS

Griffith Charges Singer Broke Contract to Make Three Pictures

NEW YORK, Sept. 14. (Exclusive) Trial of the suit for $871,896 brought by D. W. Griffith, Inc., for asserted breach of contract against Al Jolson, comedian, was begun today before Judge Grubb and a jury in Federal Court. Counsel for the plaintiff charged that Jolson went abroad on the eve of the filming of a scenario in which he was the central figure and that he refused to conform to the terms of the contract assertedly extant between the actor and the director's corporation.

Some time before the departure of Jolson for Europe, Nathan Burkan, attorney for Jolson, said a proposed agreement between Jolson and Griffith personally was drafted. This agreement, he said, provided for the production of three pictures, Jolson to receive 25 per cent of the gross income from the first and 33 per cent from the second and third.

"However," Burkan declared, "Jolson did not want to sign that contract. You know he said to me, 'I have no screen personality. You know the fiascos of Fred Stone, Elsie Janis, George M. Cohan and Caruso in the moving-picture world. My task is singing.'"

Mr. Burkan said that because of Jolson's fears in the matter, he spoke to Griffith, who said that he would overcome them by giving Jolson a screen test. The result of this test, the lawyer said, was totally unsatisfactory to Jolson, who remained convinced of his failure as a screen actor.

D. W. Griffith then took the stand and proceeded under direct examination to disagree with Jolson as to the comedian's success as a motion-picture drawing card. He said that not only was the screen test of Jolson "not rotten," but that it was "very good."

The case will be continued tomorrow with Griffith on the stand. Jolson is expected to appear Thursday.

Better Suits Lower Prices

It's a downright, everlasting fact that Stewart can give better made, correct style suits at lower prices than the average tailor. See the new goods at this popular upstairs shop.

Trade Body Hits Veneered Goods Manufacturers

WASHINGTON, Sept. 14. (AP)—Another broadside was touched off today by the Federal Trade Commission in its war against the methods of some manufacturers in advertising and selling veneered furniture.

Twenty-seven firms in Grand Rapids, Mich., many of them doing a nation-wide business, were accused of unfairness in complaints docketed by the commission.

Third Attorney in Race to Fill Bench Vacancy

SAN FRANCISCO, Sept. 14. (AP)—Milton U'Ren, an attorney engaged in practice here, today entered the race for election to the Supreme Court place made vacant by the death of Justice Thomas J. Lennon. U'Ren is the third candidate to enter the others being Joseph McInerny and John W. Preston, local attorneys.

STREET SCENE IN MIDDLE WEST FLOODED AREA

The view below gives an idea of conditions in Middle-Western States where heavy rains have brought floods causing millions of dollars' damage in the past few days, and have taken a dozen lives. This picture was taken in Jacksonville, Ill., one of the worst sufferers. [P. & A. Photo]

FOUR SENATORS IN CLOSE RACE

(Continued from First Page)

District gave Representative Fulmer 3642, and Ernest M. Dupre, 2201.

SENATOR MEANS TAGS WATERMAN IN COLORADO

DENVER (Colo.) Sept. 14. (AP)—With only scattering returns received three hours after the polls in Colorado's biennial election had closed, Charles W. Waterman, supported by C. C. Hamlin, Republican National Committeeman, was leading Senator Rice W. Means, supported by United States Senator Phipps, for the Republican nomination for United States Senator, 2048 to 1456 from sixty-seven precincts. In the Republican gubernatorial race John F. Vivian, supported by Phipps, was leading former Governor Oliver H. Shoup, supported by Hamlin, 2038 to 1662 in seventy-four of 1591 precincts in the State. Carl S. Milliken was third with 567.

In the Democratic Senatorial race former Governor W. E. Sweet was leading Paul Prosser, 866 to 605, while Frank J. Hayes was third with 242 in seventy-six precincts.

State Senator Adams was leading S. W. Johnson 1101 to 518 in the Democratic gubernatorial race in sixty-seven precincts.

NEW YORK VOTERS BACK REPRESENTATIVES

ALBANY (N. Y.) Sept. 14. (AP)—Early returns from today's primary election in New York State indicated that at least three Republican members of Congress won renomination in the face of contests. The victors were Nathan D. Perlman, Fourteenth District, (Manhattan;) Frank Crowther, Thirtieth District; Gale H. Stalker, Thirty-seventh District.

Representative Perlman defeated Bertram Hopper. Frank Crowther defeated E. Watson Bardiner, wet, who sought nomination in both the Republican and Democratic primaries. Representative Stalker, dry, defeated Edwin L. Evans, wet.

There was a Republican overturn in the Thirty-fourth District, where John D. Clarke defeated Harold S. Tolley. Two years ago Tolley defeated Clarke for renomination.

Representative Quayle, Seventh District, (Brooklyn,) was renominated, defeating Francis J. Kelly.

SENATOR JONES HAS COMMANDING LEAD

SEATTLE, Sept. 14. (AP)—Wesley L. Jones of Seattle, seeking renomination on the Republican ticket for his third term in the United States Senate, had a commanding lead in returns late tonight from 184 complete precincts out of 2493 in the State, in today's primary. Jones, a dry who voted for entrance to the World Court, had 8325 votes to 2834 for Frank L. Hammond, a wet who denounced the stand of Jones on the tribunal.

Judge Austin E. Griffiths, a dry who attacked Jones for changing his vote and opposing a bill of Goodding of Idaho that placed railroad rates from Eastern Washington to points east of the Cascade Mountains on a distance basis, as compared with those to the Pacific shore, received 4515. Lee Roy Henry totaled 676.

For the Democratic Senatorial nomination, A. Scott Bullitt, Seattle, strong opponent of the World Court, and moderate wet, had 288, and Cleveland Longstreet, a dry who went to Missouri until after the primary, 80.

In the Seattle Congress District, John F. Miller, incumbent, had 3430, and his nearest opponent, H. Alvin Moore, locomotive engineer, and dry, 1382. For the Republican nomination for Congress when 61 out of 346 precincts had been counted, James McCabe, who campaigned for light wines and beer, received 1048.

Albert Johnson of Hoquiam, Wash., chairman of the House Committee on Immigration and Naturalization, was running second for renomination on the Republican ticket, to Hinton D. Jones, Tacoma. When returns from thirty-six precincts of the 602 in the Third Congress District had been counted for the primary today, Johnson had 1155 and Jones, a physician, who was formerly State commander of the American Legion, 1911. O. M. Nelson of Montesano had 182.

BROUSSARD AHEAD BY NARROW MARGIN

NEW ORLEANS, Sept. 14. (AP)—United States Senator Edwin S. Broussard barely managed to keep ahead of Former Gov. Jared Y. Sanders at midnight in a close race for renomination to the Senate in today's Louisiana Democratic primary. Returns from 951 out of 1313 precincts in the State gave Broussard 74,120, Sanders 71,344, a lead of 3776 for the incumbent.

Senator Broussard is an out-and-out wet. Mr. Sanders ran on a dry platform but favored a referendum on the liquor question.

COOLIDGE REST NEARS END

President to Leave Paul Smith's at Close of Week; Host to Correspondents in Final Conference

PAUL SMITH'S (N. Y.) Sept. 14. (AP)—President Coolidge feels that his more than ten weeks of outdoor life in the northern Adirondacks have benefited him greatly and he will return to Washington at the end of this week refreshed and invigorated. Mr. Coolidge's pleasure in coming to this region was made clear today during a discussion of many questions when he received newspaper correspondents for probably the last press conference at the summer White House.

Felicitations were exchanged through spokesmen both for the press and the President and then the correspondents adjourned to White Pine Camp, where they were guests at afternoon of Mr. and Mrs. Coolidge.

The change in coming from the sea level of Washington to this altitude of 1600 feet has benefite the President, while he will return to the national capital with toughened sinews and a general physical improvement received through hours of tramping and boating with rod and reel. But, it was said, the change to the President is the important thing and for that reason he will not come to this region next year but will go to some other place new to him.

The President's health was good when he came here early in July, it was stated, while, it was added "with a smile, he has apparently been able to hold his own here. In fact, Mr. Coolidge, in speaking of his physical condition to friends, often remarks that he is the healthiest President the country has known.

Mr. and Mrs. Coolidge plan to return to Washington by special train Saturday.

Representative Zach Spearing easily defeated three aspirants for his Congressional seat. He was the only Louisiana Congressman to have opposition.

BINGHAM RENOMINATED WITHOUT OPPOSITION

HARTFORD (Ct.) Sept. 14. (AP)—United States Senator Hiram Bingham, who has been a member of the upper house of Congress for the past two years, was renominated without opposition at the Republican State convention here today.

Gov. John H. Trumbull will head the State ticket at the November election. He also was renominated without opposition.

VERMONT REPUBLICANS IN THREE-CORNERED FIGHT

MONTPELIER (Vt.) Sept. 14. (AP)—Vermont Democrats and Republicans today chose candidates to oppose each other for United States Senator, for Congress, and on the party State tickets in the November elections. Only three contests, all within the Republican party, featured the primary. United States Senator Dale was unopposed for the Republican nomination, as was his Democratic opponent, James E. Kennedy of Essex Junction.

The Republican contests were a three-cornered fight for nomination for Governor and contests for nomination for Lieutenant-Governor, and for Congress in the First District.

John E. Weeks of Middlebury, Commissioner of Public Welfare, was leading Max Powell, Burlington hotel owner, and Lieut.-Gov. Walter K. Farnsworth in the Governorship contest, on incomplete returns tonight.

IN MASSACHUSETTS LIGHT VOTE POLLED

BOSTON, Sept. 14. (AP)—One of the lightest votes in history was indicated for the Massachusetts primary election as the polls began closing tonight. Except for one arrest for illegal voting in Boston, quiet conditions all over the State were reported to the office of the Secretary of State at the State house.

Lack of Statewide contests on both tickets was blamed for the general apathy. Both Gov. Fuller and United States Senator Butler were unopposed for the Republican renomination, while Col. William A. Gaston and former Senator Walsh were running alone for the Democratic gubernatorial and Senatorial nomination, respectively.

Washington Cook, seeking renomination to the Governor's Council on the Republic ticket, furnished the chief surprise move in the campaign recently by filing papers in opposition to Senator Butler in the November election. His action does not affect today's primary, however, and his name did not appear on the primary ballot.

COL. GREEN BEATS GOVERNOR IN MICHIGAN

DETROIT, Sept. 15. (AP)—Col. Fred W. Green's lead over Gov. Groesbeck for the Republican gubernatorial nomination was approaching the 100,000 mark as returns from nearly half the State were tabulated shortly after midnight. The figures from 1967 out of 2935 precincts in the State were:

Green, 193,303; Groesbeck, 94,774.

In the four-cornered contest for the Republican Lieutenant-Governorship, Luren D. Dickinson was leading Lieut.-Gov. George Welsh. Returns from 111 precincts gave: Dickinson 6238, Welsh 3270; Fred B. Wells, 2433; Oscar Ripelle 1093.

There were no contests among the Democrats on the State ticket.

In the only contest for a Congressional seat where a national issue was presented, the Sixth District, Grant M. Hudson, Republican incumbent and avowed dry, had a slight margin over J. Bradford Pengelly, wet candidate.

INDUSTRIAL GROUPS TO MEET HERE

Shippers and Growers to Act on Hoover's Idea of Further Organization

SAN FRANCISCO, Sept. 14. (Exclusive)—In response to Herbert Hoover's appeal to further organize various perishable industrial groups of California, more than 400 bankers, growers, shippers and railroad representatives have indicated that they will work to this end at the quarterly meeting of the Pacific Coast Transportation Advisory Board convening at the Alexandria in Los Angeles, Friday.

Secretary Hoover's statement that California is not utilizing more than from 60 to 70 per cent of her potential markets has stirred many prominent industrial leaders to demand definite action at this meeting.

Norman H. Sloane, manager of the California Development Association and General Secretary of the Transportation Advisory Board, and George Leithner, local manager of the American Railway Association, will arrive in Los Angeles tomorrow morning from San Francisco to prepare various details of meeting. Donald D. Conn, public-relations manager of the American Railway Association and joint representative in charge of newly adopted California grape-car plan, will leave tonight with Charles E. Virden, general chairman of the board, and join Sloane and Leithner in Los Angeles tomorrow to map out final plans.

Grape growers from all parts of the State are showing keen interest in the coming conference, according to reports at transportation-board offices. Analysis of the operation of the grape-car plan today will be made at the meeting and further plans to insure its ultimate success in handling grape crops of California will be formulated.

Arkansas Train Wreck Planned, Officials Aver

LITTLE ROCK (Ark.) Sept. 14. (AP) The wrecking of the Missouri Pacific Sunshine Special en route from New Orleans to St. Louis, which cost the life of George Busby, Little Rock engineer, and severely injured H. J. Munda of Little Rock, fireman, was deliberately executed, officials announced today after an investigation of the scene near McGehee, Ark.

REFORM SCHOOL FIRED

Boy Inmate Tosses Match Into Pile of Waste Paper

REDWOOD CITY, Sept. 14. (AP)—William Helm, 15 years of age, inmate of the San Mateo Juvenile Detention Home here, lighted a cigarette today, threw the match into a pile of waste paper and started a fire which destroyed three rooms on the upper story of the house and rendered the remainder of the building unfit for use.

The boy attempted to put out the flames and received burns on his hands.

Four boys and a girl, were taken from the home in safety before the flames gained headway.

NEW DAUGHERTY ATTACK STARTS

Merton $7,000,000 Refund Under Fire

Court Denies Defense Plea for Dismissal

Former Attorney-General Unmoved in Row

(Continued from First Page)

ner charged, there never had been a mention made of this oral transfer. "By his gesture, by his manner of quoting dramatically, by the waving of the letter he holds in his hand," Steuer said, "Buckner makes it impossible for these defendants to have a fair trial. I move that the jury be dismissed."

MOTION DENIED

"I fear," Judge Mack observed, "that you attach too much importance to Mr. Buckner's histrionic ability. Motion denied."

As Buckner, who has been charged by defense attorneys with attempts to impeach and attack the credibility of his own witness, tried to procure admission of exhibits, he found the defense attorneys defending the government's witness.

Buckner's attack on the testimony of Merton in cross-examination centered about the oral transfer by him and his brother in 1916—a few days before America declared war on Germany—of shares of the American Metal Company to the Societe Suisse under terms of a reputed obligation assumed by his father in 1910 and 1912.

Buckner asserted that this obligation was a myth, concocted for the purpose of establishing a motive for the transfer of the shares that antedated the war. Burt Merton, giving long explanations of the events leading up to the transfer and the relations of the Merton family to the various concerns in which it had interest, stood by his previous statements. He reasserted he believed at the time he made the claims that they were valid and that he still believes them valid.

STRENGTHENED CLAIM

Merton said that when he came to America to make the claims he felt them to be weak because of the oral-transfer, but he learned, he said, the claim could be made either on a basis of ownership or debt, and this, he felt, strengthened his claim.

The transaction, as Merton saw it, was simple: The Merton family had pledged the shares of the American Metal Company it owned, and if it had these shares they would have been turned over to the Societe Suisse. As soon as they were obtained, Merton said, they were given to the Societe Suisse, minus the fees of 4441,000 he paid King and the $250,000 commission he himself received.

Buckner then began an inquiry into the disposition of the remainder of the $7,000,000, his questions revealing it was his purpose to show that the money was not actually now in the hands of the Societe Suisse, but was in the hands of the Merton family and the German shareholders of the two German companies.

Court adjourned until tomorrow with Buckner engaged in an attempt to prove through Merton that the $7000,000 refund through Daugherty and Miller was far in excess of even the "asserted indebtedness" of the German companies to the Societe Suisse.

Chinese Loss in Wanhsien Fight Given as 2000

LONDON, Sept. 14. (AP)—Press dispatches from China today said there were 2000 Chinese casualties in the recent fighting with the British on the Yangtze River at Wanhsien.

Officials declare this figure is "a very great exaggeration," although they admit the affray was serious.

Admirer Slays Phone Operator and Shoots Self

NAPA, Sept. 14. (AP)—Mrs. Lena Covey, 26 years of age, a telephone operator at the Napa State Hospital, was killed instantly late last night by Fred Evers, who fired five shots at her at close range, as she sat at her switchboard.

After killing the woman, Evers turned the gun upon himself, but the bullet failed to hit a vital spot. He tried to reload the pistol and shoot himself again, but collapsed before he could do so. When he regained consciousness later he said that he had shot the woman because he was jealous of her former husband.

Evers is a resident of Schellville, and is a highway construction superintendent. Mrs. Covey was the divorced wife of Earl Covey of Red Bluff.

Methodists Meeting Opens

SANTA CRUZ, Sept. 14. (AP)—Three hundred Methodist ministers of Northern California and Nevada are registered here in attendance at the annual Methodist Episcopal Church Conference, which opened tonight.

UTAH HUSBANDS IN DIRE PERIL

Old Statute Makes Them Responsible for Wife's Crimes

SALT LAKE CITY, Sept. 14. (AP)—Utah husbands will hereafter be careful that their wives commit no crimes in their presence.

District Judge Wight today dismissed a complaint charging Mrs. Mary Stilnovich with persistent violation of the State prohibition law on the showing that her husband knew of the presence of the liquor in the house.

An old Utah law makes husbands responsible for all crimes except murder committed by their wives in their presence.

FLOGGINGS QUIZ OPENS IN FLORIDA

Governor Told of Scores of Whippings Administered in One County

TALLAHASSEE (Fla.) Sept. 14. (AP) Sheriff Hancock of Putnam county and Mayor Waymer of Palatka met Gov. Martin here today to discuss evidence placed before the Governor yesterday showing that sixty-three floggings had occured in the county within the last year. From one to five floggings occurred each Saturday night, the Governor said he had been told. The evidence showed that two white women were flogged and that two persons died as the result of mob violence.

The chief executive said he had received many letters asking that he take steps to restore order and charging the county was terrorized. Two delegations of citizens have called on the Governor to ask him to intervene, he said.

"Mobs have been formed at night to terrorize the community and citizens have been forced to carry weapons," Gov. Martin said.

Sheriff Hancock last night said fourteen persons, two of them women, have reported to him that they have been flogged "for bootlegging and operating disorderly houses." A man giving his name as Earl Sapp is being held as a suspect, the Sheriff said.

Evidence of the whippings was placed before the Governor in a 350-page report by State's Attorney Atkins of the Eighth Judicial District.

"I expect to present all of the evidence to the grand jury regardless of the action of the Governor," Mr. Atkinds said last night. "It will also ask for indictments against everyone I believe connected with the outrages."

"My evidence has brought me to the conclusion that a masked mob was responsible for the killings and floggings, and I will do all I can to see that the members of the mobs are punished."

SOUTHLAND ASKS STATE G.O.P. CHAIR

Leaders Who Supported Lieut.-Gov. Young Demand Old Northern Honor

SACRAMENTO, Sept. 14.—Word has reached the capital that Southern California political leaders who supported Lieut.-Gov. Young, Republican gubernatorial nominee, in the primary campaign are demanding that the South be given the chairmanship of the new Republican State Central Committee.

The demands of the southerners followed on the heels of the announcement in San Francisco that Charles L. Neumiller of Stockton, present chairman of the State committee, is slated for re-election.

According to information received by the capital politicians, the Southern California leaders feel the south is entitled to the chairmanship in that the north has held the honor for several years.

Information also has reached the capital that Congressmen Phil D. Swing of El Centro, who stumped the Eleventh Congress District for Young, is slated to be named chairman of the Republican party convention to be held here next Tuesday.

It is understood the northern Young forces are agreeable to Swing.

SUES OFFICIALS FOR LIQUOR CASE ARREST

EXETER, Sept. 14.—Constable Charles Mackey, City Marshall, Roy Sill of Exeter, and Alva Joyner, representative of an insurance company which issued bond for the officers, are named defendants in a suit for $30,500 damages filed in the Tulare County Superior Court at Visalia by Cecil A. Allen of Exeter. Allen alleges a false arrest, imprisonment and detention.

Mr. Allen says he was taken from a crowd of persons here as he emerged from a picture show on March 20th and held eighteen hours without, he says, any charge being filed against him and without any warrant being shown to him. He was taken as a suspect on a liquor charge which was dropped and he was released. He asks $5000 from each of the two officers for exemplary damages and $10,500 damages for humiliation.

ROOSTER PLAYS UNUSUAL ROLE

Mothers Hundred Chicks That He Lured Away From Other Flocks

NORFOLK, Sept. 14. (Exclusive)—A rooster with a keen sense of paternal duties is acting as mother to 100 chicks that are being raised in the back yard of the G. V. Madsen home on South Ninth street.

A few weeks ago he decided to enact a mother's role and proceeded to entice the major part of several flocks that had been cared for by hens with groups of twelve to fifteen chicks. He was successful in his allurements and also in chasing off the indignant hens that he had bereft of their progeny.

The "matron" of this chicken orphanage continues to greet the dawn with his clarion call and practices up at times during the day.

EZRA POUND'S BABY HAS WEIGHTY NAME

PARIS, Sept. 14.—The new-born son of Ezra Pound, the eccentric American esthete and expatriate, is starting his career of letters with the weighty name of Homer Shakespeare Pound. Mrs. Pound formerly was Dorothy Shakespeare, while the Christian name of Mr. Pound's father was Homer.

SCHOOL CHIEFS DEEFND CO-EDS

Illinois University Girls Accused of Improprieties

Divinity Scholar's Charges Denied by Teachers

Pajama Parades, Petting and Gin Parties Asserted

CHICAGO, Sept. 14. (Exclusive)—Faculty spokesmen at the University of Chicago and Northwestern University rose valiantly today to defend the American co-ed, denounced in the current number of Witness, a church paper, as a petter, a drinker, smoker and destroyer of campus morality.

Wilfred O. Cross, a senior at the University of Illinois last year, and a prospective divinity student, wrote the charges in the Witness, a national weekly published by the Episcopal church. His article tells of promiscuous drinking, vicious dancing and a pajama parade on a university football special train, in which gin and wild behavior were the main features.

"I know of a trainload of sleeper coaches, bound to an interuniversity football game last fall," says Cross in his article, "in which collegians of both sexes, most of whom were quite drunk, staged a pajama dance in the aisles."

GIN PLENTIFUL

He charged that male students and co-eds had shared the same berths in the sleepers.

"Certain sororities," continues Cross, "had huge quantities of gin delivered by the back-door route," in his comment on the "fashionable custom" of co-educational drinking.

Of the private dancing parties, Cross writes: "These affairs, made interesting by petting, abbreviated costumes and drinking, are, to say the least, only mildly respectable, though only character is damaged at these orgies. The traditional drinking of the old college days, since the participation of women, has become a bacchanalia."

Coach Stagg and Dean Boucher of the University of Chicago, sharply challenge the statements by Cross. They assert that students today are, on the average, much better behaved and of higher standard than those of ten or twenty years ago. Coach Stagg thinks the modern parent needs disciplining, but has praise for the modern student.

CHARGES DENIED

Lester Kellogg, president of the student Y.M.C.A., and Doris Curran, secretry of the Y.W.C.A. of Northwestern University, agreed that Cross has drawn a grossly exaggerated picture of student life. Student bodies in both universities denounced the Cross articles as shamefully overdrawn.

Faculty members at the University of Illinois are not taking Cross's charges seriously. Although Cross did not mention that his information was obtained while a student at the University of Illinois, it is inferred by local authorities that he means the State institution.

Cross was a student in the college of liberal arts and sciences, but withdrew at the end of the first semester last winter, to enter the Berkeley Divinity School at Middletown, Ct.

TWO ARRESTED AFTER IRISH THEATER FIRE

LIMERICK (Ireland) Sept. 14. (AP)—Two men are under arrest on charges of homicide following the inquest on the tragedy at Drumcollogher a village near here, on the night of the 5th inst., when forty-eight lives were lost in a fire in an improvised moving-picture hall. The Coroner's jury found Patrick Downing, operator of the projector guilty of negligence in exposing inflammable films and found William Ford, owner of the building, guilty in negligence in leaving candles on the table where the films were exposed. Both men were arrested.

ROUGH SEAS AID RELIGION

Ocean Voyagers Declared More Sanctimonious When Waves Threaten Danger

NEW YORK, Sept. 14. (AP)—Sermons at sea are popular in rough weather but lose interest when the waves are quiet. Seafaring men, from captains of ocean liners to stewards, told the Associated Press that they can estimate attendance at Sunday services with fair accuracy by the barometer.

"A foggy Saturday means a sanctimonious Sunday," was the way Capt. McNeil of the Samaria put it.

"The passengers attend the services I conduct when the seas are rough, but when the weather's fine, my sermons aren't so popular."

Many criticised the attitude of the average passenger toward the Sunday religious services on ocean liners.

NOVELTY SEEKERS

"Theoretically, the liner becomes a floating chapel on Sunday," said the steward of the Berengaria. "The large salon is transformed into a cathedral with a choir of fifty bell boys. The captain or purser conducts the services, but the congregation is only a group of novelty seekers. They are edified for the time being by a unique spectacle, but they are, for the most part, wholly uninspired."

There was some divergence of opinion as to the attitude of sailors, but a fairly general agreement that safety has produced indifference.

Mrs. Janet Roper, house mother of the Seamen's Church Institute here, believes the seamen are more religious than formerly.

NEW SAILORS' FAITH

"They are reading more for themselves and speculating more about life than they used to," she said. "The fundamentalist-modernist controversy at first swept from them old superstitions that used to serve their religious needs, leaving them literally adrift. Now they are building up for themselves a philosophic nonsectarian faith."

The purser of a big trans-Atlantic liner declared the war has had a devastating influence on the spiritual lives of the men.

"Most of them," he said, "went through the war with a certain degree of faith in the brotherhood of man. Now, disillusioned, embittered, and totally disinterested in religion, they ignore utterly the attempts of missionaries and preachers to reach them with the old dogmas that sufficed before 1914."

WILL FRAUD CONFESSED BY PEERESS

Countess Schnabel Admits Forgery of Instrument in Effort to Get Fortune

POTSDAM (Germany) Sept. 14. (AP) Countess Hessolda Schnabel, widow of Prof. Schnabel of the Robert Koch Institute for Infectious Diseases, Berlin, has caused Potsdam's latest society scandal by admitting the forgery of her husband's will whereby his entire fortune was left to her.

The Countess was born in St. Louis, Mo., August 9, 1885, the daughter of Count Hesso Von Leiningen-Westerburg, scion of one of the oldest noble families in Germany, who emigrated to America in the early '80's, marrying Margarete Meyer of St. Louis, in October, 1884.

Prof. Schnabel met the Countess Hessolda during the World War when he was stationed at a Vienna hospital, where she served as a nurse. The marriage, which occurred in 1923, was unhappy, and the wife was not present at the husband's deathbed in 1924.

After the funeral, to the surprise of the professor's mother and sister, to whom he was touchingly devoted. The Countess produced a will purporting to leave the large estate and fortune entirely to her.

The will was contested, and at the hearing an aged housekeeper and confidante of the Countess confessed that the latter had practiced for some time imitating her husband's handwriting.

The Countess then also confessed. She has not been arrested, thus far, however, giving her word that she would not leave her country estate.

Twenty-six Die in Collision on Australian Line

SYDNEY (Australia) Sept. 14. (Exclusive)—The most appalling railway accident in the history of the State occurred at midnight last night in North Scona, not far from the scene of the recent disaster at Aberdeen. Twenty-six were killed and fifty were injured.

A portion of a freight train broke away at Murulla crossing, about six miles from the Sydney side of Murrurundi in the northwest portion of New South Wales, and crashed into a northwest mail train. Though the official list of the dead and injured is as stated it is believed that as soon as the debris is cleared away other casualties will be found.

Immediately following the collision three passenger cars telescoped. One freight car, loadd with wool, burst into flames and was completely destroyed. Fortunately death came swiftly to those pinned in the wrecked carriages, nine bodies being taken from one car.

Stockton Youth on Trial Today in Girl's Death

STOCKTON, Sept. 14. (Exclusive) The trial of George Pound, 22 years of age, charged with the murder of 16-year-old Nina Breakey in an afterdance joyriding affair on July 30, will begin tomorrow morning before a jury in the court of Superior Judge Miller. Pound has been in the San Joaquin County Jail ever since the tragedy. No case in this county since the Alex Kels trial has caused as much interest here as the case to be tried tomorrow.

Pound, it is alleged, took the Breakey girl from a dance hall for an automobile ride. The couple drove about ten miles out on the Linden Road, where Pound is said to have attempted to assault the girl. Before his arraignment, he said that the girl fell from the machine. The Coroner's jury found that death resulted from a cerebral hemorrhage due to traumatic injury and the police investigation conclusion was that the girl died of shock after a struggle with Pound.

Government to Make Study of Lassen Volcano

SAN FRANCISCO, Sept. 14. (AP)—The United States government is going to "sit up" with Lassen Peak, only active volcano in the country. The Geological Survey has decided that the peak is an honest-to-goodness volcano, and hereafter must be treated as such. Seismographs and laboratories are to be installed in rock chambers near the heart of the cone and every pulsation of this great natural wonder is to be recorded and analyzed.

R. H. Finch, associate volcanologist of the Geological Survey, has come here from the Hawaiian Islands, where he was assistant to Prof. T. A. Jaggar, noted expert in volcano history, and will keep his fingers on the pulse of California's smoky marvel.

Lassen Peak is in the midst of the Lassen Volcanic National Park, and every opportunity will be afforded visitors to look the volcano over.

Dr. Jaggar has examined the peak and has declared it a successful volcano in every way.

INDIGENTS SENT HOME

SACRAMENTO, Sept. 14. (AP)—Charles F. Waymire, State deportation agent, left today for New York and other points with seventy-five nonresidents of California who had become wards of the State. The indigents will be turned over to authorities of the States of which they are legal residents under a reciprocal agreement in force between California and most other States of the Union.

NEW POWER ERA VIEWED FOR NATION

Westinghouse Head Gives Automobile High Rank in Coming Industry

PHILADELPHIA, Sept. 14. (AP)—Superpower and the automobile promise to greatly add to the national wealth of the United States, increase the prosperity of the average family and bring agriculture back into step with industry, Guy E. Tripp, chairman of the Westinghouse Electric and Manufacturing Company, today told the Congress of American Industry here.

"Civilized life without power," said the speaker, "is impossible. The more power a nation properly applies to production, the more prosperous are its people, but where there is no power, the people are poor."

Mr. Tripp asserted that electricity has gained for the United States the industrial supremacy of the world, and added:

"There are two recent power developments, superpower and the automobile, which, in my personal opinion, point in an encouraging direction. Inasmuch as power applied to production and transportation has had a dominant influence on the nation in the past, I believe one is justified in expecting that these new power developments will usher in a new economic era in which many of the defects of the old world will be rectified."

Scientist Wills Large Fund to Protect Game

WASHINGTON, Sept. 14. (AP)—Establishment of a $500,000,000 trust fund to be used in the prosecution of persons cruel to animals and for the protection of animals and game in all parts of the world is provided for in the will of Stacy Anson Ranson, scientist, who died August 28, last.

The fund would be accumulated from the investment of $40,000, which is provided in the will on file in Probate Court here. Half of the income would be used to protect animals and game and the remainder would be accumulated and invested until it reaches $500,000,000.

EX-ANGELENO ASSERTS HIS WIFE DOMINATING

RENO (Nev.) Sept. 14. (Exclusive) Claiming to be the victim of a dominating wife Pierre Charles Allers, late resident of Los Angeles and Wasson, O., was granted a divorce from Ruth Adelaide Allers by District Judge Bartlett. Allers said his wife while insisting on independence for herself, demanded his obedience and hired detectives to watch him. Allers testified his wife refused to bear his name, declared she would do as she pleased, and abused him whenever he ventured to oppose her will. She failed to oppose his suit for divorce.

MEXICO EXECUTES TWO ON SEDITION CHARGES

MEXICO CITY, Sept. 14. (AP)—Dispatches say two men, Samuel Melgarejo and Joaquin De Silva, have been summarily court-martialed and executed at Tinguindin, State of Michoacan, on charges of seditious propaganda in connection with the religious question.

HIGHWAY IN FAR NORTH

VANCOUVER (B. C.) Sept. 14. (Exclusive)—Haselton, B. C., 900 miles north of Vancouver by road, is now the northern terminus of the Pacific Highways. The road north, though not yet paved, is in good condition and many American cars, scores of them from California, have been making the new trip into the hitherto inaccessible interior of British Columbia.

PRESS MEETING LAUDS AMERICA

Geneva Host to World Meet of Newspaper Men

United States Praised for Peace Endeavors

Nations Urged to Assist in News Dissemination

GENEVA, Sept. 14. (AP)—Praise for the unfaltering efforts of the United States toward maintenance of world peace prominently marked the opening today of the third assembly of the press congress of the world when Vice-Rector Werner of the University of Geneva officially welcomed the delegates of thirty nations. The congress is under the presidency of Dr. Walter Williams, dean of the school of journalism of the University of Missouri.

Calling attention to Geneva's role in international events, Dr. Werner gave as an example the entrance of Germany into the League of Nations which had made this city "the theater of a remarkable reconciliation of peoples."

The American delegation, which arrived from Lausanne, was met at the station by a committee of distinguished Geneva citizens. After a tour through the city the Americans were officially received at the City Hall by the government of the Canton of Geneva, State Councilor Turrettini delivering the address of welcome. An official reception by the city of Geneva was a feature.

PRESS LEAGUE ADVOCATED

That a league of journalists could do more good than the League of Nations was asserted by Dr. Walter Williams in opening the congress.

"Here in the capital of the League of Nations," said Dr. Williams, "even in this noble city, I make bold to say that a league of journalists, keeping open and free the channels of world communications, may do more good than any other human agency, league or association of nations."

To facilitate the gathering and transmission of accurate news he urged that the League or interested government call a world conference to consider means of making truth more readily available and a reduction in the transmission rates.

FREEDOM URGED

"No country is wholly free from offensive and unnecessary interference with press liberty," he said. "It is not enough to be free to write the truth. Freedom to know the truth is essential to journalism. Lack of adequate and correct information makes impossible truthful interpretation and comment. It is useless to have liberty to publish and discuss facts unless there is unfettered opportunity to obtain these facts."

He declared that publishers should be free from censorship and control, but should be held responsible for the wise exercise of their freedom.

"Open, unrestricted channels of news communication are of vital consequence. Certainly the present crowded, conflicting and costly news-transmission agencies need to be revised in the spirit of the times and with the view to serving the interests of free dissemination of the truth."

The United States supplies more goods to Uruguay than does any other country, and this amount is increasing each year.

ESTABLISHED 1901

ADMINISTRATION FLAYED BY REED

Keynote Speech Bristles With Criticism

Decries Excess of Law as Curb to Liberty

Pleads for Return to Old Time Fundamentals

JEFFERSON CITY (Mo.) Sept. 14. (AP)—United States Senator Reed, in his keynote speech before the Democratic State convention here today, assailed with all his old-time oratory four things which he believes threaten the welfare of the people of the nation. He cited the tendency toward centralization of power in government, the effect of the protective tariff on the distressed farmer, the foreign debt problem, and Federal methods of revenue taxation.

By no direct word did he refer to the prohibition issue, but that question was uppermost in the minds of his hearers as he spoke at length on the tendency to rob the individual of his right to live his own life, to regulate his own morals and personal conduct.

A plan by which American farm products may be sold abroad on the world market and exchanged for goods sold at world market prices to be entered into the United States, duty free, was advocated as a measure for the relief of the American farmer, who, Senator Reed asserted, is caught in the toils of a vicious circle, selling his products abroad at world prices and buying his necessities at home at tariff protected prices.

"If I were a member of the House I would have introduced, (and I intend to endeavor to have caused to be introduced) a bill providing that when American farm products are sold abroad, the money received may be invested in the market where the products are sold, and the goods so purchased brought to the United States, free of duty," the Senator said.

"But against this, the united opposition of the Republican administration will be felt," he continued.

CENTRALIZED POWER

"For years great political leaders, including numerous societies, organizations and propagandists have been agitating for an increase of governmental power and centralization of government authority. The philosophy of the fathers has been forgotten. The landmarks of the Constitution disregarded.

"In violation of those principles the protagonists of power and centralization have insisted upon the enactment of law upon law until the statutes of the general government number more than 10,000 sections. The statutes of the forty-eight States approximate 600,000 sections. These statutes are embraced in something over a 100 huge tomes.

"The theory is that no human being has sense enough to regulate his own conduct; to live his own life; to provide for his own wants; to rear his children, or to bury his dead, but that all wisdom is concentrated in certain legislative bodies composed of certain individuals who have sought and temporarily obtained office and whose average intelligence is frequently less than that of the communities from which they come.

EMPLOY ARTIFICE

"The adherents of this philosophy regard every obstacle to the enactment into law of their pet theories as a bar to human progress. Accordingly, they treat the Constitution with contumely, and seek and employ artifice and circumvention to undermine its precepts.

"The right of local self-government is absorbed by the State, and the powers of the States in turn absorbed into the Federal government—each step lessening the rights of the individual to control himself or to compel public officers to truly represent his sentiments.

"But a small portion of this vast mass of statutory regulation was demanded or considered by the public. On the contrary, it was almost invariably advanced by a small minority and enacted into law by legislators who blindly responded to the insistent claims of agitators frequently ignorant and usually extremists.

"I appeal for a return of the old fundamentals.

"A rebirth of constitutional liberty must come, or we will proceed as we have in recent years until the whole rock of the Constitution will be engulfed by the tides of ambition, selfishness and foolishness, and liberty will become a byword amongst the people whose ancestors died that all of us might be free."

Touching on foreign-debt settlements, the Missouri Senator grew vitriolic as he recited the pledge of Congress that foreign loans should be made only upon receipt by the Treasury of bonds of the same maturity date as those of American war bonds and bearing the same interest rates so that the American taxpayer might not bear the burden of the foreign taxpayer. This pledge was broken, he said, originally when loans were made without such security, and then the American people were again "betrayed" by recent debt-settlement pacts.

"At the time of these occurrences, the house of Morgan and its allied financial institutions loaned to European countries from $9,000,000,000 to $12,000,000,000, receiving an interest and discount rate running from 9 to 15 per cent.

CRY CANCELLATION

"Immediately upon the conclusion of the war these interests raised the cry that the government should cancel its debt for the purpose of aiding Europe.

"But, not a mother's son of all these financial patriots ever offered or dreamed of suggesting the cancellation of any part of the indebtedness to them.

"The plain situation was and is that if these debtor nations were relieved of their obligations to the government of the United States then every bond held by private financial concerns would immediately enormously advance upon the market because the prospect of its ultimate payments, interest and principal, would be vastly improved.

"The cry set up by these American bankers was soon seized upon by European countries, none too honest at heart and none too willing to pay at best.

"The effect of such a transaction of course would be to transfer the ultimate payment of the foreign indebtedness from the people of foreign countries to the shoulders of the taxpayers of America.

"The Italian debt settlement was forced through with the repeated assurances from Republican leaders that it was a settlement in full What we did was to make a present to Italy of $7,612,000,000.

"In discussing the French settlement, which is more valuable to America than the Italian debt settlement, Secretary Mellon finally and reluctantly told the truth. He declared that the effect of the settlement was to cancel fully 80 per cent of the French debt.

"If the scheme is carried through, then your children and your children's children will be taxing themselves to pay the indebtedness of foreign countries and foreign people."

CRITICISES MELLON

Senator Reed next struck at the "financial interests" which he said constitute the very real but invisible power that pulls the strings of government.

"Here again, the great aggregations of capital have looked after their interests. They have literally installed themselves in the control of the Treasury portfolio. For, Andrew Mellon is himself not only of but to a large extent is the 'great interests.'

"He occupies his position in absolute violation of the statute which forbids the holding of the office of Secretary of the Treasury by any person engaged in commerce. At the time of his selection Mr. Mellon was a director in sixty-eight great banks and trust companies, embracing almost every conceivable line of business, trade and commerce, from the control of the aluminum trust to the ownership and management of whisky distilleries.

"Mr. Mellon came forward with a tax plan which would have in a single year reduced his personal taxes by $9,000,000. It proposed to at one stash cut the taxes of millionaires by more than $100,000,000, and at the same time it gave absolutely no substantial relief to the small taxpayer.

This is but another evidence of the fact that the seat of government is no longer at Washington. It is in the great financial centers. At Washington sits Calvin Coolidge, proxy for the financial centers, surrounded by an obsequious brood of puppets, who obey his lash, as he in turn obeys the voice of his master."

TRACTOR TURNS TO SUBMARINE

CHICAGO, Sept. 14. (AP)—A caterpillar tractor that plods over sand bars and through shallow water just as an army tank or farm tractor conquers obstacles on land promises Chicago a waterway to the gulf while the proposed government improvement of a route is under way. Pulling two freight car capacity barges through water three and a half feet deep, one of the tugs plowed sixty-three miles to return what Chicago for years has called "the tadpole ditch" to its former status as a canal linking Chicago with the Mississippi. The channel, dug a century ago, was used for several decades and then gave way to the railroad. The trip was the first over the route in many years.

KLAN WARS ON ALIEN IDEALS

Convention Hall Resounds With Cheers

Imperial Wizard Accepts Re-election

Warns League to Keep Out of Mexico

WASHINGTON, Sept. 14. (AP)—An immediate offensive against "Romanism, alienism, Bolshevism and anti-Americanism of all kinds" was the battle cry sounded here today to the Ku Klux Klan by its Emperor and Imperial Wizard, Dr. Hiram W. Evans.

There was instant and vociferous response from the hundreds of delegates attending the third biennial convocation of the organization. Time and time again as the Imperial Wizard mapped out the Klan program for the ensuing years, the Washington Auditorium rang with the cheers of the Knights.

After the Imperial Wizard had concluded his carefully prepared address, he announced that he had delayed acceptance of his re-election by the Grand Dragons for four years because he wanted the assurance of a United Klan behind him in the program he had determined upon.

PARADE FORMED

Immediately a Cyclops from Alabama moved the indorsement of his re-election and his platform and administration and a Klansman from Texas seconded that motion. The response was a rush of delegates for the stage with a Klansman from South Carolina, bearing the State banner, leading the procession.

Within a few minutes the Imperial Wizard was the center of a milling mass of shouting delegates and he finally was borne from the stage to the shoulders of four men who carried him around the immense hall while the delegates stood and cheered.

With the restoration of order the motion was carried by a rising vote and Dr. Evans accepted the indorsement with the promise to fight for Klan principles to the end of his time.

WARNS LEAGUE

While Dr. Evans was cheered again and again during his address, the greatest outbreak came when he urged Klansmen to use every effort to "take the United States out of the World Court." He was declaring for adherence to the principles of the founding fathers against entangling alliances.

When quiet again was restored he interpolated a warning to the League of Nations and the nations of Europe not to interfere with the internal affairs of Mexico. There was no direct reference to the religious fight now waging in that country.

The Imperial Wizard asserted he had heard it said that the League of Nations would interfere in Mexico, and predicted that if Europe did interfere in that country it would find itself in trouble.

"If any European nation lands a force in Mexico," he shouted, "and if the United States government is not ready to act, thank God there are enough Klansmen in America to repel them."

This was the signal for another great outburst of handclapping and cheering.

Couple in Auto Wanted to Aid Hall-Mills Quiz

NEW YORK, Sept. 14. (Exclusive) Two new witnesses—a wealthy New Jersey man and the wife of another wealthy man—are being sought by Special Prosecutor Simpson for any light they may be able to throw on the Hall-Mills dual murder mystery. These witnesses are believed to be in position to furnish corroborative proof to important parts of the testimony of Mrs. Jane Gibson, the "pig woman," the State's star witness against the three persons accused as principals in the case.

These two persons are believed to have been in De Russey's Lane on the night of the double crime. Their names have been furnished to the special prosecutor, who has sent detectives to locate them. They were, it is said, in an automobile at the time, and were within 350 feet of the crab apple tree where the bodies of Mrs. Eleanor Mills and Rev. Edward Wheeler Hall were found two days later.

"The investigators," Senator Simpson said, "are looking for a rich man who, on the night of the murder, was in De Russey's Lane near the Phillips farm with the wife of another wealthy man. The investigators expect to locate this man shortly, and they expect he will give us some valuable information."

Doctor Taken by Ludendorff as New Bride

MUNICH (Bavaria) Sept. 14. (AP)—Gen. Erich Ludendorff, who was quartermaster-general of the German imperial army in the World War, was married at noon today to Frau Dr. Mathilde von Kemnitz.

The bride, who was mentioned by the first Frau Ludendorff in the divorce proceedings in July, is a specialist on nervous diseases.

The marriage ceremony, which was strictly private, was performed by the local Registrar at the bride's home at Tutzing, on Starnberg Lake. Ludendorff is 61 years of age.

WOMAN LAWMAKER WIELDS LORGNETTE

LONDON, Sept. 14. (AP)—Miss Margaret Bondfield, the newly elected member of Parliament, uses a lorgnette very skilfully when addressing the House. When she first served in Parliament her lorgnette was something of a novelty. It was useful, as she frequently raised it with scorn and looked at some male opponent with all the contempt that a woman can display in staring at dowdily dressed enemy in the theater.

ENGLISH HOTEL BOASTS INTERESTING HISTORY

LONDON (Eng.) Sept. 14. (AP)—Estate papers record the sale of the Globe Hotel, Exeter, which faces the ancient cathedral. The hotel is at least of 500 years' standing, and tradition associates it with ecclesiastical history of the city of a long past age. The hotel has a close connection with the history of Free Masonry in the city of Exeter. In this house was founded the Prov. Grand Lodge of Devonshire, with Charles Warwick Bampfylde as the first Provincial Grand Master, in 1774. Bampfylde is the family name of the house of Poltimore, of which the present Lord Poltimore is the head. Here also the senior Lodge of the West of England, St. John the Baptist, No. 39, was founded in 1732, met in 1803 and long thereafter.

FIRE PLOT FEARED IN OREGON PENITENTIARY

SALEM (Or.) Sept. 14. (Exclusive) Officials of the penitentiary here are investigating what they believe to have been a plot to burn the flax plant connected with the institution. Fire hose in the plant was cut and further damaged. Officials are all the more suspicious of the occurrence because of the recent fire at the Washington State penitentiary at Walla Walla.

BEAT DODGERS AS CARDS LOAF

Critz Sparkles Violently as Robins Fall 5-1

Pirates Gain on Hornsbymen With Gotham Win

Phillies Cop Contest from Chicago Cubs 5-4

BROOKLYN, Sept. 14. (AP)—The Reds defeated Brooklyn 5 to 1 today and moved into the league leadership while St. Louis was idle. Carl Mays won his nineteenth game of the season after volunteering his services to Manager Hendricks. The Reds eased into first place with a half-game margin over the Cardinals.

CARL MAYS

Twelve hits off McGraw, the Robins' reliance, gave the Reds their tallies. Brooklyn could do little against the underslung delivery of Mays, hitting but five scattered safeties.

Cincinnati's offensive centered about Walker, Roush and Critz, with Critz's fielding a feature. The visitors took the lead in the second inning, scoring once on a double by Critz, who reached third on Wheat's fumble and came in on an infield out. The Robins tied it in their half when Marriott singled and went to second on Ford's low one past Pipp, and scored on O'Neil's single.

The Reds went into the lead again in the third on singles by Walker and Dressen, and a wild pitch, and sewed up the game in the sixth with two runs resulting from singles by Critz, Hargrave and Ford, and a sacrifice fly.

What Season Opens Today? - - - - - - - - - - *By BOB DAY*

NAME COLE LINE COACH OF TROJANS

Frosh Mentor Promoted as Minnick Quits Position to Join Grange

William Cole, variously known as "Big Bill" "Bad Bill," "Sweet William," or sometimes even just plain "Bill," is the new line coach for Coach Howard Jones' Trojan eleven for this season. Cole was officially appointed to that capacity yesterday afternoon, when Bill Hunter, director of athletics at Trojanville, received a telegram from Paul Minnick, last season's line coach, that he had accepted an offer to play professional football with Red Grange.

BILL COLE

Cole played varsity football with the Trojans and coached last year's unbeaten frosh team. He played the grid game at Santa Ana high, when Jeff Cravath, present Trojan captain, was just starting his career. He entered U.S.C. in 1921, playing Frosh football. In 1924 he was involved in the unfortunate alleged "professional" incident, which ultimately caused the break with California and Stanford.

Last season Cole coached the yearling lineamen. Among two of his prominent pupils were Jesse Hibbs and John "Cupid" Fox, tackle and center, respectively, both of whom are prominently mentioned for varsity jobs this season.

COAST FOOTBALL SEASON OPENS TODAY

Local Interest Centers on Coach Jones's Thundering Herd; Conference Schools Turn Out for First Inspection With Oxy Favored

BY BRAVEN DYER

The 1926 footbal season opens today. What with the professional payers getting off to an early start more than a week ago and "Red" Grande hogging the limelight with his grid picture it actually seems as if the season has been under way for some time. However it takes the first turnout of the dear od alma mater to officialy usher in the grid year and today's the ong awaited occasion.

Locaiy interest centers around the situation at the University of Southern California where Howard Jones is entrusted with the task of leading the Trojans to a Pacific Coast conference championship. It has been said on all sides that this is a Trojan Year." U. S. C. has come close to a Coast title in some past seasons but as far as actually nabbing the od championship goes such a thing has never occurred.

HOWARD JONES

GOOD MATERIAL

Jones has the material this year and certain it is that Cardinal and Gold hopes were never higher. Here's the list of returning veterans, all of whom, plus some thirty less experienced athletes, are due to report at Bovard Field this afternoon:

Red Badgro, Allen Behrendt, Gene Dorsey and Jim Moser, ends; Kenneth Cox, Clark De Groote, Bill Friend and Don Cruickshank, tackles; Brice Taylor and Ted Gorrell, guards; Capt. Jeff Cravath and Lyle Baldrige, centers; Morton Kaer, Morley Drury, Howard Elliott, Charles Boren, Field Thompson, Manuel Laraneta, Bob Lee, Vic Orsatti and Coney Galindo, backs.

A. A. Exendine takes over the reins at Occidental. The Tigers won the Southern Conference title a year ago and should repeat if the former Washington State mentor can instill his style of play without too much delay.

The lettermen slated for jobs are Captain-elect Vic Conde, tackle; Merrill Gregory, Solly Hishkin, Bronson Buxton, Rats Brobst, George Fusco, and George Purser, backs; Mike Godett and Bud Teachout, ends; Fred Betts, Guy Hawkins, Milt Nash and Duane Terry, guards; Harris Hitch,

STRANGLER LEWIS VICTOR

Flops Big Munn in Straight Falls in Feature Wrestling Bout at Vernon Coliseum

Ed (Strangler) Lewis, heavyweight grappler, proved whatever claim he has on the title in his division is made of stern stuff, when he won from Wayne (Big) Munn in two straight falls at the Vernon arena last night.

Lewis conquered Munn, who relieved Lewis of his title in a Michigan City bout some time ago, with his deadly lock, the first coming in a little over a half hour of grappling, and the second in some thirteen minutes. Lewis was in fine form, his body was dyed a beautiful tan, and he prove to Munn that something sides abnormal strength was required in the wrestling game.

"Strangler" Lewis

Lewis took the first fall with his favcrite death-grip, the headlock, in thirty-two minutes and nineteen seconds. Munn

Joe Roche Stopped by Leo Lomski

SAN FRANCISCO, Sept. 14. (AP)—Leo Lomski, Aberdeen (Wash.) lightheavyweight, punched his way to a technical knockout over Joe Roche, San Francisco, in the fourth round of a scheduled ten-round bout at Recreation Park here tonight.

BUD GORMAN WINS

NEW YORK, Sept. 14. (AP)—Bud Gorman of Kenosha, Wis., was awarded the judges' decision over Frans Diener, German heavyweight champion, in the main ten-round event at the Queensboro Stadium tonight. Diener, making his initial bow in an American arena, put up a brisk battle at the outset but tired in the late rounds.

INDIANA INJUCTION AGAINST DEMPSEY-TUNNEY BOUT MERE NEWS ITEM IN PENNSYLVANIA

PHILADELPHIA, Sept. 14. (AP)—"The injunction obtained in Indiana to prevent the Dempsey-Tunney fight is merely a matter of news in the Pennsylvania courts; it has no legal effect," said Atty.-Gen. George W. Woodruff today.

PACES FIELD IN AMATEUR

Recovery Shots Electrify Large Gallery

Ouimet and Gunn Survive Place Play-off

Qualifying Scores Highest in Classic History

SHORT HILLS (N. J.) Sept. 14. (AP) The magic clubs of Bobby Jones paced America's foremost amateurs successfully through the qualification test for the national amateur championship to a dramatic finish on the sand-cupped links of Baltusrol today.

BOBBY JONES

Three thousand spectators trailed the famous Atlantan through another brilliant march over the rolling foothills of the Orange Mountains this afternoon as he raced ahead of the pack to post a 73 for a medal-winning total of 148. But it was not until three hours later, with dusk settling down on the links battle ground, that they had the privilege of looking upon the day's most stirring struggle, with Francis Ouimet of Boston, hero of bygone days, and young Watts Gunn, Bobby's Atlanta foe in the final last year, fighting desperately for places in the match-playing field.

Four other players, M. B. Stevinson of Chevy Chase, Md.; Eddie Held of St. Louis; M. L. Massingill of Fort Worth, Tex., and Frank W. Dyer of Memphis, were grouped with Gunn and Ouimet in the post-round contest for the last five places in the list. And it was upon Ouimet that interest was directed, for only a year ago the bespectacled former champion in a similar test went down to defeat in the most stunning surprise of the season.

There was a breathless suspense as the popular veteran hooked his second shot of the six-cornered play-off into a trap at the left of the first green. Once more it appeared that grim fate was to reach out a detaining arm to brush from the struggle one of the most picturesque golfers of all time. But today

Tilden's Title Hopes Fading

FOREST HILLS (N. Y.) Sept. 14 (AP) Exhibiting the most erratic brand of tennis he has shown since becoming national champ six years ago, William T. Tilden limped to his second victory today in the title tournament at the Westside Club.

"Big Bill," still favoring his strained knee, had as much difficulty overcoming one of his young proteges, Nell Sullivan of Bethlehem, Pa., as he did yesterday in disposing of John Van Ryn, Princeton youth. The titleholder finding few of his strokes in

Angel Castoff Blanks Suds With Two Hits; Seraphs Beat Sacs

STARS CAPTURE SERIES OPENER

Elmer Phillips Shuts Out Seattle by 3-0 Count

Big Jim Elliott is Beaten by Hollywood Outfit

Les Sheehan's Double Puts Vittmen Out in Front

BY BOB RAY

Young Elmer Phillips, an Angel castoff, who couldn't win in the Western League or the Utah-Idaho circuit, proved to the Seattle Indians and a small but select crowd at Wrigley Field yesterday that he can certainly pitch winning ball in the Coast loop. All young Phillips did was to let Red Killefer's tribe down with two hits and hurl the Hollywood Stars to a 3-to-0 victory in the series opener.

Elmer Phillips

Phillips had to pitch good ball, for arrayed against him was Big Jim Elliott, Seattle's mammoth southpaw, who has turned in some twenty-three wins this season. Elliott allowed nine hits, but the support given him by his mates was anything but air tight. An error by Brady allowed one Hollywood run off Elliott, but it didn't make any difference anyway, because the Stars earned their other two scores.

Young Phillips had to pitch a lot better than the two hits off him would indicate, for he walked six men in the first five innings, and was in several embarrassing positions. However, with the aid of some nifty support by Len Pierrotti, whom the Stars bought from the Utah-Idaho circuit, Johnny Frederick and Les Sheehan, Phillips managed to hurl his way out of all the tight holes.

SUDS THREATEN

The Indians threatened to score in the opening inning when Brady doubled with one out, Callaghan popped to Lee, but Sherlock, whose suspension was lifted to let him get back at short, walked. Fussy Huff hit one several miles out in center, but Johnny Frederick dashed back and speared the ball with one hand to end the round.

Billy Lane opened the Seattle third with a double to left and Brady sacrificed him to third. But Phillips was equal to the occasion and Lane languished on third, while Callaghan and Sherlock wafted easy lofts.

Hollywood put over two runs in the home half of the third to sew up the contest, as after events proved. Phillips walked for a starter, but Kerr fanned. Lee forced Phillips at second and then stole the same sack, continuing to third when Joe Jenkins heaved the ball to center field. O'Doul walked and Les Sheehan followed with a double high up against the left-field wall that scored Lee and Lefty. Sheehan took third on the throw home, but died there when Elliott fanned Frederick.

STARS SCORE AGAIN

The Stars picked up their third run in the fourth, an error by Brady making possible the score. Les Sheehan opened the round with a double to left center and stuck around on second, while Pierotti fanned and Cook fouled to Jenkins. Phillips rolled an easy one down to Brady, but Cliff allowed the ball to roll right through his sawed-off shanks so Sheehan spurted home from second. Kerr fled to Lane for the third out.

Phillips walked Brady and Callaghan with but one out in the fifth, but Pierotti pulled him out of this hole with a nifty play. Sherlock slapped a hot one at the young Star third-sacker, who stepped on third to force Brady and then whipped over a fast throw to Leslie in time to double Sherlock at first.

After that inning Phillips was over his wildness and did not allow a Seattle player to reach first base.

Another one today with Sheriff Singleton scheduled to fling for the locals. Killefer will probably send Big Bob Hasty at the Stars. Score:

FORM SAN FERNANDO FIREMAN BALL TEAM

SAN FERNANDO, Sept. 14. (Exclusive)—Chief of Police H. B. Rice has salvaged the remnant of the Merchants' nine which figured in the San Fernando Valley League the past summer and has organized the San Fernando Fire Department team to take on all comers every Saturday and Sunday afternoon. The new team will be managed by Dutch Lyons and R. P. Scott. First workout will be held Saturday afternoon on the Porter-avenue diamond. The Cruz quartet of brothers will hold down positions as pitcher catcher, first and third bases.

SUBS FOR TOMMY O'BRIEN

Bobby Burns, who meets Baby Joe Gans at the Olympic tonight.

BOBBY BURNS FACES GANS

New Yorker to Bat for Tommy O'Brien in Main Event at Olympic Auditorium Tonight

BY KAY OWE

Bobby Burns, something of an unknown around these parts but said to be one of those rough, tearing-in fighters on the order of Johnny Adams, has drawn the assignment against Baby Joe Gans in the ten-round main event at the Olympic Auditorium tonight.

The newcomer takes the place popular lightweight around New made vacant by Tommy O'Brien, who fractured a bone in his right hand while boxing with Bobby La Salle at the Manhattan gymnasium Monday afternoon.

At first it was thought O'Brien had broken his hand, but later investigation revealed a fracture, which, it is said, will heal in a few weeks.

Probably the best bid to fame of Burns is that he has beaten Pal Moran and stopped Len Kemp, who defeated Charley Rosen in New York, before the latter moved out to Los Angeles as a member of Eddie Sears's stable.

Then Burns has whipped Harry Felix, who is said to be a very York.

While a fighter on the style of Johnny Adams, it is said for Burns that he hits much harder. He is 22 years of age. He came west with Ruby Goldstein and hails from New York.

Joe Levy, who was forced to make the substitution for O'Brien on the eve of Terrible Tommy's match with Gans, declares Burns's fight with Gans will be a great one—win, lose or draw. He has seen Burns do his stuff in the gymnasium, and believes he will adequately fill the bill.

"I would rather have the house dark tonight than put on a bum match," Levy declared.

WHAT'S GOING ON IN RIVAL CAMPS OF THOSE BIG BOYS

DEMPSEYS---

ATLANTIC CITY (N. J.) Sept. 14. (AP)—After a day of rest from the dreaded training grind, Jack Dempsey will resume work tomorrow in semiprivacy, with 100 or more newspaper correspondents and cameramen as the only spectators.

Jack Dempsey

The gates of the Greyhound Race Track, where the world's heavy weight champion is putting on the finishing touches, will be closed to the general public tomorrow and Thursday the champion will work out before the correspondents. He will declare another holiday on Friday and on Saturday will start the process of tuning up.

Dempsey says that by working in privacy, he can toss aside all caution or restraint without regard to the wishes of the spectators. He intends to try out certain styles of attack against the ablest of his sparring partners—Tommy Loughran, Big Bill Tate and Martin Burke. He does not care to be criticised for punishing them or instructing them to cut loose with their heaviest blows so he can determine himself how he will stand up under them.

The news that Judge Clinton H. Givan, in Indianapolis, had granted an injunction to the Coliseum Club of Chicago, restraining Dempsey from fighting Gene Tunney in Philadelphia, was received by the champion with a grin.

Dempsey and his business representative, Gene Normile, were inclined to laugh it off.

"What's another injunction to us," Dempsey said. "We've been getting them for breakfast, lunch and dinner. Another court tangle means no more to me than another flivver does to Henry Ford."

TUNNEY'S---

STROUDSBURG (Pa.) Sept. 14. (AP) Gene Tunney today enjoyed one of the most complete holidays he has fitted into his program since he began training for his championship bout with Jack Dempsey. The day was one of almost 100 per cent rest. He did a little less than eight miles of road work in the forenoon and called it a day.

GENE TUNNEY

Early in the afternoon the challenger and his manager, Billy Gibson lottered through nine holes of golf. Gibson won by one hole in match play and two strokes in medal play.

Tunney continued to hit long tee shots but his approaches and putts left something to be desired. He is still a great pugilist on the golf course.

With the trip around the golf course out of the way Tunney retired for a period of relaxation which lasted through the remainder of the day. He had no visitors and was able to get in some reading.

Tomorrow will send him back into the ring with boxing also in order Thursday. Ring sessions are planned also for Saturday and Sunday. Monday will bring a period of idleness and his last appearance before the bout will probably be next Tuesday. The contemplated arrangements now provide for a movement on Philadelphia one week from tomorrow with the challenger spending the night before the championship test in some quiet spot in, or near-by the Sesquicentennial city.

PRUETT BEATS COLE IN DUEL; ACORNS WIN

OAKLAND, Sept. 14. (AP)—"Shucks" Pruett won a southpaw pitching duel over Bert Cole here this afternoon when the Oaks defea. the Missions 4 to 3. Boone's home run with a man on base, gave the Missions a 3-to-2 lead in the eighth and the Oaks rallied in the ninth to win the game on a walk to Caveney, an infield out, a double by Pickering, batting for Fenton, and Lary's single to center. Score:

FORM SAN FERNANDO GRID TEAM PLAYS ALUMNI

SAN FERNANDO, Sept. 14. (Exclusive)—After a desultory week of skull practice Coach Jack Hughes will stage his gridiron amateurs on the alumni team at the local field tomorrow afternoon just as a tryout to see if there is any hope of whipping a gang into lone that will compare with the San Fernando Valley championship team of last year. Poppleman at tackle, Elam, halfback, and Capt. Rogers at quarter are his best bets. Claire Rogers will play opposite his brother, who is captain of the alumni team.

PLAN TWO TRAPSHOOTS

Two trapshoots will be staged at the range of the new El Sereno Country Club, Sunday, it was announced today by C. F. Merpail.

The first will be held in the morning at 10 a.m., and the second at 2:30 p.m.

Merpail expects more than fifty El Sereno members and guests to compete for the various prizes offered, which will go to the handicap winners at twenty-five "Blue Rocks."

PIRATES BEST

NEW YORK, Sept. 14. (AP)—The world's champions played championship ball today, shutting out New York, 5 to 0. Ray Kremer made it his eighteenth win of the season, allowing no hits until the seventh, when Frisch beat out a slow one to Grantham.

The victory gained ground for McKechnie's team in the pennant race due to the idleness of St. Louis. It was Pittsburgh's third win from the Giants in four games played in the series.

Hugh McQuillan, opening ceremonies for New York, took a fancy to the Pirates' bats, which landed on him and on Kent Greenfield, who relieved him in the first inning, for five hits and four runs. Waner's homer in the second concluded the scoring for the day.

Greenfield settled down and pitched steady ball until the ninth, when his duties were taken over by Poetz, a new man from Portsmouth, Va. Only three Giants hit Kremer, Frisch succeeding twice. Score:

PITTSBURGH	AB	R	H	O	A	NEW YORK	AB	R	H	O	A

SAN FERNANDO PREP GRID SCHEDULE OUT

SAN FERNANDO, Sept. 14.—San Fernando High School eleven tackles Burbank first on the official list this season, according to Jack Hughes. Following is the schedule for the local team: October 15, Burbank at Burbank; October 22, Van Nuys at San Fernando; October 29, Antelope Valley at Lancaster; November 5, Owensmouth at San Fernando; November 12, Harvard Military Academy at San Fernando.

RABBIT PUNCHES

BY PAUL LOWRY

AT LAST we have the low-down on the race for the football championship in the Pacific Coast Conference this year. Naturally we expected rival coaches like "Pop" Warner and Howard Jones to try to spoof the public about their material, but it kind of looked as if "Pop" got the best of the dark-horse scheme when he beat Jones to the gun and announced to the world at large that U.S.C. has the best material on the Coast and that Stanford and Washington have the second best. Jones's reply that "Pop" was incorrect and unethical, anyway, when he talked that way shattered some of "Pop's" smoke screen, but it was not until Albert Exendine, Occidental's new football coach, happened along that we secured the real low-down.

U.S.C. and Stanford will fight it out for the championship. That's what the wise old fox at Occidental says. It's funny we never thought to ask him before, because of all men on the Coast he probably knows the situation best and is unbiased. He coached at Washington State the past three years, and it was his Cougar team that unexpectedly upset the U.S.C. eleven in the Coliseum last fall.

* * *

His teams met all the northwestern teams besides California and U.S.C. last year, he has seen Stanford play and he knows the Warner system, having been tutored under it himself when he was a player at Carlisle and "Pop" was coaching the Indians.

Therefore, when Mr. Albert Exendine (who secretly favors Warner) says that the Coast Conference race lies between U.S.C. and Stanford we believe it, and we advise the good folks of this bustling metropolis to start buying their ducats for that championship clash between the Trojans and the Cards in the Coliseum six weeks from next Saturday. Exendine thinks that Washington lost half their strength when Louis Tesreau and George Wilson graduated last year, and he doesn't believe the Oregon Aggies, W.S.C., Oregon U. or any of the other Northwest schools have much of a chance with the Stanford and U.S.C. dreadnaughts.

* *

The Illinois Boxing Commission did a fine thing for the fight game when it took Charley Rosenberg's bantamweight title away from him and gave it to Bud Taylor because of alleged attempts on the part of Rosenberg and his manager, Harry Segal, to flaunt the commission's rules and to name the referee. In all probability, Taylor would have won anyway, although you can bet the little sharpshooter from Terra Haute would rather have taken the title in a toe-to-toe fight than have it handed to him on a silver platter.

Rosenberg held the title from March, 1925, when he won it from Cannonball Eddie Martin of New York. His record ever since has been shady. One of his title bouts in New York was labeled "in the bag," and his scrap with Doc Snell at the Olympic Auditorium last fall had a distinct odor. He lost on a foul to Snell, and it was freely rumored that his handlers bet plenty of short-end money that their fighter would lose. Rosenberg was a 2-1 favorite to win. As an aftermath of that bout Rosenberg was barred forever from fighting in California.

BUD TAYLOR IS NEW BANTY KING

(Continued from First Page)

have the forfeit in the hands of the commission last Saturday and again last Monday. His failure to do so resulted in today's drastic action.

From reliable sources it is understood political influence was being used to find out in advance who was to referee the contest. It is also known that heavy wagers had been made on the result and that there was considerable Rosenberg money in the loop in the last few days. Then there was a possibility of disorder around the ring should the fight be close and a decision given to either man. All these angles had an influence on the commission at its regular meeting today.

Rosenberg was barred in New York following his fight with Eddie Shea. The Empire State commission could not prove anything but barred the bantamweight champion on suspicion after several reports had reached the commissioners. Charley is also barred in California and if the National Boxing Association accepts the Illinois commission decision, Charley will not have a chance to defend his title in any State where attractive purses will be offered.

TAYLOR BOUT WITH GRAHAM PLANNED

CHICAGO, Sept. 14. (AP)—Promoter Jim Mullen announced tonight that he had opened negotiations for a fight betwen Bud Taylor and Bushy Graham here early in October.

Refunds on tickets for the Taylor-Rosenberg fight will be made immediately. Mullen said the advance sale had reached $50,000 today.

Double Up the Main Event at Harbor Arena

A double main event is the attraction for fans who attend the fights at the Wilmington Bowl tonight. Albert Jacks is to meet Art Emery in one-half of the top spot, while Joe Layman and Tony Tovar will hold down the other half. Both are expected to be slashing eight-round fights.

In the semi-wind-up of six rounds Joe Bell tangles with Sailor Envman. In the other two preliminaries sailors make up half of the arguments, Sailor Noto meeting Al Brown in four rounds and Sailor Boswell tangling with Kid Green, also four rounds.

Crandall Outpitches Vinci to Win Opener, 4-3

Marty Krug Swats Home Run With One on Sacks

Hundredth Victory of Year Hung Up by Angels

SACRAMENTO, Sept. 14. (Exclusive)—The league-leading Angels turned in their hundredth victory of the season today when they defeated Sacramento, 4 to 3, after ten innings of exciting baseball.

MARTY KRUG

The veteran Doc Crandall was on the mound for the Seraphs against Lefty Louie Vinci. Although each allowed seven hits Crandall got the better of the duel because of Vinci's wildness. The Solon portsider walked eight Angels and hit two, being in trouble on numerous occasions.

The Seraphs won out in the tenth when Wally Hood, who scored three of the visitors' runs, walked, was sacrificed to second by Jahn, and brought home when Marty Krug singled. Krug accounted for two other Angel markers by slamming a home run over the left field wall with Hood on the sacks in the sixth inning.

Krug's circuit clout put the Angels ahead, 3 to 1, but the Solons got to Crandall for two runs in the eighth and tied the score, forcing the Seraphs to go an extra inning for victory. The scores:

That Final Touch

When you light a Lucky Strike, you get more than the usual enjoyment which comes from an extra-fine cigarette.

You get the choicest Turkish and domestic tobaccos, properly aged and perfectly blended—and something more.

The extra goodness of Lucky Strikes is due to toasting—a costly extra process.

Lucky Strikes offer you:

1. *Finer Flavor.* Toasting for 45 minutes develops the hidden flavors of the world's finest Turkish and domestic tobaccos.
2. *Smoothness.* Toasting for 45 minutes removes all "bite" and harshness, hence never any throat irritation.
3. *Freshness.* Then the tobacco is suddenly chilled. This seals the flavor in and insures constant freshness.

If judged only by comparison of tobaccos, Lucky Strikes would be the best on the market. But the extra process is a final touch, making Luckies far superior.

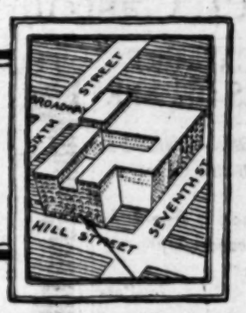
Bullock's Store for Men



THURSDAY (Not Today)

A Week-long Celebration During Which There Will be Distributed

800 very unusual Suits for Men and Young Men — $34.50

Making an Occasion of the First Anniversary of the Opening of Bullock's Store for Men on Hill Street

And if you could only peep behind the scenes and see for yourself the vigor and enthusiasm attendant upon this event you would not mistake its import—

Better still, if you could see the Suits themselves, and know the "reasons why" of this intense expectancy which focusses the thoughts of everyone on Thursday, September 16, and Bullock's Store for Men—

Remember Thursday (Not Today) At Bullock's

Note the price again—$34.50—and let it add greater stress to the fact that a great many of the fabrics are fine imported woolens!

It's true! It's true because Bullock's Store for Men is determined to put this event at a pinnacle of accomplishment hitherto unattained. So emphasize it—not merely that these suits are $34.50—but that they are the wonderful suits that they are at $34.50.

Therein lies the wonder of it—(it has been said that a great many of them were actually taken from wholesale stocks at more than Bullock's selling price of $34.50.)

Worsteds, Cassimeres, Cheviots, English Tweeds—light and dark shades—blue, grey and brown with silver stripes—mixtures—a perfect autumn roster—Single and double breasted models—notched and peak lapels—styles for the conservative dresser as well as the youthful type—regular long and cadet styled suits in sizes 33 to 44—

800 of them for one great distribution at $34.50—commencing Thursday—tomorrow—

Bullock's Store for Men—Hill Street Building

Local Golfers Tuning Up for Lake Arrowhead and Palos Verdes Events

FINE FIELDS IN BOTH TOURNEYS

Resort Invitation to Draw Many Local Stars

Palos Verdes Mixed Event Planned Sunday

Medal Tourney Will Follow Next Friday

BY BILL WISE

Three days of interesting golf competition under conditions that could not be more enjoyable, will be offered the more than 100 contestants expected to play in the thirty-six-hole medal invitational tourney opening at the Lake Arrowhead Club Friday.

The all-grass course is in wonderful shape and offers a test in keeping with the picturesque layout that promises to become one of the most popular resort courses in the West.

Beautiful trophies will be awarded the winners of both first and second low gross and low net, in the invitational. There will also be trophies for the winners of low gross and low net over the eighteen-hole route. Eighteen holes may be played each day, or thirty-six holes on any one day. The tournament is scheduled for Friday, Saturday and Sunday.

Many fine golfers from this vicinity will play through the event, which will offer an ideal let-down from the strenuous competition in the State amateur meet that concluded at Del Monte Sunday.

PALOS VERDES PLAY NEXT WEEK

More than 200 local golfers are expected to play in the invitational tournament of the Palos Verdes Golf Club, opening informally with a two-ball mixed foursome affair Sunday.

The main event will be thirty-six holes medal, to be played three days, starting one week from next Friday, and continuing through the following Monday. Eighteen holes may be played on two days or thirty-six, any one day.

The list of prizes is just about the most representative list of trophies ever offered in a similar local competition and will be awarded in the following classes:

Low gross and low net, 36 holes, 0 to 6 players.
Low gross and low net, 36 holes, 7 to 12 players.
Low gross and low net, best 18 holes, 13 to 18 players.
Low gross and low net, best 18 holes, 0 to 6 players.
Low gross and low net, best 18 holes, 7 to 12 players.
Low gross and low net, best 9 holes, 13 to 18 players.

The mixed foursome tourney should draw an entry of more than 100 couples. Palos Verdes, especially noted for putting surfaces, is rated as one of the best courses in the Southland and is within two brassie shots of the bordering ocean, within less than an hour's easy driving distance of Los Angeles.

Play in the medal event will be in foursomes and starting times for both the tournament proper and the mixed foursome event may be secured by phoning TUcker 3343. A. H. Painter will be in charge of competition activities.

COACHES AND CAPTAINS OF PACIFIC COAST GRID TEAMS

The old order changeth and backfield men are no longer alone picked as football captains. Linemen come in for the honor as regularly as the ball carriers these days as is proved by a glimpse at the statistics below. Honors are pretty evenly distributed, with the end being the least favored.

Institution	Coach	Captain	Position
U.S.C.	Howard Jones	Jeff Cravath	Center
Stanford	Glenn Warner	Grant Swan	Guard
California	Clarence Price	Bert Griffin	Full
Washington	Enoch Bagshaw	Geo. Guttormsen	Quarter
Oregon "U"	John McEwan	Harold Vitus	Half
Oregon Aggies	Paul Schissler	W. Schulmerich	Full
Washington State	Babe Hollingberry	Cliff Marker	End
Idaho	Charlie Erb	Not named	
Montana	Frank Milburn	Billy Kelly	Half
Occidental	A. A. Exendine	Vic Conde	Tackle
Southern Branch	Bill Spaulding	Chas. Hastings	Center
Pomona	Eugene Nixon	Bob Burger	Guard
Caltech	W. L. Stanton	Layton Stanton	Half
Whittier	Leo Calland	Oakley Morris	Guard
Redlands	Max Houser	Sandy McGilbra	Quarter
San Diego	C. E. Peterson	Dave Barnes	Tackle
La Verne	C. E. Arnett	Dale Brooks	Quarter
Loyola	Bill Hess	Jimy Tunney	Tackle

FOOTBALL SEASON OPENS

Brilliant Array of Veteran Talent Out as Local Elevens Begin Ten-Day Practice Session

(Continued from First Page)

tackle, and Jim Groenewegen, center. Purser and Hitch are said to be undecided as to returning.

BACKS MISSING

The outlook at Southern Branch is extremely rosy, despite the loss of many men. Coach Bill Spaulding has a fine line returning but is short backfield men. These ball-carrying gaps are destined to be filled by several promising sophomores.

The veterans due to report today are Capt. Charlie Hastings and Long centers; Rosy Wentzell and Devlin, guards; Jim Hudson, tackle; Julius Beck and Henderson, ends; and Scrib Bertenbach, quarter. It is also said that Bishop, a 240-pound end, will return. He made his letter two years ago. George Ray, a back, has dropped out, apparently as has Cy Walton, another ball carrier.

Coach "Fox" Stanton is slated to start work with eleven lettermen today unless some of the supposedly returning veterans fall by the wayside. Caltech's outlook is as good as any in the past three years and unless injuries hit the Engineers they should cut quite a swath in the conference.

Those who are expected to answer Stanton's first call are Captain-elect Layton Stanton and Copeland, backs; Jones, Peterson and George, ends; Heilborn, Mohr and Joujon-Roche, tackles; Folsom and Moore, guards; and Nickel, center.

Whittier should be just as strong as last year and by that we mean as strong as when the Tigers thumped Southern Branch unexpectedly. The Poets will be no 74-to-0 pushover for U. S. C. a week from Saturday. Leo Calland has thirteen lettermen to work with and they've been through the mill now whereas a year ago most of 'em were pretty green.

Last year's backfield will be back intact. Denny at quarter, Lewis Pendleton and Tom Phelan at halves and Martin Clark, fullback. On the line Calland will have Walter Wood and Howard Gillette, centers; Dumont Kimmel and Arthur Hanson, tackles; Craig Knox, Theodore Rasmussen and Robert Ashton, ends. Captain-elect Oakley Morris is the only veteran guard back, but several good men are out for the berth.

HAS VETERANS

Eugene Nixon may have a whale of a team at Pomona and then again he may not. He's got something like eleven veterans to start with, all of which sounds encouraging. However, most of them have had but one year's experience and therefore cannot be considered seasoned material. Time alone will tell how good the Sagehens are.

The regulars include Capt. Bob Burger and Lincoln Hall, guards; Fritz Fezmalhalch and Arthur Malach, tackles; Manley Natland, Willard Rew and Jack Cowan, ends; Jack Mandildi, quarter; Harold Merritt and Gerwin Neber, halfbacks; and Clyde Patton, fullback. Cowan did not play last season, earning his letter in 1924.

Redlands, under Max Houser and Ashel Cunningham, may take a new lease on life. The former is an ex-Notre Dame player while Cunningham used to coach at Redlands High School and was later at the university. He is well known to fans of that vicinity and they will have his confidence. Sandy McGilbra, the demon Indian, is due to return, while several good linemen are also coming back.

NEW MEMBERS

C. E. Peterson has eleven regulars under his wing today. They are Capt. Dave Barnes and Paul Avery, tackles; Paul Mott, Hollis Fitz, Jack Robb and Barkham Garner, ends; Charles Smith, guard; Kenny Johnson and Walter Deal, halfbacks; Ed Rpffa, fullback; and Morris Gross, quarter. Barnes, Gross and Ruffa are seniors while all the others are sophomores or juniors.

La Verne has a flock of veterans returning also. C. E. Arnett coaches the Pomona Valley aggregation and off-hand we'd say that his boys will be hard to beat. They may not win a lot of games but they'll make the going tough for their rivals.

LEWIS VICTOR IN MUNN BOUT

(Continued from First Page)

to toss Lewis into the audience several times, but unsuccessfully. The strangler successfully evaded his rival, either back-pedaling furiously, or getting into corners.

Lewis clamped several headlocks on his rival, but Munn demonstrated his immense strength, and broke these frequently. Lewis finally prevailed, however, and the ex-collegian went down.

Munn was still groggy when he came back to start the bout again, and proved easy for Lewis. The Strangler clamped on one of his deadly headlocks early, and Munn was pronounced down and out after thirteen minutes and fifty-six seconds.

"Toots" Mondt, the Colorado cowboy, got a combination scissors and jack knife on Mike Romano after some thirty minutes of alternate wrestling and ficticuffs, and pinned his shoulders to the mat. The official time was 33m. 50s.

The bout was a wild and woolly affair, with the chief participants clamping on holds with admirable frequency, and poking each other with healthy jabs about the body between times. "Toots," Mike and the bout itself were all generously cheered by the populace, some 4000 of which were present.

John Evko won the opener from Hans Bauer with a crotch and half-nelson in the fast time of 21m. 46s. Evko had the best of the engagement from the first.

PLAN SOCCER TILT

Chicago soccer fans may witness a game betdeen the Sparta F. C. of Prague, and the Bethlehem Steel-workers, national champions, at Soldiers' Field, October 10.

SQUASH FAVORITES WIN

No Upsets Mark Opening Day's Play in National A.A.U. Tourney at Hollywood Athletic Club

All the favorites won their matches in the first round of the annual National A. A. U. junior squash tournament now being held at the Hollywood Athletic Club. The tournament ends Saturday.

Matches started going at 10 a.m. in the morning and continued until last night. Fifteen singles games will be played today and then the doubles teams swing into action with eighteen games.

Owen Fontaine of the Birmingham Athletic Club was eliminated in a thrilling game in the first round when Hal Cooley copped two straight games 21-14, 21-17.

Bill Holman, squash champion of the Hollywood Club won his first match. Add Schauner of the L. A. A. C. also came through with a victory and should make his way into the finals if he gets any breaks at all. He meets Chet Cooper today in a game that should tell the story.

Yesterday's results and drawings for today follow:

W. W. Phillips defeated Charles Clark, 21-8, 21-6.
Bishop Kelley defeated Gano Chittenden, 21-8, 21-6.
Bert Roach defeated C. A. Read, 21-14, 19-21 and 21-17.
S. Blanc defeated Dick Ward, 21-4, 27-24.
Leslie Klawater defeated Ben Hendricks, 21-1, 21-1.
H. H. Scott defeated Don Cass, 21-8, 21-15.
Buck Jones defeated Frank Coffin, 21-7, 21-9.
Reggie Callow defeated Harold Goldsall, default.
Hal Cooley defeated Owen Fontaine, 21-14, 21-17.
Cy Pender defeated Dock Dickey, 21-19, 21-19.
Jones defeated Becker, default.
Frank Borrage defeated Abe Roth, default.
W. Jones defeated McInerney, default.
Bill Holman defeated Harper, 21-17, 21-9.
Woodhall defeated Gribben, 19-21, 21-19, 21-7.
Kenton defeated Keiler, default.
Frieske defeated Ferguson, 21-8, 21-12.
Flebbe defeated Shanholdzer, 21-15, 21-14.
Harper defeated Keszler, default.
Redwine defeated Frulich, default.
A. Jones defeated Drake, 21-14, 21-4.
Chet Cooper defeated Earl Stanley 21-19, 21-13.
Ad Schaumer defeated F. Carleton, 21-16, 21-9.
Read defeated Bailey, default.
Rasmus defeated Gill, default.

TODAY'S PROGRAM

12 noon—Jones vs. Phelps, Blanc vs. Keston, Bond Jones vs. Callow.
1 p.m.—Brandt vs. Henderson, Kelley vs. Jones.
12:30 p.m.—Cooper vs. Ad Schaumer.
10:45 a.m.—Flebbe vs. Klawater.
2 p.m.—Borrage vs. Hocker, Wilson vs. Ransome, W. Jones vs. Redwine, Frieske vs. Roach.
3:30 p.m.—Hartwell vs. Frankfort.
3 p.m.—Read vs. O'Brien.
1:30 p.m.—Coo Pender vs. Redwine.

PINKEY TO BE OWN BOSS

Pinkey Mitchell will be his own manager when he defends his junior welterweight title at Vernon next Tuesday night against Mushy Callahan. This was decided yesterday when the Milwaukee boxer applied for his license at the commission offices.

Billy will not reach here until the last of the week. He will be unable to work with Pinkey in his corner owing to the rule that one brother cannot second another.

Mitchell boxed four rounds yesterday at top speed in the Main-street Club ring. He is in fine shape, having fought five hard battles in the last two months. Callahan boxed six rounds at the Manhattan camp. He worked with Eddie Diggins and Johnny Holly. Mushy is timing his punches well and hitting hard.

POP WARNER'S LADS TURN OUT

Standford Gridders Answer Call This Morning

Powerful Line But Lack of Backs is Problem

Cardinals Bashfully Admit Hopes for Title

BY WILL FREDERICKS
"Times" Staff Correspondent

STANFORD UNIVERSITY, Sept. 14. (Exclusive)—Coach Glenn S. Warner will call together his Stanford clan Wednesday morning at 10:30 for the purpose of building what all Stanford hopes will prove the championship Pacific Coast Conference eleven of 1926.

Fans, of course, have heard of such hopes at Stanford more or less regularly during the last five seasons. There is nothing in the rules against hopes, however, and there is nothing unusual about those at Palo Alto, excepting, possibly, the fact that they are apparently more justified at present than those at any conference university save U.S.C.

While awaiting the opening Wednesday Warner has in hand the following roster with which he will check arrival of candidates for his 1926 machine:

1. Eligible men returning from the 1925 squad: centers—McCreery, Price, Natcher; guards—Capt. Fred Swan, Robesky, S. Post, E. Post; tackles—Poulson, Harris, Freeman, Everett; ends—Walker, Shipkey, Griesser, Moore, Vincenti; halfbacks—Bogue, Murphy, Hill, Hyland, Graves, Garthwaite, Trombetta; fullback—Patchett; quarterbacks—none.

2. Eligible members of 1925 freshman squad: centers — Vermilya, Cook; guards—Doyle, Ingram, Fleishhacker; tackles—Klabau, Moomaw, Artman, Tandy, Jones; ends—Worden, Harder, Rehrig, Way, Preston; quarterbacks—Lewis, Hulaman; halfbacks—Sims, Wilton, Marks, Frost, Hawley, Hoxie; fullbacks—Smalling, Kopp.

3. Miscellaneous: quarterback or fullback—John Millage of 1924 freshman; end—Hoffman of shot and discus fame; halfback—"Swede" Leistner of hurdling reputation; linesmen—Graham, Symonds and Kajanlan of last season's Goofs.

The fan who knows his football names doesn't have to glance twice to learn that Coach Warner's line is "ready." It should be the best the Cards have ever had, and one of the best in the conference.

There is, it may be noticed, an experienced letter man for every position in the forward wall save left guard, at which point Don Robesky of Bakersfield will improve the organization much more than he will slow it down the minute he steps into the line-up. A finished player, smart and trained in the Warner system, he is due to equal the work of Capt. Fred Swan at the opposite guard from the season's start.

Poulson, Harris and Freeman are first-class veteran tackles, while Walker and Shipley starred regularly at end last season. Two veteran centers complete the "Letter" line line-up.

If the conference title depended solely on line play Stanford could sheer unrestrained. Backfield is another story.

Under (1) above a fine absence of quarterbacks is noticed. Under (2) are found only two too light, former frosh candidates. Under the miscellaneous heading is one Mr. Millage, who, two seasons ago, looked the goods. He can kick, hit, pass, run, and back up a line with better than average ability. But he was out last season with a bad knee, which has since been operated upon, and he may or may not be ready this year.

The questions are, if Millage plays quarter, who will play full? Furthermore, if Millage plays full, who will play quarter? And furthermore, if Millage doesn't play at all, who in Sam Hill will play either position.

The answer isn't ready.

Murphy can play quarter, but is needed at half. Bogue could be a good bucking fullback, but lacks other qualifications. Walker, after a fashion, can play either post, and will probably be tried at both. Swan may be tried at quarter.

On the question as to how soon Warner can solve the problem satisfactorily depends Warner's chance to beat U.S.C., and with that chance the chance to win the Coast title.

Warner's four halfbacks, Bogue, Hill, Hyland and Murphy, have various and assorted abilities of satisfactory caliber, and when all four are available the backfield flanks may be made to serve well on defense or attack.

But until a quarter and fullback arrangement is completed, no one can tell if Stanford will or won't be a likely winning team, regardless of the strong line. The Cards, however, are almost certain to be a strong defensive team, whether or not they build a real attack.

SAILORS TO STAR AT MAIN-STREET SHOW

Saturday night at the Main Street Athletic Club should be a big night for sailors from the Pacific Electric gobs and an old favorite, Victor Kid Ponce, are on the club card. Ponce, who is one of the outstanding featherweights in the West, meets Joe Burns in the six-round main event.

Sailor Freddy Tondorf, Pacific Fleet's new welterweight sensation, will make his Los Angeles debut against Freeman Black (colored) in the four-round semifinal. Five other bouts are carded as follows: Bill Keosobian vs. Eddie Hubbeck, 145 pounds. Sammy Rothstein vs. Young Polo, 112 pounds. Paul Monticino vs. Eagle Thomas (colored) 116 pounds. Sailor Flannigan vs. Phil Blood, 130 pounds. Sailor Boswell vs. Sandy Garrison, 135 pounds.

FOUR NEW LEAGUES

E. H. Cleckner, manager at the Angelus Bowling Academy, announces that four more bowling leagues have organized for the coming season and will play at the Angelus alleys. The leagues are Union Oil Company, Pan Gas, Southern California Telephone Company and the Goodyear Tire and Rubber Company.

OBSERVATIONS

POP WARNER has just gone on record with a terrible wail about the forward pass and says that he thinks it is spoiling football. In all probability Pop isn't extremely serious about that because the forward pass has done more to popularize football than any other two features that have been introduced into the game. Pop, however, is the guy you might expect such a roar from since Pop is one of the strongest believers in the strong running attack and uses the pass comparatively seldom. However, Pop is quite a character. You never can tell exactly what purpose he has in mind when he springs one of those statements on you and it wouldn't be at all surprising if this happened to be a sort of a smoke screen ahead of a stronger pass attack this year.

* * *

Coach Exendine warns all and sundry to look out for Washington State this year. Of course, he thinks that the championship probably lies between U.S.C. and Stanford, but he regards the coming Cougar outfit as one of the finest in the history of the school. Not only is the whole team which defeated the Trojans last year back again but they have a great aggregation of sophomores, including several giant negroes. They have a tackle who weighs considerably over 200 pounds and a colored halfback weighing about 190 and as fast as a streak. Exendine thinks the Cougars will be the class of the Northwest this season.

Bill Tilden's injury on the eve of the national tennis championship tournament, unfortunate as it is for Big Bill, will add greatly to the interest in the affair since it reduces the ordinarily big edge that the title-holder seems to have over all his challengers. If Bill is not right on the top of his game he might easily fall a victim to any one of a half a dozen good men, including Johnston and Richards and the Frenchmen. Of course nobody ever knows how badly Bill really is hurt as he calls his histrionic ability into service and staggers painfully around, but somehow or other he nearly always manages to pull through and be victorious.

* * *

We are forced to hand it to the Illinois Boxing Commission for pulling the nerviest decision of the year in declaring Bud Taylor champion because Rosenberg didn't put up a forfeit. Our own guess is that this decision won't be taken seriously any place as it is pretty generally recognized that the only way for a championship to change hands is by actual combat. While a lot of people are convinced that Taylor is the champ's master, the fact remains that Taylor hasn't beaten him since he won the title and therefore hasn't ever taken it away from him.

* * *

The recalling of Art Jahn to the Cubs was to be expected as the big Angel outfielder has been a good deal of a hero all year. He is a good hawk in the field and socks the ball on the nose with considerable regularity.

ISSUE POMONA MOLESKINS

Thirty Gridders Run Through Light Practice in Preparation for Season's Opening Today

POMONA COLLEGE, CLAREMONT, Sept. 14. (Exclusive)—The advance guard of the 1926 Pomona varsity football team appeared today in brand-new uniforms for the first work-out of the 1926 season. Suits were issued to thirty men who went through a light unlimbering schedule and finished up. Coaches Nixon and Heath were not among those present.

Something like fifty varsity aspirants are expected to show up tomorrow when the registration and issuance of gridiron material is completed and the coaches are on hand.

Contrary to advance notices, the faculty axe has not yet fallen on several of last year's players. There will be ten lettermen returning tomorrow, with plenty of substitutes and a few promising men from last year's freshman eleven. Nevertheless there is a distinct air of uncertainty pervading the athletic circles of the college concerning this year's team.

Coach Earl Merritt will also sound the call for freshmen tomorrow. More than forty are expected to turn out among whom there are plenty of former high school stars, including three of the four backfield men from Pomona high school last year. Merritt has not finished giving out suits or his men would have worked today. He plans to start them against some high school team October 2. Their schedule includes trips to San Diego and up north.

NET SUN SETS FOR BIG BILL

(Continued from First Page)

consistent working order dropped the first and was given a lively tussle before he gained control sufficiently to pull out the match at 4-6, 6-4, 6-2, 6-1.

Sullivan frequently outdrove the champion in their back court exchanges and might have given his famous rival more trouble had he employed the sort of drop shots and slices that Van Ryn yesterday used to such advantage. Tilden remained anchored on the base line almost from start to finish and gave every outward evidence of suffering from pain on the few sorties he made to the net.

With Tilden still off form and his bid for a seventh championship fading, the other fifteen tournament survivors reached the third round in a series of hard-fought matches that produced numerous upsets.

The most conspicuous of these eliminated Japan's two foremost threats. Takeichi Harada, Nipponese ace, was overpowered by the fiery attack of Dr. George King of New York in straight sets, 6-4, 8-6, 8-6, while Tsumio Tawara, another Japanese Davis Cup performer, was put out by Arnold W. Jones of Providence, R. I., in five sets, 2-6, 6-4, 1-6, 6-3, 6-1. By his victory Jones gained the right to oppose Tilden tomorrow.

Harada's downfall was the biggest upset so far. The Japanese has numbered "Little Bill" Johnston among his victims this year and was the star of the Davis Cup inter-zone finals, defeating both Rene La Coste and Henri Cochet. Weakness of his backhand and unsteadiness at critical moments under King's terrific bombardment cost him today's match.

Another "seeded" entry faded from the competition when Alfred H. Chapin, Jr., of Springfield, Mass., erstwhile conqueror of Tilden and a Davis Cup team candidate fell before the hard hitting of Francis T. Hunter, New York veteran, 6-2, 5-7, 8-6, 6-3.

Among Tilden's foremost rivals, William M. Johnston had a day of idleness through default but both Vincent Richards and Rene La Coste encountered some opposition before triumphing. Richards let down after a flying start and dropped a set before defeating George Lott, Jr., of Chicago, at 6-0, 6-3, 4-6, 6-4, while La Coste found Malcolm T. Hill, Boston youth, a stubborn foe after the latter had overcome his early unsteadiness. The Frenchman's victory was scored at 6-0, 6-3, 6-4.

Jean Borotra, the Wimbledon champion, also had trouble overcoming Watson M. Washburn, former Davis Cup player, at 7-0, 6-4, 6-3, 6-3, in a match that ended in semidarkness.

THOMPSON WINNER AT CULVER CITY

Jack Thompson, who disputes Coast negro lightweight honors with Baby Joe Gans, proved his claim to fame to Culver City fans last night, when he won from Charlie Pitts by a technical knockout in eight rounds. Pitts's seconds tossed in the towel to save their badly battered charge. Jimmy Fox won from Dick Bowers by decision in the six-round semifinal; Joe Cordoza knocked out Jack Lamson in [illegible] rounds; Young Kasadabian won from Jack Miller, technical knockout, four rounds; Solly Martinez and Coney Cantino went four rounds to a draw.

MERCURY HANDBALL STARTED

Forty-six Teams Entered in Doubles Tournament at Athletic Club

Handball starts at 9 o'clock this morning, when forty-six teams, the largest entry list ever carded for a handball tournament, get into action at the Los Angeles Athletic Club.

The fact that the pairings have resulted in some of the star performers being tied up with "duhs" adds a peculiar zest to the round-robin tournament. Every team entered must play every other team for the fine prizes offered before the tourney is over.

Ninety-two men, all in the pink of condition, can be expected to put on a great show, according to Charles Keppen, who closed the entry list last night. The men are to try out this morning without any idea as to what they may expect from the doubling up of the players they are to face. Each day the schedule of games and the result of the tryouts will be published on the immense chart prepared for the fray.

Win for Rivers Over Silva May Mean Gotham Go

Georgie Rivers can get a big shot in New York if he beats Teddy Silva in the main event at the Hollywood American Legion stadium Friday night. Charley McDonald, manager of Rivers, has had a wire from New York stating that Rivers is wanted back there if he is good enough to beat Silva. The fighters from Los Angeles who have gone east have been making good with a bang. They have delivered better than was expected of them. Fidel La Barba had little trouble in winning all his fights and Rivers is the only boy to fight La Barba for the title since Fidel has been the champ.

Frank Williams was made favorite to beat Jack Roper in the semi-wind-up. Roper and Williams put up a sensational fight at the Legion a few weeks ago and Williams won the bout. Roper is a good-looking fighter and so is Williams. Boxing men predict a good future for the boys. Williams must learn to hit and then he is going to be a main-eventer.

Princeton in Threat to End Harvard Pact

PRINCETON (N. J.) Sept. 14. (Exclusive)—Harvard's proposal to substitute a football game with the University of Michigan next year in place of the annual engagement with Princeton has piqued authorities at the New Jersey institution to such an extent that they are now threatening to cut off all relations with Cambridge.

It was revealed today by a member of the Princeton board of control that the absolute cessation of all sport contests with the Crimson is being considered.

Attempts are being made to smooth over the controversy and a meeting will be held within a few weeks, attended by the presidents of Yale, Harvard and Princeton, for that purpose.

GERMAN SWIMMER TO TRY CHANNEL AGAIN

COLOGNE, Sept. 14. (AP) — Ernst Vierkoetter, the German swimmer who recently broke the record for swimming the English Channel, but lost it a few days later to Georges Michel, has left for Calais for an attempt to regain his honors.

TAX REDUCTION FROWNED UPON

Coolidge Opposes Cut in Levy at Present

Government Guards Against Treasury Deficit

Lowered Expenses Object of Administration

PAUL SMITH'S (N. Y.) Sept. 14 (AP)—President Coolidge is opposed to a reduction of $560,000,000 in Federal taxes at the coming short session of Congress, as urged by Senator Simmons, Democrat, North Carolina, considering such a step unwarranted by present conditions.

With the government running on its present margin between expenses and income, the President believes any such reduction in the immediate future might require an extensive and perhaps inadvisable readjustment of arrangements for the disposal of the huge national debt. At the same time he favors reduction of taxes as rapidly as they can be brought down. He also favors paying off the public debt as speedily as possible, consistent with wise public financing.

Moreover, the President is not certain that the country demands an extensive tax reduction at this time. Certainly, he holds, those who are demanding cancellation of the foreign debts to this country would not favor it, as he believes both cannot go together. As for proposals that the foreign debts be canceled and taxes reduced, it was said in behalf of Mr. Coolidge today that they do not harmonize.

FAVORS TAX REFORM

The President has, from the first, it was asserted, stood for a program of reducing taxes and obtaining tax reforms under which it is expected the government will have a larger income by reason of an increase in business in reduced rates of taxation. He feels a further test should be given the present law before a further tax reduction is attempted.

It will be especially unwise, in his opinion, to reduce taxes now when business is good only to be forced to increase them when and if a business depression comes. Such an increase it was declared, will operate to retard a recovery of business from the depression.

At present, it was pointed out, there is only a slight margin between government income and expenses, and when there is taken in consideration the maturing obligations the Treasury is obliged to meet on account of the public debt, that slight margin is a deficit.

TRIES TO CUT EXPENSES

While the Treasury, for the first time, it was added, was able to meet those maturing obligations last June without borrowing, it has been forced to borrow for meeting the public debt maturities the 15th inst. The interest charges alone on the public debt are more than $600,000,000 a year and, it was said, any considerable reduction in taxes at present probably will require a substantial lessening in the allotments to the sinking fund that may react upon bonds issued to the public in a way to damage public credit.

Taxes can be reduced, it was said, in general, if the Chief Executive can keep expenses down. The President is attempting to do that, it was added, while he favors reducing taxes as rapidly as can be done in a way to permit a fair margin for taking care of any losses in government income that may be brought about by a shrinkage in private business.

COLOR URGED IN MALE RAIMENT

Chief of Britain's Tailors Cites Case of He-Men in Elizabethan Times

LONDON, Sept. 14. (Exclusive)—Should men wear brighter clothes? James Wendell, president of the National Federation of Merchant Tailors, who are holding their annual meeting in London, and whose dictates decide what is what in men's clothes, declares they should.

Citing the Elizabethan times, when he-men, such as the adventurous Sir Francis Drake and gentlemanly Sir Walter Raleigh, wore ribbons and velvet, Mr. Wendell laid down three axioms.

"The idea that color in men's clothes is a sign of effeminacy is all wrong," he declared. "The well-dressed man is the only visible form of prosperity. The Englishman is the best-dressed man in the world."

The conference decided that coats will be longer, the materials will be of bright hues and a slim effect will characterize the cuts.

Rivera Keeps Word to Spare Rebel Leaders

MADRID, Sept. 14. (Exclusive)—Primo De Rivera is carrying out his promise to deal as leniently as possible with the artillery officers who took part in the plot to overthrow his government. The Premier petitioned King Alfonso to commute the death sentence passed on the commander of the Artillery Academy at Segovia.

The court-martial on Monday pronounced this severe sentence because the commander's responsibility and leadership in the revolt were proved.

King Alfonso immediately commuted the death sentence. Thirty-three officers of high rank in the same corps were condemned to varying terms of imprisonment.

California Packing Corp. paid 100% Dividend this year! Postum Cereal Co.—out of its Profits—offered $77,000,000 for Cal. Pack'g Corp.—WHY?

By John E. Kennedy

HAIL to the "Del Monte" trade-marked Tin Can!
'Rah for the trade-marked "Grapenuts" and "Postum Cereal" packages!

These, well-advertised to Consumers, supply the logical reason for such prodigious Prosperity.

When Farmer Jones plants Wheat HE never knows whether he will receive 90 cents per bushel for it, or $2.00 per bushel.

But—the Postum Cereal Co. knows (in advance) the precise figure it will receive from Wholesalers for ITS Wheat and Barley in the "Grapenuts" package.

The Shredded Wheat Co. knows (in advance) the price it will receive for its Wheat—when shredded into its Trade-marked and Advertised Package.

The Peach Grower never knows, in advance, whether HE will receive the starvation price of $35 per ton for his Peaches, or the profitable price of $50.

But—the California Packing Corp. knows (in advance) the price it will receive for its Peaches WHEN put up in the trade-marked and advertised, "Del Monte" tin can.

This contrast in marketing conditions applies to practically all FRESH Fruits, and all bulk Farm products.

No Farmer or Fruit Grower who owns, and operates a SMALL Acreage can successfully compete—in Production Cost—with the 1,000 Acre, well-organized, and well-capitalized Farmer or Fruit Grower.

James Irvine of Santa Ana will MAKE money growing the self-same products on which John Doe will LOSE money.

GROWING Fruit economically is not enough!

Price Control, when we want to SELL it, is essential to Profit.

The Fruit Farm, like the Wheat Farm, must forever remain a Lottery so long as it lacks that "Balance-Wheel" which stabilizes the price to Consumers, thereby insuring satisfactory Profit from Wholesalers.

California Packing Corp. on May 18th, 1926, declared a Stock Dividend of practically 100%—in addition to its other dividends.

Postum Cereal Co. on Feb. 8th, 1926, increased its previous offer of $175 per $100 Share for all of the Capital Stock of California Packing Corp. to $185.00 per Share.

This represented more than $77,000,000.

Offer not accepted.

At a time when Farmers sought government aid, and Fruit Growers could not repay Advances from the Stewart Fruit Co. (forced thereby into Receivership,) that price-maintaining "Balance-Wheel,"—the trade-marked, advertised Package—provides the principal difference between Success and Failure.

The "Exchequer Fig Farm" Plan saves about 40% on Cost of Fruit

THE California Packing Corp. owns the largest Peach and Apricot Orchard in the World—4,000 Acres—six years old.

This represents, it is stated, about $2,500,000 investment to date.

On that Orchard it has planted its own type of Fruit.

It has Cultivated the land and Grown that Fruit, under its own direction, thereby producing, at first cost, the precise kind and quality of Peaches and Apricots best suited to its Canning purposes.

It picks the Fruit—grades it—and packs it in ITS OWN Tin Cans bearing the famous "Del Monte" label.

Next it Advertises these "Del Monte" Canned Peaches and Apricots to Consumers, thereby creating a demand, in advance, which Wholesalers are glad to supply at THE PRICE SET BY THE GROWERS, to-wit: Cal. Pack'g Corp.

Libby, McNeil & Libby owns and operates 3,000 Acres of specialized Asparagus, near Sacramento—on the same "Grower-to-Grocer" plan.

Earl Fruit Co. owns and operates 17,000 Acres of Fruit Lands, intending to apply this "Grower-to-Grocer" policy in an impressively large way.

The evident disadvantage to these Concerns in their application of this Policy, is the large amount of Capital "frozen" in LAND, in planting and bringing it to first Fruit crop.

The Capital of a Packing Co. should be "liquid"—ready for rapid Turnover several times per year.

Land OWNERSHIP "locks up" Cannery Capital.

"The "Exchequer Fig Farms" plan provides a Square Deal for the small investor.

It puts the Owner of One Acre on the same footing as if he owned, and efficiently operated, 1,000 Acres.

It lifts him out of Competition with other Growers of same kind of Fruit, and insures a uniform fixed price known in advance every year.

It gives him a Grant Deed, free and clear (with Title Co. Guarantee back of it) to one of the BEST pieces of Fruit Orchard in California.

That Orchard is in PROVEN Fig territory, within 3 miles of a thriving City, on a paved Highway, with the S. P. Ry. alongside it.

The 2,000 Acres of Exchequer Fig Farms practically ADJOIN the 4,000-Acre Peach and Apricot Orchard of the California Packing Corp. above referred to.

These 2,000 acres are now being planted to Certified Kadota Figs of the genuine TAFT lineage.

They will be Cultivated, Cared for, and brought into Fruit on Third year, by the best Nursery Concern in California, under bond.

Kadota Fig Orchards with 3 years cultivation and care, are now selling in Los Angeles at $1250 to $2500 and $3600 per acre.

But—under the Kennedy "Grower-to-Grocer" Plan "Exchequer Fig Farms," in thoroughly PROVEN Fig Territory, can be purchased by you now for $600 PER ACRE—part Cash.

No need to live on the land—to desert your present Vocation, or give up your present residence.

Because—these "Exchequer Fig Farms" have been converted into sound "Income Property"—suited to investment by City People who never intend to live on the Land—and who never should.

Leased for 25 years, to a responsible Canning Concern backed by five of the most reputable Business Men of California.

Men of high Integrity, worth more than $3,500,000—and otherwise well-qualified to command enduring success.

Six Hundred Dollars ($600) per Acre for Certified Kadota Fig Farms

TO the first EIGHTY Buyers of Exchequer Fig Farms, a proposition is here made which should ultimately net each of them $10,000 on every $1,000 they now invest.

This may sound "too good to be true."

But—so does the Earning of California Packing Corporation and of Postum Cereal Co.

We start selling TODAY, with a strong Sales Force—and ample Advertising appropriation.

The first EIGHTY Sales should therefore soon be consummated.

The Down Payment is $400 per acre.

That can be split into Eight installments of $50 each, when necessary, at some sacrifice to the Buyer.

One Thousand Dollars thus invested may reasonably be expected to produce $10,000—under this temporary offer. (Make us prove it.)

According to the Gilmore Gasoline Co.'s Report it costs, on average, 10¼ cents per mile to OPERATE a private Motor Car, of between $400 and $1800 Selling Price.

Ten thousand miles per year of moderate running therefore costs about $1025 per Year average, in Running Expense alone.

That same $1025 per year if SAVED and invested in this "Exchequer Fig Farm" proposition—may be reasonably depended upon to produce $10,000.

For each additional year of such Motor Car Self-denial—$10,000 "more" could be accumulated.

Do YOU want to add $10,000 to your Capital?

How LONG will it take you to do that, at 6% on $1,000?

Fill out and mail the Coupon today—if you would be one of the first Eighty Purchasers. Address:

9-9-26

ALMSHOUSES OF NATION SCORED

Investigator Finds System "Indefensibly Bad"

Says Stigma of Institutions Inhumane

Avers Delinquents and Poor Herded Together

BY FREDERIC J. HASKIN

WASHINGTON, Sept. 14. (Exclusive)—An indictment with thirteen distinct counts in it has been returned against the almshouse system by Harry C. Evans, who has just made a nation-wide survey of this class of institutions with the assistance of sixteen fraternal societies and the approval of Secretary of Labor Davis. The entire system is indefensibly bad, he says, and without a single redeeming feature. It should be uprooted and abolished.

The first charge which Mr. Evans lists against the poor farm is the same that Will M. Carleton, the Michigan writer, voiced several years ago in his famous poem, "Over the Hill to the Poorhouse." Carleton's aged woman wailed against being sent to the public institution because it placed the stigma upon her of being helpless and hopeless, and of having been abandoned by her own children.

"What is the use of heapin' on me a pauper's shame?" she asked. "Am I lazy, or crazy? Am I blind or lame?"

Mr. Evans says that it is an inhumane practice to set up a special place or building and label it, to which the unfortunate, intelligent poor must go or starve. He also criticises the practice of sending children to poor farms, of sending paupers to convict camps, of sentencing criminals to poor farms, and of sending hospital cases, the feeble-minded, the insane, the deaf and dumb, the blind, to poor farms.

POLITICAL SPOILS

"The poor farms and their helpless inmates are part of the political spoils of the community," he continues. "The superintendent, manager, or overseer of the poor is usually appointed because he will take the job for less pay than anyone else, and not because of his fitness for the job."

This results in the gross neglect of inmates, he finds, and leads to the contract system, under which the keep of paupers is let to the lowest bidder. Also, with inefficient and inexpert management there is a woeful lack of intelligent records showing the cost of maintaining the farms, the value and disposition of crops, conditions of buildings, necessary additions, repairs, and improvements, farm and building statistics, mental and physical conditions, and case history of inmates. Frequently feeble-minded and contaminating, diseased inmates, and those having hereditary diseases, are released without a record of their past or any control of their future.

TOO MANY ALMSHOUSES

This investigator condemns the maintenance of a large number of poor farms in a State, often one for every county, when a single State institution would render more efficient, more economical, and more scientific service. Frequently there are not as many inmates in one of these institutions as there are people employed in conducting it. For instance, a poor farm was found in Rhode Island that was being maintained to care for two old men. They were kept in squalid conditions at a cost that was three or four times the expense of caring for them in a larger and efficiently conducted home. In Kansas, there were forty-three poor farms that had not to exceed ten inmates each.

Similar conditions in Virginia have led to a recommendation from the State commission that county supervisors and the councils or other governing bodies of cities be authorized and empowered to enter into contracts with each other for the care of the poor. This would mean, in effect, that two or more counties or cities would combine their poor relief, work and maintain a single institution where two or more are now kept up.

Furthermore, it is contended that if a county or city contracts with another to care for its indigent it will see to it that the job is well done. There is a peculiar phase of psychology in this, but it is said that county supervisors, for example, who would be niggardly and indifferent in providing and maintaining an institution of their own, or their county's own, will be exceedingly exacting as to what a neighboring county does under the suggested contract arrangement. A county that houses its own poor in miserable shacks, filthy, verminous, and foully unsanitary, would not permit another county to take over the job and provide like accommodations.

STATE HOMES

In the matter of State rather than local institutions the point is made that in this day and age no State could or would set up a home for its indigent that was not scientifically planned and managed. It is also claimed that no State would establish an institution of which it could be said, as Mr. Evans says of the local institutions he has studied:

"The poor farm is our human dumping ground, into which go our derelicts of every description. Living in this mess of insanity and depravity, this prison place for criminals and the insane, are several thousand children and respectable, intelligent old folks, whose only offense is that they are poor."

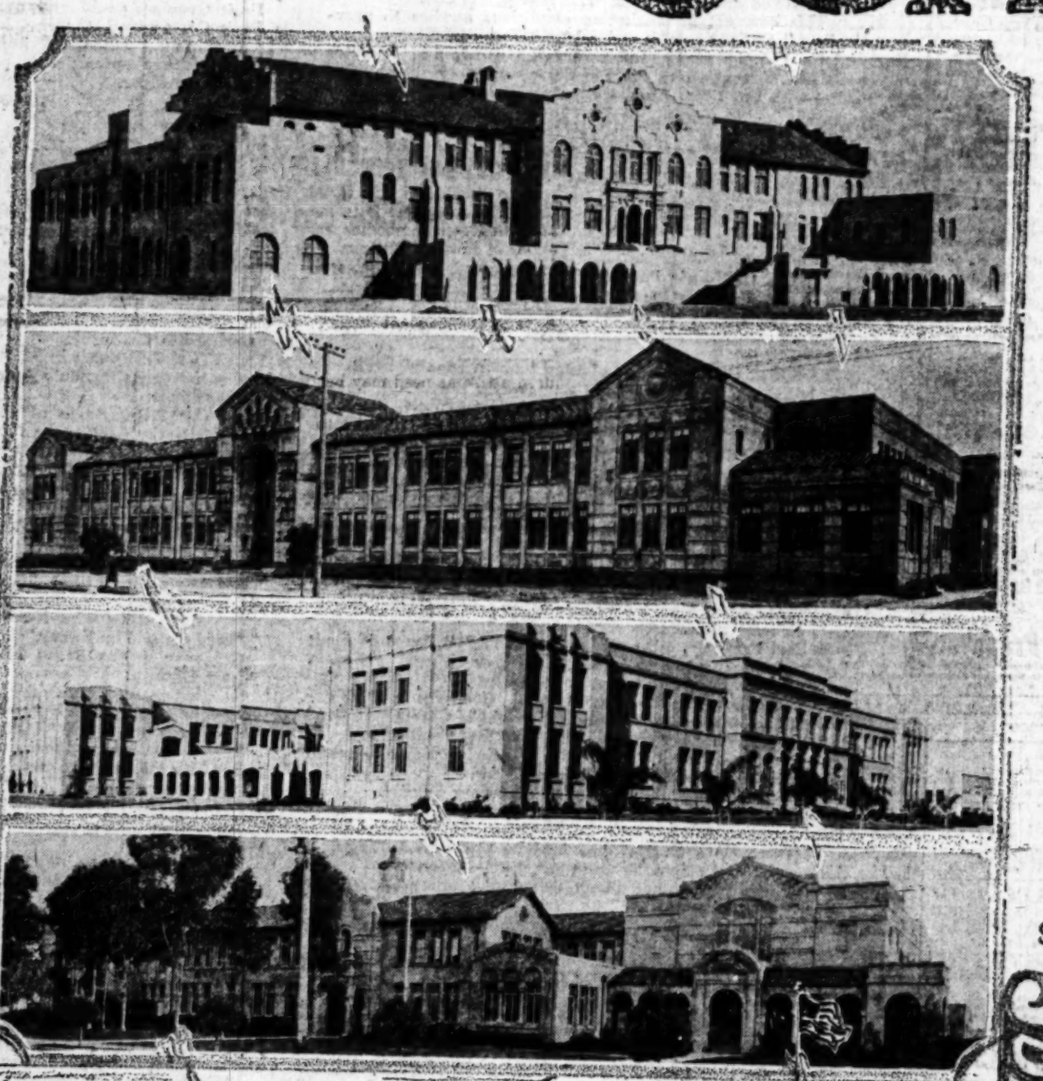
WORST ASPECT OF PROBLEM

This is generally regarded as the worst aspect of the almshouse problem—the herding together of those who are merely unfortunate and those who are deficient or delinquent. In Ohio it has been found that 75 per cent of the dependents are feeble-minded. In North Carolina the State Bureau of Mental Hygiene says the percentage is even higher. In Iowa, 45 per cent of the 3125 inmates of poor farms in 1924 were declared insane by the courts, and in twenty-one counties of that State the insane and the other paupers were not segregated.

In South Carolina, according to the National Committee of Mental Hygiene, only three out of 116 institutional paupers were mentally normal. In West Virginia there were 28 who were mentally normal out of 269; in Kentucky, only 5 out of 129; and in Arizona, 47 out of 175. Sixty per cent of the paupers in Michigan and 47 per cent of those in Wisconsin were said to be normal.

In some States paupers are sent to convict camps. In others, criminals are sentenced to poor farms. Even in Pennsylvania, according to the report, many short-term criminals—petty thieves, tramps, drunkards, and the like—serve their terms at the poor farms.

You and Your Children will be delighted with SAN DIEGO'S SCHOOLS



SAN DIEGO CITY AND COUNTY SCHOOLS are modern, well equipped and attractive . . . provide a comprehensive, finely balanced curriculum . . . and afford, with the additional asset of equable climate the year through, unexcelled outdoor conditions.

GAIN SHOWN IN BUILDING HERE

Labor Department Gives Survey Report

Home Construction Said to be Unusual

Employment Conditions in State Healthy

WASHINGTON, Sept. 14. (Exclusive)—General employment conditions for Los Angeles, Long Beach, Santa Monica, Ocean Park, Venice, Pasadena and Riverside indicate that activities in the building industry are gradually increasing, according to a report just issued by the Department of Labor.

An unusual number of residences, many apartment-houses, one at $1,500,000, the new twenty-eight-story City Hall Building, several schools and numerous other structures are under way, and about 10,000 workers will be employed. Work is to start immediately on the new Seventh-street bridge.

While a surplus of labor exists in every line, a little less difficulty is experienced in obtaining employment at this time than in the last few months. Metal tradesmen, machinists and die makers are reported in some demand due to a slight improvement in the industry coupled with an exodus of workers of this class when conditions were adverse to steady employment.

Most of the oil-tool shops are working two shifts; however, a slackening is noticed and it is expected that a few men will be released. A tool company at Torrance will operate on an overtime basis for possibly three months longer. The harvesting of walnut and bean crops and the pear crop will result in a greater demand for help, but the supply of farm labor will be more than adequate to take care of the harvest.

Employment conditions for the State in general show that there is an ample supply of labor available in this State for all industrial requirements.

Peak activities prevail in the fruit-packing industry. The harvesting of grapes and raisins, pears, prunes, walnuts, almonds, apples and summer crops is providing employment to large numbers of workers.

The lumber industry is operating on a good scale. A large volume of construction work is progressing.

Increased employment in the mining industry is apparent and large crews are employed at the larger copper mines in Plumas county. Prospecting for coal is under way in Shasta county, employing about twenty men.

WED BY PASTOR BUT NOT BY LAW

Hollywood Couple Enjoying Honeymoon While Minister and Two County Recorders Try to Untangle Ceremony and Wrong License

SACRAMENTO, Sept. 14. (AP)—Harold Noyes Enfield, 34 years of age, Hollywood real estate man, and his bride, Lois Lucie Curnutte, 24, also of the film metropolis, are enjoying their honeymoon "somewhere" and Rev. J. B. Renton, pastor of the Baptist Church of Mt. Shasta, Siskiyou county, is doing his best to unravel a puzzle.

Enfield and Miss Curnutte were issued a marriage license in Sacramento county, but were married by Mr. Renton in Siskiyou county, which made the parchment void. The County Recorder at Yreka, Siskiyou county, refused to record the license on the ground it was not issued in that county, so Mr. Renton forwarded it to County Recorder Root of Sacramento.

Root refuses to record the license and sent it back to the Baptist pastor on the ground the marriage did not take place in this county, where the license was issued.

Now it's up to Mr. Renton to settle the affair and legalize the Enfields' marriage under California law.

CAPT. ARTHUR J. HUTCHINSON

PALO ALTO, Sept. 14. (AP)—Capt. Arthur J. Hutchinson, 80 years of age, retired British army officer, died here today.

Angeleno Loses Appeal, So Must Hang for Crime

SAN FRANCISCO, Sept. 14. (AP)—Sydney Adams, who killed his wife in Los Angeles on August 2, 1925, must die on the gallows, the State Supreme Court decided today in denying his appeal.

EIGHT JAPANESE DIE IN TANKER EXPLOSION

YOKOHAMA, Sept. 14. (AP)—Eight members of the crew of the tanker Koyo Maru were killed in the explosion aboard the vessel in the harbor here yesterday. Four members of the crew are missing. All were Japanese. Besides the dead and missing were many injured. The loss of the ship is estimated at $500,000. The tanker was sunk to prevent spread of fire, but owing to the shallowness of the harbor, the hulk is half way out of the water.

Swiss Regulate Clothes in True Puritan Fashion

GENEVA, Sept. 14. (AP)—The Parish Council of the Alpine village of Blatten, in the Loetschental Valley has issued a ukase regarding women's dress, which should satisfy the most rabid puritan:

"The entire population, whether foreigners, tourists or natives, when using the roads and paths of the commune, must be dressed in such a manner as to comply with the dictates of common decency.

"The breast, the upper parts of the arms and legs must be covered with material that is not transparent. Skirts and trousers must be of sufficient length to cover, at least, the knees.

"For the first offense the fine is $10, which will be doubled in the case of a repetition."

The 'TRAY-MORE'
featured
in Los Angeles by R-O-S-S

A most desirable travel accessory. Its pristine newness is in itself most appealing. It embodies the latest style of design, fittings and conveniences. Toilet articles are neatly arranged in a separate folding EXPANDABLE tray, making in itself a very independent little week-end case with ample room for extra garments, party frock, slippers or kindred attire as need may be.

The *"Tray-More"* cannot help but boast of its superiority over the ordinary fitted tray case, designed as it is to adequately perform the arduous duties and support the rigors of modern transportation. It is roomy, strong and unbelievably light.

The *"Tray-More"* will be found exclusively at Ross'—developed in all the appealing new leathers and proudly displaying itself in a smartness of line and finish that will immediately impress your fellow travelers.

You may order ahead for the Holidays, selecting any combination of colors and leathers your fancy may suggest—and have the *"Tray-More"* delivered to the recipient the day before Christmas.

FOUNDED 1912
728 South Spring St. Los Angeles, Calif.

The lady and the slipper

They were going to a dance, were Lois and Tom.

Three blocks from the ballroom they joined the throng in the street. They were very happy.

In the middle of the first crossing, Lois groaned and sagged on Tom's arm. A man bumped into them. People stopped and looked.

Lois stood on one foot, all the happiness gone from her face.

"My heel! It came off in the track."

Since then Lois and Tom have always gone in a Yellow Cab.

It takes them privately right to where they are going. They don't waste time parking a car. They don't walk blocks through crowds. And it keeps her dress unruffled and her shoes intact.

Sometimes they stop on the way and pick up friends. Three others can ride with them for the one single fare.

It is a sign of the times that young men and women more and more use Yellow Cabs.

The cost is little.

CHEERFUL CHAFF

BY TIMES READERS

WRITE FOR THE "MOVIES" AND WIN CASH PRIZES

The Los Angeles Times produces a popular fun reel called "Cheerful Chaff," consisting of the twelve best jokes submitted weekly by readers. Twelve $1 prizes are awarded each week, the names and addresses of winners together with prize-winning jokes, appearing on the screen.

Everyone is invited to send in jokes. No formal letter is necessary. Just jot down your jokes, as many as you wish, sign your name and address, and mail to "Cheerful Chaff Editor," Los Angeles Times. Jokes for the screen must not exceed thirty words.

Meritorious jokes too long or otherwise not adapted for screen use, are accorded a place of honor on The Times' comic page, receiving a souvenir of acknowledgment.

"Why does an Indian wear feathers on his head?"

"Why, I guess to keep his wigwam."

Kathryn Bell, 1418 North Columbus avenue, Glendale, Calif.

Mother (to visiting friend:) No, I won't go to her bridge party. I am opposed to playing for stakes.

Child (thoughtfully:) Mother, why don't they play for lamb chops, instead?

Mrs. Norma C. Wayt, 2505 West Sixth street, city.

Teacher: Give me a sentence using the word "avaunt."

Johnnie: Avaunt yot avaunt when avaunt it.

Doris Winters, 1926½ New England avenue, city.

A Chinaman, when asked how he liked the weather, replied "Chile today, hot tamale."

Miss Ruth Ungan, 914 North Mariposa avenue, City.

Contractor: Don't you see that sign, "No help wanted"?

Colored Applicant: Yassah, Ah promised mah ol' woman I'd ask fo' a job today, an' dass why Ah applied.

M. R. Lusk, 219 East Washington avenue, Santa Ana, Cal.

Elsie: Mama, George Washington must have had an awful good memory, didn't he?

Mother: Why, my dear?

Elsie: Because everywhere I go I see monuments to his memory.

Mrs. Frederick A. Hill, 202 Monroe Place, Monrovia, Cal.

PTAIN SCRAGGS

THE GREEN PEA PIRATES

by Peter B. Kyne

...ward found his silken ea... ...me o' Scragg... ...ime to prosper. Your own ...ther, Scraggy. Ain't it ...ime, little imagina... ...ou get? We'll stand there ...ll night, an' a-pranc... ...ain't you got no ...Gib, a spectacle o' ...don't have to handle ...r Gibs at all. We'll ...r this barge an' tow ...

...e's gettin' o' the sort, ...don't say barge an' I ...ve it out o' my sight. ...your freight alongside ...ll forgive the freight ...e you to handle it."

"Thanks, Scraggsy!" ...plied Mr. McGuffey, ...ou mean it, boy? You know ...ve believe in the Vic...

Captain Scraggs ...s great was that of a ...ver. When he could ...ak his face was ghastly ...

...e looked sadly, "you got ...ve in me short. Don't ...ve me make us han... ...ome! It ain't right. ...ve to tow that barge— ...ve have your freight off the ...ll pull it up river for ...

...ther, Gib. You usen'... ...ur grateful like that," ...

...e barge free," wailed ...

...ent slowly down ...ed pull in a cigar. Na... ...ake him with a strong ...ing and the com... ...ental fortune both... ...ce. He squinted ...d of the cigar at Cap...

...e same old Scraggsy ...e good-pea trade. All ...e thing in your favor, ...ake you a blamed hog ...ve to wait an' soak ...ve in when you'd be ...ch to the job for ...r then you get the ...ives appeallin' to my ...ll low the barge

...e to make the transac... ...ll give you a dollar for ...e you have the barge.

Skip to it, Scraggsy, an' draw up a new bill, guaranteein' to tow the barge for one dollar. Then gimme back $499 an' I'll hand you back this receipted freight bill."

Captain Scraggs darted into his cabin, dashed off the necessary document, and returning to the deck, presented it, together with the requisite refund, to Mr. Gibney, who, in the meantime, had come aboard.

"Whatever are you a-goin' to do with this awful codfish, Gib?" he demanded.

Mr. Gibney cocked his hat over one ear and blew a cloud of smoke in the skipper's face.

"Well, boys, I'll tell you. Salted codfish that's been under water for a long time gets most o' the salt took out of it, an' even at sea, if it's left long enough, it'll get so durned ripe that it's what you might call offensive. But it makes good fertilizer.

"There ain't nothin in the world to equal a dead codfish, medium ripe, for fertilizer. I've rigged up a deal with a orchard comp'ny that's layin' out a couple o' thousand acres o' young trees up in the delta lands o' the Sacramento. I've sold 'em the lot, after first buyin' it from the owners o' the schooner for a hundred dollars. Every time these orchard fellers dig a hole to plant a young fruit tree they aims to heave a codfish in the bottom o' the hole first, for fertilizer. There was upwards o' two hundred thousand codfish in that schooner an' I've sold 'em for five cents each, delivered at Dunnigan's Landin'. I figger on cleanin' up about seven thousand net on the deal. I thought me an' Neils was stuck at first, but I got my imagination workin'——"

Captain Scraggs sank limply into McGuffey's arms and the two stared at the doughty commodore.

"Hit in the face with a fortune an' didn't know it," gasped poor McGuffey. "Gib, I'm sure glad you got out whole on that deal."

"Thanks to a mack o' imagination in you an' Scraggsy I'm about two hundred an' fifty dollars ahead o' my estimate now, on account o' the free tow o' that barge. Me an' Neils certainly makes a nicer little split on account o' this here codfish deal."

"Gib," chattered Scraggs, "what's the matter with reorganizin' the syndicate?"

"Be a good feller, Adelbert," pleaded McGuffey.

Mr. Gibney was never so vulnerable as when one he really loved called him by his Christian name. He drew an arm across the shoulders of McGuffey and Scragg, while Neils Halvorsen stood by, his yellow fangs flashing with pleasure under his walrus moustache.

"So you two boys're finally willin' to admit that I'm the white-haired boy, eh?"

"Gib, you got an imagination an' a half."

"One hundred an' fifty per cent efficiency," McGuffey declared.

Neils Halvorsen said nothing, but grinned like the head of an old fiddle. Mr. Gibney appeared to swell visibly, after the manner of a turkey gobbler.

"Thanks, Scraggsy—an' you, too, Bart. So you're willin' to admit that though that there seeress might have helped some the game would have been deader than I is if it hadn't been for my imagination?"

Captain Scraggs nodded and Mr. McGuffey slapped the commodore on the back affectionately. "Aye bane buy drink in the Bowhead saloon," The Squarehead announced.

"Scraggsy! Mac! Your first! We'll reorganize the syndicate, an' the minute me an' Neils finds ourselves with a bill o' sale for a one-quarter interest in the Victor, based on the actual cost price, we'll tow this here barge——"

"An' split the profits on the codfish?" Scraggs queried eagerly.

"Certainly not. Me an' Neils splits that fifty-fifty. A quarter o' them profits is too high a price to pay for your friendship, Scraggsy, old deceitful. Remember, I made that profit after you an' Mac pulled out o' the syndicate."

"That's logic," McGuffey declared.

"It's highway robbery," Scraggs snarled. "I won't sell no quarter interest to you or The Squarehead, Gib. Not on them terms."

"Then you'll load them codfish aboard, or pay demurrage on that barge for every day they hang around; an' if the Board o' Health condemns 'em an' chucks 'em overboard I'll sue you an' Mac for my lost profits, git a judgment again you, an' take over the Victor to satisfy the judgment."

"You're a sea lawyer, Gib," Scraggs retorted sarcastically.

"You do what Gib says," McGuffey ordered threateningly. "Remember, I got a half interest in any judgment he gits agin us—an' what's more, I object to them codfish cluttering up my half interest."

"You bullied me on the old Maggie," Scraggs screeched, "but I won't be bullied no more. If you want to tow that barge, Mac, you buy me out, lock, stock, and barrel. An' the price for my half interest is $5000."

"You've sold something, Scraggsy," Mr. McGuffey flashed back at him, obeying a wink from Mr. Gibney. "An' here's $100 to bind the bargain. Balance on delivery of proper bill-o'-sale."

While Scraggs was counting the money, Mr. Gibney was writing a receipt in his notebook. Scraggs, still furious, signed the receipt.

"Now, then, Scraggsy," said Mr. Gibney affably, "hustle up to the Custom House, get a formal bill-o'-sale blank, fill her in, an' hustle back again for your check. An' see to it you don't change your mind, because it won't do you any good. If you don't come through now I can sue you an' force you to."

"Ah! So you're buyin' my interest, eh?"

"Well, I'm lendin' Mac the money, an' I got a hunch he'll sell the interest to me an' Neils without figurin' on a profit. You're a jarrin' note in the syndicate, Scraggsy, an' I've come to that time o' life where I want peace. An' there won't be no peace on the Victor unless I skipper her."

Capt. Scraggs departed to draw up the formal bill of sale and Mr. Gibney, drawing the Squarehead and McGuffey to him, favored each with a searching glance and said:

"Gentlemen, did it ever occur to you that there's money in the chicken business?"

It had! Both McGuffey and Neils admitted it. There are few men in this world who have not, at some period of their lives, held the same view, albeit the majority of those who have endeavored to demonstrate that fact have subsequently changed their minds.

"I thought as much," the commodore grinned. "If I was to let you two out o' my sight for a day you'd both be flat busted the day after. So we won't buy no farm an' go in for chickens. We'll sell the Victor an' buy a little tradin' schooner. Then we'll go back to the South Seas an' earn a legitimate livin'."

"But why'll we sell the Victor?" McGuffey demanded. 'Gib, she's a love of a boat."

"Because I've just had a talk with the owners o' the two opposition lines an' they, knowin' me to be chummy with you an' Scraggsy, give me the tip to tell you two that you could have your choice o' two propositions—a rate war or a sale o' the Victor for $10,000. That gets you out clean an' saves your original capital, an' it gits Scraggsy out the same way, while nettin' me an' Neils $500 each."

"A rate war would ruin us," McGuffey agreed. "In addition to sourin' Scraggsy's disposition until he wouldn't be fit to live with. Gib, you're a wonder."

"I know it," Mr. Gibney replied. Within two hours Capt. Scraggs's half interest had passed into the hands of McGuffey, and half an hour later the Victor had passed into the hands of the opposition lines, to be operated for the joint profit of the latter. Later in the day all four members of the syndicate met in the Bowhead saloon, where Mr. Gibney explained the deal to Capt. Scraggs. The latter was dumfounded.

"I had to fox you into selling," the commodore confessed.

"But how about them defunct codfish, Gib?"

"I got the new owners to agree to tow 'em up at a reasonable figger. When I've cleaned up that deal, we'll buy a schooner an' run South again."

"You'll run without me, Gib," Scraggs declared emphatically. "I've had a'plenty o' the dark blue for mine. I got a little stake now, so I'm going to look around an' invest in a——"

"A chicken ranch," McGuffey interrupted.

"Right-O, Bart. How'd you guess it?"

"Imagination," quoth McGuffey, tapping his forehead, "imagination, Scraggsy."

Something told Mr. Gibney that it would be just as well if he did not insist upon having Scraggs as a member of his crew. So he did not insist. In the afternoon of life, Mr. Gibney was acquiring common sense.

Three weeks later Mr. Gibney had purchased, for account of his now abbreviated syndicate, the kind of power schooner he desired, and the inspectors gave him a ticket as master. With the Squarehead as mate and Mr. McGuffey as engineer and general utility man, the little schooner cleared for Pago Pago on a day when Capt. Scraggs was too busy buying incubators to come down to the dock and see them off.

And for aught the chronicler of this tale knows to the contrary, the syndicate may be selling in that self-same schooner to this very day.

THE END

Beginning tomorrow The Times will print the story of Elizabeth. She is a former Los Angeles girl, and said to be the most remarkable child in the world. The story of her life, written by her equally remarkable author-editor-mother, is a most interesting human document. Do not miss it.

"GRAND OLD MAN" OF BURLINGTON LINE DIES

OMAHA, Sept. 14. (AP)—George Ward Holdrege, 79 years of age, "grand old man" of the Burlington Railroad, who had retired after serving the C. B. & Q. for fifty-one years, died today. He was general manager of the lines west of the Mississippi River for more than thirty years.

Historical Entrance to Great Hall from Master's Court, Old Charter House; London.

The MAY CO.

Today! Our enlarged Fashion Shops combine in a featured dress event, at a specialized price. Hundreds of the newest Autumn frocks, just arrived from New York's foremost dressmaking establishment, in a pre-season selling at $29.50.

Accenting the Autumn Mode for

Tailored Hats

$10

Enter the tailored hat, for Autumn, in a new guise. Smartly modeled in black velvet or black hatter's plush—with graceful, sweeping brim and high draped crown and pinched or folded side crown, after the Paris manner! Grosgrain banded and bound—loose bow finish.

Youthfully smart and conservative—a charming complement to the tailored suit or smart Autumn sport coat.

(Millinery—Third Floor)

New Autumn Frocks of Youthful Spirit

The Misses' Shop

$29.50

In our greatly enlarged Misses' Shop—tomorrow—a group of smart new fashions, interpreting the Autumn mode in terms of youth. Last-minute enrollments in the school of fashion! In addition to an exceptional assemblage of afternoon and street dresses, we are showing up-to-the-minute tailored models for college girls. Crepe Satin—Friska—Canton—Novelty Wool Fabrics.

(Misses' Dress Shop—Third Floor)

Surpassingly Smart New Models in the

Inexpensive Dress Shop

$29.50

Styles that are new and utterly different. One and two-piece modes revealing the advance fashion features in a variety of smart ways. The tiered skirt accentuates the bolero chic. Bloused backs and Vionnet sleeves are conspicuous.

Front drapes, loose panels and contrasting sleeves—jabots and tunic effects lend diversity to the assortment. Lovely fabrics.

(Inexpensive Dress Section—Third Floor)

The Sports Dress Acclaimed by Paris

Sports Apparel Shop

$29.50

New silhouettes, new fabrics and new colors, identified with the latest Parisian modes, are here being shown for Fall in their every important phase and version. Smart simplicity is the keynote of the late models. Variously interpreted in the increasingly popular Jersey, friska, satin, silk crepe and novelty wool fabrics. Leather belts, cire braid trimmings, pin tuckings, pleated effects—excellent tailoring.

(Sports Apparel Shop—Third Floor)

Late Autumn Modes Arrive in the

Shop of Larger Sizes

$29.50

Surpassingly smart new modes for the larger woman, youthful in silhouette and fashioned from lovely fabrics.

A graceful, slender effect achieved by deft, artistic designing. Panels, tiers, blouse backs—effective use or reverse materials.

Vionnet and novelty sleeves, vestees, jabots. Pleats and side shirrings. Innumerable styles and colors—sizes 42½ to 52½.

(Shop of Larger Sizes—Third Floor)

Autumn Styles Call for Smart

Fur Trimmings

Wolf Collars—Several styles—$10 and	$13.50
Badger Collars—popular!	$23.50
Long Shawl Beaver Collars	$65

Black & White Monkey Fur Trimming—Long silky hair, rich glossy finish—1, 2, 3, 4 and 6 in. wide, $2.45-$15 yd.

(Fur Yardage—Second Floor)

NEWS OF SOUTHERN COUNTIES

UNIONS USING UGLY WEAPON

Place Boycott on Building at Santa Barbara

Assess Members for Entering Structure

May Halt Witnesses Called to Court

SANTA BARBARA, Sept. 14. (Exclusive)—Union labor officials of Santa Barbara are faced by a heavy damage suit unless a purported boycott against La Arcada Building, a $450,000 structure built on the American plan, is dropped. The building is located on the site of the old Catholic Church, at State and Figueroa streets.

According to tenants in the building the labor unions will fine any member of the union who enters the building and it is reliably reported that suit will be filed within a few weeks against Jay Smedley, business agent for the Building Trades Council, and a Santa Barbara City Councilman, for his asserted connection with the boycott. The owner of the building is Mrs. Hattie G. Stockton of Montecito.

Last week, when the County Supervisors found need for two additional Superior Court rooms pending construction of the new Courthouse, Mrs. Stockton offered them two rooms in the building at a monthly rental of $1 each. The Supervisors accepted the offer and court now is being held there.

A peculiar angle of the case is that Presiding Judge S. E. Crow was indorsed for election by the Building Trades Council, he being the only candidate that ever was indorsed by the union group. An effort has been made to settle the dispute out of court, apparently without success, it was reported at the building today.

Whether or not the unions will clash with the court and place a union man summoned to court in the predicament of paying a fine for violating the union order or going to jail for contempt of court, remains to be seen. It is reliably reported that union men have insisted on their sons severing connections with the Boy Scout organization because headquarters for the Scouts are maintained in the building.

In the building are located the most exclusive shops, while the upstairs is largely given over to lawyers' offices.

Girl Rushes to Save Life of Baby Sister

POMONA, Sept. 14.—While flames roared overhead and the roof of the burning house threatened to collapse at any minute, 16-year-old Grace Rider dashed in to a room where lay her 7-month-old baby sister and carried the little one to safety in a daring rescue which occurred at 10 o'clock this morning when fire nearly destroyed the Rider home at 808 West Fourth street.

The mother, Mrs. V. P. Rider, although ill, assisted in getting three other children out of the burning structure in safety. Before the fire was discovered it had gained considerable headway. The roof was a roaring furnace and the Rider family was not aware of their predicament until neighbors seeing the flames rushed into the house and warned them of their peril.

Mrs. Rider and her daughter were operating the washing machine at the time and the noise of this is thought to have drowned out the roar of the flames. The entire upper story of the structure is a total loss while water damage on the lower floor will be heavy. Considerable furniture was saved by the prompt arrival of the fire department. According to Fire Chief Showman defective wiring is believed to have caused the blaze as it originated in the attic.

Live Issues Discussed by Undertakers

PASADENA, Sept. 14.—The question of reapportionment of State Assembly Districts, suddenly injected into today's opening meeting of the California Funeral Directors' Association at the Hotel Maryland, temporarily threatened to disturb the equanimity of the gathering.

The need for reapportionment to give Southern California the representation that its population warrants in the State Legislature was convincingly pointed out by J. S. Sheldon of Hollywood in an address billed as "Business of Today."

No sooner had he finished his speech, however, when a northern delegate arose, attempting a vigorous rebuttal, and caused the chairman of the program committee, J. M. Brunner, to apologize for the "political tone" of the meeting When Sheldon apologized, several persons left the meeting ostentatiously, in apparent dissatisfaction. Sheldon also left.

Aside from this brief and unexpected feature, the convention meetings were devoted to welcoming the delegates, committee appointments and discussions of health measures and recent development in undertaking methods.

The convention will close Friday.

TELEPHONE MAN EARNS PROMOTION

INGLEWOOD, Sept. 14.—J. Morton Bidlake, for two years manager for the Inglewood district of the Pacific Telephone and Telegraph Company, today received orders to go to Ventura, where he will be district manager for the entire county of Ventura. This is considered here as a well-merited promotion. Mr. Bidlake, it is understood, is the youngest district manager in the Bell service. Despite his youth, during his sojourn here he has made an enviable record. The district has more than doubled in the number of phones in use, and last year it had the record of the greatest percentage of growth on the Pacific Coast.

KERN FAIR IS HOST TO THOUSANDS

Big Exhibition Opens Gate of One of Most Successful Events in County

BAKERSFIELD, Sept. 14.—With perfect weather, practically all exhibits in place, and an attendance that promises to hang up a record for an opening day, the big Kern County Fair today got off to a flying start. The flying start came literally at 1 o'clock when H. W. Catlin, well-known local aviator, flew over the grounds, dipped gracefully toward the earth and released a huge bouquet of flowers that fell in the grounds. Then came a series of stunts for the entertainment of the spectators. Following this, Mr. Catlin flew over the city and released five miniature balloons, each carrying two complimentary tickets to the fair.

Although the gates were not officially opened until 10 o'clock, many persons were unwilling to wait until that hour to begin their inspection of the big exposition, and several hundred visitors were on the grounds by 10 o'clock. From then on a constant stream of visitors passed through the gates, culminating in a huge crowd when the 4000 or more school children of the city began to arrive shortly before 1 o'clock.

The afternoon program began at 1:30 o'clock with a band concert in the grove and the massed singing of "County Called Kern," the official fair song, by the school children, led by Mrs. Burr Willard. At 2 o'clock the grandstand events began and were scheduled for the remainder of the afternoon. They consisted of pacing and running races, varying in distance from a quarter of a mile to a mile and a half, the races being interspersed with amusement number by the Fairiland Sunkist Revue, an organization which will supply twenty amusement numbers every afternoon and night at the grandstand events.

To Ask Pension for Old Indian Scout and Guide

RIVERSIDE, Sept. 14.—If plans now being formulated materialize, Fig Tree John, the 130-year-old mission Indian who served Gen. John C. Fremont as scout and guide during the Mexican War, will be relieved from the necessity of earning a livelihood by a pension from the government he aided eighty years ago.

Riverside Camp, Sons of Union War Veterans has interested itself in the case of the picturesque old Indian and are about to circulate a petition asking that the United States government provide a few dollars monthly for Fig Tree John. D. W. Lewis, head of the Riverside Camp announced the plans today, declaring that the petition will be presented to Congress when it next convenes.

Since the close of the Mexican War, old Fig Tree John has resided on a small ranch near Thermal in the Coachella Valley here. For more than three-quarters of a century, the Indian has cultivated his small acreage, subsisting largely on the products from his own land. He is assisted in working the small ranch by his son, who is said to be more than 75 years of age. The son, however, is reported to be nearly as feeble as his father, and the Union War Veterans believe that the two old men should be spared the necessity of producing their own food in view of the father's recognized service to the government during his younger days.

OFFICIAL AX VICTIM

Alhambra Patrolman All Dressed Up And No Place to Go

ALHAMBRA, Sept. 14.—William Magee is of the opinion that sometimes you can save money by being jobless. His experience of the past month proves it.

Magee became a member of the Alhambra police force four weeks ago. He walked his beat, looked at suspicious characters and attended to all the details of being an officer of the law. And, being a regular cop, he purchased a new uniform and belt and a revolver. His outlay for equipment amounted to over $50.

But Magee didn't know what was going on in the Council Chamber at the City Hall during the time the new budget was being prepared. The pruning knife of economy was being used and one of the items lopped off the city pay roll was William Magee, patrolman.

Today Magee was informed that he was just a plain citizen again. He walked out in, his new uniform, and he'll sell it or trade it for what have you.

BURGLARS VISIT STORES AT OJAI

VENTURA, Sept. 14.—Two stores at Ojai were robbed last night of about $3000 worth of merchandise and other valuables, it was reported this morning to the Sheriff's office. The stores robbed were Sprague's Cash Store and Hickey Brother's Hardware Store, the former suffering the greater loss, estimated to have been about $2000 worth of silks, dry goods, men's and women's clothing and other merchandise.

From Hickey Brothers Store there was stolen a quantity of shot guns, a case of rifles, a large quantity of mens' clothing, and other merchandise, estimated to total about $1000. Deputy Sheriffs Suytar and White who investigated the robberies this morning said on their return to Ventura this noon that the thieves evidently knew where to find the most valuable merchandise in each store, it being believed that both robberies were perpetrated by the same gang of thieves.

TEACHERS' COLLEGE OPENS

SANTA BARBARA, Sept. 14. (Exclusive)—Santa Barbara State Teachers' College started classes this morning with the largest opening day enrollment in the history of the institution, 304 students. According to President Clarence L. Phelps, the enrollment probably will reach 500 before the end of this week.

The college recently has been recognized by Columbia University and other large schools as an accredited institution and is authorized to grant A.B. degrees.

MUST BE A RAISIN IN IT

City of Fresno Calls Forth Complimentary Chat From Times Feature Writer

BY ALMA WHITAKER

FRESNO, Sept. 14.—On our way back from the High Sierras, our amiable host gave us five hours in Fresno—for our California spirit's sake.

I had, of course, been hearing about Fresno and grapes and raisin days, but I had an idea there must be something superior behind those superior grapes. Why that city even looked attractive in the dark, down in the railroad depot district on the occasions I had been rushed through it in former days.

But I really had not anticipated anything so utterly sumptuous as the California Hotel, where we popped our baggage at something to four, received a courtly welcome, and even the bellboys were perfect gentlemen. Our party included a couple of world travelers who might have been dlose about fine hotels, but we all "Oh-ed" and "Ah-ed" with that sense of coming into a fair and lovely haven, that only tired travelers can know.

We had been shown fairy lakes galore in the mountains but never a swim was permitted us. What were the chances of a swim in Fresno? Pooh, that was easy—an entirely luxurious public swimming pool awaited us—crystal clean and tonic clear—for a dime per person! Swimming in Fresno's pool in a stylish hired Fresno bathing suit is an experience to remember. But we had it all to ourselves—how could Fresno citizens let this gorgeous pool lie idle on a hot summer afternoon? Those of whom we inquired assured us that most people have their private pools so this one was "just for the boys." There's swank for you.

Perhaps a half an hour of Fresno's pool spread a glamour over the remaining (4½) hours. But from that time on Fresno seemed to be an enchanted city. The women of the party spent the hour before dinner strolling through its lovely shopping streets, gazing into its beautiful store windows. A country town! Perhaps. Fresno has all the charms and intimacy of a country town, with a fascinating soupcon of metropolitan insouciance thrown in. And dear heaven, what lovely girls they grow in Fresno—the home brand too. Half a dozen fairy elves I met were born and raised there, with heads that were attractive both inside and out, and clothes that would do credit to—well, the more discriminating portion of Hollywood.

Which reminds me, I saw branch establishments of Los Angeles shops there.

"Yes, and of course, they are very nice," smiled a Fresno matron, "but I am afraid they regard us as a little country town where they can sell the things that are not chic enough for Los Angeles." I insisted this could not be. No Los Angeles merchant who had ever visited Fresno could think that. Maybe some of them omitted a swim in Fresno's pool to stimulate their imaginations.

In the course of that stroll we saw as many stylish automobiles per citizen as one could meet anywhere. We also noted that Fresno shines at good city housekeeping—an essentially well-groomed city. And its morning and evening newspapers carry all the news. Its theaters run the latest plays and pictures. And oh, its policemen and merchants are delightfully polite. It has charming parks right in the middle of the city and it knows the value of shady trees and well-kept lawns and generous flower beds.

After that the epicurean dinner served at the hotel equaled the best to be had anywhere. Yes, even the menus were in French and the dining Fresnoans could pronounce the names of the dishes too and knew what was in 'em. Now it's all very well, you know, but even San Francisco and Los Angeles have to go easy on the French! We may regard Fresno as a hustling Rotarian town—but it has made time for the graces of life, both internal and external I am sure their Rotarians must have a dash of artist somewhere. Perhaps they have to live up to those gracious Fresno wives and discreetly attractive Fresno flapper daughters But Fresno men could talk about scores of things besides shipments of grapes and C of C. interests.

Five hours in Fresno just whets the appetite for more.

Gov. Richardson to be Guest at Riverside Fair

RIVERSIDE, Sept. 14.—Gov. Richardson today telegraphed the directors of the Southern California Fair that he will accept their invitation to be present and make a talk on Saturday, the 25th inst. The day has accordingly been set aside as "Governor's Day."

Special arrangements will be made to take care of the crowd expected to hear him, and interesting features have been arranged centering around the exhibits of Los Angeles county and the Los Angeles Chamber of Commerce.

GETS WINDFALL FROM INSURANCE COMPANY

POLICY HOLDER GIVEN $150 IN ENDOWMENT HE HAD FORGOTTEN FOR YEARS

VAN NUYS, Sept. 14.—Howard W. Kimble, who lives in a section east of here, is in $150, a sum he had no idea was his, until told of it today by H. V. S. Hubbard, local agent for an insurance company. Kimble has been paid the money. He regards it as a gift that dropped out of the skies, and will use it to defray the expenses of a later summer vacation.

According to Hubbard, twenty years ago Kimble took out an endowment policy of $1000. After paying premiums for three years Kimble quit, and apparently kissed the money good-by. After this, seventeen years placidly went by Kimble forgot all about the policy, but the company kept on thinking about Kimble, for several months ago the policy matured in proportion to the amount of money that had been paid in. Since then the insurance company has been searching high and low for Kimble. Hubbard finally located him in San Fernando Valley.

In settling with Kimble the insurance actuaries had to do some juggling to settle. They figured in his delinquency of seventeen years, conned over the three premiums that had been paid in and then authorized Hubbard to pay him $150 and call it quits. Kimble was more than satisfied.

FIRE DAMAGES SCHOOL

Flames Burn Lincoln Building at Bakersfield

BAKERSFIELD, Sept. 14.—Raging flames, which raced from the lower floor to the roof of the Lincoln grammar school at the corner of Beale avenue and Eureka streets, last night before the fire department was called into action, caused a damage estimated at $7000, before it was extinguished, late today.

The origin of the fire was undetermined, although it is generally believed that the flames started in a closet in the southeast portion on the lower floor. Prompt action of the fire department checked the flames before they had gained enough headway to leap from the old school building in the rear of the property to the new triangular structure, which faces on Beale avenue and Eureka street.

PLENTY OF DEER

CALEXICO, Sept. 14. (Exclusive)—Deer are plentiful in the mountains of the Lower California peninsula and hunting is fine, according to the report of Joe Hardick, who returned yesterday from a ten-day trip in the Laguna Hanson district, bringing back two bucks as evidence of his success.

Owing to lack of good roads, there are few hunters in the remote mountain area, said Hardwick, and game is easy to follow.

VENTURA, Sept. 14.—With every conceivable facility for the comfort and convenience of her guests in readiness, from a baby bungalow where mothers may check their offspring to an auto park of seventeen acres inside the grounds for motorists, Ventura is prepared to play host tomorrow to thousands from all parts of Southern California in her annual exposition, the Ventura County Fair, to continue five days.

The baby bungalow is a quaint little house just inside the main entrance, with a play yard inside an ornamental fence. Mrs. William Carr of this city and a competent staff of nurses will be in charge.

With three scenic paved routes to this city to choose from, the Ventura Boulevard by way of Calabasas, the Santa Susanna Pass route and the Santa Paula highway by way of Saugus, motorists from Los Angeles and vicinity will not be delayed by traffic congestion, fair association officials assert.

Since earliest days the opening of the fair has always been a festal occasion and tomorrow's festivities will exceed all past performances, with a grand parade from the City Hall to Seaside Park as the curtain raiser, to be followed by speeches by A. Camarillo, president of the fair association, Joseph Scott of Los Angeles and Col. William Hamilton Miller of Fillmore, and entertainment in the way of a Spanish festival.

Tomorrow is designated Ventura county homecoming day and Rotary day, with an elaborate series of events scheduled. The complete official program for the day follows:

10 a.m.—Parade, City Hall to Seaside Park.
10:45—Address of welcome, A. Camarillo, president fair association.
11:00—Address, "California," Joseph Scott of Los Angeles.
11:20—Address, Col. William Hamilton Miller, Fillmore.
11:45—Spanish festival, featuring Trinidad Gest dancers and singers, Mrs. George S. Fitzgerald in solos; California Serenaders, in songs and music.
12 m.—Opening all departments Rotary Clubs of Southern California barbecue in grounds.
1:30 p.m.—Opening racing program; 2:30 pace for $400 stake.
National Whippet Association meet starts, races between heats.
1:30-1:50—Opening solos, wild horses ridden with lone reps.
2:10—Second race, 2:20 trot, $500 stake.
2:40-2:50—Stunts in flying.
2:50—Apache Indians in "Devil Dance."
2:55—Riding wild steers, Bullbusting, Hank Pettis, Buff Jones, Ike Lewis, in trick roping and stunts.
3:35—Running race, $200 stake.
3:50—Wild horse riding by cowgirls.
4:05—Capt. A. H. Hardy in fancy rifle and pistol shooting.
4:20—Auction of ten wild horses.
4:15—Relay races.
4:35—Clarion races.
4:50—Free motion-picture show in entertainment pavilion.
7:30—Horse show opens in arena before grand stand.

DENIES INJUNCTION

BAKERSFIELD, Sept. 14. (Exclusive)—Denial of a temporary injunction to prevent the Frazier Mountain Park and Fisheries Company from using water in Cuddy Creek was ordered today by Judge Howard A. Peairs.

Thomas O'Brien seeks to restrain the real-estate company from utilizing an asserted source of water supply in the creek bed. In denying the temporary injunction and setting the final hearing for January 4 the court held that no damage was being done to the interests of Mr. O'Brien.

GOLDFISH CURE HEEBIE-JEEBIES

Nurseryman Says Watching Them Swim Is Remedy for Nervousness

CAHUENGA PARK, Sept. 14. If you feel tired and nervous and need a rest, sit down in your living room and watch the goldfish swim around in the family aquarium. The motion of the fish is restful, and is one of the newly-suggested cures for nerves.

Paul Weber who conducts the Weber Nursery on Ventura Boulevard, says the demand for fantail goldfish is the greatest the business has ever known, and he is selling lots of them.

"Most of my customers," Weber said, "tell me they keep aquariums because it is restful to look at fantails swimming around. One man told me that whenever he is extremely nervous he sits beside his fish until his nerves calm down, and then he is all right again until he gets another attack of the heebie jeebies."

PREPARE FOR ANNUAL STUNT

Orange County Service Men Celebrate Armistice

Street Pageant to Present Many New Features

Valuable Prizes Offered for Best Brass Bands

SANTA ANA, Sept. 14.—Meeting every two weeks since January 1 of this year the general committee in charge of the arrangements for Santa Ana Post No. 131, American Legion for the seventh annual Orange county Armistice Day parade has plans practically completed for the big event.

Representatives of several other American Legion posts in the county attended the meeting of the committee last night.

Eleven bands including the Santa Ana Municipal Band, the Fullerton Municipal Band, the Long Beach Municipal Band and several naval bands will be in the parade. A sixteen-inch silver trophy will be awarded the band taking first prize. A twelve-inch trophy will be awarded the band taking second place. Ten cups will be awarded the winners of the respective divisions in the parade.

The Santa Ana Chamber of Commerce will be in charge of the industrial section of the parade. The industrial floats will be parked in a vacant lot just north of Birch Park in the afternoon following the parade.

J. R. Hunt, manager of the Orange County Fair, has been loaned by the fair board to the American Legion committee to assist in making the parade a success. He will have charge of concessions. Effort is being made by the Elk lodges of the county to secure the crack drill team of Bakersfield, a winner at the last national convention, to take part in the parade.

Hereafter the committee will meet every Monday night beginning at 7:30 o'clock at the American Legion Hall. Jules Markel is general chairman. It is expected that the line of march will be twenty-five blocks long.

Sky Fiesta is Staged at New Mail Airport

BAKERSFIELD, Sept. 14—Ten airplanes aflame and millions of dancing lights from bursting rockets emblazoned the sky at the opening of the aerial carnival tonight at 11:30 o'clock. Numerous flood lights turned Kern air-port into a scene of fantastic beauty and a powerful searchlight played upon the performing airships as they circled over the crowds, awaiting the arrival of the first air mail planes in Bakersfield.

Festivities began promptly at 11:30 o'clock, allowing just time enough for the merrymakers at the fair grounds, to assemble at the airport, one mile north of the Beardsley school house on the San Francisco highway. Owing to a misunderstanding of the arrangements committee the time was originally announced for Wednesday night, but the planes left Los Angeles at midnight arriving here at 1:46 in the morning.

SEIZE BOOZE CARGO

Negro and Musician Relieved of Generous Supply

EL CENTRO, Sept. 14.—Francisco Negreta, Mexican, and John Mackey, colored, were arrested near Dogwood Canal, a mile east of this city. One hundred fifty pints of beer and fifty pints of tequila concealed in their car was confiscated by Deputy Sheriff Charley Freeman last night.

Both men pleaded guilty to possession and transportation of liquor when arraigned before Justice of the Peace Mayfield this morning. They will be sentenced tomorrow.

The arrest was made after the Sheriff's office had been tipped off that one of the largest auto cargoes of liquor ever smuggled out of Mexico had crossed the boundary, and was headed north toward Brawley.

The men said that the liquor was brought across the line by other parties, but refused to divulge the names of their accomplices.

SAN FERNANDO DOGS HAVE HAD THEIR DAY

SAN FERNANDO, Sept. 14.—By tonight every loose dog in San Fernando will have had his day, according to an edict handed down by the City Council last evening when it was decreed that every dog, licensed or otherwise, should be kept confined to the premises of the owner or else be picked up by the police department. The street superintendent constructed a large inclosure down near the city sewer farm to pen the canines. All dogs not claimed within three days will be dispatched to the happy hunting grounds.

The order came about as a result of several children having been bitten by a dog pronounced inflicted with rabies last week.

CHINESE TONGMEN HOLD PEACE PARLEY

SANTA BARBARA, Sept. 14.—A peace parley between tongmen of Santa Barbara county has been called by Chinamen of Guadalupe, to be held next Friday night at 6 o'clock.

The purpose of the meeting, according to invitations sent to officials, is to form a Chinese protective society. A letter accompanying the invitation is signed by Chin Yick Sun, purported to be the head of the Hop Sing Tong in California. It was this man who recently sued Sheriff James Rose in an attempt to prevent further raids on Hop Sing Tong headquarters in Guadalupe. He lost the suit.

NEW TEACHERS FOR POMONA

Miss Hope Tabor

CLAREMONT, Sept. 14. (Exclusive)—With the opening of Pomona College for the winter term today, the college offered its student body of 850 one of the most eminent small-college faculties in the West. This year's faculty body is numbered at eighty-two, including twelve new members.

Among the new members is Dr. George W. Hunter, lecturer in biological science, who is an international-ly known author of biological texts. Others who are coming to the college for the first time are Dr. Kenneth Duncan of Canton Christian College; Dr. Aubrey A. Douglass of the Harvard Graduate School of Education; Charles Fairman of the University of Illinois; Joseph W. Clokely, former head of the music department at Miami College, Ohio; Maj. G. A. Sanford of the War College, Washington, D. C.; Miss Grace Tigard of Wellesley; Miss Hope Tabor Ford of Wooster College, department of music; Thomas M. Beggs of Yale University; Dr. P. L. K. Gross of the University of Chicago; James K. Hall of the University of Oregon, and Paul Dudley of Pomona College and the University of California.

In addition to an enlarged faculty the new year opens with college assets totaling nearly $2,000,000, with increased equipment in the laboratories, and an extensive program of future development.

TEACHER ILL ABROAD

Member of Orange Faculty Unable to Return to Work

SANTA ANA, Sept. 14.—Percy Richards, director of music in the Orange schools and prominent throughout the country as a musician, is seriously ill in a hospital in Plymouth, Eng., according to a cablegram received yesterday in Orange by Frank Henderson, principal of the schools there.

The cablegram merely announced the illness of the music instructor and did not state particulars.

Richards left here for his old home in England immediately following the closing of schools for the summer vacation. He was re-elected to his position for this year and it was expected that he would be here in time to assume his duties. The cablegram explains his failure to arrive.

The wire advised that a letter was to follow, giving full details of the illness. Richards's mother is with him.

DIRECT TOURNAMENT

Pasadena Elects New Secretary for Annual Fiesta

PASADENA, Sept. 14.—Harlan W. Hall, Pasadena newspaper man and former publicity manager for the Tournament of Roses and annual East-West New Year's Day football game here, will be executive secretary in charge of all arrangements for this winter's tournament, directors of the Tournament of Roses Association announced today.

Hall will succeed Malcolm Fraser, widely known pageant director, who has managed the midwinter fete for several years, and whose contract with the organization expired this year. Only two other secretaries had served the association before Fraser. Mrs. Ruth G. Batow and the late A. J. Bertonneau, who was the original organizer of the now-famous East-West football contest.

The new secretary will handle the publicity for the pageant as well as the duties of executive secretary. He came here twenty-two years ago from St. Paul, Minn., and at various times has been connected with each of the three local newspapers.

FIRE DESTROYS PACKING-HOUSE

SAN FERNANDO, Sept. 14.—Fire of unknown origin destroyed a packing-house on the Southern Pacific property, opposite the police station, early this morning, the loss being approximately $10,000. The building was recently acquired by the Ward Fruit Company, Los Angeles.

The blaze was first discovered by workmen at the S. P. roundhouse near-by and Engineer Hoover quickly put an engine into use and pulled away a string of cars standing on the switch at the side of the building. No fruit was being packed at the building, the last work in the place being the packing of five carloads of cactus fruit belonging to P. Ferraris.

REDUCE TAX RATE

NEWPORT BEACH, Sept. 14. —Following the economy program inaugurated by the Board of Trustees this year, resulting in the budgeting of all funds and a saving of $8000, the City of Newport Beach has cut its tax rate for 1926-27 to 82 cents, as against $1.00 last year. The assessed valuation over the entire city has been increased about 20 per cent by the Board of Equalization, which has been in session for six weeks and which has just completed its labors.

NOTICIAS MUNDIALES DE ULTIMA HORA

NOTAS TELEGRAFICAS

Para Hoy Está Anunciado el Salto de Nueva York a Paris

NUEVA YORK, Septiembre 14.—De permitirlo las condiciones atmosféricas, el avión Sikorsky, que va a hacer la travesía aérea sin escala entre Nueva York y Paris, emprenderá mañana a las 6 a.m. el vuelo, llevando el gobierno de la nave el capitán René Fonck, ex militar francés, y yendo de piloto el primer teniente Laurence W. Curtin, de la Armada de los Estados Unidos. El teniente Curtin va en reemplazo del de igual grado Allen P. Snody, que se halla enfermo de bronquitis aguda en el hotel Roosevelt.

Los otros tripulantes, según información del capitán Fonck, serán J. Islamof, mecánico, y Charles Clavier, radiotelegrafista.

Se dió a conocer el plan de despachar mañana el avión, en un almuerzo ofrecido hoy al capitán Fonck en el hotel Roosevelt. Allí mismo hizo saber el capitán John W. Enocha, jefe ayudante del Tercer Distrito Naval, que el teniente Curtin substituiría al teniente Snody. Este último lleva tres días de estar en cama, asistido por un médico de la Armada, y parece que tiene el corazón ligeramente afectado.

Hoy en la tarde se le dio la prueba final al avión en el aeródromo de Roosevelt. El capitán Fonck les dio esta mañana una recorrida a los ajustes, y estuvo trabajando con el aparato anoche hasta ya tarde, arreglando los depósitos extra de gasolina y las ruedas auxiliares de atierre, y dejando enteramente lista toda la maquinaria.

Cuando emprenda el vuelo el aeroplano tendrá un peso de catorce toneladas, o sea, 8000 libras más de lo que ha llegado a pesar en vuelos anteriores. Por tal razón, se ha nivelado una faja de terreno de 150 pies de ancho y de una milla de longitud, a lo largo de la cual tomará el avión el impulso necesario para elevarse.

Los Pactos de Locarno Entran en Vigencia

GINEBRA, Septiembre 14.—Los tratados de seguridad y arbitraje de Locarno oficialmente han entrado hoy en vigor, tras haberse depositado en la secretaría de la Sociedad de las Naciones la ratificación de lo suscrito por todos los signatarios. Los representantes de las seis naciones interesadas se reunieron en la oficina de Sir Eric Drummond, secretario general de la Sociedad, y firmaron al pie de un protocolo en el que se hace constar lo del depósito y registro de los tratados. Hecho esto, cambiaronse felicitaciones entre los presentes.

Tomaron parte en la ceremonia, Sir Austen Chamberlain, de la Gran Bretaña; el ministro de Relaciones Briand, de Francia; el ministro de Relaciones Stresemann, de Alemania; el señor Scialoia, de Italia; el señor de Brouckere, de Bélgica; y el señor Zaleski, de Polonia.

El señor Briand dijo esta tarde que él y el doctor Gustav Stresemann, ministro alemán de Relaciones, procederán ahora a "hablar seriamente de negocios." Dio a entender que Francia estaba dispuesta a interpretar de una manera liberal las cláusulas del Tratado de Versalles.

Agregó el ilustre político francés que no podrá decir para qué fecha las de regresar a París, sino hasta tanto que se haya convenido en una base definitiva y necesaria para un acuerdo francoalemán.

NOTAS LOCALES

Mejicanos Arrestados por Contrabandistas de Inmigrantes Orientales

Ayer fueron capturados tres chinos y una terna de hindúes de casta elevada por los inspectores de inmigración de los Estados Unidos, en diferentes puntos del camino real que va de Riverside a Mejicali. Se trata de individuos introducidos fraudulentamente en los Estados Unidos por contrabandistas que han estado operando en mayor escala de lo que hasta aquí se ha visto a ese respecto, y que tratan de realizar fuertes ganancias con este tráfico de mercancía viviente.

En el Valle Imperial, cerca de Westmoreland, encontraron primeramente los inspectores Docstader y Shea un auto en el que viajaban Dharan Singh, Owhaju Ram y Begia Singh. Sobre dos individuos mejicanos, Reynaldo Murrieta y Fortunato Quiguiz, y una socia de ellos, Angelina Núñez, pesa el cargo de haber conducido estos chinos ilegalmente a los Estados Unidos. A las pocas horas de haber puesto a buen recaudo a las seis personas capturadas en este lance, los mismos empleados federales toparon con otro automóvil de inmigrantes extranjeros, esta vez cerca de San Jacinto.

Despertó sospechas ese vehículo cuando, a la luz de los faros del que le seguía, pudo verse que se apeaban de él y picaban soleta cinco hombres, al notar que se les aproximaba el auto oficial, dejando el de ellos abandonado a la vera del camino.

Dockstader y Shea emprendieron la persecución y pronto les echaron el guante a un mejicano y a un chino. Siguieron la pista de lo demás, y hallaron a un segundo chino en un establo. El tercer chino y un segundo mejicano fueron encontrados en un corrijo varias millas adelante, rumbo a Los Angeles. Los chinos dieron a las autoridades sus enrevesados nombres, y los mejicanos, a quienes se acusa de contrabandistas de orientales, dijeron llamarse Eusebio Castillo y Martín Díaz, ambos de Hanford.

EZRA MEEKER HONORED

Aged Pioneer Present at Unveiling of Statue of Himself

TACOMA (Wash.) Sept. 14. (AP)—Ezra Meeker, 95-year-old patriarch of the Pacific Northwest, this afternoon in life and in bronze faced a crowd of 5000 in Pioneer Park at Puyallup, where the Western Washington Fair is in progress. Meeker, with two-score members of his family, met with old pioneers for the unveiling of the Meeker memorial, unveiled at the conclusion of the ceremony as a monument to the frontiersmen who first brought the white man's energy and initiative to the North Pacific Coast.

In the crowd that gathered were Indian braves, descendants of the tribes that aided or resisted the white man's advance and old-timers dressed in buckskin suits and coonskin caps.

Y.M.C.A. HOTEL INCORPORATES

SACRAMENTO, Sept. 14. (AP)—The Young Men's Christian Association hotel of San Francisco, with capital stock of $600,000, filed articles of incorporation today with Secretary of State Jordan. Directors of the corporation include J. H. McCallum, San Francisco; Edwin V. Krick, San Francisco; Frank P. Nutting, Palo Alto; W. W. Dennis, Piedmont, and R. W. Blosser, San Francisco.

Wales Starts Latest Fashion of Pink Shirts

LE TOUQUET (France) Sept. 14. (AP) The Prince of Wales launched a new fashion when he stayed here during part of his summer vacation. The Prince was seen one day to leave the Golf Hotel wearing a pink shirt which had the sleeves cut off at the elbows. The Prince played a round of golf in this cool garb, and the news spread like wild fire.

The next day the shops in Paris Plage were raided for pink shirts, which appeared on the golf links with the sleeves cut short, but the supply of pink shirts was not equal to the demand, and the next day telephonic and telegraphic messages were sent to London ordering pink shirts by the hundred weight, to be sent to Touquet by airplane. They have since been all the rage, and the idea has been taken up even by the women players.

FINANCIAL

BANK OF ITALY RATE BOOSTED

Stock of Institution Placed on $18 Annual Basis

Represents Second Increase in Twelve Months

Strong Financial Position Reflected by Action

Another increase of $2 a share in the annual dividend rate of the Bank of Italy was authorized at the regular meeting of the board of directors held in San Francisco late yesterday afternoon, the rate now advancing to $18 annual basis.

This is the second increase in the past year and the tenth advance since the bank was organized in 1904. Beginning with a declaration of $5 a share, the bank has advanced the figure successively to $6, $7, $7.50, $10, $12, $13.50, $14, $15, $16 and to $18. In December, last, the rate was raised to $16. The new rate will become effective with the payment of the regular quarterly dividend on October 1.

The dividend increase will also affect the stock of the Stockholders' Auxiliary Corporation, which is owned share for share by the stockholders of the Bank of Italy.

This action of the Bank of Italy in increasing the annual rate to $18 reflects the excellent financial position of the bank, total resources of which on June 29, last, aggregated $430,856,535.69. Total capital investment of the Bank of Italy and the Stockholders' Auxiliary Corporation on that date was in excess of 047,-000,000.

In announcing the increase, the bank points out that the action is in line with its policy of allowing the dividend to keep pace with the permanent growth in earnings and giving the stockholders the benefit of the profits growing out of operating economies.

The Bancitaly Corporation owns a large block of stock in the Bank of Italy and has likewise shown large earnings in the current year.

Mortgage Firm Issues Report of Condition

Assets of the National Mortgage Company of California as of August 31, last, aggregated $5,591,736.91, according to the company's balance sheet just received from James Long Wright, president of Wright, Alexander & Greeley. Real estate loans amounted to $1,815,671.69 and real estate contracts were shown at $81,-256.48. Notes receivable totaled $418,-988.47.

The company's investment in the National Mortgage Insurance Company, a subsidiary organized under the laws of California, was reported at $313,006.25, covering $250,000 of capital and $62,500 of surplus and incidental expenses. Other investments are shown as $263,978.83. Net capital stock subscriptions totaled $2,479,779.55.

All of the company's $5,000,000 of capital stock is outstanding or subscribed for.

Directors of the company have just declared the regular semiannual preferred dividend at the rate of 6 per cent, and have authorized payment at the same rate to subscribers of preferred, who have not paid for their stock in full.

EARNINGS OF INVESTMENT COMPANY UP

Substantial Increase Over Last Year Period Indicated to Date

Should real-estate sales continue at the present rate for the balance of the current month, earnings of the Los Angeles Investment Company in the third quarter will show a substantial increase over the corresponding period of last year, according to a statement made yesterday by R. P. Ingold, auditor of the company.

In July, the company received $89,025 in oil royalty from the Standard Oil Company of California, and in August, $85,800 was received. The September payment, which is expected today, will be in the neighborhood of $83,000, Mr. Ingold said. This will bring the total for the quarter to $275,825, only slightly less than in the third quarter of 1925.

Sales of houses and lots of the company in July amounted to $118,-000, as compared with $102,000 in the same month of 1925. In August, real-estate sales amounted to $150,-000, as against $267,000 in August of last year. At the present rate, September sales will run well above $250,000, which compares with $129,-000 in September, 1925.

Well No. 66, now being drilled, is down about 1800 feet and should be brought in within the next two weeks, Mr. Ingold said. Total production from the forty-eight wells now producing is running about 12,-000 barrels daily.

Total resources of the Investment Building and Loan Association, which is affiliated in management with the Los Angeles Investment Company, on August 31, last, amounted to $75,-941.21, an increase of $116,187.87 for the month. The company was organized only last April.

FINANCING THROUGH PRUDENTIAL GAINS

TOTAL FOR HOME BUILDING TO EXCEED 1925 RECORD BY $25,000,000

NEWARK (N. J.) Sept. —Additional mortgage loans amounting to $18,841,761.50 were made during the month of August by the Prudential Insurance Company of America, according to a report issued here today by Archibald M. Woodruff, vice-president of that company in charge of its activities in this field.

Of this total $13,147,701.50 was on dwelling houses and apartments in the United States and Canada, for the accommodation of 3"66 families; $3,535,600 was on city property other than homes, and the remainder, $2,158,460, was in farm loans.

In the matter of lending its support to the great international effort toward better housing and the providing of homes for those who wish to own them, the Prudential has this year exceeded its record of 1925 by more than $25,000,000.

During the first six months of 1926 loans to the amount of $90,826,504.90 were made on 15,953 dwellings ann 976 apartments, housing 26,311 families. During the corresponding period of 1925, such loans totaled $64,489,796.80, on only 11,818 dwellings and 576 apartments, which accommodated 18,856 families.

STOCK RIGHTS VALUABLE

Corporation Partners Frequently Overlooked by Managements; Liberality Order of Day

BY EARLE E. CROWE

Stockholders' rights offered by the Merchants' National, the Hellman Bank, and the Bank of Italy, each amounting to valuable privileges, serve to emphasize the growing agitation throughout the country for a more liberal treatment of stockholders by the large corporations. As several observers have pointed out, management policies have been particularly generous in the way of wages, employee-stock plans, and reduction of prices to consumers. Yet the people who furnish the capital, the actual partners in the enterprise, have been regarded more in the light of unwelcome relatives.

From all sides, the United States Steel Corporation and the Atchison, Topeka and Santa Fe are assailed for their unwillingness to capitalize portions of their large surpluses by the issuance of stock dividends or the sale of new stock to stockholders below the market price. The latter policy has been followed frequently by corporations to the mutual benefit of the company and the stockholders, especially in the instances where the surplus is large. In numerous other instances, however, stock has been offered to stockholders that serves to capitalize potential earnings, and usually it has been successful.

OILS DUE SOON

Not much of an investigation would be required to discover a list of western corporations that have failed to accord equal treatment to stockholders along with employees and customers. The oil companies apparently have been too busy acquiring new properties through the exchange of stock to consider the offer of additional shares to stockholders. From the present size of oil capitalizations, there is not much hope of anything along this line for some time to come. The industry has relied on liberal dividend policies to keep the stockholders loyal, but dividends cannot be raised indefinitely. As the oil business swings more decidedly into the category of manufacturing companies, new policies will be in order, and then stockholders will be entitled to look for unexpected bonuses in the form of stock rights.

Perhaps the California utilities can rightfully be expected to reward stockholders before long. They are continuously expending large sums in construction projects, which can be capitalized by the sale of new stock to stockholders at a favorable figure. Some of the industrials also are in line for similar actions, especially if they hope to attract a permanent following for western industrial stocks.

RAILS IN LINE

Unless all the signs are wrong, the railroads will be mailing subscription warrants to stockholders before many months. Because of the unfavorable political situation in the last several years, rail financing has largely been in the form of bonds, resulting in an unbalanced ratio of funded debt to capitalization. Recent developments in earnings, however, have encouraged several of the companies with stock selling above par to consider the sale of new stock to stockholders. Roads like New York Central, Baltimore and Ohio, Atchison, Chesapeake and Ohio, and Southern Pacific is expected to place its stock on a $7 basis in order to hold the price above par and make the offer of new stock attractive.

Over a period of years the offer of frequent subscription privileges amounts to a distribution of genuine value to stockholders. One authority has proved this by computing the net annual yield on several stocks, including the dividend return and the market appreciation, spread as an annuity over a period of years. Assuming that all new stock offered was purchased, Baltimore and Ohio, between 1900 and 1909, showed a yield of 10.03 per cent; American Telephone, 6.8 per cent between 1901 and 1909; Great Northern Railway, 33.11 per cent between 1893 and 1909, and Canadian Pacific, 25.03 between 1901 and 1909.

Seaboard Bank Board Elects Boos Director

G. J. Boos, vice-president of the Boos Brothers' Cafeteria Company, was yesterday elected a member of the board of directors of the Seaboard National Bank, according to an announcement made by George L. Browning, president.

This action of the board was taken to fill the vacancy caused by the recent death of Horace Boos, who was president of Boos Brothers' Cafeteria Company and also a director of the Seaboard National Bank.

CONTROL OF CANNERIES ANNOUNCED

Sumner Preserving and Winters Company Bought by Hunt Brothers

Acquisition of the controlling interests in the Winters Canning Company and the Sumner Preserving and Vinegar Company by Hunt Brothers Packing Company, has been announced by officials of the latter organization. Officials also stated yesterday that the 1926 season's operations will show a substantial increase over the previous season.

Hunt Brothers Packing Company, together with its subsidiaries, will pack approximately 2,000,000 cases of fruits, berries, preserves and vegetables this season. To date actual sales are reported to exceed the entire pack of last year with the promise of commensurate profits.

The Winters Canning Company is located at Suisun with ideal rail and water shipping facilities, and ample supply of fruit, vegetables and labor to carry on operations. The business was organized twenty years ago and enjoys a wide distribution of its products throughout the United States.

The Sumner Preserving and Vinegar Company is located at Sumner, Wash., in the Puyallup Valley, where conditions are suitable for the manufacture and distribution of apple vinegar, cider and fruit juices. It has a plant capacity of approximately 60,000 gallons of apple vinegar.

Although the Winters company will operate as an independent unit this season, the same management, headed by George W. Edwards, is expected to continue its connection with the company under the new ownership.

Unsold Stock of Pacific National Going on Market

Public offering of the unsold portion of the capital stock of the Pacific National Company will be made today, it was announced yesterday by Fred Swensen, executive vice-president and director. The authorized capital of the company is $2,000,-000, of which $1,300,000 has been paid in, together with a surplus of $130,-000.

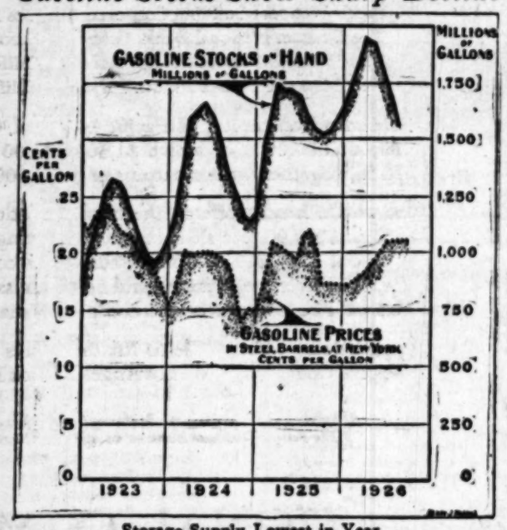
The Pacific National Company, which was organized for the mutual benefit of stockholders of the Pacific National Bank of Los Angeles, and affiliated companies, is a holding company for stocks of the Pacific National Bank; Pacific National Building Corporation of Los Angeles, the Graham National Bank, Graham; Florence National Bank, Florence, and the First National Bank in South Pasadena.

The stock is offered at $110 a share, $100 segregated to capital and $10 to surplus. No promotion fees are included and no commissions have been paid on the sale of the company's shares, Mr. Swensen said.

Application was filed yesterday for the listing of the company's shares on the Los Angeles Stock Exchange.

Officers and directors are E. M. Smith, president and director; James E. Long, vice-president and director; Fred Swensen, executive vice-president and director; A. M. DeLong, vice-president and director, and T. J. Crumpton, director.

Gasoline Stocks Show Sharp Decline



Storage Supply Lowest in Year

As a result of the sharp decline in gasoline stocks held in storage, supplies are at the lowest point reached since late last year and probably will drop further before production exceeds consumption in the autumn. The increase in supplies earlier in the year was less pronounced than in 1925, while the higher rate of consumption resulted in a more precipitate decline than last year. The accompanying chart, revealing the price trend, shows prices have been much steadier this year than in several preceding seasons.

[Copyright, 1926, by New York Evening Post, Inc.]

CALIFORNIA OIL ISSUES REPORT

Net Earnings in First Half-Year Up Sharply

Gain Over Similar Period in 1925 is 12 Per Cent

Capital Increase Cuts Stock Dividend Basis

Net earnings of the California Petroleum Corporation for the six months ended June 30, last, totaled $3,578,065.81, an increase of 12 per cent over the earnings for the comparative period of 1925. It was announced yesterday by Jacques Vinmont, president of the company. On the amount of stock now outstanding, earnings were the equivalent to $1.88 a share, which compares with $2.60 for the first half of 1925.

Increases in the outstanding capitalization since last year are advanced by Mr. Vinmont as the reason for the decrease in the earnings applicable to each share of stock. Not, however, registered a satisfactory gain, although a drop in the price of fuel oil of about 25 cents a barrel operated against a larger increase that was expected earlier in the year. He expects that earnings in the remainder of the year will probably bring the year's total to about the same as was reported for the twelve months of 1925, or slightly under $4 a share.

Gross earnings for the six months were $15,596,628 and operating expenses amounted to $7,299,700.41. Provision for depreciation, depletion, losses and intangible development expenses accounted for charges of $4,066,523.56.

California Petroleum recently added about 1400 barrels a day by the purchase of properties in Montana, bringing total production of crude oil to around 53,000 barrels. Since the acquisition these properties, the price of Sunburst crude in Montana has been increased 20 cents a barrel within the last ten days, the price now standing at $1.25. The company expects to increase its Sunburst output within the next week by the completion of a new well.

In answer to reports published in the East, Mr. Vinmont denied that the Montana purchase involved the addition of 28,000 barrels to the company's production. The formal announcement released here at that time placed the total production of the field at that figure, of which California Petroleum acquires a substantial amount and also contracts for additional oil from other producers.

Oil in storage, according to the six months' report, now amounts to 5,588,000 barrels.

Relative to organization changes, Mr. Vinmont announced the appointment of Harry Maddren, formerly with the United Oil Company, as general field superintendent.

The consolidated income account for the six months' ended June 30, follows:

Gross earnings	$15,596,628.60
Operating expenses	7,299,700.41
	8,296,927.59
Deduct:	
Provision for depreciation	1,282,424.75
Provision for depletion	730,772.17
Losses written off	844,871.33
Intangible development expenses	1,197,737.43
	4,066,523.56
Deduct:	
Interest and discount on bonds	688,097.93
	3,942,304.10
Deduct:	
Reserve for Federal taxes	864,239.49
Net profit	3,578,065.61
Surplus:	
Balance at January 1, 1926	19,467,131.36
Add:	
Net income, year to date	3,578,065.61
	23,045,196.97
Deduct:	
Dividends paid	1,866,427.23
Balance at June 30, 1926	$21,178,769.73

COPPER OUTPUT GAINS

NEW YORK, Sept. 14. (AP)—Production of copper by smelters in the United States for the eight months this year amounted to 1,274,218,0 pounds, against 1,259,990,000 pounds in the same period of 1925.

STEAMSHIP SECURITIES OUT

Bankers Offer Issue of $18,000,000 Gold Bonds for Canadian Company; Bay City Water Liens on Sale

An issue of $18,000,000 Canada Steamship Lines, Ltd., first and general mortgage 6 per cent gold bonds, series "A," due October 1, 1941, will constitute the bulk of new financing to be offered in this market today. Other issues, however, include $1,000,000 city and county of San Francisco 5 per cent water bonds and an issue of 80,000 shares of Pacific Coast Biscuit Company preferred stock, convertible and participating.

A banking group headed by Kissel, Kinnicutt & Co. and Blair & Co., Inc., and including the Union Trust Company of Pittsburgh, Bank of Montreal, the Royal Bank of Canada, Nesbitt, Thomson & Co., Ltd., and Wood, Gundy & Co., Ltd., will offer the Canadian liens at 97 and accrued interest to yield more than 6.30 per cent.

The purpose of this financing is to reimburse the company's treasury for capital expenditures incurred in the acquisition of the capital stock and assets of the George Hall Coal and Shipping Corporation and the physical properties of the Great Lakes Transportation Company, Ltd., and to retire the outstanding balance of its twenty-year first mortgage collateral sinking fund 7 per cent gold bonds in the amount of $5,104,207 and for other corporate purposes.

SECURITY GIVEN

The bonds will be secured by a first mortgage on recently acquired properties, having a total value after depreciation of $14,000,000, and by a second mortgage on steamships, real estate, and other properties having a total value after depreciation of $21,-895,076, as of March 31, last, and subject to a prior mortgage to secure the company's 5 per cent debenture stock outstanding in amount of $4,-853,278, thus leaving an equity of $17,041,798.

The company is obligated to make sinking fund payments which will provide sufficient funds to purchase all the 5 per cent debenture stock by 1936 and upon discharge of the 5 per cent debenture mortgage, this issue will become a first charge upon all the properties of the company.

Canada Steamship Lines, Ltd., was formed in 1913 by the consolidation of ten steamship companies, and, together with its predecessor companies, including the Richelieu and Ontario Navigation Company, has been established in successful operation for eighty years. The company owns valuable passenger and freight terminals, wharves, docks, warehouses, hotels and coal handling facilities at various places on the Great Lakes and the St. Lawrence River; also a 4,000,000-bushel grain elevator, situated on leasehold property.

WATER BONDS OUT

The issue of water bonds of San Francisco will be offered today by Halsey, Stuart & Co., R. W. Pressprich & Co., and Blyth, Witter & Co. The bonds mature serially January 1, 1930 and 1969, inclusive, and are priced to yield from 4.30 to 4.35 per cent according to maturity. The bonds are authorized for waterworks purposes and constitute a direct obligation on the city and county of San Francisco and are payable from taxes levied against all taxable property therein. They are legal investment for savings banks and trust funds in California, New York, Massachusetts, Connecticut and other States.

The preferred shares of the Pacific Coast Biscuit Company, will be marketed by George H. Burr, Conrad & Broom, Inc., Bond & Goodwin & Tucker, Inc., Anglo & London-Pa n Company, M. H. Lewis & Co., Alvin H. Frank & Co., Carstens & Earles, Inc., and Bayly Bros., Inc., at 48½ per share to yield 7.22 per cent.

The bankers announce also that a limited amount of common stock is available for public subscription at $16.50 a share. The preferred is convertible at the option of the holder at any time until any date specified for redemption into common shares on the basis of two shares of common for one share of preferred.

STATUS OF STOCKS TOPIC

Recent Market Sessions Held to Bear Out Conclusion That Prices at Present Are Near Top

BY PAUL WILLARD GARRETT

[Copyright, 1926, by New York Evening Post, Inc.]

NEW YORK, Sept. 14. (Exclusive)—Efforts to put stocks up have not been abandoned by the speculators, but the repeated failure of recent attempts make it plain that the market has entered a new phase.

Whether prices on the stock exchange ultimately will resume their upward course or turn definitely downward is not as yet clear, but the rise for the time has been effectively checked. The long and skilfully managed advance that began about the middle of last May continued until the record high levels of early 1926 were about reached. Progress from that point became exceedingly difficult. Markets have a way of changing character very quickly sometimes, but recent sessions bear out the conclusion that stocks at present levels have pretty well discounted the calculable future.

The passing of the Labor Day period of seasonal inactivity and the approach of autumn to date, have not brought to the market the new vigor that some had expected. In all of this lies no necessary grounds for disturbance over the general business situation. Time is needed for trade conditions to catch up with the stock market and for the market itself to settle down to a more normal pace. We learned this spring what may happen when stocks are allowed to move ahead without restraint and without relation to underlying conditions. Fundamentally business now is sound, but it gives no promise whatsoever of any spectacular improvement and such gains as the barometers aspire to for the remainder of the year already were discounted in the summer upswing of the market.

Of the immediate future of business opinions do not vary greatly. The consensus is that the present momentum will keep trade active for a while. Opinions differ widely on the distant trend, however, some authorities holding the country is headed toward a panic and some that business now is so stabilized that good times may continue more or less indefinitely. Probably neither view is correct, but the important thing to note is that the financial community now is more interested in the long-term trend than it usually is. That is why the installment question has become so important to Wall street. Nobody believes that the country is on the verge of immediate depression, but apprehensions have been aroused over the possible outcome of a system that is subject to abuses, but which apparently, so far, has been a prosperity boon.

CALIFORNIA OIL MEN IN TEXAS DEAL

Italo-American to Take Over Five Independents in Panhandle Field

AMARILLO (Tex.) Sept. 14. (Exclusive)—Completing negotiations affecting this end of the deal, E. F. Zannetti and J. P. Harper, executive officers of the Italo-American Oil Company, announce the purchase of five independent properties in the main Hutchinson county pool, involving the sum of $3,000,000. This is the largest sale of oil properties so far reported in this part of Texas. The names of the companies are withheld pending the consummation of the deal, as is the exact amount of the production which is believed to be in the neighborhood of 6000 barrels daily.

Twelve hundred acres of proven oil land goes with the purchase which will be developed in accordance with the original contracts of the individual companies.

The Italo-American Oil Company has a large export business with the Orient out of California and with its Panhandle production will open a gulf-port trade with Italy and other European countries. This is its first entrance in the Texas fields.

According to Zannetti the company will purchase 500 tank cars which will carry oil to the gulf where it will be loaded on their own tank steamers.

The Italo-American is the first California company to take a large slice of panhandle production, but reports reaching Amarille today are that at least two major companies of the Pacific Coast will have representatives here this week with a view of taking over the other independent properties. Zannetti and Harper left Monday night for Los Angeles.

SAYS OUTLOOK GOOD

NEW YORK, Sept. 14. (AP)—James Simpson, president of Marshall Field & Co., considers the outlook for fall as splendid, with record-breaking business in prospect.

EXEMPT FROM FEDERAL, STATE AND LOCAL TAXES

CALIFORNIA STREET BONDS YIELDING 6½% TO 7%

CALIFORNIA Street Bonds offer a highly attractive investment, combining sound security, complete tax exemption and 6½% to 7% income. These bonds are secured by direct lien on specific property, ranking ahead of all mortgages, present or future. They are one of the simplest and easiest forms of security to handle, and any amount from $25 up may be kept invested, through our service, for an unlimited period without bother or loss of interest.

Among our current offerings are bonds secured by property on

San Fernando Road, Burbank
North Broadway, Los Angeles
San Jose Street, Burbank
La Brea Avenue, from Country Club Drive to Pico Street, Los Angeles

MARIETTA TEST BEING WATCHED

Two Experiments Under Way in Domingues Field

Forcing Production by Dry Gas New on Coast

Final Outcome of Interest to Many Operators

BY ROBERT J. PRITCHARD

One of the most interesting production experiments that California operators have ever conducted is under way in the Domingues field, where the Union Oil Company and the Shell Company are trying out the gas-induction method, known among technical men as "The Marietta experiment," because of the fact that it was first tried in the old fields of Marietta, O.

The Union Oil Company is utilizing its Hellman No. 14, and the Shell Company is using its Reyes No. 101 for the test, both of these wells having been drilled for the particular purpose. The Union is injecting dry gas into its Hellman well at the rate of 1,800,000 cubic feet a day, under a pressure of about 400 pounds, while the Shell is putting into its Reyes well 1,500,000 cubic feet a day, under a pressure of 435 pounds.

The theory involved in this unique experiment is the substitution by artificial means of dry natural gas for the natural gas which originally existed in oil zones, which formed the propulsive force that made the oil flow, and which has been depleted by years of production.

Neither of the experimenting companies expect any definite result from their work for possibly two or three months, as it will require the steady introduction of gas under pressure for many weeks before anything like the original gas pressure can be even approximated.

Never before has the Marietta experiment been tried in California fields, although it has been tried with varying success, and in various ways in other producing regions. Sometimes compressed air is used to supply the depleted pressure, and in Pennsylvania tests have been made by the introduction of water under high pressure.

Well Holds Up

The Taylor No. 13, in the Ventura Avenue field at Ventura, latest completion of the Shell Company in that field, is holding up to 2850 barrels daily production, as against its original output of 3250 barrels, it is officially reported. The production of wet gas has dropped from its initial 5,500,000 cubic feet a day to about 3,000,000 cubic feet.

The Shell Company is now getting a gross daily production in the Ventura Avenue field of about 37,700 barrels a day, according to officials of the company, this aggregate output coming from a total of thirty-eight wells. Twenty-one wells are on the Gosnell lease, eleven on the Taylor lease, and the remaining six are on the Edison lease. These three properties have produced some of the best wells in the field, several wells coming in at or near the 5000-barrel mark, and one surpassing this initial record.

Set Protection String

The Milham Exploration has set a string of six-inch casing in its wildcat well on the Sexton property in Ventura county, according to field reports. Bottom of the hole is at 6017 feet, it is said, and so far as is known no important showings have been found, the casing being run to protect the hole.

Production Rate Low

The rate of production of the four producing wells in the city field, in the west end of the city of Huntington Beach, it not more than 150 barrels a day, according to unofficial reports. The Standard Oil Company's H. No. 1 and H. No. 2, the two most recent completions, are doing not more than 300 barrels daily between them, it is said, and the Superior Oil Company's discovery well, Jones No. 1, and the Julian-Lambert No. 1 are said to be making not more than 300 a day in the aggregate. The Miley Petroleum Exploration Company, disgusted with the small upper production, is deepening its Pacific Electric No. 1, second completion in the field to the second sand.

A fact which oil men interpret as of practically a universal intention to produce eventually from the lower sand, is the use of eight-inch casing for a water string by almost all the companies in the field. Casing of this size will allow the operators to kill a well in the upper zone, drill to a lower one, and still have a hole large enough to set six-inch pipe, and have sufficient room left for a four-inch oil string, or, if necessary, a four-inch combination string, should it be desired to go deeper.

High Well Average

The Stearns property of Union Oil Company, with its 1200 acres of proven oil territory, is generally regarded as constituting one of the greatest oil reserves in California.

In the comparatively small Brea Canyon area that has been drilled, the Union is now receiving over 4000 barrels daily from nine wells. Three more wells in this locality are nearing completion, and are expected to join the list of producers within the next ten days. The rig for another well has just been completed.

Official Report

According to figures collected by the American Petroleum Institute, imports of petroleum at the principal ports for the month of August totaled 6,676,000 barrels, a daily average of 215,355 barrels, compared with 6,888,000 barrels, a daily average of 222,194 barrels for the month of July.

Imports at the principal United States ports for the week ended the 4th inst., totaled 1,402,000 barrels, a daily average of 200,286 barrels, compared with 1,227,000 barrels, a daily average of 175,286 barrels for the week ended the 28th inst.

Receipts of California oil at Atlantic and Gulf Coast ports for the month of August totaled 2,651,000 barrels, a daily average of 85,516 barrels, compared with 2,332,000 barrels, a daily average of 75,226 barrels for the month of July.

Receipts at Atlantic and Gulf Coast ports for the week totaled 537,000 barrels, a daily average of 76,714 barrels, against 618,000 barrels, a daily average of 88,286 barrels for the week ended the 28th inst.

London Daily Radio

BY ARTHUR W. KIDDY

[Copyright, 1926, by New York Evening Post, Inc.]

LONDON, Sept. 14. (By Wireless)—The market here was dull today on the definite rejection by the mine owners of the national basis of settlement, urging quite justly that to do otherwise would be to continue to stimulate labor agitations along political lines.

Most newspapers support the mine owners in an absolute stand for economic principles but the London Times and the radical and socialistic press rebuke them. It is impossible to say whether the government will attempt to coerce the owners or wash its hands of the situation. The government's first mistake occurred a year ago in granting the subsidy and still later of butting in in attempting to achieve a settlement.

Sterling was dull. Franc exchanges were weak. French francs were quoted at 170 to the pound sterling. Paris cables state that efforts are being made by the Bank of France to bring in hoarded gold estimated at more than £75,000,000. The government offers to purchase this gold at the current exchange rate.

Bumper Apple Crop Forecast for California

SACRAMENTO, Sept. 14. (AP)—A bumper crop of apples, exceeding last year's production by more than 4,000,000 bushels, is forecast in the September California crop report issued today by E. E. Kaufman, State-Federal agricultural statistician.

"Should the present favorable conditions continue," states the report, "it is expected the total production will amount to about 10,258,000 bushels."

Last year's crop was 6,016,000 bushels, and the only previous harvest bigger than the predicted 1926 output was in 1923, when California produced 10,500,000 bushels of apples.

A sharp decrease in the forecast of rice production, amounting to 135,000 bags since August 1, pulled California back into third place on the list of important rice-producing States, but the new forecast of 8,118,000 bushels still is almost double last year's production and larger than any crop since 1920.

RUBBER MARKET

NEW YORK, Sept. 14. (Exclusive)—Crude rubber prices in New York today continued nominally unchanged, with spot quoted at 60½c. Final cables from London showed a slight reactionary movement, quoting spot sheets at 19⅝d, down ⅛d from Monday.

Trading has been unusually quiet during the last few days, with few sales in evidence.

	Spot	Oct.-Dec.	Jan.-Mar.	Apr.-June
Ribbed smoked sheets..	60¾	.41	.41½	.43½
First latex crepe.....	.41	.41⅜	....	....
Amber No. 3	.36¼	.38½	....	....

Para upriver	.49	.49	....	....

MARKET FLASHES

NEW YORK, Sept. 14. (AP)—Stocks strong; General Motors resumes leadership.

Bonds firm; several French issues at new highs.

Foreign exchanges steady; European rates firm on light trading.

Cotton lower; favorable weather forecast.

Sugar irregular.

Coffee firm; better Brazilian market.

CHICAGO, Sept. 14. (AP)—Wheat higher; bullish Liverpool cables.

Corn barely steady; larger country offerings.

Cattle firm.

Hogs irregular; lightweights weak.

UNITED OIL LEADS RISE IN MARKET

Union of California and Standard Also Advance; Mines Irregular

United Oil continued its march into new high ground and featured trading on the Los Angeles Stock Exchange yesterday. The stock opened fractionally lower at 81⅛, but rallied sharpy and advanced to 83½, a new record high, and closed at 83¼, a net gain of ⅛ of a point. The oils generally were higher.

Union Oil of California was strong and moved up a point to 53, while Associates added ½ to 84½. Julian Petroleum preferred added another fraction to 16¾ on a large number of shares crossing the board. California Petroleum lost a fraction to 32½. Standard of California moved up ⅜ of a point to 62¼ and Shell-Union added ¼ of a point to 29⅝.

Bank of Italy and Bancitaly Corporation were both in demand and sold firm at 465 and 81¾, respectively. Southern California Edison common was strong and cosed ⅛ higher at 31½. Los Angeles Investment lost 2 points to 3.17.

Mines were irregular. Western Apex rallied to 70 and then reacted to 65, 2 points higher than Monday's close. Lucky Boy Divide added ½ of a point to 4½, while Lucky Boy Mining held at 3½. North Star held at 7½, as did Boundary Cone at 7. Simon Silver lost 4 points to 30 and Big Jim sold heavily at 19½.

United Oil 6½s of 1935 were exceedingly active, with total value of sales at $156,000. Bond buyers apparently are figuring on a substantial profit through the conversion feature of the bonds.

Santa Fe Will Construct New Second Track

NEW YORK, Sept. 14. (AP)—Directors of the Atchison, Topeka and Santa Fe have authorized construction of twenty-one miles of second track running east and west from Amarillo, Tex., to take care of new oil developments in that section of the Panhandle.

W. B. Storey, president, said the question of common dividends was not discussed at the meeting.

Checking Up On Your Security List

EVERY careful investor will find it to his advantage to make a regular and systematic check of his security holdings in the light of changing market and economic conditions.

Many issues have been called for payment in the near future. In the case of others, the market value is approximately at the call price—offering little opportunity for future appreciation. Some bonds may no longer have a proper place on your list in relation to your other holdings.

We shall be pleased to go over your list with you, furnishing current market quotations and suggesting what changes, if any, may be made from the standpoint of increased safety, greater marketability, larger income, or better opportunity for appreciation.

Since 1893, Frick, Martin & Co. with its direct Predecessors, has served Southern California Investors

OPPORTUNITY TO INVEST

A client of ours, a well known local bond house, has decided to increase its capitalization in order to handle increased volume of business.

This institution is backed by the highest type business men in Southern California. Only men of this same high standard will be considered. To those who qualify, a remarkably attractive investment opportunity will be presented.

An investment of $20,000 will be required.

Reply by letter giving reference. Appointments will be arranged. All replies will be considered in strict confidence.

NEW YORK CURB STOCKS

NEW YORK, Sept. 14. (AP)—A broadening demand for stocks was noted in today's curb market, but new soft spots cropped out in several sections of the list. Pools were again active in a number of specialties, with easier money rates looked for when the income-tax payments and government financing were out of the way.

Oils showed a firmer undertone, the cut in Magnolia crude prices being offset by private estimates of a reduction in crude output last week for the first time in over two months. Ohio, Vacuum, Gulf, New York and Red Bank advanced a point or so. Tidal Osage jumped 8½ points to a new high at 25, but canceled all but 1½ points of its gain on realizing.

Opening of the radio exposition here stimulated interest in that group of stocks, Freshman touching another new high at 94. Baking shares showed little change. Revival of activity in Durant, which advanced over a point, featured the motor group. Du Pont (new stock) was in brisk demand on the approval of the new recapitalization plan by the stockholders, jumping 5 points to 156 and closing near the top.

American Writing Paper preferred certificates, which are being traded in on a "when issued" basis, moved up to a new high at 34 and then eased to 32¼, up 2 points net. Substantial gains also were recorded by such ordinarily inactive issues as Celotex, Metropolitan Chain Stores, Phelps-Dodge and Wesson Oil certificates. Amusement shares again showed great activity, Warner Brothers B jumping over 4 points to a new high at 65, and then canceling all the day's gain, while Fox Theaters A was bid up over 3 points to 39 1-4.

Confused price movements took place in the public-utility group. American Gas and Electric, American Super Power issues, Electric Bond and Share and United Gas Improvement were in demand at advancing prices. International Utilities broke 5 points to a new low at 25 and then rallied to 29, and United Power and Light was driven down more than 2 points to 12½, duplicating the year's low on the announcement that the policy of declaring regular stock dividends had been discontinued.

The closing price is entitled when same to the low, and both low and close when same to the high.

NEW YORK BOND PRICES

NEW YORK, Sept. 14. (AP)—Concentration of buying power in support of a few special issues, mostly in the foreign division, failed to bolster up the rest of the bond market today and prices drifted irregularly lower. Most of the changes were trifling, although the turnover was the heaviest in several days.

Sustained buying activity in the French list, which carried a number of the government, railroad and steamship issues to the year's top prices, was attributed to operations for the account of European bankers and investors. Dutch and Swiss financial interests were credited with accumulating the bonds in anticipation of steady improvement in France's financial position.

Despite the successful offering of a new $15,000,000 6½ per cent loan for Finland, which was promptly oversubscribed, the outstanding bonds of that country were inclined to heaviness, the 7s losing nearly a point. Japanese issues were firm on indications that the new Finance Minister would continue to carry out the policies of his predecessor.

A rise of 1½ points in Chicago Railways 5 per cent bonds attracted unusual attention because of the offer made by a banking group to reorganize and refinance the city's transit system. On the other hand, New York transit issues were depressed by a statement of city officials in support of the 5-cent fare.

Price movements of railroad liens were conflicting, with the list as a whole losing ground. St. Paul issues were unsettled by the controversies over the proposed upset price on the part of opposing reorganization groups and slight recessions took place in Pere Marquette 4s, Peoria and Eastern Income 4s, and Iowa Central 4s. Granby 7s and Wickwire-Spencer Steel 7s were the strongest features of the industrial section.

An $18,000,000 fifteen-year 6 per cent bond issue for the Canada Steamship Company is scheduled for offering tomorrow at a price of 97.

The quotations represent sales of bonds (in thousands of dollars,) and the high, low and closing prices in the accepted transaction, when no sales are reported, and both low and close when same is low, and both low and close when same is high.

METAL MARKETS

CLEVELAND (O.) Sept. 14. (Exclusive)—Daily Metal Trade today says: Sheet users continue steady purchasers of the various grades, sufficient orders accumulating to provide operating schedules at an unchanged rate. If anything slightly larger hark logs are reported, most mills being booked from two to six weeks ahead practically at capacity.

Opposition to the newly announced sheet base and gauge differentials is fading. Inland Steel Company has marked up blue annealed, black and galvanized sheets $3 a ton, effective today and applying on all fourth quarter business thereafter.

Sheet makers are cheered by the outlook for finished business. Semifinished steel inquiry is lacking.

Light rail prices have been advanced $2 a ton to $36 in the Pittsburgh district. Tin plate buying shows expansion. Pig iron is moving more freely in the East.

Electrolytic copper is 14.00 to 14.37½c. Connecticut Tin spot Straits, 68.87½c. Lead, East St. Louis, 6.50c; other, 6.50c.

Metal Prices

NEW YORK, Sept. 14. (AP)—Copper dull; electrolytic spot and futures, 14.00c. Tin easy; spot and near-by, 68.87; futures, 68.75. Iron steady; prices unchanged. Lead easy; spot, 6.75. Zinc steady; East St. Louis spot and futures, 7.47. Antimony, spot, 10.50.

LOS ANGELES CALIFORNIA

Two new 12,500-ton motorships are nearing completion in Norway and the first will arrive here in December, flying the flag of the Norway-Pacific Line, according to Capt. J. Martin Stenrom of San Francisco and Los Angeles. The second will follow out shortly after the first of the year. Both were designed especially for the run to the Pacific Coast, to augment the Roosevelt, Washington, Borgas and Borgland, already on this service. The new vessels, however, are considerably larger, and whereas the present ships have a capacity of a score of passengers, the new vessels will carry sixty in comfort-ure. They also have vastly more refrigerating space, and a speed of fifteen to sixteen knots an hour.

The Japanese motor liner La Plata Maru, departed for Seattle yesterday on the last leg of her first globe-belting trip for the Osaka Shosen Kaisha, after her accumulating. She sailed out of here with more than 300 passengers aboard, 150 embarking here, including K. Yatsuka, Japanese Ambassador to Brazil, who visited here two days en route home for vacation. The night before the liner left fifty shipping men were entertained aboard with an oriental program including Ito Hisa wrestling, followed by a dinner.

AIR MAIL SCHEDULE

Transcontinental air mail service to and from Southern California is operated in both directions daily, leaving Air Mail Airport (Los Angeles) at 7:35 a.m. Pacific Time and arriving Hadley Field (New Brunswick, N. J.) at 5 p.m. Eastern Standard Time the second day. Arriving at the New York City postoffice 10 one hour later.

Westbound departure from Hadley Field is at 9:40 a.m. Eastern Standard Time, with arrival at Los Angeles at 5:25 p.m. Pacific Time the second day.

The Los Angeles daily closing for air mail is 6:30 a.m. at Arcade Station and at 8:45 a.m., or a little later, at the air mail letter boxes, painted red, white and blue, and located in various parts of the city.

Air mail postage rates per ounce or fraction thereof from Los Angeles to Salt Lake City, 10 cents; beyond Salt Lake City to Cheyenne, 15 cents; beyond Cheyenne to Chicago, 20 cents; beyond Chicago to New York, 25 cents. No additional postage is required for sending mail to or from the air mail route.

Rates for the air mail are restricted to not more than fifty (50) pounds in weight, and to not more than eighty-four (84) inches in length and girth combined.

3:35 p.m. Passengers, mail and freight for Wilmington Transportation Company.

DUE TO ARRIVE

RAIL RATE REVISION UPWARD EXPECTED

NEW YORK, Sept. 14. (AP)—Fred W. Sargent, president of the Chicago and Northwestern Railway said today he expected an upward revision of class rates in the western trunk line territory within the next six months which would have material affect on the road's earnings. August gross and net earnings were about the same as a year ago, $14,383,063, and $3,339,361, respectively. Heavy rains which prevented threshing had caused a decrease of 2000 carloads of freight in the first week of September, but the first two weeks of the month showed an increase of 1500 carloads over the same period last year.

GOOPS!

A Daily Lesson in Manners for Children

BY GELETT BURGESS

[Copyright, 1926: By The Chicago Tribune.]

SNEEZING.

Children who really care to please
'Are sorry when they have to sneeze;
They turn their heads away from you,
Their handkerchiefs are ready, too.
But Goops! They spray you and they spatter,
'As if it really didn't matter!

WHAT'S DOING TODAY

Los Angeles City Club luncheon meeting, clubhouse, 833 South Spring street, noon. Dr. Frank Dyer will speak on "Is England Ruined?"

Los Angeles W.C.T.U. federation meeting, 301 North Broadway, 10 a.m.

Foreign Exchange Club of Los Angeles "Newspaper Man's Night" dinner, Los Angeles City clubhouse, 833 South Spring street, evening.

Playhouse, Ninth and Figueroa—"Madame X."

Varieties

Burbank, Sixth and Main—Lee Bud Harrison.

Hillstreet, Eighth and Hill—Johnny Burke.

Hippodrome, Main and Fourth—Vaudeville.

Orpheum, Broadway between Eighth and Ninth—Elsie Janis.

Pantages, Seventh and Hill—"No Man's Gold."

Young Reports Campaign Cost as $24,313.92

SACRAMENTO, Sept. 14. (Exclusive)—Lieut.-Gov. Young today filed his expense statement with Secretary of State Frank C. Jordan showing that his successful campaign for the Republican gubernatorial nomination cost $24,313.92.

E. Forrest Mitchell, Young's San Francisco campaign manager, who filed the statement, explained that $20,488.01 of the total expenditures was contributed by supporters of the Lieutenant-Governor, while the balance was supplied by the candidate.

MANY TROUT CAUGHT

YELLOWSTONE, Sept. 14. (Exclusive)—No license is required to fish in Yellowstone Park. Approximately 60,000 trout are annually caught by motor tourists in the Park.

WALL STREET PARAGRAPHS

Prices on Stock Market Take Unexpected Upturn

[Copyright, 1926, by New York Evening Post, Inc.]

NEW YORK, Sept. 14. (Exclusive) That the recent heavy selling of stocks had gone far to develop a much-improved technical position throughout the list, was apparent from the action of the market today. Breaking away from the reactionary tendency the prices pointed higher all around. There were a few exceptions, of course, but even here a distinctly better tone developed as trading progressed. The recovery was a trifle ahead of time, in the opinion of the majority of observers, who had been anticipating a ragged market, at least until after tomorrow's shifting around in the money market.

While movements generally were not particularly spectacular, there were some sharp advances in the leading industrials like General Motors, when shorts retreated, and in the various specialties, especially the shares of the amusement companies. Railroad stocks were stimulated by optimistic predictions on August earnings and coppers, oils and rubbers, among others, were in better demand. Strength was maintained to closing in contrast with weakness at that period in recent sessions.

344 Stocks Ex-dividend Tomorrow

Not since June 15, last, has such a broad list of stocks sold ex-dividend as will be the case tomorrow. In all some 344 individual issues will be quoted ex-dividend, including those on the stock exchange, the curb market and shares dealt in on the over-the-counter board. The majority, of course, will represent stocks which are listed on the "big board." Adding its weight to the strain on the money market coincidental with the government settlements, will be the call for funds to pay the quarterly disbursements on 126 stocks on which dividends are due tomorrow. This, of course, does not take into consideration bonds and other obligations on which payment falls due at this time.

Generals Motors Recovers

General Motors redeemed itself following its failure to respond yesterday to the deduction of the stock dividend, as many had expected it would. The bulk of the selling on Monday was attributed to the re-establishment of short lines by traders who made haste to cover late last week on the stock exchange decision on the stock dividend. Today there was an urgent covering movement which carried the popular industrial leader forward sharply at the expense of recent sellers. The rebound was accelerated by the announcement of plans for the segregation of its electric refrigeration business through the formation of a new subsidiary. It was learned however, that this move would not involve any distribution of the shares of the new company.

Atchison Meeting Routine

Confident buying of Atchison was in progress during the day, doubtless by people looking into the future rather than the immediate prospects. As expected, today's meeting of directors of the road was a routine affair given over to clearing up summer accumulations. W. B. Storey, president, said after the meeting that dividends had not been discussed. This was not disappointing, however, inasmuch as that question is not due for consideration until the meeting early next month.

Rails Improve As Group

Though lacking much of its recent vigor, demand for the rails in general was none the less impressive. The bullish aspect of the railroad situation will not be denied, as, for example, the current prosperity of the carriers. When average earnings of principal roads equal a return of 6.30 per cent on their valuation, as was the case in July, points out one follower of the situation, it can be seen that the rails are having a wonderful year. Net of better than $130,000,000 is predicted for August and, with freight loadings running at unprecedented levels, the outlook for the future months is eminently satisfactory. Dividend payers were in best demand, showing upturns of a point or more in numerous instances, while Rock Island led the speculative group.

The Clearinghouse

News of Spring Street

A new form of savings account, to be known as the "fortune foundation," will be instituted today throughout the branches of the Citizens Trust and Savings Bank, J. Dabney Day, president, announced yesterday.

The plan is somewhat similar to that of a Christmas club or vacation club, the chief difference being that th account may be started at any time of the year, and that instead of the entire amount being withdrawn at the end of the fifty-week period, the sum saved is transferred to a regular savings account and a new account book issued.

"In the establishment of the fortune foundation account," Mr. Day said, "the Citizens Trust and Savings Bank is carrying forward the tradition of service to the public which has characterized these institutions."

Address Auditors

Ry W. Sanders of the Citizens National Bank will be the principal speaker before the monthly dinner of the Bank Auditors' Association to be held at the City Club tomorrow evening. His subject will be "Account Analysis." This will be the first regular meeting of the season for the club.

Howard Rath Returns

Howard O. Rath of Howard O. Rath Company returned yesterday from a trip east and abroad. His visits to England, France and other parts of continental Europe were strictly for pleasure, but while in New York Mr. Rath attended to business for his company.

RUBBER INDUSTRY IN HEALTHY STATE

NEW YORK, Sept. 14. (AP)—The rubber industry generally is in a healthy state and faces a prosperous year in 1927, in the opinion of H. T. Dunn, president of Fisk Rubber Company. There is plenty of crude rubber on hand at a fair price, he said. American rubber manufacturers are doing good business abroad, which is increasing, and he believed 1927 would be more than 15 per cent ahead of 1926.

PUBLIC LAND LAW CHANGE TO BE ASKED

Work Will Seek Revisions to Meet Present Needs; Colorado Dam Backed

WASHINGTON, Sept. 14. (AP)—A revamping of Federal laws dealing with public lands, many of which have been on the statute books for more than half a century, will be recommended to Congress at its next session by Secretary Work, whose experts are trying to determine what steps should be taken to meet present-day conditions.

This was disclosed today in a foreword by the Interior Secretary to a pamphlet which listed the department's unexpended balance from appropriations for the three years ended June 30, last, at $43,805,105. The saving last year was placed at $8,710,033.

The department was described as the "custodian of our fast disappearing natural resources." The public domain, Dr. Work said, has grazing value, but there are inadequate laws with which to "safeguard it from exhaustion and protect the small holder from the large live - stock owner."

"Our oil deposits," he asserted, "are being skimmed. Native timber has been largely dissipated. We are advised that ten years from now we will realize a timber shortage, and fifteen years later a lumber famine."

Dr. Work said that enactment of legislation providing for a large dam on the Colorado River "seems propitious."

He declared that progress in Alaska is being retarded by "a multiplicity of Federal activities" which could be centralized by reducing the number of executive departments having supervision over the territory.

COTTON CONSUMPTION IN AUGUST INCREASES

WASHINGTON, Sept. 14. (AP)—Cotton consumed during August totaled 500,652 bales of lint and 67,781 of linters, compared with 460,913 of lint and 61,240 of linters in July this year, and 448,655 of lint and 63,583 of linters in August last year, the Census Bureau announced today.

LOUISIANA TIMBER LAND IS PURCHASED

NEW YORK, Sept. 14. (AP)—International Paper Company has completed the purchase of 110,000 acres of snort-leaf pine timber land in Louisiana for the account of its wholly owned subsidiary, the Bastrup Pulp and Paper Company, whose mill capacity is being doubled from seventy tons of sulphate pulp and fifty tons of Kraft paper daily.

New Zealand imports annually for each person in the dominion goods valued at $175, which is the highest per capita of any country in the world.

SPANISH KING LENIENT WITH REVOLT LEADER

MADRID, Sept. 14. (AP)—The commander of the artillery academy at Segovia was sentenced to death by court martial yesterday for his participation in the recent revolt of the artillery corps. King Alfonso, however, on the advice of Premier Primo De Rivera and using the royal prerogative, has extended clemency. The news of the action of the King has evoked much praise.

Teeth as Low as $5 Best Set $7

Best set, none better, no matter how much you pay, including your choice of base plate material (metal excepted.) (Guaranteed 10 years.) $7

Heals Leg Sores

Most astonishing discovery proven by results in thousands and thousands of cases. Leg sores heal by increasing the slow circulation which usually keeps them open. Viscose Method provides a means of increasing circulation while you work and walk. The pain stops, healing starts. More results from one application than from weeks of laying up with leg elevated. Send for Free Booklet, Write or Call. Phone DUnkirk 6080.

THE WEATHER

[Official Report]

LOCAL OFFICE, U. S. WEATHER BUREAU, Los Angeles, Sept. 14.—[Reported by H. B. Harney, Meteorologist.] At 5 o'clock a.m. the barometer registered 29.81; at 3 p.m., 29.77. Thermometer for the corresponding hours showed 69 deg. and 71 deg. Relative humidity, 5 a.m., 87 per cent; 5 p.m., 62 per cent. Wind, 5 a.m., east; velocity 2 miles; 5 p.m., southwest; velocity 6 miles. Temperatures, highest, 76 deg.; lowest, 55 deg. Rainfall for season, ...; normal to date, none; last season to date, trace. Barometer reduced to sea level.

WEATHER CONDITIONS.—Sept. 13: Light showers have occurred during the past twenty-four hours in the Missouri and middle and upper Mississippi valleys and in Texas. It is decidedly cooler in the North Atlantic States this morning but the temperature has risen in the Plains States from Minnesota and the Dakotas to Texas. In Southern California fair weather prevailed yesterday and last night with moderate temperatures. It was clear this morning except on the immediate coast, where fog or clouds were reported at some stations. Fair weather may be expected to continue in this district tonight and Wednesday with moderate temperature and somewhat lower humidity.

SUN, MOON AND TIDES—Los Angeles, Sept. 15: Sun rises 5:36 a.m., sets 6 p.m.; moon rises 1:37 p.m., sets 11:39 p.m. Los Angeles Harbor—Sept. 15: High tides 4:32 a.m. and 2:53 p.m.; low tides 9:11 a.m. and 11:11 p.m.

LOCAL TEMPERATURES—Sept. 14: Minimum and maximum temperatures from Southern California points, reported yesterday to the Los Angeles office of the United States Weather Bureau, were as follows:

Stations—	Max.	Min.
Imperial	101	67
Los Angeles	76	57
Mt. Wilson	81	62
Newport Harbor	77	70
Pasadena	76	56
Pomona	86	61
Rancho Santa Fe	77	57
Porterville	85	53
Redlands	90	53
Riverside	94	49
San Bernardino	92	53
Santa Ana	83	53
Santa Barbara	80	54

LOCAL FORECAST

For Los Angeles and vicinity: Fair with moderate temperatures.

STATE FORECAST

SAN FRANCISCO, Sept. 14.—Weather Forecast: San Francisco and vicinity: Fair and mild, moderate west wind.

Northern California: Fair and mild, with local fogs on coast; moderate north to northwest winds on the coast. Normal humidity.

Sacramento Valley: Fair and mild; gentle south wind.

San Joaquin Valley: Fair and mild; gentle south wind.

Santa Clara and San Joaquin valleys: Fair and mild; gentle north and northwest winds.

Southern California: Fair, but with fog or clouds on the coast; normal temperature and humidity; gentle west wind.

ARIZONA FORECAST

PHOENIX (Ariz.) Sept. 14.—Forecast for Arizona: Fair Wednesday and Thursday, not much change in temperature.

COLORADO RIVER

YUMA (Ariz.) Sept. 14.—(Exclusive Dispatch from the United States Reclamation Service.) Gauge height Colorado River, 17.60 feet. Discharge: Tuesday, 5440 cubic feet.

...stood that it is essential in merchan... ...dising and kindred business pursuits, ...but in my judgment, advertising is ...the only thing that will eventually ...solve the problem of agriculture," he ...said. "The farmers must learn to ...standardize their products and to co... ...operate in their advertising and m... ...keting.

"Advertising is also an essential in ...community building, provided it does ...not extend into the field of over... ...zealous promotion. Without adver... ...tising there would be no Los Angeles ...as we know it today, for though the ...city is constructed of materials that ...endure, its father is vision and its ...mother is advertising."

In the concluding portion of his address the speaker took occasion to commend the Los Angeles Advertising Club, whose accomplishments last year he said had established a record for club efficiency and spirit that surpassed any other in the history of advertising.

CHARGES M'PHERSON PLOT TO FIND FAKE KIDNAPER

Dead Attorney's Aide Asserts Pastor Helped in Hoax to Locate Desert Shack

(Continued from Page 1, Part I)

what I knew about the kidnapers, and wondered if I could not go ahead and aid her in vindicating herself. She wanted to know if I knew anything about a map showing the route on which she was taken in the car by the kidnapers, and if I knew anything about the location of the first shack in which she was held.

I did not answer her because I wanted to wait and see what else she was going to say. I said that I did not want to get mixed up in it because I felt that I was too young and too inexperienced and I was afraid, and I wanted to get the advice of some older and more experienced person, or an attorney in whom I had confidence.

JUST FOR WOMEN

Then either she or Mother Kennedy, and I believe it was Mother Kennedy, spoke up and said that she didn't see why we women couldn't take care of this by ourselves and not get anyone else mixed up in it. That they did not even mention this matter to Mr. Woolley until this morning.

Then Mrs. McPherson said she knew that I must be upset and asked me if I could come up to the Temple that night. I told her that I could not get away from the office very early as I had a lot of work to do. I told her that I could not leave in time to get there by 7 o'clock. She wanted to know if I had a way to get there or if they should send for me. I told her that I could get a friend to take me.

I got up there around 7 o'clock and someone in the Temple took me into Aimee's home as soon as I gave them my name.

I found Mrs McPherson and "Mother" Kennedy, and I had the following conversation with them. Mother Kennedy showed me a statement which she had already prepared in typewriting for the newspapers. I told her that I did not think she should issue the statement. The statement said that we had been working on the case,tha t we had located the shack, that we had located the kidnapers, and a lot of other statements. I knew this was untrue so I asked her not to issue it. I never did approve this statement and I was careful not to corroborate any of their statements to the papers that we had located a shack and were going to produce the shack in which Mrs. McPherson said she had been held, because I knew this was not true. This statement, however, over my protest was issued to the newspapers.

Then I left and they told me that they would call me up the next day.

PREPARED STATEMENT AT TEMPLE

The next morning I received a telephone call from Mrs. McPherson and she wanted to know whether she should come down to see me or I should come up to see her. .I told her that I was too busy with my work in the office. .She said that she would drive down to Long Beach. .She got there at 4 o'clock and I went out to meet her.

I got in the machine and we picked up Woolley, Mrs. McPherson and Mrs. Kennedy.

Mrs. McPherson said we should just as well drive up to Angelus Temple then and talk on the way, then I could come back. She asked me what I ha dsaid to the reporters, she cautioned me not to talk to them. Mother Kennedy said she would see that the reporters leave me alone. We arrived at the Temple and Aimee went upstairs to dress. Mr. Woolley took me into a little alcove by myself and asked me to sign a statement for the press. He wrote up the litle statement himself and wanted me to sign it. I cut out a paragraph or two and then signed it.

'DON'T WORRY ABOUT KEYES'

I told him I was afraid of the grand jury and of Mr. Keyes, and he said not to worry about Keyes. Mrs. McPherson came down and had very little to say. Mother Kennedy was with me and Woolley most of the time. Woolley and his chauffeur took me back to the Pacific Electric station, and I went back to Long Beach.

Before I left, Mrs. Kennedy gave me $20, which was supposed to cover the expenses of my first trip down there, and said: "Well, honey, I will have something nice for you the next time you come down."

I had several telephone calls from Mrs. McPherson and Mrs. Kennedy up until last Friday, when I went up to see them again.

MET MRS. WISEMAN

I arrived at the Temple about 12 o'clock and had a talk with Mrs. McPherson about an hour and a half alone.

Mrs. Wiseman met me at the back door. This was the first time I had met Mrs. Wiseman. The way she acted I thought she was one of the household. I told Mrs. Wiseman I wanted to se Mrs. McPherson and she said thta Mrs. McPherson was in Bible school and Mrs. Wiseman asked me to come in and sit down. Mrs. Wiseman was very busy about the house attending Roberta, Mrs. McPherson's little girl, insisting that she put some alum on her lips.

Then Mother Kennedy came in, and she asked me how I was getting along and if I had gotten the map yet. I told her no. That there had been too much talk in the newspapers, that I was afraid to have anything to do with it. She said you should be able to get us this map from the kidnapers.

DESCRIBES SHACK

I again told her I did not want to have anything to do with it. I told her that I wanted to see Mrs. McPherson on business not connected with the kidnaping affair. Then Mrs. McPherson came in. Mother Kennedy left and I talked with Mrs. McPherson alone. I first transacted the business that I had with Mrs. McPherson and which had nothing to do with the kidnapers, which took me about fifteen minutes.

Then Mrs. McPherson asked me how I was getting along and if I had brought her a map. I told her "No" and that I did not think I could get it. Then she began talking to me about the shack. Mrs. McPherson then told me that if these men produced the real shack it would have to contain a lot of the things which she then enumerated to me.

She asked if the shack had a bathroom and I said, "It was a very small bathroom, was it not?" and she said could I tell her whether the bathroom opened into her room.

She had already told me that she knew nothing about the house itself on the outside nor how many rooms it had in it and she had only been in one room. So I knew by this that the bathroom must open into her room, according to her suggestions. She said the shack when produced did not necessarily have to contain the furniture, pointing out to me that it might have been removed.

TOLD OF BLYTHE FERRY

Mrs. McPherson told me that she thought she had been taken by Blythe and that the ferry there is the only one which does not have government inspection. She said that the man on the ferry had been in touch with them and he would make an affidavit that there was a car similar to the one which she had described as the car she was in which crossed this ferry containing two women in the back seat, one of whom appeared "dopey" and violently ill at her stomach though not lying down in the car. She said, "You might ask these men about this ferry and also if I was kept doped all the time."

After we talked for some time Mrs. Kennedy came back into the room. Mrs. McPherson said in the presence of her mother to me that she thought these kidnapers should be able to remember some incident which had happened during the time she was held there. Attempting to test Mrs. McPherson's sincerity in her insistence that I produce the shack where

Over-Midnight Conference in Inquiry

Questioned About Accusations

Above, Miss Bernice Morris, secretary to blind McPherson case lawyer; below, left to right, Mrs. "Lorraine Wiseman," Chief Dsputy District-Attorney Davis, Dist.-Atty. Keyes and S. S. Hahn, attorney for Mrs. Wiseman.

BARNES CITY DECIDES FOR ANNEXATION

Count Shows Almost Two to One in Favor of Uniting With Los Angeles

Barnes City, with its area of four and a half square miles and population of about 2500, will become a part of Los Angeles as a result of the special annexation election in the community yesterday.

A final vote count late last night showed that annexation had carried by an almost 2-to-1 vote. A total of 261 votes were cast for annexation to Los Angeles and 153 against.

Shortly after the election, however, George A. Bray, real-estate operator, announced that he would file suit contesting the legality of the election on the grounds that the Culver City newspaper in which the election notices were published was not legally qualified to publish them.

A bitter pre-election fight preceded the balloting.

Barnes City has been in political turmoil since its incorporation last February. The incorporation movement was backed by a group headed by Al G. Barnes, circus manager, and carried by a small majority.

Election of a Board of Trustees went into the courts. The result of an election which gave victory to the home-owners faction, opposing Barnes, was sustained after a contest.

This was followed by the annexation movement, backed by a part of the home-owners group and citizens who professed weariness over continued political disturbance.

NEW SAN FERNANDO SEWER PLAN DELAYED

Action on providing a comprehensive sanita... sewer system for the San Fernando Valley was postponed until next week's meeting yesterday afternoon by the Health and Sanitation Committee afte... a prolonged hearing when representatives of the valley's organizations appeared. It is estimated that it will need $2,250,000 to provide the trunk lines in the valley.

WIDENING OF STREET APPROVED

Projected Improvements on East Side of City Indorsed by Committee

The assessment district maps for the opening and widening of two important streets in the eastern section of Los Angeles were approved yesterday by the Street Opening and Widening Committee.

One was the opening and widening of East Fourth street from the east approach of the viaduct to the city limits on the east at Indiana street. The new street will be 100 feet wide and the improvement contemplates a length of about two and one-half miles and is estimated to cost $1,909,998.

Washington street between Alameda street and Mines avenue at Lorena avenue will be opened to a width of 100 feet, according to the committee's action. The new street will be about two miles long and will cross the Los Angeles River on the Washington-street viaduct, authorized in the 1926 bridge-bond issue. It's estimates cost is $1,631,300.

The committee reports will be submitted to the Council today. Both arteries are in the first writ of the major-traffic plan.

SIDEWALK SWEEPING WARNING SENT OUT

Merchants in the central business district were cautioned in a communication from the City Engineering Department yesterday to refrain from having the sweepings from their ground floors and sidewalks swept into the gutter in front of their places of business. It was pointed out that these sidewalk sweepings go into the gutter after the frontage has been filled with automobiles, thereby preventing the street sweepers from reaching them. It is suggested that the sweeping be done either before 5:30 a.m. or that the sweepings be placed with the combustible rubbish.

MRS. M'PHERSON TO FACE KEYES IN HOAX INQUIRY

Mother Also Will be Summoned; Prosecutor Grills Impostor and Gets Full Details

Mrs. Aimee Semple McPherson and her mother, Mrs. Minnie Kennedy will be summoned to the District Attorney's office and questioned about their connection with the circumstances surrounding the Carmel affidavits produced by Mrs. Villa May McDonald Wiseman Sielaff. This was indicated plainly last night after Dist.-Atty. Keyes and Chief Deputy District-Attorney Davis completed their examination of Mrs. Sielaff and ordered her held in their custody until today.

The woman who confessed that she was hired, coached and financed to manufacture the "evidence" and convince the public and officials that she, instead of Mrs. McPherson, was the woman seen with Kenneth G. Ormiston in the cottage at Carmel-by-the Sea, was taken from Mr. Keyes's office by Chief of Detectives Cohn and Detective Reimer, and a woman attendant. The greatest of secrecy was thrown around the maneuver but it was learned that Mrs. Sielaff would be kept incomunicado and in District Attorney's custody during the night, to be ready for further questioning.

HOT STATEMENT DUE

At the same time it was learned that Mr. Keyes is ready to issue a scorching statement declaring that the State as well as the public was imposed on in the McPherson case. Mrs. Wiseman's amazing confession that she was instructed in the execution of her "Carmel hoax" and the subsequent revelations of documentary proof of the essential portions of her story have strengthened Mr. Keyes's feelings in the case.

The statement contemplated will in no way prevent criminal proceeding should the present investigation bring out the evidence needed to obtain convictions, it was pointed out.

At the time the last grand jury, dismissed by Judge Keetch a few weeks ago, failed to return any indictments for kidnaping. Mr. Keyes and his assistants on the case are known to have stated quite frankly that not one iota of evidence had been produced to prove Mrs. McPherson's story that she was kidnaped from the sands of Ocean Park May 18, last, and made her escape from the kidnapers in Mexico June 22. Since then considerable evidence of conflicting nature has been uncovered, and the latest disclosures by The Times, proving "Mrs. Wiseman" and her sister, "Miss X." to be an impostor and an impossibility, have given the investigation an entirely new aspect.

DETAILS RELATED

Mrs. Sielaff, in her three-hour last night, is known to have told every last night is known to have told every detail of what she declares was a brazen conspiracy to convince the officials and the public that Mrs. McPherson was not at Carmel.

As her story directly implicates Mrs. McPherson and Mrs. Kennedy, Mr. Keyes's statement probably will be delayed to give them an opportunity to give their version of their connection with "Mrs. Wiseman" and her activities.

The appearance of the two women before Mr. Keyes practically was assured by their statements yesterday, admitting that they paid Mrs. Sielaff's expenses and would have advanced more had the woman asked for it.

Mr. Keyes is known to have reached his present state of mind in the McPherson case some time ago. The Carmel hoax confession is said by persons close to the District Attorney only to have strengthened his feelings in the case.

Definite action, if warranted by evidence available, may follow the statement of Mrs. Wiseman.

APPEARS AT EASE

The woman, whose real name is Mrs. Villa May McDonald Wiseman Sielaff, and who was exposed by The Times last Saturday, was brought to Mr. Keyes's office, at his request, by Attorney S. S. Hahn, representing her in the bad-check charges now pending in the Superior Court. She appeared perfectly at ease and anxious to tell her story that she was hired, coached and financed in producing "evidence" that she, instead of Mrs. Aimee Semple McPherson, was at the Carmel cottage with Kenneth G. Ormiston when as a matter of fact she was working in Los Angeles as a seamstress at that time.

This came as the climaxing developments of the day, which was enlivened by the admission of Mrs. McPherson that she had paid Mrs. Wiseman expenses in part and the statement by Mrs. Kennedy that she could have had more expense money had she wanted it. Angelus Temple leaders had paid the expenses of several persons who needed expense money in gathering evidence they represented they had, it was admitted. This had been the policy adopted in connection with Mrs. McPherson's investigation of the case.

However, earlier in the day an affidavit was made public by Mrs. Elizabeth Frame, Temple worker and confidante of Mrs. McPherson and Mrs. Kennedy, that when Mrs. Wiseman requested Mrs. Frame a few days ago to wire her $50 as expense money, Mrs. Kennedy told Mrs. Frame she was hesitant about giving Mrs. Wiseman any money. After discussion on the subject, Mrs. Frame, who was intermediary between Mrs. Wiseman and Angelus Temple while Mrs. Wiseman was out of the city, said Mrs. Kennedy finally decided it would be fair only to send her the money for expenses. This occurred after Mrs. Wiseman had been dealing with Mrs. McPherson and her mother for several weeks, had made many trips in connection with the Miss X hoax and had received money at several other times.

DOUBTS CAST

How far the District Attorney's statement will go in reviewing all the facts in the McPherson case, from the "drowning" at Ocean Park, May 18 last, to her reappearance in Douglas, Ariz., June 21, and the subsequent developments, was not learned.

The result of the questioning of

(Continued on Page 2, Column 1)

REPUBLICANS NAME CHIEF

Ralph Arnold Elected Chairman of County Central Committee Without Opposition

At a meeting of the county central committee yesterday the Republican party elected officers to carry on party affairs for the coming year, went on record as supporting the Volstead Act and the Wright Act and recommended a change in the primary system of voting. Ralph Arnold was re-elected chairman of the committee. He was not opposed. William R. Kilgore, Mrs. Harriet W. Works and Sarah E. Kellog were elected vice-chairmen. Ida Koverman was named secretary and Parley M. Johnson, treasurer.

The meeting was held in a court-room in the Hall of Records. Several candidates, including C. C. Young, Buron Fitts and Joe Crail, addressed the gathering, calling on the committeemen to work for the best interests of the Republican party and Republicanism.

RICHARDSON COMMENDED

Folowing a short business session, at which the officers were nominated and elected without opposition, the resolutions committee read a lengthy statement which was later adopted by the gathering. In the resolutions the party went on record as commending the present administration and lauding Gov. Richardson for the efficient manner in which he carried out his duties during the past term of office.

The resolutions committee further announced the party as a unit will continue to support the Volstead Act, and will attempt the defeat of any proposition to repeal the Wright Act. The only change the Republican party will sanction in the Volstead Act, according to the words of the resolutions committee, is a change that will "put more teeth in the law."

OPPOSE PRIMARY SYSTEM

Another resolution adopted by the committee indicated the party will welcome a return to the convention system of choosing party candidates. The resolution, which definitely recommended a modification in the present primary law, was based on the ground the primary system made politics "a rich man's game," and shut out the poor man, who cannot finance a campaign through the primary election.

A heated discussion arose in connection with the election of officers to head the Democratic Central Committee, which met yesterday in a courtroom next to the one occupied by the other party. William Niblett's election to the post of chairman followed a battle in which supporters of Minor Moore urged his election to the office. Other officers who will head the party committee for the coming year include Mrs. W. C. Tyler and Elizabeth Smith, vice-chairmen; Mrs. Esther Lea, secretary, and George B. Greenwood, treasurer.

The Lancer

by Harry Carr

ALL other matters of portent will have to take a back seat until after the 23rd inst.

At which date the estimable Mr. Tunney tries to hand a licking to Mr. Jack Dempsey, the champion of the world.

President Coolidge's pastor has expressed himself as shocked to see that the public is more interested in this fight than in celebrating the glorious memory of the battles of the Revolutionary War—150 years ago.

BLOODSHED

Personally, I don't see much value in digging up the memories of old battles—particularly between countries with the practical reasons for friendship that bind the United States and England.

There is a certain sort of thin-varnished patriot who thinks that our revered ancestors never did anything worth while except shoot each other.

Why is it necessary to forget everything about the ancient days of yore except the blood?

I happen to have an ancestor buried under the monument at Bunker Hill; but I feel more pride in one who arrived a century and a half earlier; and who gained an honorable name for his honest and square dealing with the Indians from whom he bought his land.

CAPITALIZING HATRED

There is one curiously interesting feature of the Dempsey fight.

The robust Mr. Dempsey has earned a large fortune by capitalizing his unpopularity. People paid money to see old John L. Sullivan fight because they adored him. They buy tickets in the hope of seeing Dempsey licked.

And the most curious feature of this curious condition is that Jack Dempsey is not a hateful character. On the contrary, he is a likeable, modest young man who swoops in fortunes; and with the help of an extremely sagacious and beautiful wife, saves his money. He invests in Los Angeles real estate. After this fight he will doubtless retire as a very rich man.

WILL HE WIN?

As to whether he will retire as the undefeated champion . . .

Dempsey, like old John L., has a savage, primitive cave-man ferocity in the ring. Before a fight he is like a sullen wild animal—nervous, nasty-tempered and dangerous.

Tunney's chances depend just as much upon his moral courage as his physical prowess. The man who will lick Dempsey is either a man with no imagination—or a whole lot. With enough to give him a superiority complex, that can't be dented.

SCARED CARPENTIER

I saw Dempsey fight Carpentier four or five years ago. He had the Frenchman licked before the bell rang.

Carpentier took one look at this young tiger, and his heart sighed for La Belle France.

A HUMAN LION

Men who fought Dempsey tell me that his weakness is lack of endurance.

He is a mountain lion—terrible but brief.

If Tunney can escape annihilation in the first savage rush of a few rounds, he, too, stands a fine chance of being a bloated bondholder.

FORTUNES AT STAKE

In any case, both fighters will get more money from this fisti-

PASTOR WILL BE CALLED IN SIFT

Keyes to Question Temple Evangelist and Mother

Mrs. Sielaff Gives Details of Story to Prosecutor

Later Held in Secret for New Hoax Investigation

(Continued from First Page)

Mrs. Wiseman may lay the foundation for prosecution on charges of conspiracy to commit perjury in Monterey county and sworn statements made by her here are at variance.

Under the law it was explained the materiality of a forged affidavit is not important where it is asserted that two or more persons conspired to commit perjury. Every person knowingly playing a part in such conspiracy is guilty under the law, officials say.

A stenographer was present when Mr. Keyes began questioning Mrs. Wiseman. Chief of Detectives Cohn and investigators from his department were held close at hand, indicating that other witnesses or documents might be summoned as Mrs. Wiseman's story developed.

"ADVANCES" ADMITTED

Mrs. McPherson paid Mrs. Wiseman "expense money" in sums that ran from small amounts to as high as $150, she admitted last night through her mother, Mrs. Minnie Kennedy. "She fooled us completely," "Mother" Kennedy asserted, "and we would have advanced her a great deal more money, if she had requested it,' so complete was our confidence in her apparent integrity. The "advances," Mrs. Kennedy explained, were in the nature of expense money, advanced in the same manner "as that given detectives and other persons who said they have evidence that might prove of value in solving the mystery" of her daughter's purported Kidnaping.

"Of course," Mrs. Kennedy explained, "it is preposterous to assume we would have 'advanced' $3000 or $5000 to poor Mrs. Wiseman, as she has charged in her affidavits. It is true, however, that a woman who purported to be the wife of a man recently convicted of embezzlement approached us for $3000 in Mrs. Wiseman's behalf, and we paid no attention to this demand, which we sensed as an attempt at blackmail."

WARNED AGAINST HER

Mrs. Kennedy paused in her explanation of how it happened that Mrs. McPherson had advanced expense money to the Wiseman woman to comment on Mrs. Wiseman's personality.

"She easily won our confidence," Mrs. Kennedy asserted, "when she first approached us, although Brother Woolley warned us she would turn out to be 'fire.' She was apparently a woman of good family, cultured and with a grand manner, and when she declared she didn't want pay for her good services—as so many other persons who have offered to help us out of this trouble have—we met her more than half way.

"Why, she even slept here several times, when Sister would give up her own bed and sleep on the porch."

Asked for an explanation as to why the Wiseman woman had happened to spend several nights in the evangelist's home, Mrs. Kennedy said:

"She proffered plausible reasons—at least they appeared plausible at the time—when she said she 'was being watched, and followed,' and she would stay here late, and we would allow her to occupy Sister's bed.

"As I look back on it now, I believe her ideas that she was being watched and followed were but the fancied delusions of a mind made ill through physical injuries—as has been charged by her twin sister, Mrs. Kimball."

"MOTHER" DOESN'T KNOW

"She further fooled us," Mrs. Kennedy continued, "when she requested a somewhat larger sum as expense money—$150 was the amount—and insisted she did not want to be paid for her services and signed a note, promising to repay the money in a month.

"I'd like to show you this note," the evangelist's mother said, "but we've got it in a safe place—it's put away in a very safe place, indeed."

Asked if the Wiseman woman's statements that she had spent a night at the beach with Mrs. McPherson, and gone swimming with her, during the time she was endeavoring to prove that the mysterious "Miss X" had occupied the love nest at Carmel with Kenneth G. Ormiston, former Angelus Temple radio operator. Mrs. Kennedy said:

"I don't know about that; I wasn't there, I'm sure, and Sister is too busy now preparing a lengthy statement to interrogate her. Mrs. Wiseman has said she went in swimming with Sister and they were both garbed in red bathing suits. I don't see what difference it makes—the papers have written about various colored suits, red and green, and what not. The strange thing is that they devote so much space to swimming suits, and our troubles, and so little to what's going on in the world.

"What happens to the other news these days. I wonder. All you see is 'Aimee admits that, and denies this,' and so-forth. And when Sister does make a statement, the papers pick out parts of it and feature them in a disconnected way and you can't make head nor tail of it. It looks as if they were standing in with the people who are 'out to get us.' There are persons, you know, who are out to do that very thing."

DENIES PROMISES

Mrs. Kennedy, continuing, characterized as "absurd" the Wiseman woman's reference to photographs she swore in her affidavits were taken with Mrs. McPherson. Many purported "doubles" of the evangelist have come forward during the investigation, Mrs. Kennedy explained, and "sister has been pestered with most of them."

Referring again to the Wiseman woman's charge that she had been promised $5000, "the amount of the reward"—Mrs. Kennedy said:

"I deny emphatically she was ever promised this amount. It's absurd; there never was any arrangement to pay her $5000 or any other sum of money. In fact, she stated to Attorney Veitch and to us several times that she felt she was doing the right thing and she would not think of accepting pay for it."

Mrs. Kennedy asserted that Mrs. McPherson's attorney, Roland Rich Woolley, "from his first contact with Mrs. Wiseman," had taken a decided attitude against her and her story that she could produce the mysterious "Miss X."

WARNED OF "FIRE"

"Mr. Woolley at no time expressed his approval, or the sanction of Mrs. McPherson or herself to her activities, Mrs. Kennedy said.

"He repeatedly warned us that she was 'fire,' and requested us to have nothing to do with her. But she seemed so sincere, and came to us frequently at all hours, and was so earnest in her assertions she would produce positive proof she was at Carmel, we felt she should be given an opportunity to verify her statements.

LISTEN TO EVERYONE

"This applied also to the other attorneys and friends who met her. But she seemed so sincere and persistent and, after a time came to us so frequently at all hours and seemed so earnestly desirous of righting the great wrong and led us on so constantly with her story of Carmel and the assertion that she could and would bring positive proof that it was she who was there, that we felt she should be given an opportunity to verify her statements.

"We have pursued the policy of listening to everybody with the hope that they could bring to us a grain of truth concerning the various attacks that have been made on us. In many other instances we have found ourselves imposed upon and found there was some subtle motive behind the story told; but still we hoped that the right person involved in the Carmel matter would come forward. It was this policy which we adopted that has unwittingly led us into this subtle and apparently prepared net.

"We will have to frankly acknowledge that we were utterly fooled and made a tremendous mistake in not heeding the counsel of our attorney and following his instructions consistently concerning this woman.

PROMISE NEW STATEMENT

"After her arrest on the bad check charges, we received purported messages and a written note asking us to send $3000. This messenger came, telephoned several times with the final word which we took to be a blackmail threat, that 'unless we did, it would be disastrous for us within a few hours.'

"Mr. Woolley at this time took the reins firmly in his hand and positively forbade us to communicate with her in any way, saying he hoped that we were now convinced that this was a trap and that it would be better to let her spring all the fire she could right now than to get hold of a hot stick of blackmail.

"Mrs. Wiseman's story and personality certainly deceived us, but evidently not our attorneys. Mr. Woolley never set his seal of approval upon her or her word and opposed at every angle our giving her any consideration.

"A more detailed account concerning our dealing with her will be issued later."

ORMISTON FAILS TO STAND TEST

Woman Says She Thinks He Is Divorced Husband But Surmise Vain

Kenneth G. Ormiston, former Angelus Temple radio operator and much-sought-for figure in the Aimee Semple McPherson investigation, was claimed for a time last night as the divorced husband of Mrs. Etta Mayou, 215 South Humphreys avenue.

"Yes, I identified Mr. Ormiston from pictures as being my former husband, J. F. McIntyre," said Mrs. Mayou last night. "We were divorced about seven years ago. He was an electrical engineer and was lame."

It looked like an air-tight identification until Mrs. Mayou revealed that both parents of her former husband are dead. Both of Ormiston's parents are living in San Francisco.

BRICK MEN HOLD UP LAW ON HOLLOW TILE

A proposed amendment to the building code to permit the use of hollow tile in "filler walls" of buildings of four stories or less, was delayed yesterday when brick manufacturers appeared before the Building and Safety Commission and asked for a postponement. The commission was prepared to make a recommendation to the Council for legislation, but the brick people stated that by Friday they will have the report of tests made in a laboratory in Chicago. The tests were made on the comparative strength of brick and hollow tile.

KEETCH DRAWS CHURCH IRE

Federation Asks Judge to Explain Further Dismissal of Grand Jury During Inquiries

The Church Federation of Los Angeles in a statement issued last night took umbrage at the recent action of Superior Judge Keetch in dismissing the county grand jury and called on the judge to give what it termed "sufficient reason" for his act.

The federation is an interchurch organization of the city representing most of the Protestant churches. It created a stir some time ago by adopting a resolution calling for a full and complete investigation of Aimee Semple McPherson's story of her abduction by asserted kidnapers. In its statement issued yesterday deploring the dismissal of the grand jury the federation remarked that the action with taken at a time when the jury was in the "midst of most important investigations."

"HAD IT IN MIND"

A member of the executive committee last night said, "there is no doubt that the investigation into the McPherson case was one of the 'important investigations' the committee had in mind."

The statement, which was prepared by a special committee composed of Dr. W. E. McCulloch, Dr E. P. Ryland and Dell A. Schweitzer and approved by the executive committee of the federation, is as follows:

"The most vital element in our government is the court. Confidence in the court is essential to the welfare of our citizens. It is with desire to maintain the confidence of the people in the courts of Los Angeles county that the Church Federation would call attention to the following:

"The grand jury has a very peculiar relation to the people of the county; it is the people's servant with most important functions to perform. That a judge should not discharge a grand jury except for the most imperative reasons seems self-evident, and such a thing has rarely been done in the history of the American courts.

"We understand that the grand jury which was discharged by Judge Keetch was in the midst of most serious investigations at the time. That a grand jury composed of citizens of unquestionable integrity and representing the people of this county is so important a function as belongs to it, could be discharged in the very midst of its duties except for extreme and imperative reasons would seem impossible, and if such a thing should transpire without sufficient reasons, it would deter citizens of the highest character from willingness to serve on grand juries in the future.

REASONS ASKED

"We do not presume to say that such imperative reasons do not exist, but we do say that in our opinion no such sufficient reason has yet been given to the people by Judge Keetch. The reasons given by him seem to us to be insufficient when considered over against his act of discharging a grand jury and thus placing a group of citizens under a stigma.

"We would respectfully request Judge Keetch to give further reasons for this very unusual and potentially dangerous act, that the citizens of the county may judge as to the justness of his position. We feel that he would be eager to make any act of his as judge to be so firmly based on justice, as to command the public confidence. If the people lose confidence in the court, social disintegration will follow. If Judge Keetch will give sufficient reason for this act of his named above, he will render a great service.

"SPECIAL COMMITTEE
"CHURCH FEDERATION OF LOS ANGELES."

When informed of the action of the Church Federation, Judge Keetch said he had no comment to make further than to say that he stands on the statement he issued publicly at the time he dismissed the jury.

TELLS KIDNAP HOAX PLOT

(Continued from First Page)

she was hid I invented a fictitious incident and recited it to her.

I then said, 'One of these men wanted to know,' Mrs. McPherson, whether on one afternoon you didn't have a very bad crick in your neck that was so severe that Rose rubbed your neck all afternoon."

Mrs. McPherson at once turned to her mother and said:

"Mother, dear, I do remember that. I never recalled it before. But you know that I have trouble with my neck."

She then started to massage her own neck and illustrate to her mother her habit of massaging her own neck. I did not tell Mrs. McPherson that this entire incident was a pure fabrication of my own imagination.

IDENTIFIED PICTURE

On a previous occasion a picture of a man was shown to Mrs. McPherson and she identified him as one of the kidnapers. This picture was that of a man whom I know at Long Beach and did not know that his picture was being taken for the purpose of showing to Mrs. McPherson.

This picture was taken and exhibited to Mrs. McPherson and her mother solely for the purpose of testing Mrs. McPherson's sincerity in her story of the alleged kidnaping. This entire incident was undertaken for the same purpose as the fabricated story of the crick in her neck.

Mrs. Kennedy, at the time the picture was identified by Mrs. McPherson, protested that the picture was small and that about all she could make out of it was an ear, and said she thought there should be some larger pictures produced. Mrs. McPherson, however, stated that it certainly looked like one of the kidnapers, and never requested a larger picture.

MUST BE BELIEVED

Mrs. McPherson told me that any time I worked a whole day on this matter she would remunerate me. Mrs. McPherson said that she would give anything in the world to vindicate herself and that all of this information would be of no value to her unless I could make the world believe it, and clear her.

She also told me that if these men would be men enough to produce the shack and the road map and tell their story they would be well paid, however, and kept insisting that this would be of no value unless it could be believed. I gathered the impression that she was making every effort to let me know my intimation that if I could successfully consummate the deal without fear of a collapse she would see that everyone was rewarded.

I kept telling Mrs. McPherson that I was afraid of this entire deal and that I was afraid that if the matter was made public the men who would be involved would be prosecuted and then they would turn on me and get me in trouble. Mrs. McPherson at that time stated that these men could not be prosecuted because she would not sign a complaint against them if they were arrested.

HINTED DETAILS

Of course I knew that there were no men and that I could produce no men and I felt sure that Mrs. McPherson was well aware that it could not be done. The minute details supplied to me by Mrs. McPherson's indirect suggestions were obviously being made for the purpose of assisting me to produce corroborating testimony of Mrs. McPherson's story.

When I was preparing to leave, Mrs. McPherson asked me to call her up Monday again and try and have the map by that time. Just before I left I told Mrs. McPherson that these men couldn't stick around Long Beach all their lives and should be supplied money for a quick getaway. At that time Mrs. McPherson suggested to her mother to give me some money to give to those men. Mrs. Kennedy then said she would give me $100 and wanted me to sign a receipt for the money. I refused it. This conversation may have been where Mrs. Wiseman got the idea that I actually received the $100 that day.

Shortly after this I left by the back door and Mrs. McPherson followed me out of the house, put her arm around me and said, "You're a dear little girl and I know you can help me. I am sure those are the right men. Let me hear from you Monday and try to have a map for me."

FEARFUL OF MOTHER

Late in August I had definitely made up my mind to have nothing further to do with the McPherson case, but the persistency of Mrs. McPherson and Mrs. Kennedy in insisting that I go ahead with this matter and in coming down to Long Beach to see me kept the project alive.

In all of our conversations I gathered the impression that Mrs. Kennedy implicitly believed Mrs. McPherson's kidnaping story and that Mrs. McPherson was fearful of her mother. The one time that Mrs. McPherson talked to me alone her demeanor was entirely different than when Mrs. Kennedy was present.

My conversations with Mrs. McPherson really developed into no reports being made by me but intimations and insinuations from Mrs. McPherson to me as to what would have to be produced to clear her. Mrs. McPherson kept insisting on knowing just what these men can do for her and give her.

Because of Mrs. McPherson's persistency in seeking my assistance to clear her name I deliberately fabricated incident after incident for the sole and simple purpose of seeing how far she would go with the absurd plot, knowing that anything that I said, particularly in the presence of Mrs. Kennedy, relative to purported incidents in the kidnaping would be immediately verified by Mrs. McPherson.

SIELAFF IN DARK ON HIS WIFE'S ACT

Husband of Carmel Hoax Perpetrator Declares He Knows Nothing of Ruse

SAN FRANCISCO, Sept. 14. (AP)—G. J. Sielaff, husband of Mrs. Vilia May MacDonald Wiseman Sielaff, who says she was paid by Aimee Semple McPherson, Los Angeles evangelist, to pose as the companion of Kenneth Ormiston in the Carmel "love nest," arrived here today from Idaho.

Sielaff declared his ignorance of the movements of his estranged wife since April 6, 1926. Then, he said, she called on him at his office here and attempted to obtain money from him by a ruse, telling him that her son by a previous marriage was dead, Sielaff said.

Through his assistant, C. M. Redfern, Sielaff made efforts in Los Angeles on Monday to have his wife's sanity made the subject of a hearing. The District Attorney at Los Angeles, however, declined to initiate proceedings.

Sielaff, who is chief geologist for the Southern Pacific Company, remained at the Oakland home of a niece a day and declined to discuss his wife's situation except through a statement issued by Redfern.

McPherson Case Paper Sale Nets Suspended Fine

By a "Times" Staff Correspondent

SANTA MONICA, Sept. 14.—Fred A. Arnold, 20 years of age, Bay Cities newsdealer, received a suspended sentence today when he was found guilty before Police Judge Spencer of selling obscene literature. The "literature" was copies of a San Diego newspaper containing comments on the Carmel incident in the McPherson case.

The police judge set the fine at $50, but directed it need not be paid unless Arnold repeated the offense.

The trial of S. C. Marcon, another newsdealer, on the same charge, was to have been conducted today also, but Marcon was in Justice Garrett's court on a bootlegging charge and his case was postponed.

TRUTH PAVES PATH TO CITY BASTILE

SANTA MONICA, Sept. 14.—A frank man is W. J. Knighten, aged 33 and colored, according to the police. Replying to a pointed question asked by Police Officer Elmer Stearns regarding the contents of a grip carried through the dead of night by the colored man, Knighten is said to have replied that his baggage contained nothing but a little hooch. And sure enough, according to the astonished officer, the opened grip exposed a gallon jug of something very closely resembling moonshine. Knighten is out on $250 bail.

COTTAGE TRYST DETAILS HINTED

Mrs. McPherson Accused of Inside Knowledge

Mrs. Wiseman Says Pastor Told of Medicine

Prosecutor Given Data on Witch Hazel Bottle

An intimate knowledge of details in the inside of the Carmel-by-the-Sea cottage occupied by Kenneth G. Ormiston, formerly radio operator at Angelus Temple, and some woman for a time just after the mysterious disappearance of Mrs. Aimee Semple McPherson, temple evangelist, was disclosed by Mrs. McPherson to Mrs. Vilia Sielaff, according to information that Mrs. Sielaff gave to Dep. Dist. Atty. Ryan yesterday.

Mrs. Sielaff, who swears that she was engaged by Mrs. McPherson and co-workers falsely to pose before the world as the woman with Ormiston because of her resemblance to Mrs. McPherson, was talking with newspaper men in the Hall of Justice press room, near Ryan's office, when Ryan chanced along.

"Why, here, you two ought to meet," a reporter said, and introduced Ryan to Mrs. Sielaff.

"Why didn't you come to see me when I sent word to you last week?" Ryan laughingly asked the woman.

AFRAID OF QUESTIONS

"I was afraid you might ask me some questions I couldn't answer," she replied.

"You found out I wanted to ask you what medicine was left in the cottage by the occupants?"

"Yes."

"What did you do?"

"I told Mrs. McPherson, 'Ryan wants to see me.' She said, 'What about. I said, 'He wants to see if I know what medicine was left in the cottage.'"

"What did Mrs. McPherson say?"

"She laughed and said, 'Well, that's a good one; let me see—there was some witch hazel, for one thing.'"

"Did she say that?" Ryan asked in astonishment.

"Why, yes," Mrs. Sielaf replied.

Ryan said he found a bottle of witch hazel in the cottage hastily abandoned by Ormiston and his mysterious woman companion and that he had traced its purchase to Salinas, but was unable to follow it further. That the witch-hazel bottle was found there was published July 27.

"What else did she say?" Ryan asked.

MOTHER DOESN'T KNOW

"Mrs. Kennedy and some others came in just then and she never got to finish it," Mrs. Sielaff said. "She didn't talk so freely when her mother was around. I believe there's a lot Mother Kennedy doesn't know."

In support of her assertions that she was closely in contact with Mrs. McPherson during the time she says she was being coached with details to bear up the hoax that it was she who was with Ormiston, Mrs. Sielaff told of several little intimacies that she said passed between herself and the evangelist.

"She told me of a millionaire, very refined and cultured and good-looking that is in love with her," Mrs. Sielaff said. "But she said she wouldn't marry him while her divorced husband is alive—she doesn't believe in it, you know, she said."

"Who is he?" Ryan asked.

"I don't know," Mrs. Sielaff replied.

"Does he live down around Monrovia?"

"Yes, I believe he does, but I do not know his name, now."

Also in support of her assertions that she enjoyed Mrs. McPherson's confidence, Mrs. Sielaff said:

"Her hair is gray, you know that, don't you? She buys hair and colors all of it to do up high on her head and make her look like she does. She bought me hair to do the same so I would look more like her."

"We laid across her bed in her room a whole half-day while I practiced the handwriting that was on the grocery slips found at Carmel," Mrs. Sielaff said. "She would write the list and I would write it."

COACHED A LOT

"Mrs. McPherson coached me a lot before I went over to Glendale to see Mr. Benedict," Mrs. Sielaff said.

Benedict is the owner of the Carmel cottage, and saw the woman with Ormiston.

"Mrs. McPherson was talking to me," Mrs. Sielaff said, "and, now, just like this, she'd say: 'You remember that little portable refrigerator, don't you?' and I'd say, 'Yes,' and then she'd ask about something else that I 'remembered.' She'd hardly ever tell me anything directly but nearly always would say, 'Now you remember this, and that, don't you?' and I would take my tip that the things were there that way. Oh, it got to be quite a joke."

"Was Mrs. McPherson serious always or did she display a little humor over the situation, now and then?" a reporter asked Mrs. Sielaff.

"She was nearly always serious," Mrs. Sielaff said, "but she has a sense of humor and we laughed sometimes when a good one had been put over on the newspapers."

ATTORNEY ACCUSED IN ATTACK

Taxpayers' League Chief Charged With Assault on Government Officer

A commissioner's complaint against Attorney Ernest A. Stewart, head of the California Income Taxpayers' League, was sworn to by Collector of Internal Revenue Welch yesterday. Stewart is charged with attacking a government officer, Deputy Internal Revenue Collector Preston. The warrant was placed in the hands of the United States marshal.

The reported encounter took place in the Internal Revenue offices in the Federal Building Monday. Stewart is said to have accused Preston of describing him as a "crook" to several of his clients. Preston said he denied this, stating he had related that Stewart had been disbarred from practice before the Treasury Department.

Upon this, it is said, Stewart struck Preston on the jaw and kicked him when he fell. Preston arose and gave battle, which was stopped by witnesses.

MRS. FRAME IN AFFIDAVIT

Woman Tells of Acting for Pastor and Impostor in Money and Information Transfer

An affidavit setting out how Mrs. Elizabeth Frame, close friend of Mrs Aimee Semple McPherson and Mrs. Minnie Kennedy, acted as a third party in transferring information from Mrs. Vilia Wiseman Sielaff to Mrs. McPherson and Mrs. Kennedy and money from Mrs. Wiseman-Sielaff was issued over the name of Mrs. Frame yesterday at her home.

Mrs. Frame admitted under oath sincere. Mother and Sister, over my telephone, called various newspapers in my hearing, asking them to go slow on her story and hold it back if possible until it could be substantiated and checked upon.

that she received telephone calls from Mrs. Wiseman-Sielaff for the Angelus Temple pair and reiterates many of her statements published in The Times last Tuesday. Her affidavit denies no material facts concerning Mrs. Wiseman then made public. She calls attention in the affidavit to the fact that she did not live at a Santa Monica beach cottage previously mentioned by her until in August and that she did not have it at the time Mrs. McPherson mysteriously disappeared from the beach at Ocean Park last May. The cottage is one near the spot where Mrs. McPherson says she was kidnaped, but Mrs. Frame was not living there then and received no telephone calls there from Angelus Temple on the day of the evangelist's disappearance.

Mrs. Frame did not hand out the statement personally, but it was made public by a man who said he is Mr. Frame, her husband. He said he believes that published statements to the effect that his wife's affidavit was prepared at Angelus Temple are erroneous but that he could not positively say so. He said he does not know whether Mrs. McPherson and Mrs. Kennedy prepared parts of the statement appearing over his wife's signature, but he said he is of the opinion that they did not. The statement follows:

STATEMENT GIVEN

Statement of Mrs. Elizabeth Frame, September 14, 1926.

If Mrs. Wiseman says that I was a go-between for her to Mrs. Kennedy, she is telling another of the many admitted falsehoods.

Such a statement is a wicked untruth.

She met me one day at the temple and asked me to drive her out of town. "Anywhere" she said, "away from here where I am being watched."

She acted in a most peculiar, agitated and worried manner. During our ride she made a couple of stops where she changed her costume—her disguise she called it.

Among other things she told me that she was a woman of many names and gave me four of them.

Lorraine Wiseman.
Ida Anderson.
June Anderson.
Grace McClellan.

She told me I might expect telegrams or telephone calls under these names. It all seemed very mysterious, but she declared she and her sister were the parties who had been in Carmel-by-the-Sea and were now coming forward to tell the truth. She stated also that she was glad to get it off her mind as she had lost weight worrying about it and that she had been neither able to eat nor sleep, but now she was doing the right thing she felt so much better.

She left my car in Glendale, whither I had gone on a business errand and purchased a railroad ticket under the name of Ida Anderson. She stated that she did not know where she was going.

Mrs. Wiseman called my home a few days later from San Mateo, stating that she did not want to call direct because she thought the temple wires had been tampered with, and wished that I would tell Mrs. Kennedy that she had found the witnesses who had taken her to and from the cottage, and they would substantiate her story, and that she positively was bringing these witnesses with her on the morrow.

ANOTHER CALL

I was glad to hear this because in conversation with Mrs. McPherson and Mrs. Kennedy I had learned that they were not sure of Mrs. Wiseman's unsupported story, and felt that it should be investigated or substantiated before being used.

The day after she was supposed to have arrived in Los Angeles, another call came, this time from San Francisco, in the name of June Anderson, stating that she had been in an automobile accident and had broken some of her ribs and was therefore delayed.

She then asked me in a confidential strain, if I would telegraph her $50 and not mention it to anyone. This seemed peculiar to me, and I did not give her a definite answer, but immediately got in touch with Mrs. Kennedy and told her how the woman had approached me for money, asking me not to mention it.

Mrs. Kennedy seemed very hesitant about sending it and uncertain of the woman herself; but after I told her that Mrs. Wiseman said she had her witnesses, absolutely proving the veracity of her statements, already in the city, and after I told of the injuries to her ribs, we both decided that the only fair thing to do was to send her her traveling expenses.

Mrs. Kennedy stated that she had adopted a policy of paying the expenses of those carrying on such investigations, and that she thought it fair to do so within reason in this instance.

WITNESS STORY

A couple of hours later the woman called again and asked if the money had been sent and I told her that I had just sent it. At that time she repeated that her Carmel witnesses substantiating her story were already here and that she was leaving that night and would be here the following day.

The next time I saw her was one day that the pastor and her mother were resting at my house at the beach. Mrs. Wiseman came flying out in a taxi and talked to Sister and Mother. She did not stay long that time.

At another time this woman followed Mrs. McPherson and Mrs. Kennedy to the beach and said that she wanted to get away from the city where she was being watched and followed, and that her son was coming down to take the children and all of us out on the pier. This she did, insisting that we go with the children here and there. This point she was most insistent upon.

One thing that struck my daughter and myself as being very odd was that every move any one of the party would make, or anything that they would say or do, she would immediately draw from her bag a little book and pencil and jot something down.

I consider that Mrs. Wiseman pushed herself into my home, asking for my name, address and telephone number.

GIVING HER CHANCE

I can truthfully and positively state that Mrs. McPherson and Mrs. Kennedy again and again stated that they had nothing to do with this woman putting forth her story, but were giving her an opportunity to substantiate it, and thought she was

LAWYER HAS ADDRESS OF ORMISTON

Chicago Attorney States He Can Reach Radio Man; Mrs. Sielaff "Not Known"

CHICAGO, Sept. 14. (AP)—Edward H. S. Martin, attorney for Kenneth Ormiston, former radio operator for Mrs. Aimee McPherson, Los Angeles evangelist, said today he knew nothing about Mrs. Lorraine Wiseman Sielaff, who charges she was offered $5000 to pose as Mrs. McPherson's "double" after the latter had reappeared following her mysterious disappearance.

Martin said he never had been in Los Angeles or San Francisco and that he left Chicago for a vacation immediately after forwarding a deposition from Ormiston to Dist. Atty. Keyes at Los Angeles. He said he had not seen Ormiston since and that whenever Keyes or the Los Angeles county grand jury wish to communicate with Ormiston they can do it through his (Martin's) office. Martin declared Ormiston made his deposition in Martin's office on July 30, last, and left his address with Martin.

"This is the only connection I have had with the case," Martin asserted.

THE LANCER

(Continued from First Page)

cuff than poor old John L. ever heard of.

What with picture contracts and newspaper syndicates, it is worth the best part of $1,000,000 to either of them.

Perhaps it isn't such a bad thing for the world at that to have an occasional fortune earned that way. In John L.'s day fighters were drunken profligates. They are sober-minded, decent young business men in these days.

A sot in the ring is as unthinkable as a drunken engineer on a fast express. Too much at stake in both cases.

SOLOISTS AT CONCERT

C. Howard Paxton, tenor, and Frank Prouty, trombone soloist, will be featured in the concert to be given by Roberts's Golden State Band at Lincoln Park Sunday at 1:30 p.m. Glendon Ford, solo clarinetist, will conduct.

OFFICER WAGES FIGHT FOR LIFE

Details of Battle Revealed in Court Session

Suspect Must Face Trial as Attempted Slayer

Woman Declares Crowd Refused Him Aid

A policeman's unseen battle for his life came to light yesterday in the criminal Judge Ambrose's court, as the result that Nick Perea was held to answer in Superior Court to a charge of assault with intent to commit murder. His was ordered held under $6000 bail by Judge Am-

Following testimony brought out yesterday at the preliminary hearing of Perea, Police Officer Abe Greenspoon, after stopping the automobile containing Perea and Fernando Corvo, for violating a traffic ordinance on the night of August 13, last, took the rear seat of the car and ordered them to drive to the University Police Station. Suddenly stopping the machine in the dark of a clump of trees, he was seen turned on the officer with knives, ripping his new uniform, introduced in evidence yesterday, virtually into shreds, and cutting him in the thigh. In the course of the battle, the officer managed to fight his way out of the car and crash and into the street. Perea continued to attack him, Greenspoon declared, striking him to the ground. Corvo then grabbed his gun, but he had lost in the scuffle. Perea drew a shot at him ran off during this other. A crowd of persons, watching the fight, refused to aid him when he called for help, the police officer stated. Two of these, summoned as witnesses, declared they were afraid of the knives and the gun Greenspoon had and that they did not know that Greenspoon was a police officer.

Corvo has not been appre-

Hoover Dodges Formal Affairs on Visit Here

Secretary of Commerce Hoover returned to Los Angeles yesterday for a brief visit with friends before returning to Washington.

The secretary, who was in Los Angeles last week and came here yesterday from his home in Palo Alto, on his visit desires to avoid all informal and public functions, according to his secretary, J. N. Clapp.

He registered at the Biltmore.

Mr. Hoover said that for once he proposes to enjoy the prerogative of every American citizen of visiting friends in peace and of attending a dinner or two without having to get up to make a speech," said Clapp. "His visit will be brief and he then will start for the East."

How to make TEA correctly

Firstly

Be sure you use India Tea, or a blend containing India Tea.

Secondly

Use an earthenware teapot, put into it a good teaspoonful of India Tea for each cup if required.

Thirdly

Be sure you pour the water into the teapot *the moment it boils.* Only fresh *boiling* water can bring out the full flavour of the tea. Hot water is not enough. Water that has been boiling for some time does not give the best results. This is important if you want a really good cup of tea.

Fourthly

Allow the tea to stand 5 minutes to infuse. Put a little cream or milk into each cup before pouring out the tea. It greatly improves the flavour. Then add sugar to taste.

Any retailer or store can supply you with India Tea or blends containing India Tea. He has no difficulty in getting it, as practically every wholesale distributor of tea in this district supplies India Tea. He will gladly get it for you—but—

Be sure you use INDIA TEA or a blend containing India Tea

EXTRADITION WAIVED BY ABE DEWEY

Cowboy Will be Returned from Great Falls to Face Patterson Murder Charge

Albert Gaines, alias Cowboy Abe Dewey, under arrest in Great Falls, Mont., in connection with the slaying of Joseph J. Patterson, local stock broker, last March, has waived extradition and will be returned immediately, according to Orange county officials yesterday. Rev. Phillip A. Goodwin, actor-priest of the American Catholic Church, arrested last July in New York in connection with the case, already has been held to answer without bond and his trial set for October 18.

Gaines was arrested Monday night on a freight train, where he was employed as a brakeman under the name of W. F. Wilson. He readily admitted his identity as Albert Gaines and that he had been a convict at San Quentin, but denied all knowledge of the slaying of Patterson, whose burned body was found in Santa Ana Canyon last March.

Chief Criminal Deputy Ed McClellan of Orange county will leave tonight for Great Falls to return Gaines here, it was announced by Sheriff Sam Jernigan of Orange county. It is expected that Gaines will be brought back within a week.

Cline Waives Preliminary in Auto Case

Herman Cline, chief of detectives of the Los Angeles police force, who is on the suspended list pending the outcome of a charge against him of driving an automobile while intoxicated, yesterday was held to answer to Superior Court by Justice J. O. Durrell of Azusa on that charge. Mr. Cline was released on his own recognizance pending his trial in the higher court, the date of which will be fixed later.

Cline, who was arrested in Azusa several weeks ago, was bound over when he waived his preliminary hearing through his attorneys, Horwell Richardson and Jerry Geisler. No testimony was taken.

A crowd of about 100 persons gathered in the courtroom to hear the details of Mr. Cline's arrest. The formality of waiving the hearing required only a few minutes, time.

DENTISTRY COLLEGE OPENS COURSE TODAY

Opening exercises of the 1926 fall semester of the college of dentistry of Southern California will be held in Bovard Auditorium, University of Southern California, today at 8 p.m. Dr. Rea Proctor McGee, formerly of Pittsburgh and now of Hollywood, will be the speaker. Dr. John F. Christianson, from Northwestern University, who is to augment the faculty of sixty members of the dental college this year, will be presented as a new member of the teaching staff. Dean Lewis E. Ford will preside. Dr. J. Endelman, professor of special pathology, is chairman of the program committee.

Judge in Tribute to Veteran Aide

Keorge Kalt to be Buried at Glendale

Funeral services for George Kalt will be conducted at 11 a.m. today, at the Little Church of the Flowers, Forest Lawn Cemetery, Glendale. The Elks lodge will be in charge.

Mr. Kalt came to Los Angeles from Philadelphia twenty-six years ago. He was a buyer for rug and drapery departments of various stores.

Mr. Kalt was a member of Lodge 99 of the Elks. He leaves his widow, Mrs. Ella W. Kalt; two sons, Earl D. and Stanley R. Kalt, and a brother, E. E. R. Kalt, all of Los Angeles.

WINTER EXCURSION SEASON ANNOUNCED

Winter excursion fares on the Santa Fe, Souther Pacific and Union Pacific in California territory will become effective October 1, next, road officials announced yesterday. In addition to reduced fares to resorts there will be a variety of low-rate round-trip fares between certain points on the Santa Fe and Union Pacific and between all points on the Southern Pacific.

HONORS FOR OFFICER ON RETIREMENT

Bailiff Cummings Given Gold Badge at End of Twenty Years' Service

Courthouse friends of a quarter of a century said good-by yesterday to George A. Cummings and sealed their friendship with gold. Retiring last week from twenty years of service with the Los Angeles Police Department, Cummings, who for the last seven years has been court bailiff for Municipal Judge Frederickson, was summoned before a host of his friends and presented with a beautiful gold police badge.

Judge Frederickson, at the close of the morning's court session, made the presentation. At Cummings's side were two of his oldest friends, Charles Kisner, a court clerk, and Harry Henderson, who was appointed to the police department on the same day with Cummings and twelve others on May 1, 1906. Of the fourteen appointed at that time, only Cummings, Henderson and three others remain.

Cummings retires from active service with a sergeant's rating and a pension of $112.50 a month. During the course of his service he worked under nine different police chiefs and served respectively as a patrolman, motorcycle officer, plain-clothesman and court bailiff. His home is at 1684 West Jefferson street. He left the police department to head the automobile theft detail of the Southern California Automobile Club.

NEW BOARD OF COLLEGE PICKS AIDES

Construction of Building for Scripps Institution to Start This Winter

Committees of the recently organized Scripps College for Women board of trustees were announced yesterday following a meeting at the Biltmore. Architectural plans for the college, which will be built at Claremont under the federated-college plan proposed by Dr. James A. Blaisdell, president of Pomona College, were discussed and a report of the educational committee read.

It is expected that construction on the first building of the new college will begin this winter. Gordon B. Kaufman is the architect and plans and specifications for the new college will be completed within the next few months.

Committee members of the board are announced as follows:

Executive committee: Dean E. J. Jaqua, Mrs. W. A. Moses, Mrs. Paul Jordan Smith, Mrs. Orville Rout, Irving M. Walker, Bishop W. B. Stevens and Jacob C. Harper; educational committee: Miss Ethel Richardson, Mrs. Allan C. Balch, Mrs. Susan M. Dorsey, Mrs. Willis Kerr, Dr. William B. Munro, Bishop W. B. Stevens, Julius Wangenheim, Rev. Willsie Martin, Dean E. J. Jaqua; buildings and grounds committee: Bernhard Hoffman, Mrs. Charles Stinchfield, Mrs. W. A. Moses, Mrs. Eldridge M. Fowler, Rev. Leslie E. Learned and Jacob C. Harper.

A feature of the meeting was a statement by Dr. Blaisdell, who has just returned from several months in Europe where he studied educational institutions with a view to establishing the federated-college plan at Claremont.

Air Mail Planes Here Praised by ex-Army Chief

Enthusiastic over local developments in commercial aviation which admittedly lead the nation both in performance and production of business, Col. Thurman H. Bane, retired, former chief of the air corps engineering division, came to Los Angeles from his home in Monterey in order to take passage yesterday on the eastbound Western Air Express mail plane for Salt Lake City. By taking plane from here, Col. Bane will shorten his trip East by several hours and avoid the discomfort of desert travel.

"It would seem that commercial aviation is here to stay," Col. Bane said. "Southern California is to be complimented both for the excellence of the line serving it and for the unusual support being given this venture."

PRISON ROW RENEWED IN COURT HERE

Feudist at San Quentin Turns on Friend, Telling of Part in Crime

A three-year prison yard vendetta, which apparently had been patched up, had its aftermath yesterday in Judge Burnell's department of the Superior Court.

Emmett V. Bright and Rex Mercer, fellow-prisoners at San Quentin three years ago, were on trial, charged with burglary, robbery and grand larceny.

Bright took the stand, pleaded guilty and then proceeded to make a thorough breast of things and implicate Mercer.

The confession disclosed that Bright and Mercer had engaged in a bitter fight while at San Quentin and Mercer declared that Bright was apparently seeking to get even, although the prison-yard feud supposedly had been forgotten.

Mercer left the courtroom declaring that he would never go to the "bighouse" again, and muttering threats against Bright, who will be sentenced tomorrow. The trial of Mercer will continue today. Stanley Visel is attorney for Mercer.

SAN PEDRO BOULEVARD STOPS RECOMMENDED

The Traffic Commission yesterday recommended to the Council the establishment of boulevard stops on San Pedro street southerly from Pico street to Avalon Boulevard, formerly South Park avenue, and southerly along Avalon Boulevard to the south city limits. This was referred to the Traffic and Street Lighting Committee.

SMUGGLED ALIENS SEIZED

Six Chinese and High-Caste Hindus Jailed in Renewal of Organized Border Running of Orientals

Three Chinese and a trio of high-caste Hindu were captured yesterday by United States immigration inspectors at different points along the highway betwee nRiverside and Mexicali in what Federal officials ter ma renewal of human traffic on a greater scale than ever heretofore by a highly organized gang of border smugglers desperately endeavoring to reap rich profits on their live cargoes.

Near Westmoreland in the Imperial Valley Inspectors Dockstader and Shea first encountered a car containing Dharan Singh, Cwhaju Ram and Begia Singh. Two Mexican men and a woman, Reyualdo Murrietta, Fortunato Quiguiz and Angelena Nunes, were accused of escorting the Hindus into the United States illegally. Within a few hours after the six persons captured in this maneuver had been placed in jail the same officers encountered another carload of aliens, this time near San Jacinto.

Suspicion was directed toward the car when the headlights of a machine following it betrayed the fleeing forms of five men who had leaped from the vehicle when it was abandoned by the roadside upon approach of the official car.

Starting pursuit, Dockstader and Shea captured one Chinese and one Mexican near by. The hunt was continued and a second Chinese was found in a stable. A third Chinese and a second Mexican were found at a farm-house several miles farther on toward Los Angeles.

The Chinese gave their names as Pang Ching Chuen, Gong Foon and Lau Yun King. The Mexicans, who are accused of bring the orientals across the border, are said by arresting officers to be Eusebio Castillo and Martin Diaz of Hanford.

FURNITURE MAKING TAUGHT

Free instruction in the manufacture of reed furniture and other articles is being given in the class which meets daily from 2:15 to 4:15 p.m. in room 222, Jefferson High School. The class opened Monday.

Damage Action for Asserted Libel Settled

The suit of Edward Donnelly and Harry J. Hillages for damages of $100,000 from M. E. Carroll, vice-president of the Alhambra City Commission, was dismissed when it was called for trial in Judge Guerin's court yesterday.

The plaintiffs were the proprietors of a dance pavilion called Happyland, and charged Carroll with slander, complaining that he had referred to their establishment as a "rendezvous for bootleggers, white slavers and narcotic addicts."

It was announced in court that plaintiffs had decided not to press their charges.

OLDEST AND RICHEST INDIAN TALKS HERE

Chief White Horse Eagle, 104 years of age, introduced as the "oldest, wealthiest and most distinguished Indian," spoke briefly yesterday at the Hollywood High School auditorium to an assembly of 3000. The chief praised education highly and told several incidents of his wide travels. He said he speaks twenty-seven different languages, including English, French, Italian and German with many Indian tongues. Chief Eagle was introduced at the meeting by Robert E. Callahan.

ACTOR SHY ON ALIMONY PAY JAILED

Judge Hollzer Hears Tale of Studio Unemployment and Gives Out Cell Role

Charles L. King, motion-picture actor, had just been complaining about a shortage of work, yesterday in alimony court. So Judge Hollzer handed him a part.

"For the next five days you will have a little engagement in the role of the pitcher that went to the well once too often," Judge Hollzer remarked.

Whereupon he wrote out for King a ticket entitling him to a five-day sojourn in the County Jail.

"This is, by conservative estimate, the eighteenth time this man has been before this court on the same charge, within less than a year," declared Henry C. Hale, counsel for Mrs. Pauline King, who obtained a divorce from King September 25, 1925. "He simply won't pay his alimony."

King was charged with contempt for being in arrears on an order to pay Mrs. King $15 a week.

CITY ASKED TO PAY COSTS OF LIGHTING

Costs for lighting the city's main thoroughfares should be borne by the city, instead of by the owners of adjacent property, according to members of the southwestern branch of the Los Angeles Realty Board, who at their regular weekly meeting last night adopte a resolution urging the City Council to amend the present law so that the lighting costs be paid for out of the general funds. Lighting the main thoroughfares benefits the city as a whole, the resolution said.

MEMBER OF THE ASSOCIATED PRESS
The Associated Press is exclusively entitled to the use for republication of all news credited to it or not otherwise credited in this paper and also all local news published here within.

The Times aims at all times to be accurate in every published statement of fact. Readers who discover any important inaccuracy of statement will render a favor by calling attention of the Editorial Department to the error.

THRIFT

American school children have more than $30,000,000 on deposit in the savings banks of the country. The boys and girls of New England lead. Uncle Sam will continue to finance the world for time to come.

FICKLE FORTUNE

Sixteen million pounds, or about $77,600,000, are lying in a London bank, the estate of the late Czar of Russia. King Victor Immanuel of Italy or George of England is likely to be made executor by the heirs. How did Mussolini come to overlook this bet?

FAST FREIGHT

The greatest freight traffic in the history of the country was handled by the railroads during the first half of 1926, according to a report just released by the Bureau of Railway Economics. The aggregate amounted to 227,116,889,000 net ton miles. Evidently things are moving.

TELL IT TO THE JUDGE

A woman in a Los Angeles court told His Honor her story as follows: "My husband and I were to meet on the corner by appointment, but he failed to show up." She got her divorce. If this works two ways most of us husbands can get decrees tomorrow. The line forms on the right. Don't crowd!

FEAT OF THE FILMS

The motion-picture industry of the United States exported 225,000,000 feet of positive films in 1925. It broke the record of 1924, in which 170,000,000 feet were reeled off to foreign parts. Of course, the large bulk of shipments went from Los Angeles. This city is tied by ribbons of films to almost every port in the world.

BUTLER CAN SMILE NOW

One hundred and thirty-two members of the band of asserted Mexican plotters of Gen. Estrada have been indicted and are to be brought to Los Angeles for trial. Not long ago Gen. Smedley D. Butler was fuming and fussing about the cooties he said this band was leaving in his barracks at San Diego. Probably he is laughing at Los Angeles now.

NEVER TOO OLD

Two young things of the German Home for the Aged at Forest Park, Ill., the boy 88 years of age and the girl 77, eloped and were married. Although there is a rule against weddings at the home, it was said that elopements probably did not come under the house laws and that everything would be all right when the elopers returned. The little rascals!

KNOW THEIR STUFF

Texas rangers got a tip of a bank robbery and stationed themselves across the street before the time the "job" was to come off. It came off. Then the rangers unlimbered their guns and the two bandits fell to the street, dead. They had about $10,000 in their hands, but won't use it now. Those Texas boys know their stuff. More power to their elbows.

SHOWS NO MERCY

The sports writers tell us that Ed ("Strangler") Lewis is in Los Angeles to crush the bones of a few playmates as they wallow around on mats in different arenas. It probably is all right for him to twist opponents out of shape providing the other fellow doesn't care, but his manager crosses the last ditch this time. We are to be spared nothing. The "Strangler" now intends to inflict on the long-suffering public his memoirs. It's too much!

NO OFFENSE

It is no offense to warn a person about to break a law. So the London police learned after setting a speed trap in a suburb and failing to catch anybody, because some one spread the news among the local motorists. When drivers came through the trap at five miles an hour, smiling and saluting, the chagrinned bobbies hunted up the scout that had given the warning and arrested him. But the court decided that no offense had been committed and let the prisoner go. Still, motorists who get the laugh on the police are not very common either in England or America.

WINGS WILL WIN

Last year a total of 5,000,000 miles was flown in air transportation in this country. More than 200,000 passengers were carried and 112 tons of express were handled over thirty-six air routes with a mileage of 4076. Above 9000 miles of airways are now in operation and 2500 more contemplated. We now have 3608 landing fields. Of these 2782 are emergency, 226 commercial, 310 municipal, 102 army, 40 navy, 66 air-mail. We have 103 seaplane stations. The United States is said to have more commercial operators than any other country and leads the world in the development of aviation. So says Col. Paul Henderson, general manager of the National Air Transport. Britannia rules the waves in time of war largely by virtue of her superiority in seamen and transportation facilities in time of peace. The time is coming when wings will win a war.

"AS GOES MAINE"

"As goes Maine" is a tradition in national politics. It is true that Maine has gone Republican in recent years when a Democratic administration won in the country at large; but the size of the pluralities in the Pine Tree State serves to indicate whether the country is behind the party in power. And, according to this well-established formula, the people of the country are content with a Republican President and Republican Congress.

Republican pluralities were surprisingly large for an off year. Maine will send a solid Republican delegation to Congress. The Democratic leaders in other States, who were looking to Maine for confirmation of their claim that the country is dissatisfied with the present administration, find only refutation in the returns.

Now that the last of the State primaries have been held, the national campaign committees of the two leading parties are perfecting their organizations for the Congress and Senate campaigns. The Democrats are evincing a desire in advance to avoid national issues and wage the campaigns in the different States on local issues only. There are to be no direct attacks on the major policies of the administration. The Democrats will talk as little about the President as possible.

In the South, passing into a new industrial era, there will not be much tariff discussion. For, as the southern industries have developed, the necessity for a protective tariff is fully understood. And the Democrats realize that they will have some difficulty in keeping all the Southern States in line.

Florida's influx of population during the last three or four years has been drawn almost wholly from Republican States. The new arrivals have brought their politics with them and are likely to vote as they did in the old home. Some optimistic Republicans assert that Florida will break definitely away from the old "solid South," that the "solid South" itself has ceased to exist as a political unit.

But in the wheat and corn belts of the Middle West there will be much talk about tariff for the industries and none for the farmer. Failure to pass certain so-called farm-relief bills will be charged to the influence of Wall street. In fact, Wall street will be made an issue in the wheat belt by the demagogues just as it was in the campaign of 1896.

The one hope of the Democrats in the coming campaign is to win enough Republican seats in the Middle West to secure at least bloc control in the national House of Representatives. In the present House there is a small majority of voting Republicans, enough to defeat a combination of Democrats and those who were elected as Republicans in the State elections, but who vote with the Democrats when they get to Washington.

Those best informed agree that there is little likelihood that more Congressmen running on the Democratic ticket will be elected than Republicans; but there are probably a dozen candidates nominated on the Republican ticket who will vote with the opposition when they reach Washington. The direct primary favors this kind of party disloyalty; and this is the only menace to Republican control in the next House of Representatives.

Off years in national campaigns often bring unexpected results. If a combination of local issues and masquerading under false party names should give us the anomaly of a Republican President and a Democratic Congress the effect would be felt from one end of the country to the other. No load was ever moved by one horse pulling toward the north and the other toward the south. Co-ordination of executive and legislative departments is an absolute essential to successful representative government.

JACK-IN-THE-BOX

"We know the atoms consist of unthinkable amounts of bound-up energy. They are like a jack-in-the-box. When we learn how to touch the button the energy will spring out and we can use it."

Thus said a sober scientist, Prof. James F. Norris, of the Massachusetts Institute of Technology, in his annual address as president of the American Chemical Society, meeting in Philadelphia.

"There will be no underground slaves and no coal barons. A limitless supply of energy will make over the world. Every man will have time to taste of the joys of life," he continued.

Men first harnessed their dogs, women and horses and made them tractable for lifting the loads and dragging them up the steeps. Captives in war were reduced to servitude and life was one constant rodeo.

The Chinaman who first put the harness on gunpowder had considerable bravado. Some have difficulty keeping it on at this hour. His prowess had much to do with installing and establishing the liberties of freemen.

James Watt was the great emancipator. When he flung the harness on his teakettle and brought steam under control the manumission of humans in bondage began. He wiped away much of the sweat from the brow of the world.

Possibly the greatest hardihood was shown by Benjamin Franklin when he went out single-handed and essayed to throw the harness upon a streak of lightning. Great care has to be taken about the heels of the thunder bolt to this hour.

Gasoline has been a touchy colt and has fumed and frothed against control. Who plays about it carelessly even now is likely to have more of an assembly of parts than a funeral.

Even putting the harness on an idea has been fraught with peril. An idea is about the most explosive force known to the mind of man. Intrepid is he who has the daring to attempt to hitch one up to the wheels of progress.

The atom has longest ranged free in the universe. Thus far it has resisted bridle and spur. It has shrunk into the cavern of nothingness and has eluded pursuit.

Our own Dr. Millikan has stripped it and left it naked to the world. Yet no one seems to have had the intelligence or courage to try to slip the bit into its mouth and break it to the will of man.

It is said to have unmeasured and even unthinkable energy locked up in its hidden recesses. We have been standing at the portals trying to pick the locks for years.

Our best minds are working on the problems. A rare valor that takes its life into its hands is making approaches that bid fair for success.

When we reach the place when we can ride on atoms, fly on atoms, plow by atoms, fire our furnaces by atoms, cook by atoms, heat our homes by atoms, lift dead inertia by atoms and transfer it at will, head all our vast endeavors by atoms and insist that they do all our work, life will be one grand recreation and all of us will have time to laugh and love and live.

Ashore at Last

[Copyright, 1926, by Public Ledger]

IN THE CALIFORNIA ALPS

They take their politics seriously in Alpine county, and while Alpine county probably will never carry the State for any candidate, the interest of the voters in the little mountain settlements is a rebuke to the laissez-faire attitude assumed by the electorate in the populous center of Los Angeles.

Alpine county, in point of population, is the smallest of California's fifty-eight. It is situated just south of the point where California's long eastern boundary bends about Nevada, high up in the Sierras. The topography of Alpine county is mostly straight up and down.

There are five precincts in the county and eighty-six registered voters, seventy-nine of them being Republicans and seven Democrats. In the recent primary sixty-eight voters expressed a preference for Governor. This is a percentage of more than 79, which shames Los Angeles, where only 43 per cent of the registered voters saw fit to vote.

Incidentally, a scandal appears to have developed in Alpine county. There being but seven Democrats, eight Democratic votes were cast for Governor, according to the tabulation of the Associated Press. Wherefore, it seems that some Republican has secretly discarded the traditions of his fathers and has turned to the enemy. And if the truth does not come forth, suspicions will arise, and likely some sturdy Republican will go to his grave with the finger of scorn still pointed to him as the man who, on August 31, 1926, forsook his party and consorted with scalawags.

MEETING THE NEED

While it has not yet reached the stage of commercial value, the production of rubber from the guayule shrub offers a tangible hope for the solution of a world demand. California, the site of extensive experiments in cultivation of the plant, some day may become the center of an industry rivaling other great agricultural undertakings, according to experts who have been bending every effort to the discovery of a new supply of the crude product.

As a sequel to the rubber scare of several months ago, when Great Britain inflated prices by a curtailment of the marketing of the crude supply, American interests have launched intensive campaigns to assure an adequate amount for the enormous rubber industry in this country. There have been those who derided the idea of commercial production anywhere except in the tropic zones where rubber culture now is carried on, but the investigation has continued unabated. With the serious study of the guayule plant having reached its present status, there appears to be a basis for belief in its future value on a large scale.

The plant itself, while indiginous to Northern Mexico and Southern Texas, has been found to thrive in California and it is in this State that the guayule is expected to reach its full development. The quality of the rubber derived from the shrub constantly is being improved, both by chemical treatment and advances made in its growing, and the ultimate expectation is that it will be on a par with any now obtained from the standard tropical trees.

Practical difficulties in the path of turning jungle areas into productive rubber plantations make American rubber magnates even more desirous of utilizing the soil of the United States for new activities. Working conditions in the tropic zone, far from centers of industry and transportation, render development on a large scale extremely costly. This difficulty is overcome in California, where improved methods of agriculture and good railway and steamship service make production much easier and far less expensive.

American business men and scientists again are demonstrating that when the need arises they stand ready to produce a substitute for almost anything under the sun. They are not stretching the facts when they assert that we soon will have our own rubber industry.

"WHAT FOR?"

Every great crisis, life or deed usually leaves some word or phrase behind it as a crystallization of its spirit.

When the storm arose and the billows ran high and everybody save her father and sister had given up hope of Gertrude Ederle being able to negotiate the English Channel some one shouted from the boat, "Come out, girl; come out!"

Turning with a look of amazement, the heroic swimmer called back, "What for?"

In that instant the girl compressed into two words the spirit of youth as well as of her times. "What for?" Already it is becoming a catch phrase upon which plans and movements hang.

This is a practical period. Everybody wants to know whether it will work. Every new device or accessory has to pass the universal test, "What for?" Folks have little time for useless waste of energy.

If delayed in the midst of its heroisms youth wants to know "What for?" Why quit? Of this unquenchable spirit championships are spun. Most of the records are hung on the query "What for?"

Here is a measuring rod that will put many a pet plan on the shelf and many an organization out of commission. What useful purpose is it serving? The "religion of usefulness" is getting a tight grip on life.

"What for?" is an electric spur to continuance. The golfer who cannot "carry through" and the swimmer who easily becomes spent are not known by the names of Bobby Jones and Gertrude Ederle.

Complacency is the characteristic of a corpse. Contentment is the status of an underling. Quitters are never champions. "What for?"

OBLIGATION

By James J. Montague

I do not really hate to work;
A number of my neighbors
Will tell you that I never shirk
All sorts of futile labors.
I cuff the pill across the course
With unremitting ardor,
And, in expenditure of force,
Few forms of work are harder.
No task to me seems stern or big
Or lacking zest and glory,
Excepting those which are obligatory.

I like to row a boat about
Which fags my arms and shoulders;
I love, in questing mountain trout,
To clamber over boulders.
I'll lie upon my back in tar
When o'er the highway cruising,
And put a tire upon a car
And find it quite amusing.
Though work be arduous or not,
I cheerfully go through it,
Unless, of course, I know I've got
To do it.

Although you could not call it play,
I find it very pleasant
To walk the countryside all day
Pursuing quail and pheasant.
My gun across my arm I sling,
With spirits light and airy.
I like to do most anything
That isn't necessary.
But this existence loses all
Its joy and light and beauty
The minute that I hear the call
Of duty!

PEN POINTS

Gentlemen prefer blondes who were born that way.

Lie: The outward manifestation of a yellow streak.

You can't expect a ripe old age if you're rotten in your youth.

Another thing that needs an annual vacation is the stomach.

What has become of the old-fashioned girl who liked to sit on one foot?

A democracy is a land where nobody is important enough to call anybody impudent.

You can say one thing for these little woolly house dogs. They sweep under the davenport.

So often a fly, like the truth, when crushed to earth will rise again.

If the French hate to pay because they are French there must be a little French in all of us.

How in the world does an efficiency expert know the difference when he takes a vacation?

Our idea of vulgar ostentation is buying one's coal before summer is over.

Al Smith probably thinks the Hindenburg line easy as compared to the Mason and Dixon line.

Nature isn't so wonderful. If you work at it hard enough you can lose your health in spite of her.

Some things will last a great while if pickled, but this isn't true of mortals.

Good times are those in which people issue the bonds they curse themselves about in hard times.

One thing that helps to diminish America's wood supply is a $5000 insurance policy on a $3000 house.

Correct this sentence: "Clara should have been at home from the party two hours ago," said the mother, "but I'm not uneasy."

Deputy Sheriff Dougherty said it was a "dry" raid, but a pan of dishwater from the hands of an irate woman demonstrated that he was mistaken.

It will be noticed that the sign on the Venice beauty's bathing suit reads: "Veni Plum!"

It is easy to sue somebody for a million, but quite another thing to get the money in time to pay the meat bill.

Greece rhymes with peace, but that is as far as the resemblance goes.

About the best a pedestrian can expect now is that he won't be hit by anything but a Rolls Royce.

LETTERS TO The Times

[Name and address of writer must accompany all letters for this column. Letters of a personal nature or involving contentious religious questions are not acceptable.]

Crabbed Age and Youth

LOS ANGELES, Sept. 12.—[To the Editor of The Times:] Youth today is bad. Middle-age says so. Old age says so. Youth maintains that the older folks set the pace.

Young folks today outnumber the old folks in the "pens." But what of the criminals who have never been brought to justice? Furthermore, youth outnumbers age everywhere. From the vantage ground of the forties we may observe that youth has more opportunities for badness than age has. But age does not always overlook the few by-paths still open. The gossip is seldom young. The glutton is seldom a young person. The miser is well along in years. The merry widow was usually good in youth. Men turn from matrimony to their first sowing of wild oats. Age may mellow and stay sweet to the end. Or it may spoil.

Perhaps our good young folks are overlooked in our condemnation of the naughty. If the eye of maturity is not single, how can it see virtue in front of its nose? The mote in the eye must be removed first.

A father said to his boys not long ago: "Stay good as long as you can, for you won't improve with the years." Who will agree with him?

GEORGE C. McCONNELL.

Thanks from the Navy

LOS ANGELES, Sept. 12.—[To the Editor of The Times:] Your most excellent support and recognition of the Naval Reserve in the rotogravure section of The Times on September 5 deserves a better means of expression of our appreciation than a mere letter.

Please accept the thanks and appreciation of the officers and men of the Naval Reserve in this area for your generous support and publicity and our assurance of continued effort for the success of the reserve of the Navy.

A. H. WOODBINE.

Initiative Measure No. 17

SANTA PAULA, Sept. 10.—[To the Editor of The Times:] Herbert Hoover, in his address before the University Club, in Los Angeles, September 7, pointed out the dangers besetting democratic governments throughout the world. He pointed out that the same factors which have brought disaster to so many European experiments in democracy may wreck even our own government. He then pointed out a few things which may give us hope of surviving, and the greatest and most vital of all is our free public-school system. He said:

"I need scarcely recall to you that the greatest government experiment in human history was universal free education at public expense. The creation of this vast system has been, indeed, a successful experiment in democratic government."

Let us, then, protect our public-school system from the insidious attacks of any and all elements—regardless of what they think their motives are—who seek to inject their religion into the public schools. There is today a nation-wide, well-financed, organized and directed attack upon our educational system by certain religious elements. In some States their activities have taken the form of passing laws making it criminal to teach evolution, biology or any science which might cast doubt upon the absolute 100 per cent veracity of the two different stories of the creation, as told in the Book of Genesis. In California these elements thought the conditions were not yet ripe to put over a Tennessee law, so are contenting themselves this year with Initiative Measure No. 17.

Everyone knows that every taxpayer in the State—regardless of race, creed or color—is obliged to contribute heavily to the support of the public schools. Also that we have a compulsory school attendance law which requires that every child—whether the child of a Protestant, a Catholic, a Jew, a Mormon, a liberal, an atheist, a Mohammedan, a Buddhist, a Jap, a Chinaman, a negro or what not—between the ages of 6 and 16 must attend school. Thus, every fair-minded person must admit that this attempt to force the purchase of tens of thousands of copies of the Holy Bible, with public funds, and the placing of those Bibles in every public-school library, and in every public-school classroom in the State; and the authorization of its study and reading without comment in the schools is neither more nor less than an unholy attempt at religious tyranny.

It may be "Christian," but it is poor sportsmanship.

DANA L. TEAGUE.

Random Shots

LOS ANGELES, Sept. 10.—[To the Editor of The Times:] Some of us take full credit for what we are today. Some are loath to assume the burden of responsibility for what we are not.

I never get mad, says one frank soul, because it makes me sick.

The questionable virtue of liquor abstinence may have root in a thrifty nature.

Many a man is loud in his belief of the injustice imposed upon owners of dogs. When a dog-lover loses his pets he sees a nuisance in every whelp and an outrage in every bark. The heart that once proudly held room for dog life shrivels and grows cold when the object of his affection wakens the baby at midnight.

G. J. McGUFFEY.

Uncle Sam is called Uncle Shylock. Shylock, if we remember rightly, also got dished out of his loan and interest.

CALIFORNIA CONGRESS

The Monitor [illegible] deprecates the [illegible] titian press of [illegible] assign some [illegible] instances [illegible] ance to the [illegible] tions recently [illegible] the opponents of [illegible] ipation in the [illegible] been very [illegible] feat for re[illegible] McKinley in [illegible] a reputation of [illegible] stand on this [illegible] who suffer [illegible] myopia could [illegible] view. Everyone [illegible] formed as to [illegible] have known [illegible] a fight between [illegible] in the Republican [illegible] State and [illegible] was dragged [illegible] moment [illegible] which [illegible] enabled to [illegible] ator.

The Pennsylvania [illegible] sented Mayor [illegible] tion. Indeed, [illegible] nia and it [illegible] dragged on [illegible] too concerned [illegible] money in [illegible] were in the [illegible] pose of the [illegible] come of their [illegible] ative in any [illegible] lic sentiment [illegible] statesmanship.

Just as the [illegible] World Court have [illegible] exult unwarrantably [illegible] sults, so its friends [illegible] mistakenly to pass [illegible] posed in California [illegible] ment of their position. [illegible] true that former Pres[illegible] threw himself [illegible] with all his force [illegible] complish a result [illegible] construed as a rebuke [illegible] ministration. Instead [illegible] ing he was himself [illegible] in all probability [illegible] pathway to political [illegible] But it is a question [illegible] World Court had [illegible] with it as the [illegible] dictatorship of Mussolini [illegible] that the President [illegible] held, but it is also a fact [illegible] fornia Republicans [illegible] definitely from the [illegible] Hiram Johnson to the [illegible] Hoover. We think that [illegible] deserves congratulations [illegible] notable forward [illegible]

Even the Democrats [illegible] largely in the [illegible] their determination [illegible] from former leadership [illegible] repudiated the [illegible] ator Phelan for [illegible] Democratic leadership [illegible] didate of Mayor [illegible] ocratic Midland [illegible] for California, and [illegible] regarded as the [illegible] tunes of "Al" Smith [illegible] He has been [illegible] tion by John R. [illegible] on a platform of [illegible] Presidential [illegible] many Hall.

However commendable [illegible] tion of the voters of [illegible] in the California [illegible] have been, the result [illegible] taken as a verdict on [illegible] Court, but rather as a [illegible] of confidence in their [illegible] leaders.—[Christian [illegible] itor.

RIPPLING RHYTHM

ON PARADE

The [illegible] to walk aright, but [illegible] stand, playing [illegible] bright. If one has [illegible] or majesty of [illegible] need to wear [illegible] pole. His neighbors [illegible] that he's a moral [illegible] is the shover of [illegible] terfeit. Our [illegible] ay, in making [illegible] d'orgait Jones [illegible] which by [illegible] came back, [illegible] I'm overpaid; [illegible] carking. [illegible] know it's [illegible] worth the [illegible] ers Dock & [illegible] at stake, [illegible] knowing that [illegible] cent, I cannot [illegible] a great to any [illegible] overpaid me, when [illegible] coins, and [illegible] me, I gilded [illegible] though the way [illegible] day appreciates [illegible] spent and wasted, [illegible] ter right. PYREX

NURSING BOTTLES

No more broken bottles from too sudden temperature changes! Think what it means never again to have a bottle crack just as a feeding is ready; never again to lose a bottle from too rapid sterilizing or cooling.

You can now get Pyrex nursing bottles which will withstand intense heat and quick changes to hot or cold.

Pyrex nursing bottles have been planned to meet every demand that mothers and babies will ask of them.

They have been made six-sided so they never roll nor easily slip out of your hand.

Rounded inside, they are easy to clean. Wide bottoms allow them to stand firmly. Ounces and half ounces are carefully, plainly marked.

Order from your druggist a supply for a full day's feeding and be free from the troublesome worry over breaking bottles!

In the two shapes specialists approve—the narrow neck and the wide open top—

Pyrex Nursing Bottles are made by the makers of Pyrex Ovenware. Corning Glass Works, Corning, New York.

Both the narrow neck and the wide open top come in the popular 8-ounce size

Pyrex Nursing Bottles are on sale at all drug stores

SOCIETY

BY JUANA NEAL LEVY

With all preparations practically completed, society of the Southland is looking forward eagerly to the performance of "Julius Caesar" Friday and Saturday evenings in the Hollywood Bowl, R. D. Shepherd (R. D. McLean) taking the role of Brutus.

The Shakespearean series given last winter at the Biltmore in the music room by Mr. and Mrs. Shepherd were such a marvelous success that the series which is being planned for this winter will no doubt be as great if not greater success than that of last season.

Fur coats are being taken out of storage and society will don its prettiest frocks with all its loveliest furs and warm wraps to grace the occasion, an almost capacity house already being promised.

Mrs. R. D. Shepherd is chairman of the entertainment committee for and she will be assisted both evenings by Mrs. Allan C. Balch, Mrs. Joseph Francis Sartori, Mrs. John Percival Jones, Henry E. Huntington, Mrs. Hancock Banning, Mrs. Wesley Clark, Mrs. Sloan-Orcutt, Mrs. Egbert J. Benedict, Mrs. Charles Howard Lippincott, Mrs. William Irving Hollingsworth, Mrs. Arthur Wright, Mrs. Force Parker, Mrs. Albert Crutcher, Mrs. James Rathwell Page, Mrs. Benjamin Franklin Perkins, Mrs. Chappell G. Stanton, Mrs. Frederick Walter Stith, Mrs. Boyle Workman, Mrs. Charles S. Norton, Mrs. James Taber Fitzgerald, Mrs. Shelley Tolhurst, Mrs. Arthur Letts, Mrs. Alexander Buchanan Barret. Mrs. Charles Sumner Kent, Mrs. Albert Sherman Hoyt, Mrs. Grove Chester Fiske, Mrs. Seward Cole, Mrs. E. J. Bogardus, Mrs. Charles Henry Thompson, Mrs. Hobart J. Whitley, Mrs. Cecil Blount de Mille, Mrs. Robert Ladd Gifford, Mrs. William Henry Russell, Mrs. Cecil Frankel, Mrs. Henry T. Wright, Mrs. Stanley Anderson, Mrs. Chester Turner Hoag, Mrs. Frank W. Davey, Mrs. Erwin H. Furman, Mrs. Leiland Atherton Irish, Mrs. Georgia Keatinge Kennedy, Mrs. Elizabeth Dejeans, Mrs. Walter Robey Simons, Mrs. George Leslie Smith and Miss Jean Hill.

Among those entertaining with box parties will include Mr. and Mrs. Allan C. Balch, Mr. and Mrs. R. D. Shepherd, Mr. and Mrs. Hansen Moore, Mr. and Mrs Charles Howard Lippincott, Mrs. Sloan Orcutt, Dr. William Deahiels, Mr. and Mrs. Ralph Mallette Burdick, C. C. Craig, Mrs. Arthur Wright, Mrs. Charles Sumner Kent, Mr. and Mrs. Fred Pennington Newport, Douglas Fairbanks and Mary Pickford, Sid Grauman, Rupert Hughes, Miss June Mathis, Francis X. Bushman and Dr. E. O. Palmer. Mr. and Mrs. Jodson Claudius Rives will entertain Mr. and Mrs. Richard Hageman of New York City in their box.

Visiting Here

Among the visitors from eastern cities who are enjoying a most delightful visit here this month are Mrs. John Leigh Green of New York, and her three daughters, Miss Marian Green, Miss Elise Green and Miss Sally Green, who are visiting the former's sister, Mrs. Sloan-Orcutt, at the Darby on West Adams street.

Monday afternoon, the 20th inst., Mrs. Orcutt is entertaining with a luncheon at the Biltmore in honor of her sister.

Tuesday afternoon Mrs. Judson Claudius Rives is entertaining with a luncheon at her home in Westchester Place, honoring Mrs. Green, other guests including Mrs. Sloan-Orcutt, Miss Marian Green, Miss Elise Green, Miss Sally Green, Mrs. Benjamin Franklin Perkins, Mrs. R. D. Shepherd, Mrs. Oscar Robert Howard and her house guest, Mrs. L. Walker, Mrs. George Leslie Smith, Mrs. Alexander Buchanan Barrett, Mrs. William Henry Russell, Mrs. Ben Givens, Mrs. William Irving Hollingsworth and Mrs. Willoughby Rodman.

Invitations Issued

Mr. and Mrs. Judson Rives are issuing invitations for a dinner party at their home Friday, the 24th inst., honoring Mr. and Mrs. Richard Hageman of New York City. Sixteen guests are being bidden.

Tuesday afternoon the 7th inst., Mrs. Rives entertained with a luncheon for a group of sixteen friends from Kansas City, Mo.

Bridge Luncheon

Mrs. Stephenson Barnes of 7600 Willoughby avenue, Hollywood, was the gracious hostess at a luncheon and bridge several days ago in honor of Miss Roberta Allen of Long Beach, who is soon to become the bride of Robert Shoemaker, also of the beach city. The guests included former schoolmates of the bride-to-be, graduated from the Chicago Normal School of Physical Education. They included Miss Betty Allen, Miss Mildred Strohl, Miss Marie Blick, Miss Helen Gass, Miss Katherine Lemp, Miss Peg Story, Miss Ethel McDonald, Mrs. George Drake, Mrs. Ray Ingraham and Mrs. Jason L. Liscour.

Delightful Affair

The home of former Lieut.-Gov. P. A. Barrows of Nebraska and Mrs. Barrows at 1540 Wilshire Boulevard was the scene of a delightful gathering Sunday evening, when about forty of their former neighbors and friends, most of them from Boone county, Nebraska, and now residing here, surprised them, the occasion being the forty-third anniversary of their wedding, which took place in a sod house in Nebraska in the early pioneer days of that State. Many beautiful gifts were given them and a most enjoyable evening was passed. When Mr. and Mrs. Barrows returned from an automobile ride which they had taken in the early evening with their daughter, they found the house brilliantly lighted and the guests assembled. The house had been beautifully decorated in their absence with baskets of fall blossoms and bouquets of roses and ferns.

Honors Son

An event of interest in both musical and social circles was that of Sunday evening when Mrs. J. J. Elizalde of Havana, Cuba, entertained in the music room of the Biltmore with a dinner-dance in honor of her son, Frederick Elizalde, and his orchestra. The affair was given on the eve of Mrs. Elizalde's departure for Manila, where she is planning to pass the winter with her husband on one of their sugar plantations. Mrs. Elizalde left Monday, sailing from San Francisco Saturday. One of the delightful features of the evening was the short program given by young Elizalde and his orchestra, during the course of which several compositions of the young Spanish pianist-composer were played, and included was the score of a musical comedy by Elizalde, which is fast nearing completion. Fifty guests enjoyed the evening.

Returning Home

Horatio Cogswell of the University of Southern California is on his way home from Europe, having sailed from Southampton, Eng., to Montreal after passing two months touring through England and France. Mr. Cogswell visited many interesting places through the country sections of England, old country manors and historic points. He was entertained at Oxford University, meeting many prominent teachers and artists. One of the delightful treats of his visit was the attendance at one of Sir Henry Wood's Wagnerian programs, in his own country after his return from the Hollywood Bowl engagement. Mr. Cogswell is expected home the latter part of the week.

CAMELLINE

Women of Good Taste

know the condition of the skin plays a large part in their distinction.

Start today using Camelline.

Place a bottle on your "Vanity" where you can use it frequently. Use it freely on neck, face and arms.

Camelline is a stimulating, skin-toning lotion, preferred by millions to vanishing creams or powders. It is positively guaranteed *not* to grow hair, as it contains no grease or other injurious ingredients.

Camelline is especially effective in dry, warm climates. It is made in flesh, white and brunette shades.

Sold at all drug and department stores.

If your dealer cannot supply you, mail the coupon today, enclosing 10c for a trial bottle.

Restores Hair Color NOT a DYE Removes Dandruff

Husband Fails in Endeavor to Collect Alimony

A man cannot expect to be paid alimony out of his wife's separate property, Judge Summerfield ruled yesterday, in passing on the application of William Robinson, 67 years of age, for a living allowance from Ella Robinson, 64, pending trial of their divorce suit.

Robinson claimed interest in property from which he said his wife draws an income of $250 a month, and represented himself as unable to earn his own living because of infirmity. Judge Summerfield held, however, that the property in question is the separate estate of the wife.

MORTICIANS' DELEGATE

Fred E. Pierce will leave for Washington, D. C., today to attend the convention of the National Selected Morticians. He is the delegate from Los Angeles. Mr. Pierce also will attend the conference of the Embalmers' Board, of which he is vice-president.

OFFICIATES AS MAID OF HONOR

Wedding at Church Attractive Affair

[Rayhuff-Richter studios]

Miss Jean Wolcott

ONE of the attractive events of the week was the wedding last evening of Miss Clara Virginia Horton and William Merle Hancock which took place in Trinity Methodist Church. In the bridal entourage was Miss Jean Wolcott who assisted as the maid of honor at the ceremony.

Diet and Health

By Lulu Hunt Peters, M.D.

Author of "Diet and Health" and "Diet for Children"

CATARRH

L. writes that she wants some information on catarrh, and to make her letter as brief as she can, she submits the following questions.

(1.) Is catarrh catching? (2.) Does it cause a cough and expectoration? (3.) Does it sometimes lead to tuberculosis? (4.) Does it cause a chronic nose bleed, not much, but a little blood collecting in the nose? (5.) Is it inherited? (6.) Is there any cure for it?

First, dear L., thank you for making your letter brief.

Answers: (1.) No, ordinary catarrh is not catching.

(2.) and (3.) If the catarrhal condition extends into the lungs it would, but a chronic cough and expectoration should always lead to the suspicion of tuberculosis or some other trouble with the lungs besides catarrh, for the word catarrh is usually applied to nasal discharge.

(4.) Yes, it might cause slight ulceration which might cause a little bleeding, but here again examination is in order to be sure of the diagnosis.

(5.) No, catarrh is not inherited.

(6.) Yes, catarrh can be cured, but if it is the chronic catarrh it may require prolonged treatment, preferably by a nose specialist, for some of the passages leading from the nose may be infected or obstructed and have to be drained; otherwise they will be continuously manufacturing and supplying the germs causing the inflammation. Or there may be some malformation which needs attention.

It is found in experimental work on animals that the catarrhal condition of the mucuous membrane can be induced by a deficient diet, especially one not containin gsufficient vitamins, proteins and mineral elements. Very often those who are sically one not containing sufficient conditions largely from the fact that they are not getting the proper diet. You will read occasionally of mucuous-forming foods. There are no such things as "mucuous-forming" foods. The mucuous membrane alone forms the mucuous, possibly induced, as, I have told you many times, by an improper diet, but not by any particular food (rather the lack of the right foods.)

For the local treatment the following is recommended by some nasal specialists;

First: Thorough cleansing of the nose. A strong atomizer containing a salt and soda solution is good, one teaspoonful of salt and one of baking soda, to the pint of water. After this cleansing the use of some antiseptic oil preparation, also with a atomizer. A good formula is menthol, five grains; camphor, five grains, and liquid petrolatum, four ounces.

The local application of the ultra-violet rays, by a competent physician, has been very effective in several cases that I know of. There are specially constructed light applicators which throw the light directly into the nose.

Now look at your hygiene, L., especially your diet, and see a nose and throat specialist, or, better, if you are coughing and expectorating, see a lung specialist. Don't let this advice frighten you, for tuberculosis is curable also.

(We have an article on tuberculosis which contains a list of books written for the layman. You may have this by sending a self-addressed, stamped envelope with your request. Allow two weeks for its receipt. If you need instructions on how to gain weight—or to lose—send for our booklet on the subject. Inclose 10 cents in stamps in addition to the self-addressed, stamped envelope.)

Tomorrow: Bobbed Hair

My dear Followers: When sending for material which we offer you, please remember to inclose a stamped self-addressed envelope bearing your full name and address. The pamphlet on reducing and gaining is the only one for which you are to inclose 10 cents in stamps extra. Address your letters to me in care of this paper. Make them as brief as possible, not over 200 words, and write or write them legibly with ink. Please sign your full name as evidence of good faith—we will not use it in any way. Remember it is impossible for me to diagnose for you or to answer you personally. I appreciate very much the beautiful letters you send me and regret it is impossible to give individual advice. The questions you ask will be answered in the column as soon as possible, if they are of general interest. Don't forget the stamped, self-addressed envelope if you expect me to send you the information I have offered.

HOME STARTS DRIVE

Former Chief Police Organizes for Sheriff Campaign

Reorganization of his committees of hundreds of prominent men and women throughout the county was started yesterday by former Chief of Police, Home nominee for Sheriff following his return to this city from a vacation. Capt. Home will conduct his campaign from his headquarters in the Ferguson Building.

"Since the primary I have endeavored to answer hundreds of letters and telegrams of congratulations," said Capt. Home. "To the thousands of voters who supported my candidacy and whom I have been unable to reach by mail or through personal contact, I wish to express my appreciation."

MOTHERS AND THEIR CHILDREN

For the Sick Child

One Mother Says:

The child that is sick or has a naturally delicate appetite must have his food prepared for him in an attractive manner. One thing that I have found to be pleasing is toast, well browned and cut in to fancy shapes with a cookie cutter. This can be served with a glass of orange juice and will seldom fail to tempt the most delicate.

AIR THRILLS TO WIT AND HUMOR

"Cousin Jim" Broadcasts Songs Over KHJ

"The Rag Man" Brightens Studio With Smile

Children Especially Good With Numbers

BY MAE PRYOR BROOKS

A joyous spirit radiated from the tower of KHJ last night, when a program of the lighter numbers was given. We had with us "Cousin Jim" —Harry James Beardsley—with his fund of humor and his lovely tenor voice. This young man has legions of friends who welcome him into their homes, and it is always a pleasure to have him with us. Among his selections were the lovely "Slave Song" by Del Riego, "Twilight" by Glenn and an old, old song, and a beautiful one—the setting of Longfellow's "The Arrow and the Song."

"The Rag Man of KHJ," Leo Rosenau, brightened the studio with his cheery smile, and jazzed up the atmosphere with some of his own compositions, including "Pal O'Dreams," and one with the classic name of "Sour Buttermilk."

The selections of Ethel Shannon Clark, soprano, were "In the Merry Month of May," "Your Eyes Have Told Me So," and several others of the semiclassic order. Miss Clark's voice is clear and true broadcasting as well.

CLEVER BOY READER

The monologues of Leon Samson, a little boy of but 8 years, are astonishingly well done. One cannot realize that it is only a child speaking, when he is doing his clever readings.

The playing of the Stewart-Warner Quartet was quite up to standard. Their numbers were chosen from the semiclassics, and were played with spirit and understanding.

Queen Titania and her Sandman made a "studio visit" last evening; that is, instead of visiting Uncle John and Radioland on a trip into the Land of Ought-to-Be, the visitors remained in the studio. The Fairy Queen said that she wished to do this so that she might express her appreciation for all the kindnesses extended to herself and Sandman during the last three years. She told how the friendships formed during that time meant more to them than anything else she could think of. This expression of gratitude was brought to us in the form of prose and verse.

The Sandman has asked us, through this column, to extend an apology to Radioland for something he said at the Ambassador Theater on the occasion of the entertainment given by Uncle John and the Wonder Children last Wednesday. At that time, when Uncle John presented the Sandman to the audience, he asked the Sandman to introduce little Queen Titania. Speaking purely in his own form, and forgetting for the moment the fairy character, the Sandman said that while he loved all the kiddies dearly, the one who was dearest to his heart was Queen Titania. So many people have asked how he could possibly make a remark so unkind, and the Sandman wishes to say that the only excuse he can offer is that Queen Titania is his own little daughter, and that it was the proud parent speaking.

MANDOLIN DELIGHTS

For a young lady of 10 years, Betty Jane Hill plays the piano well. She was the winner of the 1926 Harriettfort in the ten-year class, and is the pupil of Alberta Green of Glendale. Last night she played "Trilita," by Tomasich, and "Coquetting Meadow Lark" by Lerice.

In these ukulele-mad days, it is a great pleasure to hear the mandolin, and hear it well played. George Kerr, 12 years of age, who comes to you each week, is playing real music, and doing it well. One seldom hears better mandolin playing nowadays than is done by this young man.

The Scripture reading was given by E. Paul G. Stevens, representing the Board of National Missions of the Presbyterian Church.

H. M. Robertson of the Robertson Kennels of Lamanda Park, had his weekly visit with his friends, telling them many interesting things about dogs. These chatty, informal talks are most enjoyable, even though one is not particularly interested in dogs.

On the noon program two of the artists of the studio personnel entertained their friends, Mona Gartman and Elvira Allman. It is a source of great satisfaction to KHJ to have two such gifted artists on our staff. Miss Gartman played the Mendelssohn "Spinning Song" and Rheinwald's "To a Wild Rose."

Miss Allman, who is a student of Mary Agnes Doyle, reads so charmingly, and on the noon broadcast on Thursday gave Joe Kerr's "Father's Donkey" and Bert Williams's "Nobody."

Bert Wyatt with his ukulele, who puts much punch into his songs, and Arthur Goodstein, blues singer, completed a very happy noon hour.

The dining dance hour was given last night by the Los Angeles Railway Orchestra, whose broadcast is so well balanced and melodious.

Among our many visitors within the last few days have been Annis Lawrence Wheeler, who has not visited us for many weeks. As usual, Miss Wheeler came with her arms full of flowers.

Not long since Mammy Lou of KHJ asked, over our microphone, if some of her listeners would not help to make the boys in the tubercular ward at the San Fernando Hospital more comfortable by sending pillows. Some of these young men are confined to their beds and the more pillows they can have the more comfortable they are. The response has been most gratifying. Pillows are still coming in, for which we are all grateful. We thank you!

MAN AND GIRL HELD IN ASSERTED FRAUD

David Boller, a salesman for the Hausen Auto Loan Company, and Eva Johnson, a stenographer for the same concern were arrested yesterday and lodged in the County Jail on a complaint charging forgery issued by Dep. Dist.-Atty. Thomas. On April 6, according to the charge, they forged three automobile sales contracts which later were discounted with a finance company. Bail for Boller was fixed at $5000 and for Miss Johnson at $1000.

COUNCIL WILL VOTE ON BRICKYARD VETO

Mayor Cryer's veto of two ordinances passed by the Council which ousted brickyards op...ing in Chaves Ravine, near Elysian Park, will come up in today's Council session. It is expected the Mayor's veto will be sustained. The brick companies have agreed to move out of the ravine within two years, it was stated, and the Mayor pointed out that under this condition the ordinances were too drastic.

Announcing the
National Broadcasting Company, Inc.

National radio broadcasting with better programs permanently assured by this important action of the *Radio Corporation of America* in the interest of the listening public

THE RADIO CORPORATION OF AMERICA is the largest distributor of radio receiving sets in the world. It handles the entire output in this field of the Westinghouse and General Electric factories.

It does not say this boastfully. It does not say it with apology. It says it for the purpose of making clear the fact that it is more largely interested, more selfishly interested, if you please, in the best possible broadcasting in the United States than anyone else.

Radio for 26,000,000 Homes

The market for receiving sets in the future will be determined largely by the quantity and quality of the programs broadcast.

We say quantity because they must be diversified enough so that some of them will appeal to all possible listeners.

We say quality because each program must be the best of its kind. If that ideal were to be reached, no home in the United States could afford to be without a radio receiving set.

Today the best available statistics indicate that 5,000,000 homes are equipped, and 21,000,000 homes remain to be supplied.

Radio receiving sets of the best reproductive quality should be made available for all, and we hope to make them cheap enough so that all may buy.

The day has gone by when the radio receiving set is a plaything. It must now be an instrument of service.

WEAF Purchased for $1,000,000

The Radio Corporation of America, therefore, is interested, just as the public is, in having the most adequate programs broadcast. It is interested, as the public is, in having them comprehensive and free from discrimination.

Any use of radio transmission which causes the public to feel that the quality of the programs is not the highest, that the use of radio is not the broadest and best use in the public interest, that it is used for political advantage or selfish power, will be detrimental to the public interest in radio, and therefore to the Radio Corporation of America.

To insure, therefore, the development of this great service, the Radio Corporation of America has purchased for one million dollars station WEAF from the American Telephone and Telegraph Company, that company having decided to retire from the broadcasting business.

The Radio Corporation of America will assume active control of that station on November 15.

National Broadcasting Company Organized

The Radio Corporation of America has decided to incorporate that station, which has achieved such a deservedly high reputation for the quality and character of its programs, under the name of the National Broadcasting Company, Inc.

The Purpose of the New Company

The purpose of that company will be to provide the best program available for broadcasting in the United States.

The National Broadcasting Company will not only broadcast these programs through station WEAF, but it will make them available to other broadcasting stations throughout the country so far as it may be practicable to do so, and they may desire to take them.

It is hoped that arrangements may be made so that every event of national importance may be broadcast widely throughout the United States.

No Monopoly of the Air

The Radio Corporation of America is not in any sense seeking a monopoly of the air. That would be a liability rather than an asset. It is seeking, however, to provide machinery which will insure a national distribution of national programs, and a wider distribution of programs of the highest quality.

If others will engage in this business the Radio Corporation of America will welcome their action, whether it be cooperative or competitive.

If other radio manufacturing companies, competitors of the Radio Corporation of America, wish to use the facilities of the National Broadcasting Company for the purpose of making known to the public their receiving sets, they may do so on the same terms as accorded to other clients.

The necessity of providing adequate broadcasting is apparent. The problem of today the best means of doing it is yet experimental. The Radio Corporation of America is making this experiment in the interest of the art and the furtherance of the industry.

A Public Advisory Council

In order that the National Broadcasting Company may be advised as to the best type of program, that discrimination may be avoided, that the public may be assured that the broadcasting is being done in the fairest and best way, always allowing for human frailties and human performance, it has created an Advisory Council, composed of twelve members, to be chosen as representative of various shades of public opinion, which will from time to time give the benefit of their judgment and suggestion. The members of this Council will be announced as soon as their acceptance shall have been obtained.

M. H. Aylesworth to be President

The President of the new National Broadcasting Company will be M. H. Aylesworth, for many years Managing Director of the National Electric Light Association. He will perform the executive and administrative duties of the corporation.

Mr. Aylesworth, while not hitherto identified with the radio industry or broadcasting, has had public experience as Chairman of the Colorado Public Utilities Commission, and, through his work with the association which represents the electrical industry, has a broad understanding of the technical problems which measure the past of broadcasting.

One of his major responsibilities will be to see that the operations of the National Broadcasting Company reflect enlightened public opinion, which expresses itself promptly the morning after any error of taste or judgment or departure from fair play.

We have no hesitation in recommending the National Broadcasting Company to the people of the United States.

It will need the help of all listeners. It will make mistakes. If the public will make known its views to the officials of the company from time to time, we are confident that the new broadcasting company will be an instrument of great public service.

RADIO CORPORATION OF AMERICA

OWEN D. YOUNG, *Chairman of the Board* — JAMES G. HARBORD, *President*

DUAL PLAN OF CONTROL UNDER FIRE

Proposal to Relieve City Council of Some Functions Attacked by Whitehead

The proposal of George Dunlap to delegate certain of the legislative functions of the Council to the Board of Public Works, which he offered yesterday before the special legislative committee, was opposed by Assistant City Attorney Whitehead.

Mr. Dunlap suggested that a charter amendment be offered to the people at the November election whereby the Board of Public Works could relieve the Council of much of the detail work in improvement proceedings. Mr. Whitehead said that would mean the creation of two legislative bodies within the city government, and was against the State Constitution.

Another suggestion made by Mr. Dunlap was that the board be reorganized and function as do the commissions governing other city departments, with the City Engineer acting as general manager and the board members supervising his work, rather than directing all the work as they do at present. He also suggested an amendment forcing contractors of public improvements to hire only American citizens.

ARSON RING COMPLICITY CONFESSED

Sister-in-Law of One Accused in Fraud Tells of Burning Store

The preliminary hearing of Benjamin Sugarman, Joseph Greenberg and Leon Rosenfeld, said to be members of a $3,000,000 arson ring and who are jointly charged with arson in the connection with the fire that destroyed a store building at 5079 Hollywood Boulevard last January, opened before Municipal Judge Blake yesterday.

Of the testimony of the five witnesses called, that of Mrs. Betty Gershan, who, with her husband, owned a store in the building, was the most dramatic. Mrs. Gershan testified she set the fire that had burned her own store. Her action, she declared, was instigated by her brother-in-law, Rosenfeld, who had promised that "everything would be fixed up."

Mrs. Gershan was introduced as a prosecution "surprise" witness by Dep. Dist.-Atty. McLean. Others identifying during the day were H. L. Graham, owner of the destroyed building; Montrose Marks, an insurance man; L. C. Bailey, insurance broker who wrote the policy on which damages had been paid; Mrs. Gershan and her husband, Samuel Gershan.

The case will be continued today at 10 o'clock.

Traffic Charge Proxy Freed by Habeas Corpus

After being sentenced to spend ten days in jail for contempt of court, William Relphs, a truckman, was freed yesterday on a writ of habeas corpus signed by Superior Judge Hahn.

Relphs, who appeared before Municipal Judge Russell to answer for a traffic violation charged against one of his employees, was found guilty of contempt by Judge Russell, who ruled that no one but the one receiving the tag could appear to answer for it.

Relphs immediately posted a $500 bond, while his attorney instituted habeas corpus proceedings. The writ was signed on the motion of Dep. Dist.-Atty. Ryan, who declared he could find no law of record which made it a crime for one person to appear for another in a traffic violation.

APPRAISAL FUND FOR SEVENTH STREET VOTED

An appropriation o... 500 was voted by the Council yesterday w...ereby the City Attorney can proceed to appraise property on West Seventh street between Figueroa and Alvarado st...ets which will be condemned in lowering the grade of Seventh street. Property owners have filed with the Board of Public Works a list of the property, fixing the value at $2,000,000.

Woman Accuses Man of Selling Her Furniture

Embezzlement of a lease and furniture of the Sheridan Arms Apartments, 1355 Wilshire Boulevard, worth $40,000, were charged yesterday in a complaint issued by Dept. Dist.-Atty. Fischer against J. J. Underwood. Mrs. Margaret B. Martin, owner of the lease and furniture, appears as the complaining witness.

In June, 1925, Mrs. Martin asserts, she intrusted the lease to Underwood for the purpose of raising a loan. Instead, she declares, Underwood sold the lease and furniture for $38,000 and pocketed the proceeds.

PAULINE BROWNSTEIN'S BODY WILL GO EAST

The remains of Pauline Brownstein, wife of Abe Brownstein, realty operator and cousin of Sam Seelig, capitalist, will be sent to St. Louis today by Pierce Brothers for burial. Mrs Brownstein died last Friday. She was 48 years of age and resided at 2635 San Marino street.

BOSTONIAN TO LECTURE

A Christian Science lecture by Prof. Hermann S. Hering, C.S.B., of Boston, member of the board of lectureship of the Mother Church, will be delivered in Philharmonic Auditorium at 12:10 today. This lecture is free to the public.

BRIDGE EXPERT HAS KEEN WIT

Second Conference Deals With Three Problems

Sample Hand Fails to Bring Out Grand Slam

Bullock's Announce Added Dates for Teas

Robert Frederick Foster, card sage, in his second bridge conference yesterday afternoon in Bullock's Tea Room, not only instructed a representative audience of bridge students upon the intricacies of overcalling, assisting and denying suit bids, but delighted and entertained them as well.

A brilliant wit, is this eminent auction bridge authority, whose every point was illustrated and followed by the actual playing of each hand, and whose sense of humor or logic at play gives the most convincing test to his exposition of tactics. Because of the complete advance sale of table reservations Bullock's has already announced four additional dates for bridge-teas and conferences, to be held Saturday morning at 10 a.m., followed by a luncheonette in Bullock's Tea Room, and upon the afternoons of the 20th, 21st and 22nd inst., at 2:30 p.m., to be followed by the service of tea.

CROSSES TABLE

Reservations may be made for the additional series in Bullock's Rest Room, fourth floor information desk, under the same conditions and at the same prices as the original series.

In Mr. Foster's lecture yesterday he crossed the table, as it were, and took up the partner's duties in response to the dealer's opening bids. The point that he said he had found the greatest difficulty in impressing on the average player was the fact that three of the tricks in the partner's hand were practically included in the dealer's bid, as he was undertaking to win seven tricks, and might not have more than four himself.

One point that seemed to astonish the audience was that length in trumps in the dummy's hand was of no value unless something could be done with them besides following suit, and he particularly warned against assisting the dealer when the hand was simply long in trumps.

AUDIENCE PLAYS

On the other hand Mr. Foster stated that too many players overlooked the importance of the dummy's being able to trump the first or second round of a suit, and of counting the tricks that could be won in that way. The audience were asked to sort out and play the following distribution:

	N 10 9 5 3 C 9 6 5 D A Q J 6 S 10 8	
W was C A Q 10 D 10 9 5 4 3 S A K 9 7 3	W E S	E was C 8 7 6 5 3 D none S 6 5 4 2
	S A K Q 8 6 C K J D K 8 7 2 S Q J	

The bidding on this hand, "S" being the dealer, was one heart, one spade, and three hearts by "N." If "E" does not know how to value his hand he will pass, and "S" will go game. But if "E" helps the spades, as he should, "W" will go to four or five and will make a grand slam. When the audience played the hand they got only five odd out of it, and readers of The Times are left to figure out for themselves how the grand slam should have been made.

FIGHT FOR DUMMY

Mr. Foster also gave some advice as to the duties of the adversaries in putting up some sort of a fight for the privilege of playing the dummy, even when they were not very strong.

Today at 3:30, Mr. Foster will take up the subject of no-trumpers, and what to do with them and against them; the four-card suit bids, and the Information double. In connection with this last subject he will explain how the hand that has been the puzzle of everyone who saw Bullock's window was played. The Times will also give the solution tomorrow.

QUESTIONS AND ANSWERS

Mr. C. says: The dealer on my right bids a diamond. I hold five diamonds to the king, queen small of both hearts and spades, with queen and nine of clubs. This has been submitted to two of the best known authorities and they do not agree. What should I do as second hand?

Answer: Pass. The only alternative would be to bid no-trump, but with the prospect of the diamond suit being cleared up on the first trick played, and not an ace in the hand, such a bid is premature. It is more than probable that the third hand will have to bid something, if you pass, as he must be short in diamonds, and by the time the bid gets around to you again you will be in an excellent strategic position.

H. W. L. says: My partner has bid a spade, overcalled by one no-trump on my right. I hold six hearts to the ace-queen and have two guarded kings, but only two small spades. What is my opening lead and why?

Answer: It is presumed that the declarer has the spades safely stopped, perhaps twice, and if the rest of his hand is a no-trumper, there is not much hope of your partner's getting in with his spades if your two are exhausted before his suit is set up. It would seem, therefore, to be a better chance to save the game by opening a small card of your long suit. Then you can lead a spade later, for your partner to come through the declarer's king if that card is not played, and you still have a stopper with your two kings, one or the other of which should be still in your hand after you get in with the other.

C. H. B. says: The dealer on my right bids a heart. I have no hearts, but hold four spades to the ace-king-queen; four clubs to the ace-jack, and five diamonds to the king-queen. Should I bid the diamonds, my long suit, or double the one-heart bid? If I double, and my partner has a heart-stopper, he will go no-trump.

Answer: Why double? If your partner goes no-trumps, you cannot leave him in with a missing suit in your hand. On the other hand, why waste such a hand on a diamond contract, when you have to bid two to get it, and have a perfectly sound spade bid, and have to bid only one to over-call the hearts? If your partner has normal support, three spades, your hand is very strong. If he has enough heart-stoppers to go no-trumps, you should win 5 a game. A double induces the third hand to pass. A spade bid may lead him to support or deny hearts, and you then get a line on the situation.

Repairing Heating Wires

Broken heating wires in electric toasters, stoves and similar appliances often may be repaired simply by gripping the ends between two washers, which are held together by a small bolt. Bolt and washers small enough for this purpose can be found in toy streetural steel sets.—[Popular Science Monthly.

YOUNG HERE FOR PARTY ASSEMBLY

Candidate in Los Angeles to Attend Reorganization of County Committee

C. C. Young, Republican candidate for Governor, was among the arrivals at the Biltmore yesterday, coming to Los Angeles to attend the reorganization meeting of the Republican County Central Committee.

"There is no particular significance to my visit here," said Mr. Young. "I had a day off and thought I would come down to visit my friends. I am leaving for home tonight."

He expressed himself optimistically as to the prospects for progress in the Colorado River development. "It is the most important project under consideration in the Southwest at the present time and I will do everything in my power to hasten its progress," he declared.

Mr. Young voiced disapproval of the sentiment that has grown up in the East favoring the abolition of the direct primary system as an institution more productive of slush funds and kindred evils than the old convention system.

"Too much money is no doubt used at times by aspiring candidates to gain election, but even so, this was an evil that prevailed under the convention system also, and I am still convinced that the direct primary, though it may be imperfect in spots, is the best method thus far devised to nominate candidates," he declared.

"In this connection I might suggest that I believe the primary system has not been abused in the West to the extent that it has in the East. In California, for instance, I believe our election laws, coupled with our inclination to political honesty here, has largely prevented such abuse."

TWO SEIZED IN RAID GET COURT STAY

Girl and Man Will Face Judge Today on Immoral Picture Charges

Stephen Madden and Daniel Lowenthal, arrested Monday night on vagrancy charges when police raided the home of Fulton Potinger, 5046 Maplewood avenue, were arraigned yesterday before Municipal Judge Pope and asked for time in which to plead. They were given until the 21st inst., and ordered held under $300 bail each.

Potinger and Miss Katherine Potzelt, also arrested at the former's home, will be arraigned today before Municipal Judge Scott. Miss Potzelt faces an immorality charge, while Potinger, in addition to a similar charge, is accused of possessing obscene pictures.

The arrest of the four persons was the result of a raid made on Potinger's home by a police squad headed by Sergt. McMullen. Included in the evidence taken were several reels of obscene motion pictures, a number of photographs and a motion-picture projector.

Potinger is said to be the son of a Pasadena millionaire, while Madden is identified as a wealthy Indianapolis furniture man.

An automobile distributor gave away at a recent show in Rio de Janeiro cigarettes bearing the name of his cars.

War Peaceful Compared to Wife, He Says

John Park Sturms joined the Army and went to France in search of a little peace and quiet, he told Judge Hollzer yesterday at the trial of his suit for divorce from Wilma Leta Sturms.

"She made things so hot at home that the war was just a little breathing spell for me," Sturms said.

Their trouble arose over unreasonable jealousy of Mrs. Sturms, the husband explained. He was granted a decree.

PANTAGES SOLD BY ADVERTISING MAN

E. F. Gunn, owner of the Gunn Advertising Company of San Diego, yesterday brought suit in United States District Court against Pantages Theater Company, Inc., for $11,099.50 for asserted breach of contract. During 1924, he asserts, he made an oral agreement with Alexander Pantages to rent space in theaters in Spokane, Tacoma, Seattle and Vancouver and paid rentals of $2100 to $3000 a year, but that after a short time and without reason he was evicted and his money not returned.

A Missed Opportunity

The village bank had been forced to close its doors and Ike, although the town's champion ne'er-do-well, was loudest in his denunciations.

"Aw, what are you kicking about?" growled a comparatively large depositor. "You couldn't have had more than a couple of dollars in there."

"Well," retorted Ike, "if I'd known this was gonna happen I could of been overdrawn, couldn't I?"—[American Legion Monthly.

GREAT DAYS OF WHALING RECALLED

The British effort to discover the number of living whales and to learn enough about their homes and habits to be instrumental in conserving them recalls the golden days of whaling, when $40,000,000 was invested in whalers and equipment and 40,000 hardy seafaring men earned their livelihood by killing whales.

It was a day of graceful barks and brigs and schooners, and brave sailors and harpooners. But how small was the value of the whales taken in the middle of the nineteenth century compared with the value of game which may be provided, with little investment, in the twentieth century and killed without much equipment.

The proceeds of the greatest year American whalers knew were about $10,000,000. About as much, in other words, as the kill of game and furbearers in Pennsylvania after a generation of conservation.

All of the proceeds of all of the whaling that was done by the whole world in a year were far less than the possible game crop in the United States with a population of 112,000,000 on the soil.—[Louisville Times.

Exacting

To amuse his young son a north side father was requested to draw. After drawing an engine and cars the young hopeful wished something else. His father then drew a stick picture of a boy running. After gravely considering the picture the youngster remarked: "Put the meat on him, daddy."—[Indianapolis News.

Oh, Shucks

Rosalind, who had been observing her mother remove the husks from the corn, went out on the back porch where a neighbor was preparing to dress two chickens. In a few minutes she returned excitedly, calling to her mother: "Come quick, Mother. Oliver is going to smuck the chickens."—[Indianapolis News.

HOW MANY WOMEN GET UP SINGING

Two Women Find Health Essential to Happiness

MRS. BELLE THOMPSON
ROUTE 2, ROSEVILLE, GEORGIA

Springtime streamed in through the open windows. The green fields of Georgia were basking in the sunshine. Somewhere a bird was trilling. It was a day to be happy.

But the pale woman at the table sighed and pushed away her plate. Nothing tasted right. She couldn't eat much. She couldn't sleep well, either. She was so weak, it was hard to do her work. When the baby cried, she wanted to cry, too.

She had not been well for four years. Her husband watched her with a man's helpless expression. But his mother knew a remedy.

"My mother-in-law," says Mrs. Belle Thompson, Route 2, Roseville, Ga., "told me of Lydia E. Pinkham's Vegetable Compound and Lydia E. Pinkham's Sanative Wash. I took six bottles of the Vegetable Compound. I could sleep and would get up in the morning singing and feeling fine. I am the mother of three children, and always after the baby came I had to take treatments, but I can truly say that this last time I have only used the Sanative Wash. It does more good than the treatments. It keeps me on my feet to care for my children and I do most of my work. I feel it my duty to let you know how both of the medicines have helped me."

Another Happy Woman:

Decatur, Illinois.—"I took your medicine for weakness. I would sometimes have to hold myself up with my hands. I was this way for five years, off and on. I read in the newspapers where Lydia E. Pinkham's Vegetable Compound has helped a lot of women, and I thought I would take it. I am now getting better so fast that every month I can feel a difference. My work now is cooking. If you like, you may use these facts as a testimonial. I am willing to help you boost your medicine."—Mrs. Irene Reed, 635 Greenwood Ave., Decatur, Ill.

This dependable medicine has been in use for over fifty years.

GRIFFITH'S NEW STAR

Will Direct Richard Dix in Melodrama; Buck Jones Buckles to Work; De Mille to Catalina

BY GRACE KINGSLEY

To those who remember "Intolerance" and "Broken Blossoms," there may be a slight shock in the news that D. W. Griffith is going to make a picture called "The White Slave."

RICHARD DIX.

The news that Griffith is to transfer the Bartley Campbell melodrama into a picture came over the wire yesterday from New York, being announced by William Le Baron, associate producer at Paramount Long Island studios. "The White Slave," as you may remember, was the sensation of a season in which the question of procurement of girls was being rabidly investigated and discussed.

But this isn't all. Sit tight and flat. D. W. Griffith is to direct Richard Dix in the picture. This in itself is matter of the highest interest, since it is an entirely new combination of star and director, and one that should prove mighty satisfactory.

That very fine young actress, Carol Dempster, as is the case of late in all of Mr. Griffith's pictures, is to have the feminine lead opposite Mr. Dix, and will play the title role. This part will give Miss Dempster one of the greatest acting opportunities she has ever had. George Bancroft is the only other player so far assigned.

Richard Dix, according to reports, is very much delighted at the opportunity to work for Griffith. Indeed in his own stubbiest way Mr. Dix exclaims: "I have never worked with Mr. Griffith, but I have always wanted to. Now at last I have the opportunity."

Forrest Halsey is making the adaptation for "The White Slave," and production will start November 15 at the Long Island Studios. This will give Dix time to complete another picture, "Paradise for Two," before starting the new Griffith picture. He is now completing "The Quarter Back." Griffith at present is cutting and titling "The Sorrows of Satan," which is to be released this fall as a road show.

Buck Jones Gets Busy

Invigorated from the rest of a three months' vacation during which time he traveled extensively in Europe, returning only to hide away in the mountains of Wyoming for a rest, Buck Jones returns to the William Fox studios to picture making this week an exceedingly happy star.

BUCK JONES

In keeping with plans to produce even bigger and better western pictures starring the stalwart Buck, Fox Films has engaged as his director the man who made no less than seven of the star's finest films three years ago, viz., Scott R. Dunlap, according to an announcement of Winfield R. Sheehan, vice-president. From this combination of star and director, the Fox company confidently expects some of the finest western pictures ever produced. While new quarters are being prepared for Buck at the studio, and corrals for his horses, at the Fox Hills Ranch, the star and director are busily engaged in planning the production of "Desert Valley," by Jackson Gregory. This story promises to offer Buck one of the finest vehicles he has had since the days when he and Scott Dunlap turned out the pictures that helped make them both famous.

At this early date no cast has been selected but Fox officials take away all our anxiety on the score by saying that Buck will be surrounded with stellar players.

Edwin Carewe Gets Ready

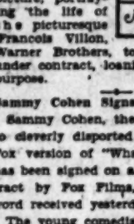
Edwin Carewe will not produce "Resurrection" for United Artists, as was planned. A new arrangement has been made whereby Carewe and Inspiration Pictures, Inc., will jointly produce the story, and United Artists will release it.

Plans for the filming are progressing rapidly, and speaking of Tolstoy, Count Ilya Tolstoy, who accompanied Carewe to Los Angeles to assist with the research work of the story, is thinking seriously of remaining in the Southland indefinitely. He is investing in some of our real estate, having contracted for both a ranch and a town residence during the brief period he has been here.

In making "Resurrection" the director plans to stick to the book as closely as possible, and no time or pains will be spared to give the film genuine costumes, mannerisms, as well as splendid types and characterizations.

Cecil B. De Mille to Travel

Cecil B. De Mille's company of players making "The King of Kings" will travel to Catalina the latter part of this week where, at the Isthmus, scenes for the picture will be made.



H. B. WARNER.

In the meantime, work is advancing on the tremendous feature, which without doubt, will be, from many angles, the greatest sensation picturedom has ever known.

From very beautiful stills and photographs shown me yesterday, it would appear that the clearest conception of the Christ ever portrayed in painting or on the screen will be that given to the world by H. B. Warner, under the direction of Mr. De Mille. The face of the Christ radiates power as well as beauty and spirituality. Perhaps, indeed, it has remained for a picture director, rather than a picture painter, to give us the sublime portrait of the Divine One.

World War Heroine Busy

That charming young actress and heroine of the World War, Valentina Zimina, member of the Russian Woman's Battalion of Death, seems in a fair way to become as excellent an actress as she was patriot. As luck will have it, she is getting a little comedy relief, since she is playing a featured role with Charlie Chase at Hal Roach's studio, and when she finishes that is to have a part in the Fox production, "The Monkey Talks."

Jane Winton In It

The lovely Jane Winton, fair but false, you remember, in "Don Juan," which is now running at the Egyptian, is naturally the recipient of all sorts of screen offers since her excellent work has been noted in that picture.

Jane Winton

Now she has been signed by John Barrymore to play second lead with him in his United Artists' newest picture, portraying the life of the picturesque Francois Villon, Warner Brothers, to whom she is under contract, loaning her for that purpose.

Sammy Cohen Signs With Fox

Sammy Cohen, the youngster who so cleverly disported himself in the Fox version of "What Price Glory," has been signed on a long-term contract by Fox Films, according to word received yesterday.

The young comedian is a Los Angeles boy, having been trained here for the stage by Frank Egan, and having appeared in various stage productions. It wasn't until his work in "What Price Glory" that he found himself in the way to become famous on the screen.

Julia Faye In a Special

It would seem that there was no keeping "The Yankee Clipper" within bounds, once it got started going. The picture, being made at the De Mille studios, and on the high seas at various points of the compass, has turned out to be such an excellent one that it is to be made into a special.

Julia Faye has been added to the cast and will play the role of Queen Elizabeth.

Song Writer In Films

Tin Pan Alley is due to get awfully mad about something. That something is the fact that all the song writers are going into the silent drama, otherwise the movies. Maybe that won't be so hard on the public in general, but when it comes to the case of Grant Clark, whose words and lyrics have brought joy to many a radio and phonograph fan, that's different. But in any case it's too late to do anything about it, as Clark has just been signed to lend his ideas to preparing "McFadden's Flats" to the screen for Warner Brothers.

Hector Turnbull Prepares

Returning to Famous Players-Lasky west coast studio from his first vacation in several years, Hector Turnbull, Paramount producer, yesterday cleared decks to begin preparations for "Casey at the Bat," his first feature production as head of his own producing unit.

In this picture Wallace Beery and Raymond Hatton, who have proved such a hit in their co-starring vehicles, are again to shine as twin stars.

Character Actress Signs

Mathilde Comont has been signed by Universal to add to the gayety of nations in "The Wrong Mr. Wright," which Scott Sidney will direct for Universal with Jean Hersholt as the star.

May Robson's First

If you have been imagining that May Robson's red cheeks, when you saw her playing those wholesome matrons on the stage, were due to rouge, you are mistaken. I saw her out at the De Mille studio yesterday, and she is as ruddy as a milkmaid, and as full of vitality as Ma Pettingill. Also she likes the pictures.

Miss Robson's first picture will be "Rubber Tires," and Alan Hale will direct.

J. G. Hawks Vacations

J. G. Hawks is leaving within a day or two for New York, by way of the Panama Canal, and means to spend a two months' vacation in the East. When he returns he will resume his job as production manager for F.B.O.

BEAUTY IDEA STRESSED IN LOS ANGELES

Resident Back from Tour of Europe Urges Planting of Trees Downtown

European ideas of beautifying cities through the abundant use of trees and maintenance of green spots in the business district as well as the outlying section must be adopted in Los Angeles if the city is to escape the "down at the heels" look, S. W. Blanchard told members of the City Planning Association at a meeting last night at the City Club. Mr. Blanchard recently returned from a tour of the world.

"This city is as beautiful as any in the world, and in point of climate excels them all," he declared, "but it is being rapidly denuded of one of its most vital assets, its trees."

He pointed out that the removal of trees from the business district on the ground that they are in the way is an economic fallacy since European cities have trees lining their business thoroughfares and merchants find them a decided advantage aside from the beauty which they add.

"Indiscriminate destruction of our trees is an absolute crime both from the standpoint of beauty and economic value," he said.

Steps also should be taken to adopt uniform rules for the erection of business structures to make them harmonize with their location and thus beautify the city as a whole, as is done in Europe, he urged.

Norman Lindsley, assistant City Engineer, also spoke on the proposed traffic circle at Sunset Boulevard and Broadway. He discussed the project in detail and declared that it will do much toward eliminating traffic congestion. The proposed circle, however, was vigorously opposed by George D. Hall, architect.

TWO KILLED WHEN CABLE STRANDS GO

Aberdeen Workers Plunge Seven Stories to Death in Scaffold Collapse

ABERDEEN (Wash.) Sept. 14. (AP)—Ernest Stabbert and Dryden Hoss are dead and Walter Johnson and Lou Bokoner are nursing minor injuries as the result of the collapse of a scaffold opposite the seventh story of the Becker Building, now nearing completion. Coroner Lawrence Hopkinson declared that the accident was caused by parting of a rusted cable and said he will conduct an inquest.

Stabbert fell seven stories through the skylight of an adjoining building. He died shortly after the accident. Hoss landed on the roof of the same building and suffered two fractured ribs in addition to a crushed skull. Johnson and Bokoner broke their fall by grasping suspended ropes. Stabbert is survived by a widow and a son, 10 years of age, in Tacoma.

MANY SQUIRRELS SLAIN

Twelve Millions Exterminated as Aid to Agriculture

SACRAMENTO, Sept. 14. (AP)—Twelve million ground squirrels were killed last year in California by Federal, State and county officials and individuals, according to estimates by the United States Biological Survey.

This extermination work was conducted at a cost of $571,400, but it is estimated by State officials that the savings to California agriculture exceeded $3,000,000.

Joseph Keyes of the Biological Survey, working in conjunction with the State Department of Agriculture, estimates that there are at the present time 10,000,000 acres in California infested with ground squirrels.

Western Monkey Wrenches

"Have you a monkey wrench?" was the question asked by Mrs. Edward L. Rose, 1845 Indianola avenue, to the man of the house in one of the rural dwellings along the Cody road on the way to Yellowstone.

"No-o-o," the interrogated replied "But I got a cow ranch; Steve, he got a hog ranch; sister's husband, Ed, has a goat ranch; but I don't know any one darn fool enough to keep a monkey ranch." — [Columbus Dispatch.

FOR PEOPLE, NOT FOR P

United States Government's Resources in Demand; "The Times" Information Bureau to Aid in Solving Pro

Most people believe that everything connected with the government is in some way associated with politics. This is not true. The great machinery that has been built up in Washington for solving the problems of the people goes on its way unchanging and undisturbed, with little concern for pastries or politics. Its object is the betterment of living conditions of the American people.

This paper feels that it can perform no greater service than to place its readers in personal touch with government activities. For this purpose it supports a Washington information bureau—an organization of trained workers whose only duty is to serve you in your quest for information. If you have a question, submit it to these experts. Enclose 2 cents in stamps to cover the return postage and address The Los Angeles Times Information Bureau, Frederic J. Haskin, director, Washington, D. C. Here are a few questions and answers supplied by Mr. Haskin.

Question: How many kinds of birds in this country have singing voices?
H. McC.

Answer: The Biological Survey says there are 100 different species of singing birds in the United States. Most of the States have laws forbidding them to be caged.

Q.: What is the oath that a government employee must take?
G. C. L.

A.: The oath taken by government employees before entering office is: "I do solemnly swear (or affirm) that I will support and defend the Constitution of the United States against all enemies, foreign and domestic; that I will bear true faith and allegiance to the same; that I take this obligation freely without any mental reservation or purpose of evasion and that I will well and faithfully discharge the duty of the office that I am about to enter—so help me God."

Q.: How did the word "starboard" come to be used for the right-hand side of a vessel?
A. J.

A.: Starboard is from the Anglo-Saxon steorboard, steor meaning either rudder or steer and bord, side: the reference is to the time when vessels were steered by a paddle or sweep worked from the right side.

Q.: Has the Lord's Prayer been engraved upon the head of a pin?
R. C.

A.: The Lord's Prayer, sixty-nine words, 397 letters, counting punctuation marks, was engraved in twelve lines on the head of an ordinary pin by Charles Howard Baker of Spokane, Wash. Baker is now an inmate of an institution for blind and insane. The engraving cannot be read without the aid of a powerful magnifying glass. Baker, at one time an employee of the United States Bureau of Engraving and Printing, spent three years and eleven days on his task.

Q.: Why aren't pears grown in greater quantities?
C. R.

A.: The pear is a delicious fruit and yields enormous crops when bearing. A large acreage would be planted were it not for pear blight. This disease makes a crop so uncertain that farmers will not take the chances. The pear would rival the apple in production and probably outyield this fruit were it possible to control the blight.

Q.: Why is the twelfth month called December when decem means ten?
L. N.

A.: In the Roman calendar, December was the tenth month and has retained its Latin name, as several others have.

Q.: Is it correct to say "like a person, or should the word be confined to things?
F. S.

A.: Dictionaries state that the word like may be applied to persons.

Q.: What makes cistern water smell so in summertime?
J. A. R.

A.: The musty odor of a cistern is often due to the increased bacterial growth and there are more impurities in the water during warm weather.

Q.: Is it true that the rates are very low in Mills hotels?
C. M. C.

A.: There are three Mills hotels in New York City, provided for by Darius Ogden Mills (1825-1910.) They were established for poor, but self-respecting men, who may obtain lodgings and meals there at a nominal rate.

Q.: Which of our colleges gives training in public health work?
A. C.

A.: Among the universities which have already established correlated

LONG HAIR BOON TO VISITING SINGER

Diva, to be Heard in Grand Opera Season, Has Long Blond Tresses

BY ISABEL MORSE JONES

"Long hair protects a singer" from colds, gives her strength and saves her from wigs," declares Luella Melius, American grand opera singer who electrified Chicago last season and is now in California to sing in San Francisco and Los Angeles opera this month. She is blessed with long, blonde hair of the kind which "gentlemen prefer," and intends to keep it.

Mme. Melius is quite serious about the valu of long hair to a singer and attributes her health and non-susceptibility to colds to that interesting appendage. Stage managers encourage this view. Her roles, curiously enough, are mostly of the long-haired variety such as Marguerite, Gilda, and so forth and she is often required to give her blonde braids a jerk in full view of the audience. She attributes the present vogue of short hair to woman's laziness and the ease of up-keep of bobbed tresses.

Luella Mellum has achieved success after long years of European preparation and it was only a fortunate chance that made her tarry in America long enough to sing with the Chicago Opera Company last November in "Rigoletto." She was acclaimed over night as a marvelous Gilda, a role she will sing in Los Angeles, by the way, and between the Chicago Opera Company and the performances at Ravinia Park this summer she has been piling up successes ever since.

Knowing well the almost insurmountable difficulties of American singers in their own country and the complete dearth of operatic opportunity here, Mme. Melius is planning to aid some talented young singer and will hold auditions to select a protege while she is in Los Angeles. She looks with pity upon the 5000 young American students who are now struggling in Italy to gain the experience which will enable them to return to America and sing in opera.

Mme. Melius has sung much in recital in Vienna and Berlin and her operatic success is backed by solid musicianship which she considers more important that "showmanship." She is a beautiful woman and her costumes at Chicago and Ravinia have been much admired but privately she deplores the necessity for catering to the eyes rather than to the ears.

Her advice to young American singers is to build up musicianship and not to depend upon a voice, however good.

She will sing in recital here later in the season.

Connor Twins Score Success on First Night

Michael Corper's two new feature players, Thelma and Velma Connor, known as the Connor twins, went right into the hearts of Majestic patrons with their debut in "Monkey Business" last night. A capacity house greeted the two stars, who came here several days ago after closing featured roles in Ziegfeld's American Revue in New York.

In signing the Connor twins for the Majestic revue, Michael Corper also secured their services with the intention of featuring them in a forthcoming musical revue for which he is at present making plans.

The Connor twins, in being featured in "Monkey Business," are the second "sister act" to be installed in the show, the other two being the Angelus sisters, who are also scoring with Majestic audiences.

Detective in Crook Opus Had Season in 'Jest'

Alphonse Ethier, who has the part of Detective Crane in "The Lone Wolf Returns," which is now being shown at the Metropolitan Theater, has been on the stage for twenty-eight years. He is said to be one of the greatest character actors of stage or screen.

For many years Ethier was a character lead in New York, and recently was acclaimed by the New York press for his work in the Broadway production of "The Jest." Before that he appeared as Poison Dore in the stage production of "The Barrier" and followed William Farnum in "Ben Hur."

In "The Lone Wolf Returns," Mr. Ethier has molded the role of Detective Crane to what is said to be a perfect visualization of the author's conception of the character.

LUCILLE PRESENTS VARIETY OF DANCES

A novelty in terpsichorean art is being offered at the Hillstreet Theater this week by Miss Lucille Ballantine, aesthetic and eccentric dancer who entertains with her "Four Boy Friends." Included in the repertoire is everything in terpsichorean endeavor ranging from a fantastical "Butterfly Dance" to the latest steps in the "Charleston."

Miss Ballantine will be remembered as the featured entertainer in "The Spider's Web," dance production which toured the Orpheum Circuit last season.

She is assisted by William Allen, Ted Wheeler, Ernie Heber and Thomas Atlas.

CHINESE TRAVELOGUE HAILED ONE OF BEST

Hailed as one of the best travel pictures seen in years, and the only comprehensive film of life in China as it is today, Isaac O. Upham's "Pieces of China" will play a matinee today at the Philharmonic Auditorium.

All of the interest is not in the picture, however, for in the fairy-tale prologue, "The Giant's Sword," appears the towering Chinese actor, Liu Yu-Ching. The giant was brought here direct from Peking, where Upham discovered him in the Botanical Gardens. Liu, amiable and smiling, stands in the lobby of the theater at the end of each performance and greets the children with a handshake.

"MONK" IS IN IT

Plenty of monkey business is taking place during the filming of "Monkey to Burn," Gotham picture, featuring Dorothy Devore. The comedienne and a trained monk are sharing a number of comedy scenes together.

Much in Evidence

Carmel Myers

Appearing in "The Gay Deceiver" at Loew's State this week. She is also seen as the Egyptian princess in "Ben Hur" at the Biltmore Theater.

ACCLAIMED IN YEARS PAST

The Troupers' Club of Hollywood, composed of veterans of the stage, every one of whom has achieved a niche of his own in the dramatic hall of fame, has volunteered to act in a body as members of the Roman Senate in the production of "Julius Caesar," to be presented in the Hollywood Bowl Friday and Saturday nights.

WILLIAM H. CRANE

In order to be a member of the Troupers' Club an actor must have seen at least thirty years' service on the stage; therefore, for the first time in the history of the theater, a group of distinguished actors, every one a star of bygone days, will act as supernumeraries in a production for the pure love of service in a cause which they believe will be of great benefit to the stage and to the profession they love so well—the building of an Art Theater in Hollywood.

William H. Crane, the dean of American actors, is a member of the Troupers' Club and will don his togs with the rest. To Director Joseph De Grasse, who, with Reginald Pole, is directing "Julius Caesar," goes the honor of securing the co-operation of this club.

IN VAN BIBBER STORY

William B. Davidson is playing the role of the husband in "The Tennis Champion," a Van Bibber story by Richard Harding Davis, now being filmed at Fox Film studios.

'Volga Boatman' in Final Days of Run at Carthay

Coming into the final stretch of its remarkable run at the Carthay Circle Theater, Cecil B. De Mille's "The Volga Boatman" is hitting on all eight cylinders and when it finishes the nineteen weeks of its engagement on Monday evening, the 27th inst., will have set an attendance mark that promises to be something for other attractions to shoot at for some time to come.

The theater will be closed after the Monday evening performance on the 27th inst. until the 30th inst., and then will open with the first world showing of King Vidor's production of "Bardelys, the Magnificent," starring John Gilbert and featuring Eleanor Boardman.

This is said to be Mr. Gilbert's greatest role and one that provides him with opportunity to play the lover supreme. It is colorful, romantic and filled to overflowing with thrills and action.

To big picture will be surrounded by a program including a musical score arranged by Carli Elinor and played by his orchestra and Jack Laughlin's spectacular prologue, "Les Magnifique."

Mountain Folks Hear All About John Barrymore

The news of the engagement of John Barrymore in "Don Juan" at Grauman's Egyptian Theater has spread even into the mountainous regions of California, through Warner Brothers broadcasting over KFWB, according to word sent to Sid Grauman by Harry Arnold, who went into the Rattlesnake Canyon district above Victorville on a deer-hunting trip.

Arnold, who is an ardent radio devotee, took a high-powered seven-tube Howard receiving set with him on his pack trip into the high mountains, and every night parties of hunters from near-by camps gather around his campfire to hear the latest doings in Hollywood, including news of the Barrymore activities at the Egyptian.

WHEN MEN WORE RUFFS

U.S.C. Offers Classical Course at Metropolitan College

The time of the powdered wig, the age of the sedan chair, the period when gentlemen wore ruffs, and the day of the coquettish fan, will be dealt with in a series of twelve evening lectures on "The Classical Period" to be given by the University of Southern California at metropolitan college, beginning tonight.

Dr. Mildred Struble, professor of English language and literature at Southern California, will head the group.

Dealing with English literature from 1660 to 1740, the lectures will cover drama and fiction, essays and classical characters of the time of Nell Gwyn.

JOLSON MUST ANSWER

NEW YORK, Sept. 14. (Exclusive) Al Jolson, the comedian, was in the Federal Building for more than an hour yesterday awaiting the trial of the suit for $571,000 damages for breach of contract brought against him by D. W. Griffith, film producer-director. Griffith alleges that the actor sailed for Europe on the evening of the filming of "Mammy's Boy," in which the latter was said to have agreed to appear. Judge William I. Gribb postponed the trial until tomorrow.

Lew Entertains Football Stars at Loew's State

"Brick" Muller and the members of the Los Angeles professional football team will be the guests of Lew Cody at a special performance of "The Gay Deceiver" at Loew's State Theater tonight.

The eleven players will be rounded up and brought from Palisades Del Rey by Jack McDonough, manager of the eleven. Darrel Hufford, former California end, will be in town for the football night at Loew's State. Lew Cody, star of "The Gay Deceiver," who is actively interested in the Los Angeles team, has been at the practice being held daily at Palisades Del Rey. Lew declares that the team will leave for the East on the 19th inst., and will conclude their training in Chicago for the first game of the season on the 26th inst., when it is reported they will meet Red Grange's Aurora warriors.

A special section of the theater will be set aside for Brick Muller's team, and the rest in general will be in the nature of a send-off tribute to Los Angeles' first professional football team.

Members of the University of Southern California, the University of California, Southern Branch, and Occidental College football teams have been invited to be present as Lew Cody's guests.

Opera Lectures Scheduled for Club Program

Four interesting opera lectures, to be given by Mrs. Ethel Graham Lynde, with the co-operation of the Los Angeles Opera Association, is the program scheduled by the Fine Arts Club for the coming two weeks. The lectures are to be given in the Ambassador Theater and with the exception of the final program all will be held at 10:30 in the morning. The operas chosen for study topics are as follows. This morning, Aida; Friday morning, Madame Butterfly and Martha; 22nd inst., La Tosca; Friday evening, the 24th inst., at 8 o'clock, Samson and Delilah. Mr. Stadoni will assist at the piano during the lecture course.

Mrs. Lynde will be remembered by many Los Angeles music lovers for her excellent work as official lecturer for the Fairyland Opera Company in 1915. She also held the same office with the old Los Angeles Symphony Orchestra.

JUST A BAG OF ONIONS

A bag of onions will admit anyone to the "Onion Matinee" of "Know Your Onions" at the Orange Grove this afternoon. Arthur Freed wants every man, woman and child in Los Angeles to see this play by Norman Feuster and in order that everyone may have the opportunity, he will accept a bag of six onions for admittance to the matinee this afternoon. The onions thus received will be given to the Children's Hospital.

AIDS MASQUERS' REVEL

Ned Sparks is to be in charge of preparing and staging the gigantic Masquers' Revel this year. The show will be bigger than last year and will take place in the early fall, according to Sparks's plans.

VISITS BERLIN

Lilyan Tashman, now in Europe, left Paris this week for Berlin, where she will visit the studios where "Passion," "The Last Laugh" and other successful German photoplays were produced.

Whiteman Had a Real Parade in His Honor

Yesterday, Paul Whiteman came home!

And what a home-coming! One of the largest receptions ever accorded a home-town boy was given Whiteman when he arrived with his band preparatory to beginning his engagement at the Million Dollar Theater Saturday.

Mr. Whiteman was met by Mayor Cryer, who crowned him king of jazz, screen stars, a host of friends, bands and orchestras from all over the city and other admirers. A huge parade in his honor was led by the leader through the downtown streets, terminating at the Million Dollar Theater where the jazz monarch began rehearsals for his opening here.

The engagement at the Million Dollar is the first on Whiteman's new tour of Publix Theaters for which he signed a contract just before leaving New York. This is said to be the largest contract for entertainment ever signed.

Thomas Meighan in "Tin Gods" with Renee Adoree and Aileen Pringle featured in support is the photoplay feature which will be shown in conjunction with the Whiteman engagement.

Red Grange in "One Minute to Play" closes Friday. Tonight is University of California night at the theater, dedicated to the university and Coach Bill Spaulding and his 1926 gridiron squad by Managing Director Frank L. Newman.

Engagement of 'The Green Hat' Ends Next Week

The engagement of Ruth Chatterton, in Michael Arlen's "The Green Hat" ends at the El Capitan Theater, the 30th inst.

RUTH CHATTERTON

At the completion of this run, this attraction will have played seven weeks in Hollywood and from both box-office and artistic standpoints the engagement has been noteworthy, proving that the spoken drama can thrive in the film center.

The company opens at the ... in San Francisco the 27th inst., and following the engagement there will be sent on a tour of Pacific Coast cities. This is said to be the first time on record that a dramatic attraction ever toured out of Hollywood.

The next attraction at the El Capitan will be Martha Hedman in "Bride of the Lamb" opening on the 27th inst. This play was a success at the Henry Miller Theater in New York last season.

ENTERTAINS ORPHANS WITH DAY AT CIRCUS

TOM O'BRIEN ADMITS HE ENJOYED IT AS MUCH AS CHILDREN

Tom O'Brien, the "Bull" of "The Big Parade," was the host of a unique party, yesterday, when he took forty orphans from the Orthopedic Hospital to the Sells-Floto Circus.

"Taking the kids to the circus" in order to see the show yourself is a time-honored alibi, but O'Brien admits that he enjoys the clowns and the acrobats and the pop corn as much as any member of the younger generation.

He was, before he went on the screen, a circus man for a number of years, and the kids not only saw the show, but were told fascinating yarns of life under the big top.

O'Brien is playing a part in "A Little Journey," which Robert Z. Leonard is now directing for Metro-Goldwyn-Mayer, with Claire Windsor and William Haines in the leading roles.

SLOMAN PICKS CAST FOR "BARGAIN BRIDE"

GEORGE SEIGMANN ONLY ONE NAMED THUS FAR FOR PHILBIN PICTURE

Having completed the adaptation of the French play, "Les Lyon," which is to be made for the screen under the title of "The Bargain Bride," Edward Sloman is now making tests of candidates for supporting roles in the production.

Mary Philbin, who returns to the studio from New York this week, is to play the starring role in the production. The only other member of the cast selected thus far is George Seigmann, who has been the menace for Miss Philbin in "Merry-go-Round" and "Love Me and the World is Mine."

"The Bargain Bride," with its locale in Europe, will be picturesque in its production value, and is said, moreover, to provide Miss Philbin with one of the best roles she has played on the screen.

NOT TO INTERFERE

NEW YORK, Sept. 14. (Exclusive) This morning Universal's attorneys, Willard S. McClay and Granville W. Byrne, appeared in part one of the Supreme Court before Judge Ingraham to argue the motion for a temporary injunction in an action brought by Universal against C. B. Seeley and Hans Winter. An injunction is sought to restrain Mr. Seeley and Mr. Winter from interfering with the completion by E. A. Dupont of his contract with Universal to direct moving pictures. An order to show cause and temporary injunction pending the motion was signed on Saturday morning by Judge Maullan and the order and summons and complaint were served on Seeley and Winter on the steamer Paris. At the request of Mr. Seeley's attorney, who stated that he had not had sufficient time to prepare to argue the motion, action on the motion was postponed until Monday.

RESPITE FROM SIN

Warner Oland, who has just completed his work in "Twinkle Toes" with Colleen Moore, is resting for a few days at his home in Santa Barbara before starting on his next picture.

Japan's silk-conditioning law is expected to become effective January 1.

American radio equipment sent abroad this year will have a value nearly five times that of 1922.

TRICKS WORKED BY SITTING BULL

Wily Sioux Made His Magic Source of Power

Did Not Take Part in Custer Massacre

Spent Several Years With Wild West Show

PIERRE (S. D.) Sept. 14. (AP)—A savage Sioux brave astride an Indian pony, blood in his eye and on his tomahawk, urging his intrepid red skinned warriors on to ruthless massacre of the whites, presents the common conception of the nationally famous Sitting Bull.

On the contrary, Sitting Bull, in all the works of history, is merely a peaceable high priest who eschewed personal combat, who prayed much more than he fought, and who gained his power among his people by judicious use of a bagful of conjuror's tricks.

DIDN'T KILL CUSTER

Regardless, the old chieftain was the leader of the Hunkapapa Sioux, and largely responsible, historians say, for their hostility toward the white people from 1868 to 1879.

Sitting Bull was commonly supposed to have killed Custer, while he really took no hand in the Battle of the Little Bighorn, a fact which his grand nephew, Chauncey Yellow Robe, an educated, full-blooded Sioux of Rapid City, has sought to emphasize repeatedly.

Sitting Bull was handicapped by low caste parentage in his ambitions for distinction. However, as Doane Robinson, former State historian, aptly puts it, "He was not slow in discovering he possessed unusual gifts as a horse thief and as an orator.

"His native craft turned him more and more to the tricks of the conjuror. He developed his subtle talents and soon began to acquire fame as a prophet; astuteness, luck and some advance information assisted him to prognosticate certain events with a precision which confounded the big chiefs who had so profoundly ignored him. They were compelled to recognize his medicine."

DODGED FIGHTS

As Sitting Bull grew older he increased his power with fervid oratory and impressive tricks, became more imbued with heathen religion and hate for the white people. He excited his braves to many valorous deeds, but invariably retired to make medicine when combat began.

He is supposed to have been gentle and refined at home, but fierce in his distributes against the whites.

Because he spent several years as an attraction with Buffalo Bill's wild west show, Sitting Bull saw only the seamy side of white life. When he returned home he made the famous, emphatic declaration: "I would rather die a Dakotan than to live a white man."

Decree Closes Romance of Screen

Francis X. Bushman and Beverly Bayne

CHICAGO PLANS 'CITY BEAUTIFUL'

CHICAGO, Sept. 14. (AP)—Virtually every city in the land with a civic urge has a civic center planned or building.

Chicago, the sprawling midwestern metropolis, is no exception. Its civic center plan is linked with a city beautiful movement, probably the most pretentious in the world.

Millions of dollars already have been expended in a beauty and utility program and the subject is one so vast and far reaching that an entire book devoted to it has been used in the schools here for years.

But while many features of the "Chicago plan" have been completed or are under way, the civic center is still a hazy dream of the future. In the original plans the civic center was planned about a huge open plaza west of the Chicago River, this center to be the local point of all the related developments.

The area selected is in a dingy, run down section, crowded with cramped tenements, small manufacturies and "flop houses." But while this civic center plan still looms in the offing a new center of public and semipublic activity is building just west of the river. Here on a wide new boulevard, replacing old Canal street, has been erected the huge developments associated with the new union station.

Chicago buildings usually associated with a civic center plan are now widely scattered. The combined City Hall and county building, an immense granite structure in the Roman style, is in the heart of the loop. The postoffice, which Chicago outgrew before it was finished, is a half-mile away. The art institute is over on Michigan Boulevard, and the new Field museum a mile distant in Grant Park. The Cook County Jail is beyond the north branch of the Chicago River.

DIVORCE OF BUSHMANS MADE FINAL

Decree Closing Romance of Screen Signed After Property Settlement

The marriage of Beverly Bayne and Francis X. Bushman, which was big news when it was celebated in 1918, finally was dissolved yesterday by virtue of a final decree of divorce signed by Presiding Judge Stephens and filed with the County Clerk.

The interlocutory decree was granted by Judge Summerfield June 2, 1925, in Miss Bayne's suit charging desertion. She said they had separated February 3, 1924. A property settlement was made whereby Miss Bayne released any claim for alimony and was given custody of her 6-year-old son, Richard Bushman. It was stipulated in the agreement that Bushman will provide for the boy's support but that he must not appear on stage or screen before he becomes 15 years of age.

PREDICT EARLY ORANGE CROP

LINDSAY, Sept. 14.—The 1927 navel orange crop of Central California will be smaller than that of 1926, in opinion of growers, packers and shippers of the district, although no real prediction as to how much shorter has been received. Estimates range from 20 per cent to 35 per cent under last year's production.

However, indications are that the oranges will grow to large sizes, which will make up a bit for the car shortage while if conditions cause small fruit the carload output may be cut materially.

In line with other fruits, oranges show signs of ripening early this season. Similar reports are received from Southern California, some sections being declared to expect 2000 cars or more on the holiday market this year.

INSTALL LINOTYPE

DINUBA, Sept. 14.—A linotype machine has been purchased by trustees of the Dinuba High School and installed in the printing department of the school, where the weekly newspaper, the Emerald and White, and the annual, Delphic Echoes, are published. This printing department cooperates with the journalistic classes and gives the students some very practical experience. Last year type was set by hand, though some linotype service was obtained in the local printing establishments.

BABY BEAUTY SHOW

TULARE, Sept. 14.—Interesting explanations are given concerning the baby beauty show, which will be a prominent event of the Tulare County Fair in this city, the 21st to 25th inst. Mrs. C. L. Russell, director of the show, states that it is not a better baby show this year and there will be no clinic in connection with the baby beauty show.

Judges will award first and second premiums on beauty and attraction alone. There will be no other confusing details. Baby boys and girls of 1 and 2 years of age will be judged on Thursday, those of 3, 4, 5 and 6 years of age on Friday.

TO DISCUSS CHARTER

PORTERVILLE, Sept. 14.—Plans for a mass meeting within a week or ten days, for the purpose of discussing the new city charter, were the most important feature of the regular luncheon meeting of Porterville Chamber of Commerce directors. W. B. Welch and C. L. Day were appointed to arrange details of the mass meeting.

Decision was also made to hold a semiannual meeting of the chamber members at an early date, the first of its kind in the history of the organization. It will probably be featured by a dinner.

PLAN CHAMBER JUNKET

PORTERVILLE, Sept. 14.—Members of the Porterville Chamber of Commerce are invited to join an excursion to be staged this fall by the Los Angeles Chamber of Commerce into Idaho, Utah and Nevada.

Attention is called to the fact that California is a market for the products of these intermountain States and friendly relations should be maintained.

BUSY HARVEST TIME

PORTERVILLE, Sept. 14.—It's harvest time in Porterville district. Almost each day finds calls registered at the free employment bureau of the Porterville Chamber of Commerce from the agricultural sections for harvesters. Secretary Clayton Hickle of the chamber, acting as representative of the Valley Agricultural Labo. Bureau in Porterville, called on the Fresno branch for sixty laborers to fill a quota needed here for harvesting cotton, prunes and corn, one day recently. About fifteen were supplied from local channels also.

Harvesting of prunes is at its height. Cotton picking is starting with from ten to fourteen bales being ginned daily. There is also considerable work on corn cutting. Some men are also working intermittently in the vineyards, although it is between seasons now.

SERVICES ON YOM KIPPUR ANNOUNCED

Chief Events Scheduled for Friday Evening at Trinity Auditorium

Jews of Los Angeles are preparing for special services to be conducted at the various synagogues in observance of Yom Kippur, the Day of Atonement, which closes the penitential season and which will be ushered in next Friday evening and continue until Saturday evening.

In point of numerical attendance, the main service Friday evening will be conducted at Trinity Auditorium, when Dr. E. F. Magnin, rabbi of Temple B'nai B'rith, will give an address on "We Jews." Services of interest also will be conducted at Congregation Sinai and at the First Methodist Church South at Hollywood, the latter church to be used by Rabbi Maurice Teshnor and the congregation of Temple Israel.

At Trinity Auditorium on Saturday, at 10 a.m., Dr. Magnin will speak on "When We are Worth Something," and at the memorial service in the evening he will give an address on "Flowers for the Living."

Yom Kippur, an institution dating back to early Bible times, is generally observed by reform and orthodox Jews and is devoted largely to fasting and prayer.

River Project Course Opened at College Here

A popular course scheduled to cover the salient features of the Colorado River project was begun last night through Metropolitan College evening classes in the Transportation Building. The opening session was the first of twelve weekly classes, and was under instruction of Dr. Reuel L. Olson, professor in the college of law, University of Southern California, and author of a standard treatise on the Colorado River project. Dr. Olson spent four years in the study of the controversy.

The discussion, he announced, is aimed definitely at the question "How shall the people of the United States cultivate one of their fields—the Colorado River area—in order to make it yield the most in the long run?"

In outlining the object of the course and the subdivisions under which it will be studied, Dr. Olson called attention to its national import and the recent statement of Secretary of Commerce Hoover that it might be ten or fifteen years before the waters can be used.

All disputed sides will be discussed, Dr. Olson stated, during the course. Among the subdivisions of the subject to be covered are: An analysis of the compact, the engineering background, economic background, constitutional questions and political issues. Each of these in turn will be subdivided. Other sessions of the course will be held on Tuesdays from 7 to 9:20 p.m.

SUNFISH BOWL IGNITES RAIL

Sun's Rays Focused by Glass Start Fire in Oregon Residence

GRANTS PASS (Or.) Sept. 14. (Exclusive)—A bowl containing a sunfish nearly burned down the Fred Grant residence here.

Grant had caught the sunfish in the Rogue River and, since it was declared to be the first ever caught in the stream, he wanted to save it to show to his friends. He was under the impression that since it was a sunfish it should be kept in the sun. So he put it in a large bowl of water and set the bowl in the sun on the porch railing.

Later Mrs. Grant smelled smoke and rushed out to the porch to find that the sun's rays had been focused by the curved bowl so that the railing was ignited. The sunfish is now in the shade.

SWORN TO CLEANLINESS

One should not rest content with the least degree of intestinal sluggishness. Its effects are dangerous. Men and women sworn to cleanliness rejoice in the morning glass of water sparkling with ENO'S Effervescent Salt.

Mildly and gently ENO assists the removal of toxic wastes from the alimentary canal. ENO does not try to supersede nature. ENO contains nothing venturesome and no sugar.

ENO, *the World-famed Effervescent Salt,* is obtainable from all druggists at $1.25 and 75c a bottle

Prepared only by

TRADE SCHOOL STONE L...

Frank Wiggins's Part in Building City P... Ceremony at Institution to His M...

That the Frank Wiggins Trade School marks the beginning of a new era in trade education, was the substance of the address of ... president of the Board of Education, ... yesterday, at the laying of the ... stone of the new structure.

Mr. Odell traced the growth of the trade school during the past five years when its entire equipment consisted of a few power machines on the second floor of a building on Spring street. He spoke of the support given this movement by the Chamber of Commerce, and declared that the late Frank Wiggins, as secretary of the Chamber, had done more for the upbuilding of Los Angeles than any other citizen.

The program opened with music by the Belmont High School Band and a brief address by Arthur Gould, assistant superintendent of schools. John C. Austin, architect and designer of the building, was then introduced and told of the investigation he and Mr. Gould had made of schools throughout the East before the present plan was decided upon.

Mrs. Susan M. Dorsey, superintendent of schools, spoke of the impetus given to vocational education by the passage of the Smith-Hughes bill. She told of the bond issue of $1,000,000 to cover the cost of the Frank Wiggins Trade School, which will accommodate 7500 students when completed.

Mr. Walter E. Warne, general contractor, and W. S. Keinholz, director of ... vocational ... duced and spoke. ... Mrs. Frank Wiggins, ... late secretary, ... architect, and E. J. ... of the Trade School ... were then presented ... man, followed by the ... school. Howard A. ... turn introduced a group ... representing the ... to be taught in the ... Secretary A. G. ... ber of commerce ... address.

Gasoline From ...

From the ... comes the promise of ... new source of gasoline ... This source is water gas ... a part of wood gas ... and is obtained by ... hot coke.

As the result of ... the Kilner Wilson ... tute for Coal Products ... Prof. Frank Fleming ... ular Science Monthly ... a catalyst, or substance ... erates chemical reactions ... oline, but wood alcohol ... other related products ... tained from water gas.

...a Tough Job that ...illian Ward has with ...he Sells Floto Circus, ...which shows for last ...time here tomorrow. ...Record shows her at ...

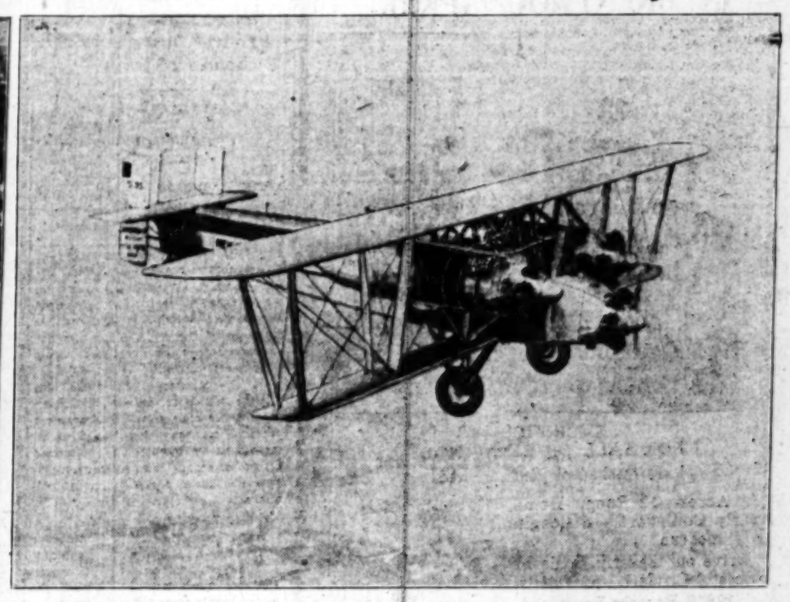
SUNDAY MORNING. Los Angeles Daily Times SEPTEMBER 15, 1926.—[PART II.] 13

Preliminary Education of Frosh at Southern Branch Under Way

Liberal Education Concerning Which the University Catalogue Says Nothing, was accorded freshmen at the University of California in Los Angeles yesterday with the beginning of the three-day hazing period. Festivities conveniently centered about the fountain and the sophomore vigilante committee was in charge. Photo at left shows a group of unhappy neophytes in the conventional garb of the day. At right, an elongated first year man is doing a spring dance in the fountain. (Times photo.)



Successful in Its Test Flights Over Washington, the giant Sikorsky plane in which the New York to Paris flight will be attempted, has been pronounced ready to begin its epochal journey today, weather permitting. Exclusive photo shows plane in flight. (P. & A. photo.)

Charleston is as Dead as the Dodo, if the word of [illegible] of the California Association of Teachers [illegible]ing in convention here, is final. Photo shows [illegible] May Bell and George Siegler in movement of [illegible], which they say will replace Charleston. [illegible] photo.)

Every Business Man Should be Advertising Student, Marshall N. Dana of Portland, president of the Pacific Coast Advertising Clubs Association, declared yesterday in address at Biltmore luncheon. Dana is pictured (middle) above with Harold J. Stonier (left) and Donald H. Thomas, president and secretary of the local club. (Times photo.)

Finest Antiaircraft Guns Yet Devised by the Army are undergoing day and night tests at the Aberdeen (Md.) proving grounds. There are four of these guns, each throwing a 3-inch shell. Photo shows them in action recently. (P. & A. photo.)

"He's All Wrong," declares J. H. Chatt (above,) of his brother, Judge Orville Chatt, who sentenced Nebraska bootleggers to starvation diet. (P. & A. photo.)

For First Time in Boston's History a woman has been chosen as one of the Mayor's secretaries. She is Miss Ida Hibbard, shown above at her desk, who draws a salary of $3000 a year in a position coveted by male politicians. (P. & A. photo.)

Fifteen Jazz Bands, the Mayor and other city and county officials were among those present yesterday when Paul Whiteman, monarch of syncopation, stepped off a train here. He will play an engagement at the Million Dollar. Photo shows Whiteman being greeted by R. B. Robertson, Union Pacific official, on arrival. (P. & A. photo.)

Tough Job that [illegible] Ward has with [illegible] Floto Circus, [illegible] shows for last [illegible] here tomorrow. [illegible] shows her at

An American Memorial is to be sculptured in the Black Hills of South Dakota under the direction of Gutzon Borglum (above) famous sculptor. (P. & A. photo.)

OUR HISTORY IN PICTURES 509 The Attack On Fort Donelson. by J. CARROLL MANSFIELD

These daily history strips make a unique pictorial history of America. Hundreds are clipping them daily and pasting them in scrapbooks.

Driving a used car is like traveling on the return half of a round-trip excursion ticket—you travel just as well, but the cost is less.

For evidence, skim through the Used Car columns of Times Want Ads, note the snappy looking roadsters . . . smart sedans . . . touring cars . . . coupes . . . all in smooth running condition . . . at exceptional prices! How else could you get so much transportation for so little cost?

WANT-AD RATES

Effective March 30, 1926

Rates per line insertion: $0 consecutive times, 15c Daily, 25c Sunday; 1 to 3 consecutive times, 20c Daily, 25c Sunday; 4 to 6 consecutive times, 17c Daily, 25c Sunday, ONE TIME 17c Daily 25c Sunday.

SITUATIONS WANTED: 1 or more consecutive times 10c Daily 15c Sunday; 4 to 6 consecutive times, 17c Daily, 20c Sunday, ONE TIME, 20c Daily, 25c Sunday; minimum charges, 40c Daily, 50c Sunday. Advertisements for the subscription of "PAINTING, DECORATING, PAPERHANGING," "HOUSEKEEPERS," "SEAMSTRESSES," and "NURSES" are not classified as Situations Wanted Advertising, and will be charged for at the General Want-Ad Rates, 25c Daily and 30c Sunday.

"NOTICES OF SPECIAL INTERESTS," "PERSONALS," "SPECIAL NOTICES," "STOCKS AND BONDS," "STREET TRANSFERS," "LOST AND FOUND," "MONEY TO LOAN—DIAMONDS & JEWELRY," "MEDICAL," "MASSAGE," "BATHS & MASSAGE" 50 consecutive times 25c Daily, 25c Sunday; 1 to 25 consecutive times, 35c Daily, 35c Sunday; 26 to 6 consecutive times, 30c Daily 35c Sunday, ONE TIME 45c Daily 45c Sunday.

EMPLOYMENT AGENCIES, EDUCATION, MOTION PICTURE ADVERTISING not under any classification, 50 consecutive times, 25c Daily, 25c Sunday; 1 to 99 consecutive times, 30c Daily, 35c Sunday; 25 consecutive times, 35c Daily, 40c Sunday, ONE TIME 45c Daily 45c Sunday.

Advertisements on rate holder rates on application.

NOTE—Want-Ad rates from foreign territory (everything outside Southern California) furnished on request.

To estimate the cost of want ads count 6 average words per line. Words containing more than 8 letters should be counted as two words. Advertisers should retain receipt given by The Times for payment of Want Ads as no mistakes will be rectified without them.

Consecutive order advertisements for the Daily or Sunday Times cannot be discontinued or changed after 4:30 p.m. of the day preceding date of insertion.

Cancellation of advertisements before appearance cannot be guaranteed to take effect until after the advertisement has appeared once. Countermands must be received by 2:30 p.m. for daily issue and 8 a.m. Friday for Sunday Times.

Rates for display advertising will be furnished on request.

The Times will not be responsible for more than one incorrect insertion of any advertisement ordered for more than one time.

The inadvertent omission or incorrect publishing of advertising will be rectified only by cancellation of the charge made for the service rendered.

FRIDAY 8 P.M. is closing hour for the early issue of the Sunday Times.

New fabrics, new styles, new savings direct FROM THE FOUR GREAT FACTORIES OF THE WORLD'S LARGEST MAKERS & RETAILERS to you

Again! It's a Land-slide to Foreman & Clark!

Half a million men expected us to "repeat." 500,000 Foreman & Clark wearers hoped we would repeat for Fall those remarkable values of last Spring. Those sensational *savings!* Those *fabrics*, those *styles!* (And wondered, some of them, if we could do it.) Do it? They know *now* we have not just *repeated*, but *outstripped!*

We have measurably gone beyond every highwater mark of last season! And why not? The public accorded us a landslide of new volume in the first six months of 1926. . . . . here's *our* landslide of new *values* in return! More than ever now, more than ever this Fall, your Foreman & Clark savings are flatly under-stated by our slogan.

5000 Per WEEK

—and sometimes climbing close to 7,000 garments . . . that's the weekly production of Foreman & Clark five factories which are the cable and anchor of these savings.

Minute-hand TURN-OVER

"Which ones are new?" is never a question at Foreman & Clark. Uninterrupted retail volume sells out and replaces our stocks so fast that one customer pulled out his watch and told us: You have minute-hand turnover while most stores are waiting for the hour hand to move around.

$35 GUARANTEED SUITS and OVERCOATS — $25
$40 GUARANTEED SUITS and OVERCOATS — $30
$45 GUARANTEED SUITS and OVERCOATS — $35

These Three Familiar Prices—

are low prices always, but they're still lower now, though we have not moved them an inch. NOW . . . . . alongside ordinary early season mark-ups, you get not only our guaranteed savings but the added difference of ordinary price-increases elsewhere.

FASHIONS!

Sketched from life from Foreman & Clark clothes! Fabrics photographed from life from F&C woolens

Open Saturday Until 9 P. M.

Trade Upstairs and Save $10.
